

2015 Regular Session

HOUSE BILL NO. 2

BY REPRESENTATIVE ROBIDEAUX

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state  
3 government, state institutions, and other public entities; to provide for the  
4 designation of projects and improvements; to provide for the financing thereof  
5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby  
8 appropriated out of any monies in the state treasury from the sources specified, from federal  
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by  
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and  
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July  
12 1, 2015, and ending June 30, 2016, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates  
14 that the funding for the project includes the reauthorization of funding which was previously  
15 on a line of credit granted by the State Bond Commission in Fiscal Year 2014-2015. As  
16 used in this Section, the term "general obligation bonds" means state general obligation  
17 bonds or other evidences of indebtedness payable from the Bond Security and Redemption  
18 Fund. The amount set forth in this Section opposite each project, or so much thereof as may  
19 be necessary, is hereby appropriated and payable from the proceeds available from the sale  
20 of general obligation bonds, unless a different source of funding is indicated. Where such  
21 a different source of funding is indicated, the corresponding amount set forth, or so much  
22 thereof as may be necessary, is hereby appropriated and payable from the source of funding  
23 indicated; provided, however, amounts appropriated and payable from federal funds may be  
24 encumbered or expended only to the extent such amounts shall have been committed or  
25 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,

1 construction, and major repair projects appropriated by this act may be retained until  
2 completion of the project, even if no bona fide liability exists on the last day of the fiscal  
3 year.

4 This Act shall constitute the comprehensive state capital outlay budget for the 2015-  
5 2016 Fiscal Year. Projects set forth which are payable from the proceeds available from the  
6 sale of general obligation bonds shall have the priorities as indicated. The Request for Line  
7 of Credit form used by the Attorney General and Bond Counsel in evaluating Louisiana  
8 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed  
9 with the Commissioner of Administration, State Bond Commission, and State Attorney  
10 General. No general obligation bonds shall be sold, nor cash lines of credit granted to fund  
11 any lower priority project prior to the sale of general obligation bonds or the granting of cash  
12 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter  
13 provided. This prohibition against funding a lower priority project shall not apply upon a  
14 showing of an impossibility or impracticality either to proceed with all unfunded higher  
15 priority projects or to proceed with the funding of such projects or any part thereof through  
16 the issuance of general obligation bonds for any reason. Such showing shall be stated in  
17 reasonable detail in a certificate or certificates signed by the state agency responsible for  
18 administering the funding, and filed with the Commissioner of Administration and the State  
19 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by  
20 the Commission that proceeding with such a project or the funding thereof through the  
21 issuance of general obligation bonds is impractical or impossible, the Commission may then  
22 proceed with the sale of general obligation bonds or the granting of cash lines of credit  
23 without regard to the priority of the unfunded projects determined to be impossible or  
24 impractical.

25 Upon recommendation by the state agency responsible for administering the funding,  
26 if it is determined at any time that proceeding with the project or with the funding thereof  
27 is no longer impossible or impractical, the State Bond Commission may rescind the  
28 certificate of impossibility or impracticality and may proceed with the project or with the  
29 issuance of general obligation bonds or the granting of cash lines of credit to fund the  
30 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),  
31 upon reviewing certificates as described above and determining that proceeding with such

1 project or the funding thereof through the issuance of general obligation bonds is impossible  
2 or impractical, may designate a lower priority for such project. The Board's determination  
3 and lower priority designation shall be submitted to the members of the Legislature for their  
4 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the  
5 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of  
6 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written  
7 request of the appropriate legislators and agency, the Board determines that an adjustment  
8 to a project description originally set forth in such capital budget adopted by the Legislature  
9 for a current fiscal year is necessary to correct a mistake in a project description, clarify a  
10 description, change the scope of a description, or make any other adjustment the Board  
11 deems necessary to implement the purpose of the project, such adjustment shall become  
12 effective only upon the approval by majority vote of the elected members of each house of  
13 the Legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the  
14 Louisiana Revised Statutes of 1950.

15 If such approval is granted, notification by the chair or secretary of the Board of the  
16 results of the balloting shall be transmitted to the State Bond Commission, which may then  
17 proceed with the sale of general obligation bonds or the granting of cash lines of credit for  
18 each change approved upon request of the Commissioner of Administration in accordance  
19 with the general rule.

20 With respect to Priorities 1 through 5, a lower priority project may be moved to a  
21 higher priority only upon a showing of an emergency or other cause not reasonably  
22 anticipated by the Legislature, which shall be stated in reasonable detail in a certificate  
23 signed by the head of the appropriate department, political subdivision, or agency and filed  
24 with the Commissioner of Administration and the Board. Upon a determination by the  
25 Board that such project should be moved to a higher priority because of an emergency or  
26 other cause not reasonably anticipated by the Legislature, the Board shall designate a higher  
27 priority to the project. The matter then shall be submitted to and be subject to the same  
28 approval by the members of the Legislature in the manner previously indicated in this  
29 Section. If such approval is granted, notification by the chair or secretary of the board of the  
30 change of priority shall be transmitted to the State Bond Commission, which then upon  
31 request of the Commissioner of Administration, may proceed with the sale of general

1 obligation bonds or the granting of cash lines of credit in accordance with the general rule.  
2 As to projects within a priority, the State Bond Commission acting on requests submitted by  
3 the Commissioner of Administration shall determine when such project, or phases thereof,  
4 shall be funded. In making such determination, the State Bond Commission shall consider  
5 the amount of proceeds of general obligation bonds to be made available in light of money  
6 and capital market conditions; the expenditure requirements of the project; the time required  
7 for architectural plans and drawings, public bidding, and site acquisition and preparation;  
8 availability of receipt of federal monies; litigation affecting the undertaking or completion  
9 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and  
10 other items of a similar nature bearing upon the possibility or the necessity to commence a  
11 project or any particular phase thereof.

12 Any other provision of this Act to the contrary notwithstanding, projects described  
13 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the  
14 following conditions: (1) Funding is necessary to complete or additionally fund a project  
15 located elsewhere in the capital outlay act. Determination of such condition shall be made  
16 by the head of the appropriate department or agency by means of a certificate to that effect  
17 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such  
18 change and if approved by a majority of each house of the Legislature it shall be funded, or  
19 (2) unless required by an emergency or other cause not reasonably anticipated by the  
20 Legislature, to be in accordance with procedures set forth in this Section. However, the State  
21 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which  
22 represents that portion of construction contracts which were let during a previous fiscal year,  
23 or construction contracts which will be let during the current fiscal year, but which will not  
24 require cash expenditures during the year. Such non-cash lines of credit, when combined  
25 with previously sold bonds or with higher priority bonds or lines of credit, or with funds  
26 appropriated from other sources, will provide sufficient appropriated funds to award  
27 equipment or construction contracts. Contracts shall not be awarded without approval of the  
28 Division of Administration.

29 Upon approval by the State Bond Commission, and subject to compliance with its  
30 policies and procedures and the procedures set forth herein, a line of credit providing for the  
31 use of funds in anticipation of the sale of general obligation bonds may be granted to the

1 appropriate administering agency or department from the Comprehensive Capital Outlay  
2 Escrow Account, or if there is not a sufficient amount available in such account, from other  
3 available state cash in the state treasury, for capital improvement projects for which bond  
4 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds  
5 for such projects, unless the attorney general advises that an impediment exists to the valid  
6 issuance of the bonds on the date such line of credit is granted.

7 All bonds that are to be repaid, in whole or in part, by revenues generated by the  
8 project shall be designated as "Reimbursement Bonds". The State Bond Commission shall  
9 enter into such agreements as are necessary to provide that the agency or subdivision, whose  
10 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption  
11 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as  
12 determined by the State Bond Commission.

13 Priority 1 general obligation bond funding shall be limited to:

14 (1) Projects and amounts which were previously authorized by Act 25 of the 2014  
15 Regular Session of the Legislature; and which were granted cash lines of credit by the State  
16 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2014-  
17 2015.

18 (2) The reauthorization of the portion of the outstanding Fiscal Year 2014-2015  
19 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in  
20 Fiscal Year 2015-2016 and therefore must be converted to Cash Lines of Credit in Fiscal  
21 Year 2015-2016.

22 (3) Commitments made in the Higher Education Desegregation Settlement  
23 Agreement.

24 Priority 2 general obligation bond projects are for the completion of plans and  
25 specifications, land acquisition, site preparation, or for construction which will begin during  
26 the fiscal year. It is presently anticipated that the listed projects will require the sale of  
27 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

28 Priority 3 general obligation bond projects are for the preparation of plans and  
29 specifications, land acquisition, site preparation, or for construction and shall be limited to  
30 funding for the portion of construction contracts which will not require cash expenditures  
31 during the fiscal year. The projects in this category shall be considered future year projects

1 in the State's five year capital outlay plan. It is presently anticipated that the listed projects  
2 will not require the sale of bonds or extension of lines of credit during the fiscal year.

3 Priority 4 general obligation bond projects are for the preparation of plans and  
4 specifications, land acquisition, site preparation, or for construction and shall be limited to  
5 funding for the portion of construction contracts which will not require cash expenditures  
6 during the fiscal year. The projects in this category shall be considered future year projects  
7 in the State's five year capital outlay plan. It is presently anticipated that the listed projects  
8 will not require the sale of bonds or extension of lines of credit during the fiscal year.

9 Priority 5 general obligation bond funding shall be limited to funding for the portion  
10 of construction contracts which will not require cash expenditures during the fiscal year.  
11 These funds, when combined with previously sold bonds or with higher priority bonds on  
12 lines of credit, or with funds appropriated from other sources, will provide sufficient  
13 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the  
14 award of these contracts.

15 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)  
16 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of  
17 Transportation and Development is authorized to enter into contracts or agreements for  
18 projects approved pursuant to the Highway Priority Program, Airport Construction and  
19 Development Priority Program, Port Construction and Development Priority Program, and  
20 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced  
21 during the fiscal year which do not require cash expenditures for the full contract or  
22 agreement amount.

37 Section 2. The expenditure of funds appropriated in this Act, except  
 38 appropriations made to non-profit economic development corporations, shall be in  
 39 conformity to all existing statutes relative to public bidding, contractual review, and R.S.  
 40 39:101 through 128 and any other statutes affecting the capital outlay program for state  
 41 government, state institutions, and political entities. No contract shall be awarded for any  
 42 project prior to the granting of a line of credit or the sale of bonds by the State Bond  
 43 Commission, determination by the State Treasurer that cash funding is available in the

1 Comprehensive Capital Outlay Escrow Account for the project, or delivery of revenue bonds  
2 whose issuance is authorized in Section 1 of this Act.

3 Section 3. Payment for projects specified in this Act must be made by warrant  
4 submitted to the Division of Administration, Department of Transportation and  
5 Development, the State Treasurer or other administering agency as provided in Section 8,  
6 whichever is appropriate, only to the extent of funds required for immediate payment.  
7 Copies of invoices or other supporting documentation shall be submitted with warrants. In  
8 the event that any equipment included in this Act, is procured pursuant to the provisions of  
9 the State Lease-Purchase Act, R.S. 39:1761 et seq., the amounts included in this Act for each  
10 such piece of equipment shall not be appropriated. The provisions of R.S. 39:1771 which  
11 require equipment to be leased under the State Lease-Purchase Act to be included in the  
12 executive budget and approved by the Legislature through inclusion in the General  
13 Appropriation Act shall be considered waived upon the inclusion of such equipment in this  
14 Act. Projects contained in this Act may, at the direction of the Division of Administration  
15 and with the approval of the State Bond Commission, alternatively be funded through  
16 financing programs heretofore or hereafter provided by a public trust and public corporation  
17 duly organized pursuant to R.S. 9:2341 et seq., having for its beneficiary the State and the  
18 Louisiana Local Government Environmental Facilities and Community Development  
19 Authority, pursuant to R.S. 33:4548.1 et seq.

20 Section 4. If at any time during the Fiscal Year 2015-2016, the Governor should  
21 find, or the Joint Legislative Committee on the Budget or the Commissioner of  
22 Administration should report to the Governor, that the receipts of the treasury are falling  
23 short or appear likely to fall short of the revenue estimates for the fiscal year and that a cash  
24 deficit is likely to be incurred, the Governor shall take such steps as deemed necessary to  
25 prevent the occurrence of a cash deficit. In the event that a capital outlay project funded in  
26 this Act falls under an agency which is abolished or for which funds are not appropriated in  
27 the 2015-2016 General Appropriation Act, then the funds appropriated in this Act for such  
28 capital outlay projects shall not be expended unless deemed necessary by the Governor to  
29 protect life or property. In the event that legislation is enacted which transfers facilities or  
30 programs for which projects are funded in this Act, on behalf of one agency, institution,

1 department, or management board to another agency, institution, department, or management  
2 board, then the projects in this Act shall be deemed transferred also.

3 Section 5. All monies appropriated by this Act and any applicable funds of a  
4 prior capital outlay budget act adopted by the Legislature shall be deposited by the State  
5 Treasurer in the Comprehensive Capital Outlay Escrow Account, established by this Section,  
6 in the state treasury. In accordance with R.S. 36:764, no later than 60 days following the end  
7 of each quarter, the state treasurer shall report to the Joint Legislative Committee on the  
8 Budget and the Commissioner of Administration, all funds contained in the Miscellaneous  
9 Fund of the Comprehensive Capital Outlay Escrow Account. Notwithstanding any  
10 provisions contained herein or other law to the contrary, any original issue premium or  
11 accrued interest proceeds received pursuant to the sale of general obligation bonds shall  
12 remain on deposit to the credit of the Bond Security and Redemption Fund until such time  
13 as they may be utilized in accordance with U.S. Department of Treasury Regulations  
14 promulgated pursuant to the Internal Revenue Code of 1986. All such monies shall be  
15 administered according to the particular act pertaining to the fiscal year in which such  
16 monies were appropriated. If it is determined by the Director of the Office of Facility  
17 Planning and Control, Division of Administration, that the funds appropriated by this Act  
18 or any prior capital outlay budget act are not sufficient to complete the projects contained  
19 in any capital outlay budget act, through unavoidable deficiencies in appropriation, including  
20 administrative and legal requirements, the Commissioner of Administration, subject to  
21 approval of the Joint Legislative Committee on the Budget, may direct the use of interest  
22 earned from the investment of general obligation bond or note proceeds in the  
23 Comprehensive Capital Outlay Escrow Account, not to exceed an aggregate of five million  
24 dollars in any one fiscal year, for the purpose of completing the projects contained in any  
25 capital outlay budget act and such money shall be deemed appropriated in specific amounts  
26 necessary for such purpose. All appropriations in this Act which are made as additions to  
27 funds for previously authorized projects shall be included, for accounting purposes, in the  
28 account of said previously authorized projects. If it is determined by the Director of the  
29 Office of Facility Planning and Control, Division of Administration, that it is cost effective  
30 and practical to combine individual appropriations, the Commissioner of Administration,  
31 subject to the approval of the Joint Legislative Committee on the Budget, may direct that two

1 or more appropriations or parts thereof may be combined into a single project for accounting  
2 and audit purposes. The Commissioner of Administration may direct that funding in the  
3 various statewide and/or multiple parish projects for improvements for state facilities may  
4 be transferred to any project, in this Act or any previous Capital Outlay Act, which require  
5 supplemental funding for improvements for state facilities which qualify for funding through  
6 the various statewide and/or multiple parish projects for improvements for state facilities.  
7 The Office of Facility Planning and Control, Division of Administration is authorized to  
8 receive settlements and vendor rebates not in excess of \$50,000 unless approved by the Joint  
9 Legislative Committee on the Budget, and to add those receipts to the funding for projects  
10 in this Act or any previous Capital Outlay Act for which project funds are received. The  
11 Office of Facility Planning and Control, Division of Administration is authorized to receive  
12 insurance payments and are hereby authorized to immediately repair facilities that suffer  
13 insurance losses without those projects being included in the Act and shall report to the Joint  
14 Legislative Committee on the Budget any expenditures from insurance funds received  
15 pursuant to this section. A portion, as determined by the Commissioner of Administration  
16 and not to exceed one percent (1%), of the funding for projects which qualify for the Percent  
17 for Art Program, may be transferred from the qualifying project budgets, to the Department  
18 of Culture, Recreation and Tourism for costs of acquiring art and administering the program.  
19 For all Percent for Art Program projects in this or any previous capital outlay, up to ten  
20 percent (10%) of the aforementioned one percent (1%) may be used for the costs of  
21 administering the projects.

22 Section 6. Prior to March 1, 2016, the Commissioner of Administration shall  
23 submit to the Legislature a list of projects that are completed and the cash balances  
24 remaining in each project.

25 Section 7. The Commissioner of Administration, with the approval of the Joint  
26 Legislative Committee on the Budget, is authorized to supplement or substitute the  
27 appropriations specified in this or previous capital outlay acts with any federal or other funds  
28 which are or may become available and such funds shall be deemed appropriated in specific  
29 amounts necessary for the purposes of this Act. Any funds received by the State Bond  
30 Commission as a result of a prepayment of reimbursement contracts as authorized by law  
31 and the Policy and Procedure for Reimbursement Contracts of the Department of Treasury,

1 Office of State Bond Commission, shall be deposited as set forth in such Policy and  
2 Procedure and shall be deemed available and appropriated in specific amounts necessary for  
3 the purposes of this Act pursuant to the procedure set forth in this section.

4 Section 8. All of the funds herein appropriated, except for appropriations made  
5 to the Department of Military Affairs, the Legislature, the Louisiana Stadium and Exposition  
6 District, the Department of Economic Development, the Coastal Protection and Restoration  
7 Authority, the Division of Administration for Supplemental State Funds for Local  
8 Government Assistance Program, the Division of Administration for the Community Water  
9 Enrichment Program or the Department of Transportation and Development, shall be  
10 considered as having been appropriated directly to the Office of Facility Planning and  
11 Control, Division of Administration, and all projects herein authorized and funded shall be  
12 subject to the provisions of R.S. 39:101 through 128. All of the funds herein appropriated  
13 under the name of non-state entities shall be administered by the Office of Facility Planning  
14 and Control, Division of Administration, under cooperative endeavor agreements. All  
15 cooperative endeavor agreements for non-state entities shall be prepared by the Office of  
16 Facility Planning and Control and the Commissioner of Administration is hereby authorized  
17 and directed to effectuate any necessary transfer of funds from the Department of Justice  
18 to the Office of Facility Planning and Control in order to accomplish this purpose. However,  
19 all cooperative endeavor agreements between the Department of Transportation and  
20 Development and non-state entities entered into prior to the passage of this Act shall  
21 continue to be administered by the Department of Transportation and Development.  
22 Cooperative endeavor agreements entered into pursuant to this Act, and approved by the  
23 Commissioner of Administration or his designee, or the Secretary of the Department of  
24 Transportation and Development for projects appropriated to or administered by the  
25 Department of Transportation and Development, shall not be required to be submitted to the  
26 Division of Administration, Office of Contractual Review. For all projects in this or any  
27 previous Capital Outlay Act appropriated to the Office of Facility Planning and Control,  
28 Division of Administration, including those administered by cooperative endeavor  
29 agreements, up to six percent of each line-item may be used for costs of administering the  
30 projects. For all projects in this or any previous Capital Outlay Act appropriated to the  
31 Department of Transportation and Development, up to six percent of each line-item may be

1 used for costs of administering the projects, or for field engineering/construction  
2 supervision. Line-item general obligation bond projects appropriated to the Department of  
3 Transportation and Development in this or any previous Capital Outlay Act shall be  
4 authorized to draw Transportation Trust Funds from the Highway Program appropriation,  
5 for supplemental funding on overruns in excess of the original estimated project cost as  
6 determined by the Department of Transportation and Development, provided however that  
7 said projects are in the state or federal highway system and in the priority program, and the  
8 overrun is less than \$50,000. Any such overrun of \$50,000 or more must be approved by  
9 the Joint Legislative Committee on the Budget. Furthermore, all ports, levee districts and  
10 other non-state entities must have a fully executed cooperative endeavor agreement, from  
11 the Office of Facility Planning and Control, Department of Transportation and Development,  
12 or the State Treasurer, whichever is appropriate, before entering into any contracts which  
13 obligate state funding and must follow all laws pertaining to public bidding. If a port, levee  
14 district or other non-state entity enters into a contract prior to receipt of funding, or prior to  
15 execution of a cooperative endeavor agreement, then payments under such contracts are  
16 prohibited from capital outlay appropriations, and are the sole responsibility of the port,  
17 levee district, or other non-state entity. Notwithstanding the provisions of this Section or any  
18 other capital outlay act, contracts may be entered into for the Atchafalaya Basin Protection
