 40.28 timely completion of degrees or certificates. The board shall continuously monitor and
 40.29 adopt strategies that have the potential or that have proven to promote timely completion.
 40.30 If the board finds that a strategy is successful at one campus or program, the board must
 40.31 assess whether the strategy would be beneficial campuswide or systemwide and, if it

41.1 determines that it would, must implement the strategy for all campus or system programs
41.2 in which the strategy is predicted to be successful. The board may discontinue the strategy
41.3 for those programs where it does not prove beneficial to the goal of timely completion.

41.4 Subd. 2. **Strategies.** Strategies to achieve the goal in subdivision 1 may include, but
41.5 are not limited to:

41.6 (1) replacing developmental or remedial courses, when appropriate, with corequisite

41.13 undecided majors;

41.14 (4) making available alternative mathematics curriculum, including curriculum most
41.15 relevant to the student's chosen area of study;

41.16 (5) implementing "opt-out scheduling" by automatically enrolling students in a
41.17 schedule of courses chosen by the student's department but allowing students to disenroll
41.18 from those courses if they meet with an academic advisor and cosign a change of
41.19 enrollment form;

41.20 (6) facilitating the transfer of credits between state colleges and universities; and

42.4 instructional programming at each campus based on the nature of individual campus
42.5 academic programming and the needs of specific campus student populations.

42.6 (d) Intrusive advising must be provided to students who participate in supplemental
42.7 instruction programs but have been unsuccessful in achieving academic success. Advising

42.10 (e) The board shall create a framework to redesign developmental education into
42.11 corequisite courses or other programs that minimizes usage of developmental noncredit
42.12 courses.

42.14 approaches to developmental education based on student academic readiness.

42.15 (g) The board shall make available to students on its Web site, in course catalogs, and

Section 1. [136A.43] DUAL TRAINING COMPETENCY GRANTS.

Subdivision 1. **Program created.** The commissioner shall make grants for the training of employees to achieve the competency standard for an occupation identified by the commissioner of labor and industry under section 175.45 and Laws 2014, chapter 312, article 3, section 21. "Competency standard" has the meaning given in section 175.45, subdivision 2.

Subd. 2. **Eligible grantees.** An employer or an organization representing the employer is eligible to apply for a grant to train employees if the employer has an employee who is in or is to be trained to be in an occupation for which a competency standard has been identified and the employee has not attained the competency standard prior to the commencement of the planned training. Training need not address all aspects of a competency standard but may address only the competencies of a standard that an employee is lacking.

Subd. 3. **Training institution or program.** Prior to applying for a grant, the employer must have an agreement with a training institution or program to provide the employee competency standard training. The training may be provided by any institution or program having trainers qualified to instruct on the competency standard.

Subd. 4. **Application.** Applications must be made to the commissioner on a form provided by the commissioner. The commissioner must make best efforts to make the application form as short and simple to complete as is reasonably possible. The commissioner shall establish a schedule for applications and grants. The application must include, without limitation:

- (1) the projected number of employee trainees;
- (2) the competency standard for which training will be provided;
- (3) any credential the employee will receive upon completion of training;
- (4) the name and address of the training institution or program and a signed statement by the institution or program that it is able and agrees to provide the training;
- (5) the period of the training; and
- (6) the cost of the training charged by the training institution or program and certified by the institution or program.

An application may be made for training of employees of multiple employers either by the employers or by an organization on their behalf.

47.1 Subd. 5. **Grant criteria.** The commissioner shall, to the extent there are sufficient
47.2 applications, make at least an equal dollar amount of grants for training for employees
47.3 whose work site is projected to be outside the metropolitan area as defined in section
47.4 473.121, subdivision 2, as for employees whose work site is projected to be within the
47.5 metropolitan area. In determining the award of grants, the commissioner must consider,
47.6 among other factors:

- 47.7 (1) the aggregate state and regional need for employees with the competency to
47.8 be trained;
47.9 (2) the per employee cost of training;
47.10 (3) the additional employment opportunities for employees because of the training;
47.11 (4) projected increases in compensation for employees receiving the training; and

47.19 training institution or program in a manner determined by the commissioner after receiving
47.20 notice from the institution or program that the employer has paid the employer match.

47.22 maximum cost of training payable by the grant may not exceed \$6,000 per employee.

47.23 A grant for a particular employee must be reduced by the amounts of any federal
47.24 Pell grant received, or state grant the employee is eligible to receive for the training and an
47.25 employee must apply for those grants as a condition of payment for training that employee
47.26 under this section.

47.27 Subd. 9. **Reporting.** Commencing in 2017, the commissioner shall annually by
47.28 February 1 report on the activity of the grant program for the preceding fiscal year to the
47.29 chairs of the legislative committees with jurisdiction over workforce policy and finance.

47.30 The report must, at a minimum, include:

48.6 requires. The standards shall be identified for employment in occupations in advanced
48.7 manufacturing, health care services, information technology, and agriculture. Competency
48.8 standards are not rules and are exempt from the rulemaking provisions of chapter 14, and
48.9 the provisions in section 14.386 concerning exempt rules do not apply.

48.10 **Subd. 2. Definition; competency standards.** For purposes of this section,
48.11 "competency standards" means the specific knowledge and skills necessary for a particular
48.12 occupation.

48.14 standards, the commissioner shall consult with the commissioner of the Office of Higher
48.15 Education and the commissioner of employment and economic development and convene
48.16 recognized industry experts, representative employers, higher education institutions,
48.17 representatives of the disabled community, and representatives of labor to assist in
48.18 identifying credible competency standards. Competency standards must be consistent
48.19 with, to the extent available and practical, recognized international and national standards.

66.1 may in its discretion, after the \$10,000,000 allocation required by this paragraph, allocate
66.2 to other university purposes payments from the state that exceed the amount necessary to
66.3 service the refunded bonds.

66.4 (d) The board must certify to the commissioner that the per-semester student fee
66.5 contribution to the stadium will be at a fixed level coterminous with bonds issued by the
66.6 board to meet the student share of the design construction of the stadium and that the
66.7 student fee will not be increased to meet construction cost overruns.

66.8 (e) (e) Before the first payment is made under paragraph (a), the board must certify
66.9 to the commissioner that a provision for affordable access for university students to the

4830.7500 AMOUNT AND TERM OF GRANTS.

Subp. 2a. **Academic year grant.** Beginning with the 2001-2002 academic year, the maximum grant per eligible child for the academic year is the amount specified in Minnesota Statutes, section 136A.125, subdivision 4, minus a student expectation based on family income.

The formula used to calculate the child care grant is as follows: the statutory maximum child care grant amount minus ((family income minus 130 percent of the federal poverty level for the student's family size) multiplied by ten percent) equals the child care grant. If the formulaic result is less than zero, the grant is set to zero. If the formulaic result is greater than the maximum statutory grant, the grant amount is the statutory maximum grant.

4830.7500 AMOUNT AND TERM OF GRANTS.

Subp. 2b. **Award disbursements.** The academic year award amount must be disbursed by academic term using the following formula:

- A. the academic year amount described in subpart 2a;
- B. divided by the number of terms in the academic year;
- C. divided by 15; and
- D. multiplied by the number of credits for which the student is enrolled that academic term, up to 15 credits.

Payments shall be made each academic term to the student or to the child care provider, as determined by the institution. Institutions may make payments more than once within the academic term.
