19.8 authorize projects to use alternative methods of (1) screening, investigating, and assessing  
19.9 reports of child maltreatment, and (2) administrative reconsideration, administrative appeal,  
19.10 and judicial appeal of maltreatment determinations, provided the alternative methods used  
19.11 by the projects comply with the provisions of sections 256.045 and 626.556 ~~dealing that~~  
19.12 deal with the rights of individuals who are the subjects of reports or investigations, including  
19.13 notice and appeal rights and data practices requirements. The commissioner shall only  
19.14 authorize alternative methods that comply with the public policy under section 626.556,  
19.15 subdivision 1. The commissioner may seek any federal approvals necessary to carry out the  
19.16 projects as well as seek and use any funds available to the commissioner, including use of  
19.17 federal funds, foundation funds, existing grant funds, and other funds. The commissioner  
19.18 is authorized to advance state funds as necessary to operate the projects. Federal  
19.19 reimbursement applicable to the projects is appropriated to the commissioner for the purposes  
19.20 of the projects. The projects must be required to address responsibility for safety, permanency,  
19.21 and well-being of children.

19.22 (b) For the purposes of this section, "American Indian child" means a person under 21  
19.23 years old and who is a tribal member or eligible for membership in one of the tribes chosen  
19.24 for a project under this subdivision and who is residing on the reservation of that tribe.

19.33 under paragraph (a);

20.1 (5) provide a wide range of services to families in need of child welfare services; and

20.2 (6) have a tribal-state title IV-E agreement in effect.

20.14 assume child welfare responsibilities for American Indian children of that tribe under this  
20.15 section, the affected county social service agency is relieved of responsibility for responding  
20.16 to reports of abuse and neglect under section 626.556 for those children during the time  
20.17 within which the tribal project is in effect and funded. The commissioner shall work with  
20.18 tribes and affected counties to develop procedures for data collection, evaluation, and  
20.19 clarification of ongoing role and financial responsibilities of the county and tribe for child  
20.20 welfare services prior to initiation of the project. Children who have not been identified by  
20.21 the tribe as participating in the project shall remain the responsibility of the county. Nothing  
20.22 in this section shall alter responsibilities of the county for law enforcement or court services.

20.23 (f) Participating tribes may conduct children's mental health screenings under section  
20.24 245.4874, subdivision 1, paragraph (a), clause (12), for children who are eligible for the  
20.25 initiative and living on the reservation and who meet one of the following criteria:

21.1 (g) Participating tribes may establish a local child mortality review panel. In establishing  
21.2 a local child mortality review panel, the tribe agrees to conduct local child mortality reviews  
21.3 for child deaths or near-fatalities occurring on the reservation under subdivision 12. Tribes  
21.4 with established child mortality review panels shall have access to nonpublic data and shall  
21.5 protect nonpublic data under subdivision 12, paragraphs (c) to (e). The tribe shall provide  
21.6 written notice to the commissioner and affected counties when a local child mortality review  
21.7 panel has been established and shall provide data upon request of the commissioner for  
21.8 purposes of sharing nonpublic data with members of the state child mortality review panel  
21.9 in connection to an individual case.

21.10 (h) The commissioner shall collect information on outcomes relating to child safety,  
21.11 permanency, and well-being of American Indian children who are served in the projects.  
21.12 Participating tribes must provide information to the state in a format and completeness  
21.13 deemed acceptable by the state to meet state and federal reporting requirements.

21.14 (i) In consultation with the White Earth Band, the commissioner shall develop and submit

21.18 the White Earth Band. The plan shall include a financing proposal, definitions of key terms,  
21.19 statutory amendments required, and other provisions required to implement the plan. The  
21.20 commissioner shall submit the plan by January 15, 2012.

21.22 Subd. 5. **MFIP transitional standard.** (a) The MFIP transitional standard is based on  
21.23 the number of persons in the assistance unit eligible for both food and cash assistance. The  
21.24 amount of the transitional standard is published annually by the Department of Human  
21.25 Services.

21.26 (b) The amount of the MFIP cash assistance portion of the transitional standard is  
21.27 increased \$100 per month per household. This increase shall be reflected in the MFIP cash  
21.28 assistance portion of the transitional standard published annually by the commissioner.

21.29 **EFFECTIVE DATE.** This section is effective February 1, 2020.

22.1 Sec. 25. Minnesota Statutes 2018, section 256M.41, subdivision 3, is amended to read:

22.2 Subd. 3. **Payments based on performance.** (a) The commissioner shall make payments  
22.3 under this section to each county board on a calendar year basis in an amount determined  
22.4 under paragraph (b) on or before July 10 of each year.

22.5 (b) Calendar year allocations under subdivision 1 shall be paid to counties in the following  
22.6 manner:

22.7 (1) 80 percent of the allocation as determined in subdivision 1 must be paid to counties  
22.8 on or before July 10 of each year;

22.9 (2) ten percent of the allocation shall be withheld until the commissioner determines if  
22.10 the county has met the performance outcome threshold of 90 percent based on face-to-face  
22.11 contact with alleged child victims. In order to receive the performance allocation, the county  
22.12 child protection workers must have a timely face-to-face contact with at least 90 percent of  
22.13 all alleged child victims of screened-in maltreatment reports. The standard requires that  
22.14 each initial face-to-face contact occur consistent with timelines defined in section 626.556,  
22.15 subdivision 10, paragraph (i). The commissioner shall make threshold determinations in  
22.16 January of each year and payments to counties meeting the performance outcome threshold  
22.17 shall occur in February of each year. Any withheld funds from this appropriation for counties  
22.18 that do not meet this requirement shall be reallocated by the commissioner to those counties  
22.19 meeting the requirement; and

22.20 (3) ten percent of the allocation shall be withheld until the commissioner determines  
22.21 that the county has met the performance outcome threshold of 90 percent based on  
22.22 face-to-face visits by the case manager. In order to receive the performance allocation, the  
22.23 total number of visits made by caseworkers on a monthly basis to children in foster care  
22.24 and children receiving child protection services while residing in their home must be at least  
22.25 90 percent of the total number of such visits that would occur if every child were visited  
22.26 once per month. The commissioner shall make such determinations in January of each year  
22.27 and payments to counties meeting the performance outcome threshold shall occur in February  
22.28 of each year. Any withheld funds from this appropriation for counties that do not meet this  
22.29 requirement shall be reallocated by the commissioner to those counties meeting the  
22.30 requirement. For 2015, the commissioner shall only apply the standard for monthly foster  
22.31 care visits.

22.32 (c) The commissioner shall work with stakeholders and the Human Services Performance  
22.33 Council under section 402A.16 to develop recommendations for specific outcome measures  
22.34 that counties should meet in order to receive funds withheld under paragraph (b), and include

23.1 ~~in those recommendations a determination as to whether the performance measures under~~  
 23.2 ~~paragraph (b) should be modified or phased out. The commissioner shall report the~~  
 23.3 ~~recommendations to the legislative committees having jurisdiction over child protection~~  
 23.4 ~~issues by January 1, 2018.~~

23.5 Sec. 26. Minnesota Statutes 2018, section 256M.41, is amended by adding a subdivision  
 23.6 to read:

23.7 Subd. 4. **County performance on child protection measures.** The commissioner shall  
 23.8 set child protection measures and standards. The commissioner shall require an  
 23.9 underperforming county to demonstrate that the county designated sufficient funds and  
 23.10 implemented a reasonable strategy to improve child protection performance, including the  
 23.11 provision of a performance improvement plan and additional remedies identified by the  
 23.12 commissioner. The commissioner may redirect up to 20 percent of a county's funds under  
 23.13 this section toward the performance improvement plan. Sanctions under section 256M.20,  
 23.14 subdivision 3, related to noncompliance with federal performance standards also apply.

23.15 Sec. 27. Minnesota Statutes 2018, section 260C.007, subdivision 18, is amended to read:

23.16 Subd. 18. **Foster care.** (a) "Foster care" means 24-hour 24-hour substitute care for  
 23.17 ~~children placed away from their parents or guardian and a child for whom a responsible~~

 23.21 homes of relatives, group homes, emergency shelters, residential facilities not excluded in  
 23.22 this subdivision, child care institutions, and preadoptive homes; or

23.23 (2) who is colocated with the child's parent or guardian in a licensed residential  
 23.24 family-based substance use disorder treatment program as defined in subdivision 22a; or

23.25 (3) who is returned to the care of the child's parent or guardian from whom the child  
 23.26 was removed under a trial home visit pursuant to section 260C.201, subdivision 1, paragraph  
 23.27 (a), clause (3).

23.28 (b) A child is in foster care under this definition regardless of whether the facility is  
 23.29 licensed and payments are made for the cost of care. Nothing in this definition creates any  
 23.30 authority to place a child in a home or facility that is required to be licensed which is not  
 23.31 licensed. "Foster care" does not include placement in any of the following facilities: hospitals,  
 23.32 inpatient chemical dependency treatment facilities where the child is the recipient of the

24.1 treatment, facilities that are primarily for delinquent children, any corrections facility or  
24.2 program within a particular correction's facility not meeting requirements for title IV-E  
24.3 facilities as determined by the commissioner, facilities to which a child is committed under  
24.4 the provision of chapter 253B, forestry camps, or jails. Foster care is intended to provide  
24.5 for a child's safety or to access treatment. Foster care must not be used as a punishment or  
24.6 consequence for a child's behavior.

24.8 to read:

24.11 means a residential treatment facility that provides the parent or guardian with parenting  
24.12 skills training, parent education, or individual and family counseling, under an organizational  
24.13 structure and treatment framework that involves understanding, recognizing, and responding  
24.14 to the effects of all types of trauma according to recognized principles of a trauma-informed  
24.15 approach and trauma-specific interventions to address the consequences of trauma and  
24.16 facilitate healing.

24.17 Sec. 29. Minnesota Statutes 2018, section 260C.178, subdivision 1, is amended to read:

24.18 Subdivision 1. **Hearing and release requirements.** (a) If a child was taken into custody  
24.19 under section 260C.175, subdivision 1, clause (1) or (2), item (ii), the court shall hold a  
24.20 hearing within 72 hours of the time the child was taken into custody, excluding Saturdays,  
24.21 Sundays, and holidays, to determine whether the child should continue in custody.

24.22 (b) Unless there is reason to believe that the child would endanger self or others or not  
24.23 return for a court hearing, or that the child's health or welfare would be immediately  
24.24 endangered, the child shall be released to the custody of a parent, guardian, custodian, or  
24.25 other suitable person, subject to reasonable conditions of release including, but not limited  
24.26 to, a requirement that the child undergo a chemical use assessment as provided in section  
24.27 260C.157, subdivision 1.

24.28 (c) If the court determines there is reason to believe that the child would endanger self  
24.29 or others or not return for a court hearing, or that the child's health or welfare would be  
24.30 immediately endangered if returned to the care of the parent or guardian who has custody  
24.31 and from whom the child was removed, the court shall order the child into foster care as  
24.32 defined in section 260C.007, subdivision 18, under the legal responsibility of the responsible  
24.33 social services agency or responsible probation or corrections agency for the purposes of

25.1 protective care as that term is used in the juvenile court rules or into the home of a  
25.2 noncustodial parent and order the noncustodial parent to comply with any conditions the  
25.3 court determines to be appropriate to the safety and care of the child, including cooperating  
25.4 with paternity establishment proceedings in the case of a man who has not been adjudicated  
25.5 the child's father. The court shall not give the responsible social services legal custody and  
25.6 order a trial home visit at any time prior to adjudication and disposition under section  
25.7 260C.201, subdivision 1, paragraph (a), clause (3), but may order the child returned to the  
25.8 care of the parent or guardian who has custody and from whom the child was removed and  
25.9 order the parent or guardian to comply with any conditions the court determines to be  
25.10 appropriate to meet the safety, health, and welfare of the child.

25.11 (d) In determining whether the child's health or welfare would be immediately  
25.12 endangered, the court shall consider whether the child would reside with a perpetrator of  
25.13 domestic child abuse.

25.14 (e) The court, before determining whether a child should be placed in or continue in  
25.15 foster care under the protective care of the responsible agency, shall also make a  
25.16 determination, consistent with section 260.012 as to whether reasonable efforts were made  
25.17 to prevent placement or whether reasonable efforts to prevent placement are not required.  
25.18 In the case of an Indian child, the court shall determine whether active efforts, according  
25.19 to section 260.762 and the Indian Child Welfare Act of 1978, United States Code, title 25,  
25.20 section 1912(d), were made to prevent placement. The court shall enter a finding that the  
25.21 responsible social services agency has made reasonable efforts to prevent placement when  
25.22 the agency establishes either:

25.23 (1) that it has actually provided services or made efforts in an attempt to prevent the  
25.24 child's removal but that such services or efforts have not proven sufficient to permit the  
25.25 child to safely remain in the home; or

25.26 (2) that there are no services or other efforts that could be made at the time of the hearing  
25.27 that could safely permit the child to remain home or to return home. When reasonable efforts  
25.28 to prevent placement are required and there are services or other efforts that could be ordered  
25.29 which would permit the child to safely return home, the court shall order the child returned  
25.30 to the care of the parent or guardian and the services or efforts put in place to ensure the  
25.31 child's safety. When the court makes a prima facie determination that one of the  
25.32 circumstances under paragraph (g) exists, the court shall determine that reasonable efforts  
25.33 to prevent placement and to return the child to the care of the parent or guardian are not  
25.34 required.

26.1 If the court finds the social services agency's preventive or reunification efforts have  
26.2 not been reasonable but further preventive or reunification efforts could not permit the child  
26.3 to safely remain at home, the court may nevertheless authorize or continue the removal of  
26.4 the child.

26.5 (f) The court may not order or continue the foster care placement of the child unless the  
26.6 court makes explicit, individualized findings that continued custody of the child by the  
26.7 parent or guardian would be contrary to the welfare of the child and that placement is in the  
26.8 best interest of the child.

26.9 (g) At the emergency removal hearing, or at any time during the course of the proceeding,  
26.10 and upon notice and request of the county attorney, the court shall determine whether a  
26.11 petition has been filed stating a prima facie case that:

26.12 (1) the parent has subjected a child to egregious harm as defined in section 260C.007,  
26.13 subdivision 14;

26.14 (2) the parental rights of the parent to another child have been involuntarily terminated;

26.15 (3) the child is an abandoned infant under section 260C.301, subdivision 2, paragraph  
26.16 (a), clause (2);

26.17 (4) the parents' custodial rights to another child have been involuntarily transferred to a  
26.18 relative under Minnesota Statutes 2010, section 260C.201, subdivision 11, paragraph (e),  
26.19 clause (1); section 260C.515, subdivision 4; or a similar law of another jurisdiction;

26.20 (5) the parent has committed sexual abuse as defined in section 626.556, subdivision 2,  
26.21 against the child or another child of the parent;

26.22 (6) the parent has committed an offense that requires registration as a predatory offender  
26.23 under section 243.166, subdivision 1b, paragraph (a) or (b); or

26.24 (7) the provision of services or further services for the purpose of reunification is futile  
26.25 and therefore unreasonable.

26.26 (h) When a petition to terminate parental rights is required under section 260C.301,  
26.27 subdivision 4, or 260C.503, subdivision 2, but the county attorney has determined not to  
26.28 proceed with a termination of parental rights petition, and has instead filed a petition to  
26.29 transfer permanent legal and physical custody to a relative under section 260C.507, the  
26.30 court shall schedule a permanency hearing within 30 days of the filing of the petition.

26.31 (i) If the county attorney has filed a petition under section 260C.307, the court shall  
26.32 schedule a trial under section 260C.163 within 90 days of the filing of the petition except

27.1 when the county attorney determines that the criminal case shall proceed to trial first under  
27.2 section 260C.503, subdivision 2, paragraph (c).

27.3 (j) If the court determines the child should be ordered into foster care and the child's  
27.4 parent refuses to give information to the responsible social services agency regarding the  
27.5 child's father or relatives of the child, the court may order the parent to disclose the names,  
27.6 addresses, telephone numbers, and other identifying information to the responsible social  
27.7 services agency for the purpose of complying with sections 260C.151, 260C.212, 260C.215,  
27.8 and 260C.221.

27.9 (k) If a child ordered into foster care has siblings, whether full, half, or step, who are  
27.10 also ordered into foster care, the court shall inquire of the responsible social services agency  
27.11 of the efforts to place the children together as required by section 260C.212, subdivision 2,  
27.12 paragraph (d), if placement together is in each child's best interests, unless a child is in  
27.13 placement for treatment or a child is placed with a previously noncustodial parent who is  
27.14 not a parent to all siblings. If the children are not placed together at the time of the hearing,  
27.15 the court shall inquire at each subsequent hearing of the agency's reasonable efforts to place  
27.16 the siblings together, as required under section 260.012. If any sibling is not placed with  
27.17 another sibling or siblings, the agency must develop a plan to facilitate visitation or ongoing  
27.18 contact among the siblings as required under section 260C.212, subdivision 1, unless it is  
27.19 contrary to the safety or well-being of any of the siblings to do so.

27.20 (l) When the court has ordered the child into foster care or into the home of a noncustodial  
27.21 parent, the court may order a chemical dependency evaluation, mental health evaluation,  
27.22 medical examination, and parenting assessment for the parent as necessary to support the  
27.23 development of a plan for reunification required under subdivision 7 and section 260C.212,  
27.24 subdivision 1, or the child protective services plan under section 626.556, subdivision 10,  
27.25 and Minnesota Rules, part 9560.0228.

27.26 Sec. 30. **[260C.190] FAMILY-FOCUSED RESIDENTIAL PLACEMENT.**

27.27 Subdivision 1. **Placement.** (a) An agency with legal responsibility for a child under  
27.28 section 260C.178, subdivision 1, paragraph (c), or legal custody of a child under section  
27.29 260C.201, subdivision 1, paragraph (a), clause (3), may colocate a child with a parent who  
27.30 is receiving services in a licensed residential family-based substance use disorder treatment  
27.31 program for up to 12 months.

27.32 (b) During the child's placement under paragraph (a), the agency: (1) may visit the child  
27.33 as the agency deems necessary and appropriate; (2) shall continue to have access to

28.1 information under section 260C.208; and (3) shall continue to provide appropriate services  
28.2 to both the parent and the child.

28.3 (c) The agency may terminate the child's placement under paragraph (a) to protect the  
28.4 child's health, safety, or welfare and may remove the child to foster care without a prior  
28.5 court order or authorization.

28.6 Subd. 2. **Case plans.** (a) Before a child may be colocated with a parent in a licensed  
28.7 residential family-based substance use disorder treatment program, a recommendation that  
28.8 the child's placement with a parent is in the child's best interests must be documented in the  
28.9 child's case plan. Each child must have a written case plan developed with the parent and  
28.10 the treatment program staff that describes the safety plan for the child and the treatment  
28.11 program's responsibilities if the parent leaves or is discharged without completing the  
28.12 program. The treatment program must be provided with a copy of the case plan that includes  
28.13 the recommendations and safety plan at the time the child is colocated with the parent.

28.14 (b) An out-of-home placement plan under section 260C.212, subdivision 1, must be  
28.15 completed no later than 30 days from when a child is colocated with a parent in a licensed  
28.16 residential family-based substance use disorder treatment program. The written plan  
28.17 developed with parent and treatment program staff in paragraph (a) may be updated and  
28.18 must be incorporated into the out-of-home placement plan. The treatment program must be  
28.19 provided with a copy of the child's out-of-home placement plan.

28.20 Subd. 3. **Required reviews and permanency proceedings.** (a) For a child colocated  
28.21 with a parent under subdivision 1, court reviews must occur according to section 260C.202.

28.22 (b) If a child has been in foster care for six months, a court review under section 260C.202  
28.23 may be conducted in lieu of a permanency progress review hearing under section 260C.204  
28.24 when the child is colocated with a parent consistent with section 260C.503, subdivision 3,  
28.25 paragraph (c), in a licensed residential family-based substance use disorder treatment  
28.26 program.

28.27 (c) If the child is colocated with a parent in a licensed residential family-based substance  
28.28 use disorder treatment program 12 months after the child was placed in foster care, the  
28.29 agency must file a report with the court regarding the parent's progress in the treatment  
28.30 program and the agency's reasonable efforts to finalize the child's safe and permanent return  
28.31 to the care and custody of the parent consistent with section 260C.503, subdivision 3,  
28.32 paragraph (c), in lieu of filing a petition required under section 260C.505.

28.33 (d) The court shall make findings regarding the reasonable efforts of the agency to  
28.34 finalize the child's return home as the permanency disposition order in the child's best

29.1 interests. The court may continue the child's foster care placement colocated with a parent  
29.2 in a licensed residential family-based substance use disorder treatment program for up to  
29.3 12 months. When a child has been in foster care placement for 12 months, but the duration  
29.4 of the colocation with a parent in a licensed residential family-based substance use disorder  
29.5 treatment program is less than 12 months, the court may continue the colocation with the  
29.6 total time spent in foster care not exceeding 15 out of the most recent 22 months. If the  
29.7 court finds that the agency fails to make reasonable efforts to finalize the child's return home  
29.8 as the permanency disposition order in the child's best interests, the court may order additional  
29.9 efforts to support the child remaining in the care of the parent.

29.10 (e) If a parent leaves or is discharged from a licensed residential family-based substance  
29.11 use disorder treatment program without completing the program, the child's placement under  
29.12 this section is terminated and the agency may remove the child to foster care without a prior  
29.13 court order or authorization. Within three days of any termination of a child's placement,  
29.14 the agency shall notify the court and each party.

29.15 (f) If a parent leaves or is discharged from a licensed residential family-based substance  
29.16 use disorder treatment program without completing the program and the child has been in  
29.17 foster care for less than six months, the court must hold a review hearing within ten days  
29.18 of receiving notice of a termination of a child's placement and must order an alternative  
29.19 disposition under section 260C.201.

29.20 (g) If a parent leaves or is discharged from a licensed residential family-based substance  
29.21 use disorder treatment program without completing the program and the child is colocated  
29.22 with a parent and the child has been in foster care for more than six months but less than  
29.23 12 months, the court must conduct a permanency progress review hearing under section  
29.24 260C.204 no later than 30 days after the day the parent leaves or is discharged.

29.25 (h) If a parent leaves or is discharged from a licensed residential family-based substance  
29.26 use disorder treatment program without completing the program and the child is colocated  
29.27 with a parent and the child has been in foster care for more than 12 months, the court shall  
29.28 begin permanency proceedings under sections 260C.503 to 260C.521.

29.29 Sec. 31. Minnesota Statutes 2018, section 260C.201, subdivision 1, is amended to read:

29.30 Subdivision 1. **Dispositions.** (a) If the court finds that the child is in need of protection  
29.31 or services or neglected and in foster care, it shall enter an order making any of the following  
29.32 dispositions of the case:

30.1 (1) place the child under the protective supervision of the responsible social services  
30.2 agency or child-placing agency in the home of a parent of the child under conditions  
30.3 prescribed by the court directed to the correction of the child's need for protection or services:

30.4 (i) the court may order the child into the home of a parent who does not otherwise have  
30.5 legal custody of the child, however, an order under this section does not confer legal custody  
30.6 on that parent;

30.7 (ii) if the court orders the child into the home of a father who is not adjudicated, the  
30.8 father must cooperate with paternity establishment proceedings regarding the child in the  
30.9 appropriate jurisdiction as one of the conditions prescribed by the court for the child to  
30.10 continue in the father's home; and

30.11 (iii) the court may order the child into the home of a noncustodial parent with conditions  
30.12 and may also order both the noncustodial and the custodial parent to comply with the  
30.13 requirements of a case plan under subdivision 2; or

30.14 (2) transfer legal custody to one of the following:

30.15 (i) a child-placing agency; or

30.16 (ii) the responsible social services agency. In making a foster care placement for a child  
30.17 whose custody has been transferred under this subdivision, the agency shall make an  
30.18 individualized determination of how the placement is in the child's best interests using the  
30.19 consideration for relatives ~~and~~<sub>2</sub> the best interest factors in section 260C.212, subdivision 2,  
30.20 paragraph (b), and may include a child colocated with a parent in a licensed residential  
30.21 family-based substance use disorder treatment program under section 260C.190; or

30.22 (3) order a trial home visit without modifying the transfer of legal custody to the  
30.23 responsible social services agency under clause (2). Trial home visit means the child is  
30.24 returned to the care of the parent or guardian from whom the child was removed for a period  
30.25 not to exceed six months. During the period of the trial home visit, the responsible social  
30.26 services agency:

30.27 (i) shall continue to have legal custody of the child, which means the agency may see  
30.28 the child in the parent's home, at school, in a child care facility, or other setting as the agency  
30.29 deems necessary and appropriate;

30.30 (ii) shall continue to have the ability to access information under section 260C.208;

30.31 (iii) shall continue to provide appropriate services to both the parent and the child during  
30.32 the period of the trial home visit;

31.1 (iv) without previous court order or authorization, may terminate the trial home visit in  
31.2 order to protect the child's health, safety, or welfare and may remove the child to foster care;

31.3 (v) shall advise the court and parties within three days of the termination of the trial  
31.4 home visit when a visit is terminated by the responsible social services agency without a  
31.5 court order; and

31.6 (vi) shall prepare a report for the court when the trial home visit is terminated whether  
31.7 by the agency or court order which describes the child's circumstances during the trial home  
31.8 visit and recommends appropriate orders, if any, for the court to enter to provide for the  
31.9 child's safety and stability. In the event a trial home visit is terminated by the agency by  
31.10 removing the child to foster care without prior court order or authorization, the court shall  
31.11 conduct a hearing within ten days of receiving notice of the termination of the trial home  
31.12 visit by the agency and shall order disposition under this subdivision or ~~conduct a permanency~~  
31.13 ~~hearing under subdivision 11 or 11a~~ commence permanency proceedings under sections  
31.14 260C.503 to 260C.515. The time period for the hearing may be extended by the court for  
31.15 good cause shown and if it is in the best interests of the child as long as the total time the  
31.16 child spends in foster care without a permanency hearing does not exceed 12 months;

31.17 (4) if the child has been adjudicated as a child in need of protection or services because  
31.18 the child is in need of special services or care to treat or ameliorate a physical or mental  
31.19 disability or emotional disturbance as defined in section 245.4871, subdivision 15, the court  
31.20 may order the child's parent, guardian, or custodian to provide it. The court may order the  
31.21 child's health plan company to provide mental health services to the child. Section 62Q.535  
31.22 applies to an order for mental health services directed to the child's health plan company.  
31.23 If the health plan, parent, guardian, or custodian fails or is unable to provide this treatment  
31.24 or care, the court may order it provided. Absent specific written findings by the court that  
31.25 the child's disability is the result of abuse or neglect by the child's parent or guardian, the  
31.26 court shall not transfer legal custody of the child for the purpose of obtaining special  
31.27 treatment or care solely because the parent is unable to provide the treatment or care. If the  
31.28 court's order for mental health treatment is based on a diagnosis made by a treatment  
31.29 professional, the court may order that the diagnosing professional not provide the treatment  
31.30 to the child if it finds that such an order is in the child's best interests; or

31.31 (5) if the court believes that the child has sufficient maturity and judgment and that it is  
31.32 in the best interests of the child, the court may order a child 16 years old or older to be  
31.33 allowed to live independently, either alone or with others as approved by the court under  
31.34 supervision the court considers appropriate, if the county board, after consultation with the  
31.35 court, has specifically authorized this dispositional alternative for a child.

32.1 (b) If the child was adjudicated in need of protection or services because the child is a  
32.2 runaway or habitual truant, the court may order any of the following dispositions in addition  
32.3 to or as alternatives to the dispositions authorized under paragraph (a):

32.4 (1) counsel the child or the child's parents, guardian, or custodian;

32.5 (2) place the child under the supervision of a probation officer or other suitable person  
32.6 in the child's own home under conditions prescribed by the court, including reasonable rules  
32.7 for the child's conduct and the conduct of the parents, guardian, or custodian, designed for  
32.8 the physical, mental, and moral well-being and behavior of the child;

32.9 (3) subject to the court's supervision, transfer legal custody of the child to one of the  
32.10 following:

32.11 (i) a reputable person of good moral character. No person may receive custody of two  
32.12 or more unrelated children unless licensed to operate a residential program under sections  
32.13 245A.01 to 245A.16; or

32.14 (ii) a county probation officer for placement in a group foster home established under  
32.15 the direction of the juvenile court and licensed pursuant to section 241.021;

32.16 (4) require the child to pay a fine of up to \$100. The court shall order payment of the  
32.17 fine in a manner that will not impose undue financial hardship upon the child;

32.18 (5) require the child to participate in a community service project;

32.19 (6) order the child to undergo a chemical dependency evaluation and, if warranted by  
32.20 the evaluation, order participation by the child in a drug awareness program or an inpatient  
32.21 or outpatient chemical dependency treatment program;

32.22 (7) if the court believes that it is in the best interests of the child or of public safety that  
32.23 the child's driver's license or instruction permit be canceled, the court may order the  
32.24 commissioner of public safety to cancel the child's license or permit for any period up to  
32.25 the child's 18th birthday. If the child does not have a driver's license or permit, the court  
32.26 may order a denial of driving privileges for any period up to the child's 18th birthday. The  
32.27 court shall forward an order issued under this clause to the commissioner, who shall cancel  
32.28 the license or permit or deny driving privileges without a hearing for the period specified  
32.29 by the court. At any time before the expiration of the period of cancellation or denial, the  
32.30 court may, for good cause, order the commissioner of public safety to allow the child to  
32.31 apply for a license or permit, and the commissioner shall so authorize;

32.32 (8) order that the child's parent or legal guardian deliver the child to school at the  
32.33 beginning of each school day for a period of time specified by the court; or

33.1 (9) require the child to perform any other activities or participate in any other treatment  
33.2 programs deemed appropriate by the court.

33.3 To the extent practicable, the court shall enter a disposition order the same day it makes  
33.4 a finding that a child is in need of protection or services or neglected and in foster care, but  
33.5 in no event more than 15 days after the finding unless the court finds that the best interests  
33.6 of the child will be served by granting a delay. If the child was under eight years of age at  
33.7 the time the petition was filed, the disposition order must be entered within ten days of the  
33.8 finding and the court may not grant a delay unless good cause is shown and the court finds  
33.9 the best interests of the child will be served by the delay.

33.10 (c) If a child who is 14 years of age or older is adjudicated in need of protection or  
33.11 services because the child is a habitual truant and truancy procedures involving the child  
33.12 were previously dealt with by a school attendance review board or county attorney mediation  
33.13 program under section 260A.06 or 260A.07, the court shall order a cancellation or denial  
33.14 of driving privileges under paragraph (b), clause (7), for any period up to the child's 18th  
33.15 birthday.

33.16 (d) In the case of a child adjudicated in need of protection or services because the child  
33.17 has committed domestic abuse and been ordered excluded from the child's parent's home,  
33.18 the court shall dismiss jurisdiction if the court, at any time, finds the parent is able or willing  
33.19 to provide an alternative safe living arrangement for the child, as defined in Laws 1997,  
33.20 chapter 239, article 10, section 2.

33.21 (e) When a parent has complied with a case plan ordered under subdivision 6 and the  
33.22 child is in the care of the parent, the court may order the responsible social services agency  
33.23 to monitor the parent's continued ability to maintain the child safely in the home under such  
33.24 terms and conditions as the court determines appropriate under the circumstances.

33.25 Sec. 32. Minnesota Statutes 2018, section 260C.201, subdivision 2, is amended to read:

33.26 Subd. 2. **Written findings.** (a) Any order for a disposition authorized under this section  
33.27 shall contain written findings of fact to support the disposition and case plan ordered and  
33.28 shall also set forth in writing the following information:

33.29 (1) why the best interests and safety of the child are served by the disposition and case  
33.30 plan ordered;

33.31 (2) what alternative dispositions or services under the case plan were considered by the  
33.32 court and why such dispositions or services were not appropriate in the instant case;

34.1 (3) when legal custody of the child is transferred, the appropriateness of the particular  
34.2 placement made or to be made by the placing agency using the factors in section 260C.212,  
34.3 subdivision 2, paragraph (b), or the appropriateness of a child colocated with a parent in a  
34.4 licensed residential family-based substance use disorder treatment program under section  
34.5 260C.190;

34.6 (4) whether reasonable efforts to finalize the permanent plan for the child consistent  
34.7 with section 260.012 were made including reasonable efforts:

34.8 (i) to prevent the child's placement and to reunify the child with the parent or guardian  
34.9 from whom the child was removed at the earliest time consistent with the child's safety.  
34.10 The court's findings must include a brief description of what preventive and reunification  
34.11 efforts were made and why further efforts could not have prevented or eliminated the  
34.12 necessity of removal or that reasonable efforts were not required under section 260.012 or  
34.13 260C.178, subdivision 1;

34.14 (ii) to identify and locate any noncustodial or nonresident parent of the child and to  
34.15 assess such parent's ability to provide day-to-day care of the child, and, where appropriate,  
34.16 provide services necessary to enable the noncustodial or nonresident parent to safely provide  
34.17 day-to-day care of the child as required under section 260C.219, unless such services are  
34.18 not required under section 260.012 or 260C.178, subdivision 1;

34.19 (iii) to make the diligent search for relatives and provide the notices required under  
34.20 section 260C.221; a finding made pursuant to a hearing under section 260C.202 that the  
34.21 agency has made diligent efforts to conduct a relative search and has appropriately engaged  
34.22 relatives who responded to the notice under section 260C.221 and other relatives, who came  
34.23 to the attention of the agency after notice under section 260C.221 was sent, in placement  
34.24 and case planning decisions fulfills the requirement of this item;

34.25 (iv) to identify and make a foster care placement in the home of an unlicensed relative,  
34.26 according to the requirements of section 245A.035, a licensed relative, or other licensed  
34.27 foster care provider who will commit to being the permanent legal parent or custodian for  
34.28 the child in the event reunification cannot occur, but who will actively support the  
34.29 reunification plan for the child; and

34.30 (v) to place siblings together in the same home or to ensure visitation is occurring when  
34.31 siblings are separated in foster care placement and visitation is in the siblings' best interests  
34.32 under section 260C.212, subdivision 2, paragraph (d); and

34.33 (5) if the child has been adjudicated as a child in need of protection or services because  
34.34 the child is in need of special services or care to treat or ameliorate a mental disability or

35.1 emotional disturbance as defined in section 245.4871, subdivision 15, the written findings  
35.2 shall also set forth:

35.3 (i) whether the child has mental health needs that must be addressed by the case plan;

35.4 (ii) what consideration was given to the diagnostic and functional assessments performed  
35.5 by the child's mental health professional and to health and mental health care professionals'  
35.6 treatment recommendations;

35.7 (iii) what consideration was given to the requests or preferences of the child's parent or  
35.8 guardian with regard to the child's interventions, services, or treatment; and

35.9 (iv) what consideration was given to the cultural appropriateness of the child's treatment  
35.10 or services.

35.11 (b) If the court finds that the social services agency's preventive or reunification efforts  
35.12 have not been reasonable but that further preventive or reunification efforts could not permit  
35.13 the child to safely remain at home, the court may nevertheless authorize or continue the  
35.14 removal of the child.

35.15 (c) If the child has been identified by the responsible social services agency as the subject  
35.16 of concurrent permanency planning, the court shall review the reasonable efforts of the  
35.17 agency to develop a permanency plan for the child that includes a primary plan which is  
35.18 for reunification with the child's parent or guardian and a secondary plan which is for an  
35.19 alternative, legally permanent home for the child in the event reunification cannot be achieved  
35.20 in a timely manner.

35.21 Sec. 33. Minnesota Statutes 2018, section 260C.201, subdivision 6, is amended to read:

35.22 Subd. 6. **Case plan.** (a) For each disposition ordered where the child is placed away  
35.23 from a parent or guardian, the court shall order the responsible social services agency to  
35.24 prepare a written out-of-home placement plan according to the requirements of section  
35.25 260C.212, subdivision 1. When a foster child is colocated with a parent in a licensed  
35.26 residential family-based substance use disorder treatment program under section 260C.190,  
35.27 the case plan must specify the recommendation for the colocation before the child is colocated  
35.28 with the parent.

35.29 (b) In cases where the child is not placed out of the home or is ordered into the home of  
35.30 a noncustodial parent, the responsible social services agency shall prepare a plan for delivery  
35.31 of social services to the child and custodial parent under section 626.556, subdivision 10,  
35.32 or any other case plan required to meet the needs of the child. The plan shall be designed  
35.33 to safely maintain the child in the home or to reunite the child with the custodial parent.

36.1 (c) The court may approve the case plan as presented or modify it after hearing from  
36.2 the parties. Once the plan is approved, the court shall order all parties to comply with it. A  
36.3 copy of the approved case plan shall be attached to the court's order and incorporated into  
36.4 it by reference.

36.5 (d) A party has a right to request a court review of the reasonableness of the case plan  
36.6 upon a showing of a substantial change of circumstances.

36.7 Sec. 34. Minnesota Statutes 2018, section 260C.212, subdivision 2, is amended to read:

36.8 Subd. 2. **Placement decisions based on best interests of the child.** (a) The policy of  
36.9 the state of Minnesota is to ensure that the child's best interests are met by requiring an  
36.10 individualized determination of the needs of the child and of how the selected placement  
36.11 will serve the needs of the child being placed. The authorized child-placing agency shall  
36.12 place a child, released by court order or by voluntary release by the parent or parents, in a  
36.13 family foster home selected by considering placement with relatives and important friends  
36.14 in the following order:

36.15 (1) with an individual who is related to the child by blood, marriage, or adoption; or

36.16 (2) with an individual who is an important friend with whom the child has resided or  
36.17 had significant contact.

36.18 For an Indian child, the agency shall follow the order of placement preferences in the Indian  
36.19 Child Welfare Act of 1978, United States Code, title 25, section 1915.

36.20 (b) Among the factors the agency shall consider in determining the needs of the child  
36.21 are the following:

36.22 (1) the child's current functioning and behaviors;

36.23 (2) the medical needs of the child;

36.24 (3) the educational needs of the child;

36.25 (4) the developmental needs of the child;

36.26 (5) the child's history and past experience;

36.27 (6) the child's religious and cultural needs;

36.28 (7) the child's connection with a community, school, and faith community;

36.29 (8) the child's interests and talents;

36.30 (9) the child's relationship to current caretakers, parents, siblings, and relatives;

37.1 (10) the reasonable preference of the child, if the court, or the child-placing agency in  
37.2 the case of a voluntary placement, deems the child to be of sufficient age to express  
37.3 preferences; and

37.4 (11) for an Indian child, the best interests of an Indian child as defined in section 260.755,  
37.5 subdivision 2a.

37.6 (c) Placement of a child cannot be delayed or denied based on race, color, or national  
37.7 origin of the foster parent or the child.

37.8 (d) Siblings should be placed together for foster care and adoption at the earliest possible  
37.9 time unless it is documented that a joint placement would be contrary to the safety or  
37.10 well-being of any of the siblings or unless it is not possible after reasonable efforts by the  
37.11 responsible social services agency. In cases where siblings cannot be placed together, the  
37.12 agency is required to provide frequent visitation or other ongoing interaction between  
37.13 siblings unless the agency documents that the interaction would be contrary to the safety  
37.14 or well-being of any of the siblings.

37.15 (e) Except for emergency placement as provided for in section 245A.035, the following  
37.16 requirements must be satisfied before the approval of a foster or adoptive placement in a  
37.17 related or unrelated home: (1) a completed background study under section 245C.08; and  
37.18 (2) a completed review of the written home study required under section 260C.215,  
37.19 subdivision 4, clause (5), or 260C.611, to assess the capacity of the prospective foster or  
37.20 adoptive parent to ensure the placement will meet the needs of the individual child.

37.21 (f) The agency must determine whether colocation with a parent who is receiving services  
37.22 in a licensed residential family-based substance use disorder treatment program is in the  
37.23 child's best interests according to paragraph (b) and include that determination in the child's  
37.24 case plan. The agency may consider additional factors not identified in paragraph (b). The  
37.25 agency's determination must be documented in the child's case plan before the child is  
37.26 colocated with a parent.

37.27 **Sec. 35. [260C.228] VOLUNTARY FOSTER CARE; CHILD IS COLOCATED**  
37.28 **WITH PARENT IN TREATMENT PROGRAM.**

37.29 Subdivision 1. **Generally.** When a parent requests assistance from an agency and both  
37.30 the parent and agency agree that a child's placement in foster care and colocation with a  
37.31 parent in a licensed residential family-based substance use treatment facility as defined by  
37.32 section 260C.007, subdivision 22a, is in the child's best interests, the agency must specify  
37.33 the recommendation for the placement in the child's case plan. After the child's case plan

38.1 includes the recommendation, the agency and the parent may enter into a written voluntary  
38.2 placement agreement on a form approved by the commissioner.

38.3 Subd. 2. **Judicial review.** (a) A judicial review of a child's voluntary placement is  
38.4 required within 165 days of the date the voluntary agreement was signed. The agency  
38.5 responsible for the child's placement in foster care shall request the judicial review.

38.6 (b) The agency must forward a written report to the court at least five business days  
38.7 prior to the judicial review in paragraph (a). The report must contain:

38.8 (i) a statement regarding whether the colocation of the child with a parent in a licensed  
38.9 residential family-based substance use disorder treatment program meets the child's needs  
38.10 and continues to be in the child's best interests;

38.11 (ii) the child's name, dates of birth, race, gender, and current address;

38.12 (iii) the names, race, dates of birth, residences, and post office addresses of the child's  
38.13 parents or custodian;

38.14 (iv) a statement regarding the child's eligibility for membership or enrollment in an  
38.15 Indian tribe and the agency's compliance with applicable provisions of sections 260.751 to  
38.16 260.835;

38.17 (v) the name and address of the licensed residential family-based substance use disorder  
38.18 treatment program where the child and parent or custodian are colocated;

38.19 (vi) a copy of the out-of-home placement plan under section 260C.212, subdivisions 1  
38.20 and 3;

38.21 (vii) a written summary of the proceedings of any administrative review required under  
38.22 section 260C.203; and

38.23 (viii) any other information the agency, parent or custodian, child, or licensed residential  
38.24 family-based substance use disorder treatment program wants the court to consider.

38.25 (c) The agency must inform a child, if the child is 12 years of age or older; the child's  
38.26 parent; and the licensed residential family-based substance use disorder treatment program  
38.27 of the reporting and court review requirements of this section and of their rights to submit  
38.28 information to the court as follows:

38.29 (1) if the child, the child's parent, or the licensed residential family-based substance use  
38.30 disorder treatment program wants to send information to the court, the agency shall advise  
38.31 those persons of the reporting date and the date by which the agency must receive the  
38.32 information to submit to the court with the agency's report; and

39.1 (2) the agency must inform the child, the child's parent, and the licensed residential  
39.2 family-based substance use disorder treatment program that they have the right to be heard  
39.3 in person by the court. An in-person hearing must be held if requested by the child, parent  
39.4 or legal guardian, or licensed residential family-based substance use disorder treatment  
39.5 program.

39.6 (d) If, at the time required for the agency's report under this section, a child 12 years of  
39.7 age or older disagrees about the placement colocating the child with the parent in a licensed  
39.8 residential family-based substance use disorder treatment program or services provided  
39.9 under the out-of-home placement plan under section 260C.212, subdivision 1, the agency  
39.10 shall include information regarding the child's disagreement and to the extent possible the  
39.11 basis for the child's disagreement in the report.

39.12 (e) Regardless of whether an in-person hearing is requested within ten days of receiving  
39.13 the agency's report, the court has jurisdiction to and must determine:

39.14 (i) whether the voluntary foster care arrangement is in the child's best interests;

39.15 (ii) whether the parent and agency are appropriately planning for the child; and

39.16 (iii) if a child 12 years of age or older disagrees with the foster care placement colocating  
39.17 the child with the parent in a licensed residential family-based substance use disorder  
39.18 treatment program or services provided under the out-of-home placement plan, whether to  
39.19 appoint counsel and a guardian ad litem for the child according to section 260C.163.

39.20 (f) Unless requested by the parent, representative of the licensed residential family-based  
39.21 substance use disorder treatment program, or child, an in-person hearing is not required for  
39.22 the court to make findings and issue an order.

39.23 (g) If the court finds the voluntary foster care arrangement is in the child's best interests  
39.24 and that the agency and parent are appropriately planning for the child, the court shall issue  
39.25 an order containing explicit individualized findings to support the court's determination.  
39.26 The individual findings shall be based on the agency's written report and other materials  
39.27 submitted to the court. The court may make this determination notwithstanding the child's  
39.28 disagreement, if any, reported to the court under paragraph (d).

39.29 (h) The court shall send a copy of the order to the county attorney, the agency, the parent,  
39.30 a child 12 years of age or older, and the licensed residential family-based substance use  
39.31 disorder treatment program.

39.32 (i) If the court finds continuing the voluntary foster care arrangement is not in the child's  
39.33 best interests or that the agency or the parent is not appropriately planning for the child, the

40.1 court shall notify the agency, the parent, the licensed residential family-based substance  
40.2 use disorder treatment program, a child 12 years of age or older, and the county attorney of  
40.3 the court's determination and the basis for the court's determination. The court shall set the  
40.4 matter for hearing and appoint a guardian ad litem for the child under section 260C.163,  
40.5 subdivision 5.

40.6 Subd. 3. **Termination.** The voluntary placement agreement terminates at the parent's  
40.7 discharge from the licensed residential family-based substance use disorder treatment  
40.8 program, or upon receipt of a written and dated request from the parent, unless the request  
40.9 specifies a later date. If the child's voluntary foster care placement meets the calculated time  
40.10 to require a permanency proceeding under section 260C.503, subdivision 3, paragraph (a),  
40.11 and the child is not returned home, the agency must file a petition according to section  
40.12 260C.141 or 260C.505.

40.13 Sec. 36. Minnesota Statutes 2018, section 260C.452, subdivision 4, is amended to read:

40.14 Subd. 4. **Administrative or court review of placements.** (a) When the child is 14 years  
40.15 of age or older, the court, in consultation with the child, shall review the independent living  
40.16 plan according to section 260C.203, paragraph (d).

40.17 (b) The responsible social services agency shall file a copy of the notification required  
40.18 in subdivision 3 with the court. If the responsible social services agency does not file the  
40.19 notice by the time the child is 17-1/2 years of age, the court shall require the responsible  
40.20 social services agency to file the notice.

40.21 (c) The court shall ensure that the responsible social services agency assists the child in  
40.22 obtaining the following documents before the child leaves foster care: a Social Security  
40.23 card; an official or certified copy of the child's birth certificate; a state identification card  
40.24 or driver's license, tribal enrollment identification card, green card, or school visa; health  
40.25 insurance information; the child's school, medical, and dental records; a contact list of the  
40.26 child's medical, dental, and mental health providers; and contact information for the child's  
40.27 siblings, if the siblings are in foster care.

40.28 (d) For a child who will be discharged from foster care at 18 years of age or older, the  
40.29 responsible social services agency must develop a personalized transition plan as directed  
40.30 by the child during the 90-day period immediately prior to the expected date of discharge.  
40.31 The transition plan must be as detailed as the child elects and include specific options,  
40.32 including but not limited to:

40.33 (1) affordable housing with necessary supports that does not include a homeless shelter;

41.1 (2) health insurance, including eligibility for medical assistance as defined in section  
41.2 256B.055, subdivision 17;

41.3 (3) education, including application to the Education and Training Voucher Program;

41.4 (4) local opportunities for mentors and continuing support services, including the Healthy  
41.5 Transitions and Homeless Prevention program, if available;

41.6 (5) workforce supports and employment services;

41.7 (6) a copy of the child's consumer credit report as defined in section 13C.001 and  
41.8 assistance in interpreting and resolving any inaccuracies in the report, at no cost to the child;

41.9 (7) information on executing a health care directive under chapter 145C and on the  
41.10 importance of designating another individual to make health care decisions on behalf of the  
41.11 child if the child becomes unable to participate in decisions; ~~and~~

41.12 (8) appropriate contact information through 21 years of age if the child needs information  
41.13 or help dealing with a crisis situation; and

41.14 (9) official documentation that the youth was previously in foster care.

41.15 Sec. 37. Minnesota Statutes 2018, section 260C.503, subdivision 1, is amended to read:

41.16 Subdivision 1. **Required permanency proceedings.** (a) Except for children in foster  
41.17 care pursuant to chapter 260D, where the child is in foster care or in the care of a noncustodial  
41.18 or nonresident parent, the court shall commence proceedings to determine the permanent  
41.19 status of a child by holding the admit-deny hearing required under section 260C.507 not  
41.20 later than 12 months after the child is placed in foster care or in the care of a noncustodial  
41.21 or nonresident parent. Permanency proceedings for children in foster care pursuant to chapter  
41.22 260D shall be according to section 260D.07.

41.23 (b) Permanency proceedings for a foster child who is colocated with a parent in a licensed  
41.24 residential family-based substance use disorder treatment program shall be conducted  
41.25 according to section 260C.190.

41.26 Sec. 38. Minnesota Statutes 2018, section 518A.32, subdivision 3, is amended to read:

41.27 Subd. 3. **Parent not considered voluntarily unemployed, underemployed, or employed**  
41.28 **on a less than full-time basis.** A parent is not considered voluntarily unemployed,  
41.29 underemployed, or employed on a less than full-time basis upon a showing by the parent  
41.30 that:

42.1 (1) the unemployment, underemployment, or employment on a less than full-time basis  
42.2 is temporary and will ultimately lead to an increase in income;

42.3 (2) the unemployment, underemployment, or employment on a less than full-time basis  
42.4 represents a bona fide career change that outweighs the adverse effect of that parent's  
42.5 diminished income on the child; or

42.6 (3) the unemployment, underemployment, or employment on a less than full-time basis  
42.7 is because a parent is physically or mentally incapacitated or due to incarceration, ~~except~~  
42.8 ~~where the reason for incarceration is the parent's nonpayment of support.~~

42.9 **EFFECTIVE DATE.** This section is effective the day following final enactment.

42.10 Sec. 39. Minnesota Statutes 2018, section 626.556, subdivision 10, is amended to read:

42.11 Subd. 10. **Duties of local welfare agency and local law enforcement agency upon**  
42.12 **receipt of report; mandatory notification between police or sheriff and agency.** (a) The  
42.13 police department or the county sheriff shall immediately notify the local welfare agency  
42.14 or agency responsible for child protection reports under this section orally and in writing  
42.15 when a report is received. The local welfare agency or agency responsible for child protection  
42.16 reports shall immediately notify the local police department or the county sheriff orally and  
42.17 in writing when a report is received. The county sheriff and the head of every local welfare  
42.18 agency, agency responsible for child protection reports, and police department shall each  
42.19 designate a person within their agency, department, or office who is responsible for ensuring  
42.20 that the notification duties of this paragraph are carried out. When the alleged maltreatment  
42.21 occurred on tribal land, the local welfare agency or agency responsible for child protection  
42.22 reports and the local police department or the county sheriff shall immediately notify the  
42.23 tribe's social services agency and tribal law enforcement orally and in writing when a report  
42.24 is received.

42.25 (b) Upon receipt of a report, the local welfare agency shall determine whether to conduct  
42.26 a family assessment or an investigation as appropriate to prevent or provide a remedy for  
42.27 child maltreatment. The local welfare agency:

42.28 (1) shall conduct an investigation on reports involving sexual abuse or substantial child  
42.29 endangerment;

42.30 (2) shall begin an immediate investigation if, at any time when it is using a family  
42.31 assessment response, it determines that there is reason to believe that sexual abuse or  
42.32 substantial child endangerment or a serious threat to the child's safety exists;

43.1 (3) may conduct a family assessment for reports that do not allege sexual abuse or  
43.2 substantial child endangerment. In determining that a family assessment is appropriate, the  
43.3 local welfare agency may consider issues of child safety, parental cooperation, and the need  
43.4 for an immediate response;

43.5 (4) may conduct a family assessment on a report that was initially screened and assigned  
43.6 for an investigation. In determining that a complete investigation is not required, the local  
43.7 welfare agency must document the reason for terminating the investigation and notify the  
43.8 local law enforcement agency if the local law enforcement agency is conducting a joint  
43.9 investigation; and

43.10 (5) shall provide immediate notice, according to section 260.761, subdivision 2, to an  
43.11 Indian child's tribe when the agency has reason to believe the family assessment or  
43.12 investigation may involve an Indian child. For purposes of this clause, "immediate notice"  
43.13 means notice provided within 24 hours.

43.14 If the report alleges neglect, physical abuse, or sexual abuse by a parent, guardian, or  
43.15 individual functioning within the family unit as a person responsible for the child's care, or  
43.16 sexual abuse by a person with a significant relationship to the child when that person resides  
43.17 in the child's household or by a sibling, the local welfare agency shall immediately conduct  
43.18 a family assessment or investigation as identified in clauses (1) to (4). In conducting a family  
43.19 assessment or investigation, the local welfare agency shall gather information on the existence  
43.20 of substance abuse and domestic violence and offer services for purposes of preventing  
43.21 future child maltreatment, safeguarding and enhancing the welfare of the abused or neglected  
43.22 minor, and supporting and preserving family life whenever possible. If the report alleges a  
43.23 violation of a criminal statute involving sexual abuse, physical abuse, or neglect or  
43.24 endangerment, under section 609.378, the local law enforcement agency and local welfare  
43.25 agency shall coordinate the planning and execution of their respective investigation and  
43.26 assessment efforts to avoid a duplication of fact-finding efforts and multiple interviews.  
43.27 Each agency shall prepare a separate report of the results of its investigation or assessment.  
43.28 In cases of alleged child maltreatment resulting in death, the local agency may rely on the  
43.29 fact-finding efforts of a law enforcement investigation to make a determination of whether  
43.30 or not maltreatment occurred. When necessary the local welfare agency shall seek authority  
43.31 to remove the child from the custody of a parent, guardian, or adult with whom the child is  
43.32 living. In performing any of these duties, the local welfare agency shall maintain appropriate  
43.33 records.

43.34 If the family assessment or investigation indicates there is a potential for abuse of alcohol  
43.35 or other drugs by the parent, guardian, or person responsible for the child's care, the local

44.1 welfare agency shall conduct a chemical use assessment pursuant to Minnesota Rules, part  
44.2 9530.6615.

44.3 (c) When a local agency receives a report or otherwise has information indicating that  
44.4 a child who is a client, as defined in section 245.91, has been the subject of physical abuse,  
44.5 sexual abuse, or neglect at an agency, facility, or program as defined in section 245.91, it  
44.6 shall, in addition to its other duties under this section, immediately inform the ombudsman  
44.7 established under sections 245.91 to 245.97. The commissioner of education shall inform  
44.8 the ombudsman established under sections 245.91 to 245.97 of reports regarding a child  
44.9 defined as a client in section 245.91 that maltreatment occurred at a school as defined in  
44.10 section 120A.05, subdivisions 9, 11, and 13, and chapter 124E.

44.11 (d) Authority of the local welfare agency responsible for assessing or investigating the  
44.12 child abuse or neglect report, the agency responsible for assessing or investigating the report,  
44.13 and of the local law enforcement agency for investigating the alleged abuse or neglect  
44.14 includes, but is not limited to, authority to interview, without parental consent, the alleged  
44.15 victim and any other minors who currently reside with or who have resided with the alleged  
44.16 offender. The interview may take place at school or at any facility or other place where the  
44.17 alleged victim or other minors might be found or the child may be transported to, and the  
44.18 interview conducted at, a place appropriate for the interview of a child designated by the  
44.19 local welfare agency or law enforcement agency. The interview may take place outside the  
44.20 presence of the alleged offender or parent, legal custodian, guardian, or school official. For  
44.21 family assessments, it is the preferred practice to request a parent or guardian's permission  
44.22 to interview the child prior to conducting the child interview, unless doing so would  
44.23 compromise the safety assessment. Except as provided in this paragraph, the parent, legal  
44.24 custodian, or guardian shall be notified by the responsible local welfare or law enforcement  
44.25 agency no later than the conclusion of the investigation or assessment that this interview  
44.26 has occurred. Notwithstanding rule 32 of the Minnesota Rules of Procedure for Juvenile  
44.27 Courts, the juvenile court may, after hearing on an ex parte motion by the local welfare  
44.28 agency, order that, where reasonable cause exists, the agency withhold notification of this  
44.29 interview from the parent, legal custodian, or guardian. If the interview took place or is to  
44.30 take place on school property, the order shall specify that school officials may not disclose  
44.31 to the parent, legal custodian, or guardian the contents of the notification of intent to interview  
44.32 the child on school property, as provided under this paragraph, and any other related  
44.33 information regarding the interview that may be a part of the child's school record. A copy  
44.34 of the order shall be sent by the local welfare or law enforcement agency to the appropriate  
44.35 school official.

45.1 (e) When the local welfare, local law enforcement agency, or the agency responsible  
45.2 for assessing or investigating a report of maltreatment determines that an interview should  
45.3 take place on school property, written notification of intent to interview the child on school  
45.4 property must be received by school officials prior to the interview. The notification shall  
45.5 include the name of the child to be interviewed, the purpose of the interview, and a reference  
45.6 to the statutory authority to conduct an interview on school property. For interviews  
45.7 conducted by the local welfare agency, the notification shall be signed by the chair of the  
45.8 local social services agency or the chair's designee. The notification shall be private data  
45.9 on individuals subject to the provisions of this paragraph. School officials may not disclose  
45.10 to the parent, legal custodian, or guardian the contents of the notification or any other related  
45.11 information regarding the interview until notified in writing by the local welfare or law  
45.12 enforcement agency that the investigation or assessment has been concluded, unless a school  
45.13 employee or agent is alleged to have maltreated the child. Until that time, the local welfare  
45.14 or law enforcement agency or the agency responsible for assessing or investigating a report  
45.15 of maltreatment shall be solely responsible for any disclosures regarding the nature of the  
45.16 assessment or investigation.

45.17 Except where the alleged offender is believed to be a school official or employee, the  
45.18 time and place, and manner of the interview on school premises shall be within the discretion  
45.19 of school officials, but the local welfare or law enforcement agency shall have the exclusive  
45.20 authority to determine who may attend the interview. The conditions as to time, place, and  
45.21 manner of the interview set by the school officials shall be reasonable and the interview  
45.22 shall be conducted not more than 24 hours after the receipt of the notification unless another  
45.23 time is considered necessary by agreement between the school officials and the local welfare  
45.24 or law enforcement agency. Where the school fails to comply with the provisions of this  
45.25 paragraph, the juvenile court may order the school to comply. Every effort must be made  
45.26 to reduce the disruption of the educational program of the child, other students, or school  
45.27 staff when an interview is conducted on school premises.

45.28 (f) Where the alleged offender or a person responsible for the care of the alleged victim  
45.29 or other minor prevents access to the victim or other minor by the local welfare agency, the  
45.30 juvenile court may order the parents, legal custodian, or guardian to produce the alleged  
45.31 victim or other minor for questioning by the local welfare agency or the local law  
45.32 enforcement agency outside the presence of the alleged offender or any person responsible  
45.33 for the child's care at reasonable places and times as specified by court order.

45.34 (g) Before making an order under paragraph (f), the court shall issue an order to show  
45.35 cause, either upon its own motion or upon a verified petition, specifying the basis for the

46.1 requested interviews and fixing the time and place of the hearing. The order to show cause  
46.2 shall be served personally and shall be heard in the same manner as provided in other cases  
46.3 in the juvenile court. The court shall consider the need for appointment of a guardian ad  
46.4 litem to protect the best interests of the child. If appointed, the guardian ad litem shall be  
46.5 present at the hearing on the order to show cause.

46.6 (h) The commissioner of human services, the ombudsman for mental health and  
46.7 developmental disabilities, the local welfare agencies responsible for investigating reports,  
46.8 the commissioner of education, and the local law enforcement agencies have the right to  
46.9 enter facilities as defined in subdivision 2 and to inspect and copy the facility's records,  
46.10 including medical records, as part of the investigation. Notwithstanding the provisions of  
46.11 chapter 13, they also have the right to inform the facility under investigation that they are  
46.12 conducting an investigation, to disclose to the facility the names of the individuals under  
46.13 investigation for abusing or neglecting a child, and to provide the facility with a copy of  
46.14 the report and the investigative findings.

46.15 (i) The local welfare agency responsible for conducting a family assessment or  
46.16 investigation shall collect available and relevant information to determine child safety, risk  
46.17 of subsequent child maltreatment, and family strengths and needs and share not public  
46.18 information with an Indian's tribal social services agency without violating any law of the  
46.19 state that may otherwise impose duties of confidentiality on the local welfare agency in  
46.20 order to implement the tribal state agreement. The local welfare agency or the agency  
46.21 responsible for investigating the report shall collect available and relevant information to  
46.22 ascertain whether maltreatment occurred and whether protective services are needed.  
46.23 Information collected includes, when relevant, information with regard to the person reporting  
46.24 the alleged maltreatment, including the nature of the reporter's relationship to the child and  
46.25 to the alleged offender, and the basis of the reporter's knowledge for the report; the child  
46.26 allegedly being maltreated; the alleged offender; the child's caretaker; and other collateral  
46.27 sources having relevant information related to the alleged maltreatment. As a part of  
46.28 determining whether child protective services are needed, the local welfare agency  
46.29 responsible for conducting the family assessment or investigation shall submit a request to  
46.30 the commissioner of human services to collect child abuse and neglect records maintained  
46.31 in each state other than Minnesota where the alleged offender has resided in the preceding  
46.32 five years. The commissioner shall send out-of-state child abuse and neglect records inquiries  
46.33 to the relevant states within three business days of receiving the request from the local  
46.34 welfare agency. The commissioner shall forward the results of these inquiries to the local  
46.35 welfare agency responsible for conducting the family assessment or investigation as they

47.1 are received. The commissioner shall inform the local welfare agency if the commissioner  
47.2 does not receive a response from all states with records required to be searched within 20  
47.3 business days. The local welfare agency or the agency responsible for investigating the  
47.4 report may make a determination of no maltreatment early in an investigation, and close  
47.5 the case and retain immunity, if the collected information shows no basis for a full  
47.6 investigation.

47.7 Information relevant to the assessment or investigation must be asked for, and may  
47.8 include:

47.9 (1) the child's sex and age; prior reports of maltreatment, including any maltreatment  
47.10 reports that were screened out and not accepted for assessment or investigation; information  
47.11 relating to developmental functioning; credibility of the child's statement; and whether the  
47.12 information provided under this clause is consistent with other information collected during  
47.13 the course of the assessment or investigation;

47.14 (2) the alleged offender's age, and a record check for prior ~~reports of maltreatment~~, and  
47.15 criminal charges and convictions. The local welfare agency or the agency responsible for  
47.16 assessing or investigating the report must provide the alleged offender with an opportunity  
47.17 to make a statement. The alleged offender may submit supporting documentation relevant  
47.18 to the assessment or investigation;

47.19 (3) collateral source information regarding the alleged maltreatment and care of the  
47.20 child. Collateral information includes, when relevant: (i) a medical examination of the child;  
47.21 (ii) prior medical records relating to the alleged maltreatment or the care of the child  
47.22 maintained by any facility, clinic, or health care professional and an interview with the  
47.23 treating professionals; and (iii) interviews with the child's caretakers, including the child's  
47.24 parent, guardian, foster parent, child care provider, teachers, counselors, family members,  
47.25 relatives, and other persons who may have knowledge regarding the alleged maltreatment  
47.26 and the care of the child; and

47.27 (4) information on the existence of domestic abuse and violence in the home of the child,  
47.28 and substance abuse.

47.29 Nothing in this paragraph precludes the local welfare agency, the local law enforcement  
47.30 agency, or the agency responsible for assessing or investigating the report from collecting  
47.31 other relevant information necessary to conduct the assessment or investigation.

47.32 Notwithstanding sections 13.384 or 144.291 to 144.298, the local welfare agency has access  
47.33 to medical data and records for purposes of clause (3). Notwithstanding the data's  
47.34 classification in the possession of any other agency, data acquired by the local welfare

48.1 agency or the agency responsible for assessing or investigating the report during the course  
48.2 of the assessment or investigation are private data on individuals and must be maintained  
48.3 in accordance with subdivision 11. Data of the commissioner of education collected or  
48.4 maintained during and for the purpose of an investigation of alleged maltreatment in a school  
48.5 are governed by this section, notwithstanding the data's classification as educational,  
48.6 licensing, or personnel data under chapter 13.

48.7 In conducting an assessment or investigation involving a school facility as defined in  
48.8 subdivision 2, paragraph (c), the commissioner of education shall collect investigative  
48.9 reports and data that are relevant to a report of maltreatment and are from local law  
48.10 enforcement and the school facility.

48.11 (j) Upon receipt of a report, the local welfare agency shall conduct a face-to-face contact  
48.12 with the child reported to be maltreated and with the child's primary caregiver sufficient to  
48.13 complete a safety assessment and ensure the immediate safety of the child. The face-to-face  
48.14 contact with the child and primary caregiver shall occur immediately if sexual abuse or  
48.15 substantial child endangerment is alleged and within five calendar days for all other reports.  
48.16 If the alleged offender was not already interviewed as the primary caregiver, the local welfare  
48.17 agency shall also conduct a face-to-face interview with the alleged offender in the early  
48.18 stages of the assessment or investigation. At the initial contact, the local child welfare agency  
48.19 or the agency responsible for assessing or investigating the report must inform the alleged  
48.20 offender of the complaints or allegations made against the individual in a manner consistent  
48.21 with laws protecting the rights of the person who made the report. The interview with the  
48.22 alleged offender may be postponed if it would jeopardize an active law enforcement  
48.23 investigation.

48.24 (k) When conducting an investigation, the local welfare agency shall use a question and  
48.25 answer interviewing format with questioning as nondirective as possible to elicit spontaneous  
48.26 responses. For investigations only, the following interviewing methods and procedures must  
48.27 be used whenever possible when collecting information:

48.28 (1) audio recordings of all interviews with witnesses and collateral sources; and

48.29 (2) in cases of alleged sexual abuse, audio-video recordings of each interview with the  
48.30 alleged victim and child witnesses.

48.31 (l) In conducting an assessment or investigation involving a school facility as defined  
48.32 in subdivision 2, paragraph (c), the commissioner of education shall collect available and  
48.33 relevant information and use the procedures in paragraphs (j) and (k), and subdivision 3d,  
48.34 except that the requirement for face-to-face observation of the child and face-to-face interview

49.1 of the alleged offender is to occur in the initial stages of the assessment or investigation  
49.2 provided that the commissioner may also base the assessment or investigation on investigative  
49.3 reports and data received from the school facility and local law enforcement, to the extent  
49.4 those investigations satisfy the requirements of paragraphs (j) and (k), and subdivision 3d.

49.5 Sec. 40. **TITLE.**

49.6 Sections .... and .... shall be known as "Heaven's Law."

49.7 Sec. 41. **INTERSTATE TRANSFER OF CHILD PROTECTION DATA.**

49.8 The commissioner of human services is directed to investigate and report to the legislature  
49.9 on potential improvements and advancements in the sharing of child maltreatment data  
49.10 between states, including consideration for interstate compacts or interstate agreements to  
49.11 improve access to child maltreatment investigative and determination data to protect the  
49.12 welfare of children in Minnesota and throughout the country. The commissioner shall report  
49.13 to the legislature on challenges and solutions to the sharing of data on child maltreatment  
49.14 between states no later than February 1, 2020.

49.15 Sec. 42. **INSTRUCTION TO COMMISSIONER.**

49.16 All individuals in connection with a licensed children's residential facility required to  
49.17 complete a background study under Minnesota Statutes, chapter 245C, must complete a  
49.18 new background study consistent with the obligations and requirements of this article. The  
49.19 commissioner of human services shall establish a schedule for (1) individuals in connection  
49.20 with a licensed children's residential facility that serves children eligible to receive federal  
49.21 Title IV-E funding to complete the new background study by March 1, 2020, and (2)  
49.22 individuals in connection with a licensed children's residential facility that serves children  
49.23 not eligible to receive federal Title IV-E funding to complete the new background study by  
49.24 March 1, 2021.

49.25 Sec. 43. **CHILD WELFARE TRAINING ACADEMY.**

49.26 Subdivision 1. **Establishment; purpose.** The commissioner of human services shall  
49.27 modify the Child Welfare Training System developed pursuant to Minnesota Statutes,  
49.28 section 626.5591, subdivision 2, according to this section. The new training framework  
49.29 shall be known as the Child Welfare Training Academy.

49.30 Subd. 2. **Administration.** (a) The Child Welfare Training Academy must be administered  
49.31 through five regional hubs in northwest, northeast, southwest, southeast, and central

50.1 Minnesota. Each hub must deliver training targeted to the needs of the hub's particular  
50.2 region, taking into account varying demographics, resources, and practice outcomes.

50.3 (b) The Child Welfare Training Academy must use training methods best suited to the  
50.4 training content. National best practices in adult learning must be used to the greatest extent  
50.5 possible, including online learning methodologies, coaching, mentoring, and simulated skill  
50.6 application.

50.7 (c) Content of training delivered by the Child Welfare Training Academy must be  
50.8 informed using multidisciplinary approaches and must include input from stakeholders,  
50.9 including but not limited to child welfare professionals, resource parents, biological parents  
50.10 and caregivers, and other community members with expertise in child welfare racial  
50.11 disparities and implicit bias. Content must be structured to reflect the variety of communities  
50.12 served by the child welfare system in Minnesota and must be informed with attention to  
50.13 both child safety and the evidence-based understanding that maintaining family relationships  
50.14 and preventing out-of-home placement are essential to child well-being. Training delivered  
50.15 by the Child Welfare Training Academy must emphasize racial disparities and  
50.16 disproportionate child welfare outcomes that exist in Minnesota and must include specific  
50.17 content on recognizing and addressing implicit bias.

50.18 (d) Each child welfare worker and supervisor must complete a certification, including  
50.19 a competency-based knowledge test and a skills demonstration, at the completion of the  
50.20 worker's or supervisor's initial training and biennially thereafter. The commissioner shall  
50.21 develop ongoing training requirements and a method for tracking certifications.

50.22 (e) The Child Welfare Training Academy must serve the primary training audiences of  
50.23 (1) county and tribal child welfare workers, (2) county and tribal child welfare supervisors,  
50.24 and (3) staff at private agencies providing out-of-home placement services for children  
50.25 involved in Minnesota's county and tribal child welfare system.

50.26 Subd. 3. **Partnerships.** The commissioner of human services shall enter into a partnership  
50.27 with the University of Minnesota to collaborate in the administration of workforce training.

50.28 Subd. 4. **Rulemaking.** The commissioner of human services may adopt rules as necessary  
50.29 to establish the Child Welfare Training Academy.

50.30 Sec. 44. **CHILD WELFARE CASELOAD STUDY.**

50.31 (a) The commissioner of human services shall conduct a child welfare caseload study  
50.32 to collect data on (1) the number of child welfare workers in Minnesota, and (2) the amount

51.1 of time that child welfare workers spend on different components of child welfare work.

51.2 The study must be completed by October 1, 2020.

51.3 (b) The commissioner shall report the results of the child welfare caseload study to the  
51.4 governor and to the chairs and ranking minority members of the committees in the house  
51.5 of representatives and senate with jurisdiction over human services by December 1, 2020.

51.6 (c) After the child welfare caseload study is complete, the commissioner shall work with  
51.7 counties and other stakeholders to develop a process for ongoing monitoring of child welfare  
51.8 workers' caseloads.

51.9 **Sec. 45. FIRST CHILDREN'S FINANCE CHILD CARE SITE ASSISTANCE.**

51.10 Subdivision 1. **Purposes.** Grants to First Children's Finance are for loans to improve  
51.11 child care or early childhood education sites, or loans to plan, design, and construct or  
51.12 expand licensed and legal nonlicensed sites to increase the availability of child care or early  
51.13 childhood education.

51.14 Subd. 2. **Financing program.** (a) First Children's Finance must use grant funds to:

51.29 (1) by September 30, 2020, and September 30, 2021, report to the commissioner of  
51.30 human services the purposes for which the money was used during the past fiscal year,  
51.31 including a description of projects supported by the financing, an account of loans made

52.1 during the calendar year, the financing program's assets and liabilities, and an explanation  
52.2 of administrative expenses; and

52.3 (2) submit to the commissioner of human services a copy of the report of an independent  
52.4 audit performed in accordance with generally accepted accounting practices and auditing  
52.5 standards, for each fiscal year in which grants are received.

52.6 Sec. 46. **DIRECTION TO COMMISSIONER; HOMELESS YOUTH ACCESS TO**  
52.7 **BIRTH RECORDS AND MINNESOTA IDENTIFICATION CARDS.**

52.10 minority members of the legislative committees and divisions with jurisdiction over the  
52.11 Homeless Youth Act with recommendations on providing homeless youth with access to  
52.12 birth records and Minnesota identification cards at no cost.

52.13 Sec. 47. **DIRECTION TO COMMISSIONER; FAMILY FIRST PREVENTION**  
52.14 **KINSHIP SERVICES.**

52.15 The commissioner of human services shall review opportunities to implement kinship  
52.16 navigator models that support placement of children with relative foster parents in anticipation  
52.17 of reimbursement for eligible services under the Family First Prevention Services Act.  
52.18 Kinship navigator models would assist relative foster parents with home studies and licensing  
52.19 requirements and provide ongoing support to the relative caregivers and children in  
52.20 out-of-home placement with relatives.

52.21 **EFFECTIVE DATE.** This section is effective the day following final enactment.

52.22 Sec. 48. **DIRECTION TO COMMISSIONER; RELATIVE SEARCH.**

52.23 The commissioner of human services shall develop and provide guidance to assist local  
52.24 social services agencies in conducting relative searches under Minnesota Statutes, section

63.13 commissioner or county agency shall subtract the maximum daily rate from the total amount  
63.14 paid to a provider for each day that a child's attendance record is missing, unavailable,  
63.15 incomplete, inaccurate, or otherwise inadequate.

63.16 (e) The commissioner shall develop criteria for a county to determine an attendance  
63.17 record overpayment under this subdivision.

63.18 **EFFECTIVE DATE.** This section is effective July 1, 2019.

63.19 Sec. 8. Minnesota Statutes 2018, section 119B.13, subdivision 6, is amended to read:

63.20 Subd. 6. **Provider payments.** (a) A provider shall bill only for services documented  
63.21 according to section 119B.125, subdivision 6. The provider shall bill for services provided  
63.22 within ten days of the end of the service period. Payments under the child care fund shall  
63.23 be made within 21 days of receiving a complete bill from the provider. Counties or the state  
63.24 may establish policies that make payments on a more frequent basis.

63.25 (b) If a provider has received an authorization of care and been issued a billing form for  
63.26 an eligible family, the bill must be submitted within 60 days of the last date of service on  
63.27 the bill. A bill submitted more than 60 days after the last date of service must be paid if the  
63.28 county determines that the provider has shown good cause why the bill was not submitted  
63.29 within 60 days. Good cause must be defined in the county's child care fund plan under  
63.30 section 119B.08, subdivision 3, and the definition of good cause must include county error.  
63.31 Any bill submitted more than a year after the last date of service on the bill must not be  
63.32 paid.

64.1 (c) If a provider provided care for a time period without receiving an authorization of  
64.2 care and a billing form for an eligible family, payment of child care assistance may only be  
64.3 made retroactively for a maximum of six months from the date the provider is issued an  
64.4 authorization of care and billing form.

64.5 (d) A county or the commissioner may refuse to issue a child care authorization to a  
64.6 licensed or legal nonlicensed provider, revoke an existing child care authorization to a  
64.7 licensed or legal nonlicensed provider, stop payment issued to a licensed or legal nonlicensed  
64.8 provider, or refuse to pay a bill submitted by a licensed or legal nonlicensed provider if:

64.9 (1) the provider admits to intentionally giving the county materially false information  
64.10 on the provider's billing forms;

64.11 (2) a county or the commissioner finds by a preponderance of the evidence that the  
64.12 provider intentionally gave the county materially false information on the provider's billing  
64.13 forms, or provided false attendance records to a county or the commissioner;

64.14 (3) the provider is in violation of child care assistance program rules, until the agency  
64.15 determines those violations have been corrected;

64.16 (4) the provider is operating after:

64.17 (i) an order of suspension of the provider's license issued by the commissioner;

64.18 (ii) an order of revocation of the provider's license; or

64.19 (iii) a final order of conditional license issued by the commissioner for as long as the  
64.20 conditional license is in effect;

64.21 (5) the provider submits false attendance reports or refuses to provide documentation  
64.22 of the child's attendance upon request; ~~or~~

64.23 (6) the provider gives false child care price information; or

64.24 (7) the provider fails to report decreases in a child's attendance as required under section  
64.25 119B.125, subdivision 9.

64.26 (e) For purposes of paragraph (d), clauses (3), (5), ~~and (6)~~, and (7), the county or the  
64.27 commissioner may withhold the provider's authorization or payment for a period of time  
64.28 not to exceed three months beyond the time the condition has been corrected.

64.29 (f) A county's payment policies must be included in the county's child care plan under  
64.30 section 119B.08, subdivision 3. If payments are made by the state, in addition to being in  
64.31 compliance with this subdivision, the payments must be made in compliance with section  
64.32 16A.124.

65.1 **EFFECTIVE DATE.** This section is effective July 1, 2019.

65.2 Sec. 9. Minnesota Statutes 2018, section 119B.13, subdivision 7, is amended to read:

65.3 Subd. 7. **Absent days.** (a) Licensed child care providers and license-exempt centers  
65.4 must not be reimbursed for more than 25 full-day absent days per child, excluding holidays,  
65.5 in a ~~fiscal~~ calendar year, or for more than ten consecutive full-day absent days. "Absent  
65.6 day" means any day that the child is authorized and scheduled to be in care with a licensed  
65.7 provider or license-exempt center, and the child is absent from the care for the entire day.  
65.8 Legal nonlicensed family child care providers must not be reimbursed for absent days. If a  
65.9 child attends for part of the time authorized to be in care in a day, but is absent for part of  
65.10 the time authorized to be in care in that same day, the absent time must be reimbursed but  
65.11 the time must not count toward the absent days limit. Child care providers must only be  
65.12 reimbursed for absent days if the provider has a written policy for child absences and charges  
65.13 all other families in care for similar absences.

65.14 (b) Notwithstanding paragraph (a), children with documented medical conditions that  
65.15 cause more frequent absences may exceed the 25 absent days limit, or ten consecutive  
65.16 full-day absent days limit. Absences due to a documented medical condition of a parent or  
65.17 sibling who lives in the same residence as the child receiving child care assistance do not  
65.18 count against the absent days limit in a ~~fiscal~~ calendar year. Documentation of medical  
65.19 conditions must be on the forms and submitted according to the timelines established by  
65.20 the commissioner. A public health nurse or school nurse may verify the illness in lieu of a  
65.21 medical practitioner. If a provider sends a child home early due to a medical reason,  
65.22 including, but not limited to, fever or contagious illness, the child care center director or  
65.23 lead teacher may verify the illness in lieu of a medical practitioner.

65.24 (c) Notwithstanding paragraph (a), children in families may exceed the absent days limit  
65.25 if at least one parent: (1) is under the age of 21; (2) does not have a high school diploma or  
65.26 commissioner of education-selected high school equivalency certification; and (3) is a  
65.27 student in a school district or another similar program that provides or arranges for child  
65.28 care, parenting support, social services, career and employment supports, and academic  
65.29 support to achieve high school graduation, upon request of the program and approval of the  
65.30 county. If a child attends part of an authorized day, payment to the provider must be for the  
65.31 full amount of care authorized for that day.

65.32 (d) Child care providers must be reimbursed for up to ten federal or state holidays or  
65.33 designated holidays per year when the provider charges all families for these days and the  
65.34 holiday or designated holiday falls on a day when the child is authorized to be in attendance.

66.1 Parents may substitute other cultural or religious holidays for the ten recognized state and  
66.2 federal holidays. Holidays do not count toward the absent days limit.

66.3 (e) A family or child care provider must not be assessed an overpayment for an absent  
66.4 day payment unless (1) there was an error in the amount of care authorized for the family,  
66.5 (2) all of the allowed full-day absent payments for the child have been paid, or (3) the family  
66.6 or provider did not timely report a change as required under law.

66.7 (f) The provider and family shall receive notification of the number of absent days used  
66.8 upon initial provider authorization for a family and ongoing notification of the number of  
66.9 absent days used as of the date of the notification.

66.10 (g) For purposes of this subdivision, "absent days limit" means 25 full-day absent days  
66.11 per child, excluding holidays, in a ~~fixed~~ calendar year; and ten consecutive full-day absent  
66.12 days.

66.13 (h) For purposes of this subdivision, "holidays limit" means ten full-day holidays per  
66.14 child, excluding absent days, in a calendar year.

66.15 (i) If a day meets the criteria of an absent day or a holiday under this subdivision, the  
66.16 provider must bill that day as an absent day or holiday. A provider's failure to properly bill  
66.17 an absent day or a holiday results in an overpayment, regardless of whether the child reached,  
66.18 or is exempt from, the absent days limit or holidays limit for the calendar year.

66.19 **EFFECTIVE DATE.** This section is effective July 1, 2019.

66.20 Sec. 10. Minnesota Statutes 2018, section 144.057, subdivision 3, is amended to read:

66.21 Subd. 3. **Reconsiderations.** The commissioner of health shall review and decide  
66.22 reconsideration requests, including the granting of variances, in accordance with the  
66.23 procedures and criteria contained in chapter 245C. The commissioner must set aside a  
66.24 disqualification for an individual who requests reconsideration and who meets the criteria  
66.25 described in section 245C.22, subdivision 4, paragraph (d). The commissioner's decision  
66.26 shall be provided to the individual and to the Department of Human Services. The  
66.27 commissioner's decision to grant or deny a reconsideration of disqualification is the final  
66.28 administrative agency action, except for the provisions under sections 245C.25, 245C.27,  
66.29 and 245C.28, subdivision 3.

67.1 Sec. 11. Minnesota Statutes 2018, section 245.095, is amended to read:

 67.4 ~~or receiving funds under a grant contract, or registered~~ in any program administered by the  
 67.5 commissioner, including under the commissioner's powers and authorities in section 256.01,  
 67.6 is excluded from any that program administered by the commissioner, including under the  
 67.7 ~~commissioner's powers and authorities in section 256.01,~~ the commissioner shall:

67.8 (1) prohibit the excluded provider, vendor, or individual from enrolling or becoming  
 67.9 licensed, receiving grant funds, or registering in any other program administered by the  
 67.10 commissioner; and

67.11 (2) disenroll, revoke or suspend a license, disqualify, or debar the excluded provider,  
 67.12 vendor, or individual in any other program administered by the commissioner.

67.13 (b) The duration of this prohibition, disenrollment, revocation, suspension,  
 67.14 disqualification, or debarment must last for the longest applicable sanction or disqualifying  
 67.15 period in effect for the provider, vendor, or individual permitted by state or federal law.

 67.17 meanings given them.

69.23 under section 245D.03, subdivision 1, paragraph (b), clause (1). A residential program does

69.26 include multifamily dwellings where persons receive integrated community supports, even  
69.27 if authorization to provide these supports is granted under chapter 245D and approved in

69.29 Sec. 19. Minnesota Statutes 2018, section 245A.02, subdivision 18, is amended to read:

69.30 Subd. 18. **Supervision.** (a) For purposes of licensed child care centers, "supervision"

70.5 (b) to (d).

70.6 (b) When an infant is placed in a crib room to sleep, supervision occurs when a program  
70.7 staff person is within sight or hearing of the infant. When supervision of a crib room is  
70.8 provided by sight or hearing, the center must have a plan to address the other supervision  
70.9 component components.

70.10 (c) When a single school-age child uses the restroom within the licensed space,  
70.11 supervision occurs when a program staff person has knowledge of the child's activity and  
70.12 location and checks on the child at least every five minutes. When a school-age child uses  
70.13 the restroom outside the licensed space, including but not limited to field trips, supervision  
70.14 occurs when staff accompany children to the restroom.

70.15 (d) When a school-age child leaves the classroom but remains within the licensed space  
70.16 to deliver or retrieve items from the child's personal storage space, supervision occurs when  
70.17 a program staff person has knowledge of the child's activity and location and checks on the

70.27 placement activities as defined in section 259.21, subdivision 9, in this state, whether or not  
70.28 the adoption occurs in this state; or

70.29 (4) advertise a residential or nonresidential program.

70.30 **EFFECTIVE DATE.** This section is effective January 1, 2020.

71.1 Sec. 21. Minnesota Statutes 2018, section 245A.03, subdivision 3, is amended to read:

71.2 Subd. 3. **Unlicensed programs.** (a) It is a misdemeanor for an individual, ~~corporation,~~  
71.3 ~~partnership, voluntary association, other organization, or a controlling individual~~ government  
71.4 entity to provide a residential or nonresidential program without a license issued under this  
71.5 chapter and in willful disregard of this chapter unless the program is excluded from licensure  
71.6 under subdivision 2.

71.7 (b) The commissioner may ask the appropriate county attorney or the attorney general  
71.8 to begin proceedings to secure a court order against the continued operation of the program,  
71.9 if an individual, ~~corporation, partnership, voluntary association, other organization, or~~  
71.10 ~~controlling individual~~ government entity has:

71.11 (1) failed to apply for a license under this chapter after receiving notice that a license is  
71.12 required or continues to operate without a license after receiving notice that a license is  
71.13 required;

71.14 (2) continued to operate without a license after ~~the~~ a license issued under this chapter  
71.15 has been revoked or suspended under section 245A.07 this chapter, and the commissioner  
71.16 has issued a final order affirming the revocation or suspension, or the license holder did not  
71.17 timely appeal the sanction; or

71.18 (3) continued to operate without a license after ~~the~~ a temporary immediate suspension  
71.19 of a license has been temporarily suspended under section 245A.07 issued under this chapter.

71.20 (c) The county attorney and the attorney general have a duty to cooperate with the  
71.21 commissioner.

71.22 **EFFECTIVE DATE.** This section is effective January 1, 2020.

71.23 Sec. 22. Minnesota Statutes 2018, section 245A.04, subdivision 1, is amended to read:

71.24 Subdivision 1. **Application for licensure.** (a) An individual, ~~corporation, partnership,~~  
71.25 ~~voluntary association, other organization or controlling individual, or government entity~~  
71.26 that is subject to licensure under section 245A.03 must apply for a license. The application  
71.27 must be made on the forms and in the manner prescribed by the commissioner. The  
71.28 commissioner shall provide the applicant with instruction in completing the application and  
71.29 provide information about the rules and requirements of other state agencies that affect the  
71.30 applicant. An applicant seeking licensure in Minnesota with headquarters outside of  
71.31 Minnesota must have a program office located within 30 miles of the state Minnesota border.  
71.32 An applicant who intends to buy or otherwise acquire a program or services licensed under

72.1 this chapter that is owned by another license holder must apply for a license under this  
72.2 chapter and comply with the application procedures in this section and section 245A.03.

72.3 The commissioner shall act on the application within 90 working days after a complete  
72.4 application and any required reports have been received from other state agencies or  
72.5 departments, counties, municipalities, or other political subdivisions. The commissioner  
72.6 shall not consider an application to be complete until the commissioner receives all of the  
72.7 ~~information required under section 245C.05~~ information.

72.8 When the commissioner receives an application for initial licensure that is incomplete  
72.9 because the applicant failed to submit required documents or that is substantially deficient  
72.10 because the documents submitted do not meet licensing requirements, the commissioner  
72.11 shall provide the applicant written notice that the application is incomplete or substantially  
72.12 deficient. In the written notice to the applicant the commissioner shall identify documents  
72.13 that are missing or deficient and give the applicant 45 days to resubmit a second application  
72.14 that is substantially complete. An applicant's failure to submit a substantially complete  
72.15 application after receiving notice from the commissioner is a basis for license denial under  
72.16 section 245A.05.

72.17 (b) An application for licensure must identify all controlling individuals as defined in  
72.18 section 245A.02, subdivision 5a, and must ~~specify an~~ designate one individual to be the  
72.19 authorized agent who is responsible for dealing with the commissioner of human services  
72.20 ~~on all matters provided for in this chapter and on whom service of all notices and orders~~  
72.21 ~~must be made.~~ The application must be signed by the authorized agent and must include  
72.22 the authorized agent's first, middle, and last name; mailing address; and e-mail address. By  
72.23 submitting an application for licensure, the authorized agent consents to electronic  
72.24 communication with the commissioner throughout the application process. The authorized  
72.25 agent must be authorized to accept service on behalf of all of the controlling individuals of  
72.26 ~~the program.~~ A government entity that holds multiple licenses under this chapter may  
72.27 designate one authorized agent for all licenses issued under this chapter or may designate  
72.28 a different authorized agent for each license. Service on the authorized agent is service on  
72.29 all of the controlling individuals ~~of the program~~. It is not a defense to any action arising  
72.30 under this chapter that service was not made on each controlling individual ~~of the program~~.  
72.31 The designation of ~~one or more~~ a controlling ~~individuals~~ individual as ~~agents~~ the authorized  
72.32 agent under this paragraph does not affect the legal responsibility of any other controlling  
72.33 individual under this chapter.

72.34 (c) An applicant or license holder must have a policy that prohibits license holders,  
72.35 employees, subcontractors, and volunteers, when directly responsible for persons served

73.1 by the program, from abusing prescription medication or being in any manner under the  
73.2 influence of a chemical that impairs the individual's ability to provide services or care. The  
73.3 license holder must train employees, subcontractors, and volunteers about the program's  
73.4 drug and alcohol policy.

73.5 (d) An applicant and license holder must have a program grievance procedure that permits  
73.6 persons served by the program and their authorized representatives to bring a grievance to  
73.7 the highest level of authority in the program.

73.8 ~~(e) The applicant must be able to demonstrate competent knowledge of the applicable~~

75.21 provide notice through electronic communication. The notification must be given before  
75.22 the first issuance of a license under this chapter and annually after that time if annual  
75.23 notification is requested in writing by the affected municipality or other political subdivision.  
75.24 State funds must not be made available to or be spent by an agency or department of state,  
75.25 county, or municipal government for payment to a residential or nonresidential program  
75.26 licensed under this chapter until the provisions of this subdivision have been complied with  
75.27 in full. The provisions of this subdivision shall not apply to programs located in hospitals.

75.28 **EFFECTIVE DATE.** This section is effective January 1, 2020.

76.1 Sec. 24. Minnesota Statutes 2018, section 245A.04, subdivision 4, is amended to read:

76.2 Subd. 4. **Inspections; waiver.** (a) Before issuing ~~an initial~~ a license under this chapter,  
76.3 the commissioner shall conduct an inspection of the program. The inspection must include  
76.4 but is not limited to:

76.5 (1) an inspection of the physical plant;

76.6 (2) an inspection of records and documents;

76.7 ~~(3) an evaluation of the program by consumers of the program;~~

76.8 ~~(4)~~ (3) observation of the program in operation; and

76.9 ~~(5)~~ (4) an inspection for the health, safety, and fire standards in licensing requirements  
76.10 for a child care license holder.

76.11 ~~For the purposes of this subdivision, "consumer" means a person who receives the~~  
76.12 ~~services of a licensed program, the person's legal guardian, or the parent or individual having~~  
76.13 ~~legal custody of a child who receives the services of a licensed program.~~

76.14 (b) ~~The evaluation required in paragraph (a), clause (3), or the observation in paragraph~~  
76.15 ~~(a), clause (4) (3), is not required prior to issuing an initial~~ a license under subdivision 7. If  
76.16 the commissioner issues an initial ~~under subdivision 7~~ this chapter, these  
76.17 requirements must be completed within one year after the issuance of ~~an initial~~ the license.

76.18 (c) Before completing a licensing inspection in a family child care program or child care  
76.19 center, the licensing agency must offer the license holder an exit interview to discuss  
76.20 violations or potential violations of law or rule observed during the inspection and offer  
76.21 technical assistance on how to comply with applicable laws and rules. ~~Nothing in this~~  
76.22 ~~paragraph limits the ability of the commissioner to issue a correction order or negative~~  
76.23 ~~action for violations of law or rule not discussed in an exit interview or in the event that a~~  
76.24 ~~license holder chooses not to participate in an exit interview.~~ The commissioner shall not  
76.25 issue a correction order or negative licensing action for violations of law or rule not discussed  
76.26 in an exit interview, unless a license holder chooses not to participate in an exit interview  
76.27 or not to complete the exit interview. If the license holder is unable to complete the exit  
76.28 interview, the licensing agency must offer an alternate time for the license holder to complete  
76.29 the exit interview.

76.30 (d) If a family child care license holder disputes a county licenser's interpretation of a  
76.31 licensing requirement during a licensing inspection or exit interview, the license holder  
76.32 may, within five business days after the exit interview or licensing inspection, request  
76.33 clarification from the commissioner, in writing, in a manner prescribed by the commissioner.

77.1 The license holder's request must describe the county licensor's interpretation of the licensing  
 77.2 requirement at issue, and explain why the license holder believes the county licensor's  
 77.3 interpretation is inaccurate. The commissioner and the county must include the license  
 77.4 holder in all correspondence regarding the disputed interpretation, and must provide an  
 77.5 opportunity for the license holder to contribute relevant information that may impact the  
 77.6 commissioner's decision. The county licensor must not issue a correction order related to  
 77.7 the disputed licensing requirement until the commissioner has provided clarification to the  
 77.8 license holder about the licensing requirement.

77.9 ~~(d)~~ (e) The commissioner or the county shall inspect at least annually a child care provider  
 77.10 licensed under this chapter and Minnesota Rules, chapter 9502 or 9503, for compliance  
 77.11 with applicable licensing standards.

77.12 ~~(e)~~ (f) No later than November 19, 2017, the commissioner shall make publicly available  
 77.13 on the department's website the results of inspection reports of all child care providers  
 77.14 licensed under this chapter and under Minnesota Rules, chapter 9502 or 9503, and the  
 77.15 number of deaths, serious injuries, and instances of substantiated child maltreatment that  
 77.16 occurred in licensed child care settings each year.

77.17 **EFFECTIVE DATE.** The amendments to paragraphs (a) and (b) are effective January  
 77.18 1, 2020. The amendments to paragraphs (c) to (f) are effective September 30, 2019.

77.20 Subd. 6. **Commissioner's evaluation.** (a) Before issuing, denying, suspending, revoking,  
 77.21 or making conditional a license, the commissioner shall evaluate information gathered under  
 77.22 this section. The commissioner's evaluation shall consider the applicable requirements of  
 77.23 statutes and rules for the program or services for which the applicant seeks a license,  
 77.24 including the disqualification standards set forth in chapter 245C, and shall evaluate facts,  
 77.25 conditions, or circumstances concerning:

77.26 (1) the program's operation;

77.27 (2) the well-being of persons served by the program;

77.28 (3) available consumer evaluations of the program, and by persons receiving services;

77.29 (4) information about the qualifications of the personnel employed by the applicant or  
 77.30 license holder; and

78.1 (5) the applicant's or license holder's ability to demonstrate competent knowledge of the  
78.2 applicable requirements of statutes and rules, including this chapter and chapter 245C, for  
78.3 which the applicant seeks a license or the license holder is licensed.

78.4 (b) The commissioner shall also evaluate the results of the study required in subdivision  
78.5 3 and determine whether a risk of harm to the persons served by the program exists. In  
78.6 conducting this evaluation, the commissioner shall apply the disqualification standards set  
78.7 forth in chapter 245C.

78.8 **EFFECTIVE DATE.** This section is effective January 1, 2020.

78.9 Sec. 26. Minnesota Statutes 2018, section 245A.04, subdivision 7, is amended to read:

78.10 Subd. 7. **Grant of license; license extension.** (a) If the commissioner determines that  
78.11 the program complies with all applicable rules and laws, the commissioner shall issue a  
78.12 license consistent with this section or, if applicable, a temporary change of ownership license  
78.13 under section 245A.043. At minimum, the license shall state:

78.14 (1) the name of the license holder;

78.15 (2) the address of the program;

78.16 (3) the effective date and expiration date of the license;

78.17 (4) the type of license;

78.18 (5) the maximum number and ages of persons that may receive services from the program;

78.19 and

78.20 (6) any special conditions of licensure.

78.21 (b) The commissioner may issue ~~an initial~~ a license for a period not to exceed two years  
78.22 if:

78.23 (1) the commissioner is unable to conduct the evaluation or observation required by  
78.24 subdivision 4, paragraph (a), ~~clauses (3) and~~ clause (4), because the program is not yet  
78.25 operational;

78.26 (2) certain records and documents are not available because persons are not yet receiving  
78.27 services from the program; and

78.28 (3) the applicant complies with applicable laws and rules in all other respects.

78.29 (c) A decision by the commissioner to issue a license does not guarantee that any person  
78.30 or persons will be placed or cared for in the licensed program. ~~A license shall not be~~

79.1 ~~transferable to another individual, corporation, partnership, voluntary association, other~~  
 79.2 ~~organization, or controlling individual or to another location.~~

79.3 ~~(d) A license holder must notify the commissioner and obtain the commissioner's approval~~  
 79.4 ~~before making any changes that would alter the license information listed under paragraph~~  
 79.5 ~~(a).~~

79.6 ~~(e)~~ (d) Except as provided in paragraphs ~~(g)~~ (f) and ~~(h)~~ (g), the commissioner shall not  
 79.7 issue or reissue a license if the applicant, license holder, or controlling individual has:

79.8 (1) been disqualified and the disqualification was not set aside and no variance has been  
 79.9 granted;

79.10 (2) been denied a license under this chapter, within the past two years;

79.11 (3) had a license issued under this chapter revoked within the past five years;

79.12 (4) an outstanding debt related to a license fee, licensing fine, or settlement agreement  
 79.13 for which payment is delinquent; or

79.14 (5) failed to submit the information required of an applicant under subdivision 1,  
 79.15 paragraph (f) or (g), after being requested by the commissioner.

79.16 When a license issued under this chapter is revoked under clause (1) or (3), the license  
 79.17 holder and controlling individual may not hold any license under chapter 245A ~~or 245D~~ for  
 79.18 five years following the revocation, and other licenses held by the applicant, license holder,  
 79.19 or controlling individual shall also be revoked.

79.20 ~~(f)~~ (e) The commissioner shall not issue or reissue a license under this chapter if an  
 79.21 individual living in the household where the licensed services will be provided as specified  
 79.22 under section 245C.03, subdivision 1, has been disqualified and the disqualification has not  
 79.23 been set aside and no variance has been granted.

79.24 ~~(g)~~ (f) Pursuant to section 245A.07, subdivision 1, paragraph (b), when a license issued  
 79.25 under this chapter has been suspended or revoked and the suspension or revocation is under  
 79.26 appeal, the program may continue to operate pending a final order from the commissioner.  
 79.27 If the license under suspension or revocation will expire before a final order is issued, a  
 79.28 temporary provisional license may be issued provided any applicable license fee is paid  
 79.29 before the temporary provisional license is issued.

79.30 ~~(h)~~ (g) Notwithstanding paragraph ~~(g)~~ (f), when a revocation is based on the  
 79.31 disqualification of a controlling individual or license holder, and the controlling individual  
 79.32 or license holder is ordered under section 245C.17 to be immediately removed from direct

80.1 contact with persons receiving services or is ordered to be under continuous, direct  
80.2 supervision when providing direct contact services, the program may continue to operate  
80.3 only if the program complies with the order and submits documentation demonstrating  
80.4 compliance with the order. If the disqualified individual fails to submit a timely request for  
80.5 reconsideration, or if the disqualification is not set aside and no variance is granted, the  
80.6 order to immediately remove the individual from direct contact or to be under continuous,  
80.7 direct supervision remains in effect pending the outcome of a hearing and final order from  
80.8 the commissioner.

80.9 ~~(h)~~ (h) For purposes of reimbursement for meals only, under the Child and Adult Care  
80.10 Food Program, Code of Federal Regulations, title 7, subtitle B, chapter II, subchapter A,  
80.11 part 226, relocation within the same county by a licensed family day care provider, shall  
80.12 be considered an extension of the license for a period of no more than 30 calendar days or  
80.13 until the new license is issued, whichever occurs first, provided the county agency has  
80.14 determined the family day care provider meets licensure requirements at the new location.

80.15 ~~(i)~~ (i) Unless otherwise specified by statute, all licenses issued under this chapter expire  
80.16 at 12:01 a.m. on the day after the expiration date stated on the license. A license holder must  
80.17 apply for and be granted a new license to operate the program or the program must not be  
80.18 operated after the expiration date.

80.19 ~~(j)~~ (j) The commissioner shall not issue or reissue a license under this chapter if it has  
80.20 been determined that a tribal licensing authority has established jurisdiction to license the  
80.21 program or service.

80.22 **EFFECTIVE DATE.** This section is effective January 1, 2020.

80.23 Sec. 27. Minnesota Statutes 2018, section 245A.04, is amended by adding a subdivision

80.26 a manner prescribed by the commissioner, and obtain the commissioner's approval before  
80.27 making any change that would alter the license information listed under subdivision 7,  
80.28 paragraph (a).

80.29 (b) A license holder must also notify the commissioner, in a manner prescribed by the  
80.30 commissioner, before making any change:

80.31 (1) to the license holder's authorized agent as defined in section 245A.02, subdivision

81.4 (4) in the location of the program or service licensed under this chapter; and

81.6 (c) When, for reasons beyond the license holder's control, a license holder cannot provide  
81.7 the commissioner with prior notice of the changes in paragraph (b), clauses (1) to (3), the  
81.8 license holder must notify the commissioner by the tenth business day after the change and  
81.9 must provide any additional information requested by the commissioner.

81.10 (d) When a license holder notifies the commissioner of a change to the license holder  
81.11 information on file with the secretary of state, the license holder must provide amended

81.17 commissioner of corrections under section 241.021, may grant a variance for a licensed

81.20 the child of the parenting youth; (ii) siblings to remain together; (iii) a child with an  
81.21 established meaningful relationship with the family to remain with the family; or (iv) a

81.29 and specifies how the license holder will maintain a ratio of adults to children that ensures  
81.30 the safety and appropriate supervision of all the children in the home.

82.1 (b) A variance granted to a family foster home under Minnesota Rules, part 2960.3030,  
82.2 subpart 3, prior to October 1, 2019, remains in effect until January 1, 2020.

82.3 Sec. 29. Minnesota Statutes 2018, section 245A.04, subdivision 10, is amended to read:

82.4 Subd. 10. **Adoption agency; additional requirements.** In addition to the other  
82.5 requirements of this section, an individual, ~~corporation, partnership, voluntary association,~~

82.10 section 259.37, subdivision 2;

82.11 (3) provide evidence that a bond has been obtained and will be continuously maintained  
82.12 throughout the entire operating period of the agency, to cover the cost of transfer of records  
82.13 to and storage of records by the agency which has agreed, according to rule established by  
82.14 the commissioner, to receive the applicant agency's records if the applicant agency voluntarily  
82.15 or involuntarily ceases operation and fails to provide for proper transfer of the records. The  
82.16 bond must be made in favor of the agency which has agreed to receive the records; and

82.17 (4) submit a certified audit to the commissioner each year the license is renewed as  
82.18 required under section 245A.03, subdivision 1.

82.19 **EFFECTIVE DATE.** This section is effective January 1, 2020.

82.20 Sec. 30. **[245A.043] LICENSE APPLICATION AFTER CHANGE OF OWNERSHIP.**

82.21 Subdivision 1. **Transfer prohibited.** A license issued under this chapter is only valid  
82.22 for a premises and individual, organization, or government entity identified by the  
82.23 commissioner on the license. A license is not transferable or assignable.

82.24 Subd. 2. **Change in ownership.** (a) If the commissioner determines that there is a change  
82.25 in ownership, the commissioner shall require submission of a new license application. This  
82.26 subdivision does not apply to a licensed program or service located in a home where the  
82.27 license holder resides. A change in ownership occurs when:

82.28 (1) the license holder sells or transfers 100 percent of the property, stock, or assets;

82.29 (2) the license holder merges with another organization;

82.30 (3) the license holder consolidates with two or more organizations, resulting in the  
82.31 creation of a new organization;

83.1 (4) there is a change to the federal tax identification number associated with the license  
83.2 holder; or

83.3 (5) all controlling individuals associated with the original application have changed.

83.4 (b) Notwithstanding paragraph (a), clauses (1) and (5), no change in ownership has  
83.5 occurred if at least one controlling individual has been listed as a controlling individual for  
83.6 the license for at least the previous 12 months.

83.7 Subd. 3. **Change of ownership process.** (a) When a change in ownership is proposed  
83.8 and the party intends to assume operation without an interruption in service longer than 60  
83.9 days after acquiring the program or service, the license holder must provide the commissioner  
83.10 with written notice of the proposed change on a form provided by the commissioner at least  
83.11 60 days before the anticipated date of the change in ownership. For purposes of this  
83.12 subdivision and subdivision 4, "party" means the party that intends to operate the service  
83.13 or program.

83.14 (b) The party must submit a license application under this chapter on the form and in  
83.15 the manner prescribed by the commissioner at least 30 days before the change in ownership  
83.16 is complete, and must include documentation to support the upcoming change. The party  
83.17 must comply with background study requirements under chapter 245C and shall pay the  
83.18 application fee required under section 245A.10. A party that intends to assume operation  
83.19 without an interruption in service longer than 60 days after acquiring the program or service  
83.20 is exempt from the requirements of Minnesota Rules, part 9530.6800.

83.21 (c) The commissioner may streamline application procedures when the party is an existing  
83.22 license holder under this chapter and is acquiring a program licensed under this chapter or  
83.23 service in the same service class as one or more licensed programs or services the party  
83.24 operates and those licenses are in substantial compliance. For purposes of this subdivision,  
83.25 "substantial compliance" means within the previous 12 months the commissioner did not  
83.26 (1) issue a sanction under section 245A.07 against a license held by the party, or (2) make  
83.27 a license held by the party conditional according to section 245A.06.

83.28 (d) Except when a temporary change in ownership license is issued pursuant to  
83.29 subdivision 4, the existing license holder is solely responsible for operating the program  
83.30 according to applicable laws and rules until a license under this chapter is issued to the  
83.31 party.

83.32 (e) If a licensing inspection of the program or service was conducted within the previous  
83.33 12 months and the existing license holder's record demonstrates substantial compliance with  
83.34 the applicable licensing requirements, the commissioner may waive the party's inspection

84.1 required by section 245A.04, subdivision 4. The party must submit to the commissioner (1)  
84.2 proof that the premises was inspected by a fire marshal or that the fire marshal deemed an  
84.3 inspection was not warranted, and (2) proof that the premises was inspected for compliance  
84.4 with the building code or no inspection was deemed warranted.

84.5 (f) If the party is seeking a license for a program or service that has an outstanding action  
84.6 under section 245A.06 or 245A.07, the party must submit a letter as part of the application  
84.7 process identifying how the party has or will come into full compliance with the licensing  
84.8 requirements.

84.9 (g) The commissioner shall evaluate the party's application according to section 245A.04,  
84.10 subdivision 6. If the commissioner determines that the party has remedied or demonstrates  
84.11 the ability to remedy the outstanding actions under section 245A.06 or 245A.07 and has  
84.12 determined that the program otherwise complies with all applicable laws and rules, the  
84.13 commissioner shall issue a license or conditional license under this chapter. The conditional  
84.14 license remains in effect until the commissioner determines that the grounds for the action  
84.15 are corrected or no longer exist.

84.16 (h) The commissioner may deny an application as provided in section 245A.05. An  
84.17 applicant whose application was denied by the commissioner may appeal the denial according  
84.18 to section 245A.05.

84.19 (i) This subdivision does not apply to a licensed program or service located in a home  
84.20 where the license holder resides.

84.21 Subd. 4. **Temporary change in ownership license.** (a) After receiving the party's  
84.22 application pursuant to subdivision 3, upon the written request of the existing license holder  
84.23 and the party, the commissioner may issue a temporary change in ownership license to the  
84.24 party while the commissioner evaluates the party's application. Until a decision is made to  
84.25 grant or deny a license under this chapter, the existing license holder and the party shall  
84.26 both be responsible for operating the program or service according to applicable laws and  
84.27 rules, and the sale or transfer of the existing license holder's ownership interest in the licensed  
84.28 program or service does not terminate the existing license.

84.29 (b) The commissioner may issue a temporary change in ownership license when a license  
84.30 holder's death, divorce, or other event affects the ownership of the program and an applicant  
84.31 seeks to assume operation of the program or service to ensure continuity of the program or  
84.32 service while a license application is evaluated.

84.33 (c) This subdivision applies to any program or service licensed under this chapter.

85.1 **EFFECTIVE DATE.** This section is effective January 1, 2020.

85.29 safely provide care to foster children.

85.30 (b) An applicant whose application has been denied by the commissioner must be given  
85.31 notice of the denial, which must state the reasons for the denial in plain language. Notice

86.1 must be given by certified mail or personal service. The notice must state the reasons the  
86.2 application was denied and must inform the applicant of the right to a contested case hearing  
86.3 under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The applicant may  
86.4 appeal the denial by notifying the commissioner in writing by certified mail or personal

86.10 **EFFECTIVE DATE.** This section is effective January 1, 2020, except paragraph (a),  
86.11 clause (11), is effective March 1, 2020.

86.12 **Sec. 32. [245A.055] CLOSING A LICENSE.**

86.13 Subdivision 1. **Inactive programs.** The commissioner shall close a license if the  
86.14 commissioner determines that a licensed program has not been serving any client for a  
86.15 consecutive period of 12 months or longer. The license holder is not prohibited from  
86.16 reapplying for a license if the license holder's license was closed under this chapter.

86.17 Subd. 2. **Reconsideration of closure.** If a license is closed, the commissioner must  
86.18 notify the license holder of closure by certified mail or personal service. If mailed, the notice  
86.19 of closure must be mailed to the last known address of the license holder and must inform  
86.20 the license holder why the license was closed and that the license holder has the right to  
86.21 request reconsideration of the closure. If the license holder believes that the license was  
86.22 closed in error, the license holder may ask the commissioner to reconsider the closure. The  
86.23 license holder's request for reconsideration must be made in writing and must include  
86.24 documentation that the licensed program has served a client in the previous 12 months. The  
86.25 request for reconsideration must be postmarked and sent to the commissioner within 20  
86.26 calendar days after the license holder receives the notice of closure. A timely request for  
86.27 reconsideration stays imposition of the license closure until the commissioner issues a  
86.28 decision on the request for reconsideration.

86.29 Subd. 3. **Reconsideration final.** The commissioner's disposition of a request for  
86.30 reconsideration is final and not subject to appeal under chapter 14.

86.31 **EFFECTIVE DATE.** This section is effective January 1, 2020.

87.1 Sec. 33. Minnesota Statutes 2018, section 245A.07, subdivision 1, is amended to read:

87.2 Subdivision 1. **Sanctions; appeals; license.** (a) In addition to making a license conditional  
87.3 under section 245A.06, the commissioner may suspend or revoke the license, impose a fine,  
87.4 or secure an injunction against the continuing operation of the program of a license holder  
87.5 who does not comply with applicable law or rule or who has nondisqualifying background  
87.6 study information, as described in section 245C.05, subdivision 4, that reflects on the license  
87.7 holder's ability to safely provide care to foster children. When applying sanctions authorized  
87.8 under this section, the commissioner shall consider the nature, chronicity, or severity of the  
87.9 violation of law or rule and the effect of the violation on the health, safety, or rights of  
87.10 persons served by the program.

87.11 (b) If a license holder appeals the suspension or revocation of a license and the license  
87.12 holder continues to operate the program pending a final order on the appeal, the commissioner  
87.13 shall issue the license holder a temporary provisional license. Unless otherwise specified  
87.14 by the commissioner, variances in effect on the date of the license sanction under appeal  
87.15 continue under the temporary provisional license. If a license holder fails to comply with  
87.16 applicable law or rule while operating under a temporary provisional license, the  
87.17 commissioner may impose additional sanctions under this section and section 245A.06, and  
87.18 may terminate any prior variance. If a temporary provisional license is set to expire, a new  
87.19 temporary provisional license shall be issued to the license holder upon payment of any fee  
87.20 required under section 245A.10. The temporary provisional license shall expire on the date  
87.21 the final order is issued. If the license holder prevails on the appeal, a new nonprovisional  
87.22 license shall be issued for the remainder of the current license period.

87.23 (c) If a license holder is under investigation and the license issued under this chapter is  
87.24 due to expire before completion of the investigation, the program shall be issued a new  
87.25 license upon completion of the reapplication requirements and payment of any applicable  
87.26 license fee. Upon completion of the investigation, a licensing sanction may be imposed  
87.27 against the new license under this section, section 245A.06, or 245A.08.

87.28 (d) Failure to reapply or closure of a license issued under this chapter by the license  
87.29 holder prior to the completion of any investigation shall not preclude the commissioner  
87.30 from issuing a licensing sanction under this section, or section 245A.06, ~~or 245A.08~~ at the  
87.31 conclusion of the investigation.

87.32 **EFFECTIVE DATE.** Paragraph (a) is effective March 1, 2020. Paragraphs (c) and (d)  
87.33 are effective January 1, 2020.

88.1 Sec. 34. Minnesota Statutes 2018, section 245A.07, subdivision 2, is amended to read:

88.2 Subd. 2. **Temporary immediate suspension.** (a) The commissioner shall act immediately  
88.3 to temporarily suspend a license issued under this chapter if:

88.4 (1) the license holder's actions or failure to comply with applicable law or rule, or the  
88.5 actions of other individuals or conditions in the program, pose an imminent risk of harm to  
88.6 the health, safety, or rights of persons served by the program; ~~or~~

88.7 (2) while the program continues to operate pending an appeal of an order of revocation,  
88.8 the commissioner identifies one or more subsequent violations of law or rule which may  
88.9 adversely affect the health or safety of persons served by the program; or

88.10 (3) the license holder is criminally charged in state or federal court with an offense that  
88.11 involves fraud or theft against a program administered by the commissioner.

88.12 (b) No state funds shall be made available or be expended by any agency or department  
88.13 of state, county, or municipal government for use by a license holder regulated under this  
88.14 chapter while a license issued under this chapter is under immediate suspension. A notice  
88.15 stating the reasons for the immediate suspension and informing the license holder of the  
88.16 right to an expedited hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to  
88.17 1400.8612, must be delivered by personal service to the address shown on the application  
88.18 or the last known address of the license holder. The license holder may appeal an order  
88.19 immediately suspending a license. The appeal of an order immediately suspending a license  
88.20 must be made in writing by certified mail ~~or~~, personal service, or other means expressly set  
88.21 forth in the commissioner's order. If mailed, the appeal must be postmarked and sent to the  
88.22 commissioner within five calendar days after the license holder receives notice that the  
88.23 license has been immediately suspended. If a request is made by personal service, it must  
88.24 be received by the commissioner within five calendar days after the license holder received  
88.25 the order. A license holder and any controlling individual shall discontinue operation of the  
88.26 program upon receipt of the commissioner's order to immediately suspend the license.

88.27 **EFFECTIVE DATE.** This section is effective January 1, 2020.

88.28 Sec. 35. Minnesota Statutes 2018, section 245A.07, subdivision 2a, is amended to read:

88.29 Subd. 2a. **Immediate suspension expedited hearing.** (a) Within five working days of  
88.30 receipt of the license holder's timely appeal, the commissioner shall request assignment of  
88.31 an administrative law judge. The request must include a proposed date, time, and place of  
88.32 a hearing. A hearing must be conducted by an administrative law judge within 30 calendar  
88.33 days of the request for assignment, unless an extension is requested by either party and

89.1 granted by the administrative law judge for good cause. The commissioner shall issue a  
89.2 notice of hearing by certified mail or personal service at least ten working days before the  
89.3 hearing. The scope of the hearing shall be limited solely to the issue of whether the temporary  
89.4 immediate suspension should remain in effect pending the commissioner's final order under  
89.5 section 245A.08, regarding a licensing sanction issued under subdivision 3 following the  
89.6 immediate suspension. For suspensions under subdivision 2, paragraph (a), clause (1), the  
89.7 burden of proof in expedited hearings under this subdivision shall be limited to the  
89.8 commissioner's demonstration that reasonable cause exists to believe that the license holder's  
89.9 actions or failure to comply with applicable law or rule poses, or the actions of other  
89.10 individuals or conditions in the program poses an imminent risk of harm to the health, safety,  
89.11 or rights of persons served by the program. "Reasonable cause" means there exist specific  
89.12 articulable facts or circumstances which provide the commissioner with a reasonable  
89.13 suspicion that there is an imminent risk of harm to the health, safety, or rights of persons  
89.14 served by the program. When the commissioner has determined there is reasonable cause  
89.15 to order the temporary immediate suspension of a license based on a violation of safe sleep  
89.16 requirements, as defined in section 245A.1435, the commissioner is not required to  
89.17 demonstrate that an infant died or was injured as a result of the safe sleep violations. For  
89.18 suspensions under subdivision 2, paragraph (a), clause (2), the burden of proof in expedited  
89.19 hearings under this subdivision shall be limited to the commissioner's demonstration by a  
89.20 preponderance of the evidence that, since the license was revoked, the license holder  
89.21 committed additional violations of law or rule which may adversely affect the health or  
89.22 safety of persons served by the program.

89.23 (b) The administrative law judge shall issue findings of fact, conclusions, and a  
89.24 recommendation within ten working days from the date of hearing. The parties shall have  
89.25 ten calendar days to submit exceptions to the administrative law judge's report. The record  
89.26 shall close at the end of the ten-day period for submission of exceptions. The commissioner's  
89.27 final order shall be issued within ten working days from the close of the record. When an  
89.28 appeal of a temporary immediate suspension is withdrawn or dismissed, the commissioner  
89.29 shall issue a final order affirming the temporary immediate suspension within ten calendar  
89.30 days of the commissioner's receipt of the withdrawal or dismissal. Within 90 calendar days  
89.31 after a final order affirming an immediate suspension, the commissioner shall make a  
89.32 determination regarding whether a final licensing sanction shall be issued under subdivision  
89.33 3. The license holder shall continue to be prohibited from operation of the program during  
89.34 this 90-day period.

90.1 (c) When the final order under paragraph (b) affirms an immediate suspension, and a  
90.2 final licensing sanction is issued under subdivision 3 and the license holder appeals that  
90.3 sanction, the license holder continues to be prohibited from operation of the program pending  
90.4 a final commissioner's order under section 245A.08, subdivision 5, regarding the final  
90.5 licensing sanction.

90.6 (d) For suspensions under subdivision 2, paragraph (a), clause (3), the burden of proof  
90.7 in expedited hearings under this subdivision shall be limited to the commissioner's  
90.8 demonstration by a preponderance of the evidence that a criminal complaint and warrant  
90.9 or summons was issued for the license holder that was not dismissed, and that the criminal  
90.10 charge is an offense that involves fraud or theft against a program administered by the  
90.11 commissioner.

90.12 Sec. 36. Minnesota Statutes 2018, section 245A.07, subdivision 3, is amended to read:

90.13 Subd. 3. **License suspension, revocation, or fine.** (a) The commissioner may suspend  
90.14 or revoke a license, or impose a fine if:

90.15 (1) a license holder fails to comply fully with applicable laws or rules including but not  
90.16 limited to the requirements of this chapter and chapter 245C;

90.17 (2) a license holder, a controlling individual, or an individual living in the household  
90.18 where the licensed services are provided or is otherwise subject to a background study has  
90.19 a been disqualified and the disqualification which has was not been set aside under section  
90.20 245C.22 and no variance has been granted;

90.21 (3) a license holder knowingly withholds relevant information from or gives false or  
90.22 misleading information to the commissioner in connection with an application for a license,  
90.23 in connection with the background study status of an individual, during an investigation,  
90.24 or regarding compliance with applicable laws or rules; ~~or~~

90.25 (4) ~~after July 1, 2012, and upon request by the commissioner, a license holder fails to~~  
90.26 ~~submit the information required of an applicant under section 245A.04, subdivision 1,~~  
90.27 ~~paragraph (f) or (g);~~ a license holder is excluded from any program administered by the  
90.28 commissioner under section 245.095; or

90.29 (5) revocation is required under section 245A.04, subdivision 7, paragraph (d).

90.30 A license holder who has had a license issued under this chapter suspended, revoked,  
90.31 or has been ordered to pay a fine must be given notice of the action by certified mail or  
90.32 personal service. If mailed, the notice must be mailed to the address shown on the application

91.1 or the last known address of the license holder. The notice must state in plain language the  
91.2 reasons the license was suspended or revoked, or a fine was ordered.

91.3 (b) If the license was suspended or revoked, the notice must inform the license holder  
91.4 of the right to a contested case hearing under chapter 14 and Minnesota Rules, parts  
91.5 1400.8505 to 1400.8612. The license holder may appeal an order suspending or revoking  
91.6 a license. The appeal of an order suspending or revoking a license must be made in writing  
91.7 by certified mail or personal service. If mailed, the appeal must be postmarked and sent to  
91.8 the commissioner within ten calendar days after the license holder receives notice that the  
91.9 license has been suspended or revoked. If a request is made by personal service, it must be  
91.10 received by the commissioner within ten calendar days after the license holder received the  
91.11 order. Except as provided in subdivision 2a, paragraph (c), if a license holder submits a  
91.12 timely appeal of an order suspending or revoking a license, the license holder may continue  
91.13 to operate the program as provided in section 245A.04, subdivision 7, paragraphs ~~(g)~~ (f)  
91.14 and ~~(h)~~ (g), until the commissioner issues a final order on the suspension or revocation.

91.15 (c)(1) If the license holder was ordered to pay a fine, the notice must inform the license  
91.16 holder of the responsibility for payment of fines and the right to a contested case hearing  
91.17 under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The appeal of an  
91.18 order to pay a fine must be made in writing by certified mail or personal service. If mailed,  
91.19 the appeal must be postmarked and sent to the commissioner within ten calendar days after  
91.20 the license holder receives notice that the fine has been ordered. If a request is made by  
91.21 personal service, it must be received by the commissioner within ten calendar days after  
91.22 the license holder received the order.

91.23 (2) The license holder shall pay the fines assessed on or before the payment date specified.  
91.24 If the license holder fails to fully comply with the order, the commissioner may issue a  
91.25 second fine or suspend the license until the license holder complies. If the license holder  
91.26 receives state funds, the state, county, or municipal agencies or departments responsible for  
91.27 administering the funds shall withhold payments and recover any payments made while the  
91.28 license is suspended for failure to pay a fine. A timely appeal shall stay payment of the fine  
91.29 until the commissioner issues a final order.

91.30 (3) A license holder shall promptly notify the commissioner of human services, in writing,  
91.31 when a violation specified in the order to forfeit a fine is corrected. If upon reinspection the  
91.32 commissioner determines that a violation has not been corrected as indicated by the order  
91.33 to forfeit a fine, the commissioner may issue a second fine. The commissioner shall notify  
91.34 the license holder by certified mail or personal service that a second fine has been assessed.  
91.35 The license holder may appeal the second fine as provided under this subdivision.

92.1 (4) Fines shall be assessed as follows:

92.2 (i) the license holder shall forfeit \$1,000 for each determination of maltreatment of a  
92.3 child under section 626.556 or the maltreatment of a vulnerable adult under section 626.557  
92.4 for which the license holder is determined responsible for the maltreatment under section  
92.5 626.556, subdivision 10e, paragraph (i), or 626.557, subdivision 9c, paragraph (c);

92.6 (ii) if the commissioner determines that a determination of maltreatment for which the  
92.7 license holder is responsible is the result of maltreatment that meets the definition of serious  
92.8 maltreatment as defined in section 245C.02, subdivision 18, the license holder shall forfeit  
92.9 \$5,000;

92.10 (iii) for a program that operates out of the license holder's home and a program licensed  
92.11 under Minnesota Rules, parts 9502.0300 to ~~9502.0495~~ 9502.0445, the fine assessed against  
92.12 the license holder shall not exceed \$1,000 for each determination of maltreatment;

92.13 (iv) the license holder shall forfeit \$200 for each occurrence of a violation of law or rule  
92.14 governing matters of health, safety, or supervision, including but not limited to the provision  
92.15 of adequate staff-to-child or adult ratios, and failure to comply with background study  
92.16 requirements under chapter 245C; and

92.17 (v) the license holder shall forfeit \$100 for each occurrence of a violation of law or rule  
92.18 other than those subject to a \$5,000, \$1,000, or \$200 fine in items (i) to (iv).

92.19 For purposes of this section, "occurrence" means each violation identified in the  
92.20 commissioner's fine order. Fines assessed against a license holder that holds a license to  
92.21 provide home and community-based services, as identified in section 245D.03, subdivision  
92.22 1, and a community residential setting or day services facility license under chapter 245D  
92.23 where the services are provided, may be assessed against both licenses for the same  
92.24 occurrence, but the combined amount of the fines shall not exceed the amount specified in  
92.25 this clause for that occurrence.

92.26 (5) When a fine has been assessed, the license holder may not avoid payment by closing,  
92.27 selling, or otherwise transferring the licensed program to a third party. In such an event, the  
92.28 license holder will be personally liable for payment. In the case of a corporation, each  
92.29 controlling individual is personally and jointly liable for payment.

92.30 (d) Except for background study violations involving the failure to comply with an order  
92.31 to immediately remove an individual or an order to provide continuous, direct supervision,  
92.32 the commissioner shall not issue a fine under paragraph (c) relating to a background study  
92.33 violation to a license holder who self-corrects a background study violation before the

93.1 commissioner discovers the violation. A license holder who has previously exercised the  
 93.2 provisions of this paragraph to avoid a fine for a background study violation may not avoid

135.6 subdivision 18, which requires that when an infant is placed in a crib to sleep, supervision  
135.7 occurs when a staff person is within sight or hearing of the infant. When supervision of a  
135.8 crib room is provided by sight or hearing, the center must have a plan to address the other  
135.9 supervision components;

157.31 background study. A notice of a set-aside under paragraph (c) shall be issued within 15  
157.32 working days if all of the following criteria are met:

158.1 (1) the subsequent background study was initiated in connection with a program licensed  
158.2 or regulated under the same provisions of law and rule for at least one program for which  
158.3 the individual's disqualification was previously set aside by the commissioner;

158.4 (2) the individual is not disqualified for an offense specified in section 245C.15,  
158.5 subdivision 1 or 2;

158.6 (3) the commissioner has received no new information to indicate that the individual

158.9 (c) Notwithstanding paragraph (b), clause (2), for an individual who is employed in the  
158.10 substance use disorder field, if the commissioner has previously set aside an individual's

158.14 aside the disqualification for the program or agency in the substance use disorder treatment  
158.15 field that initiated the subsequent background study when the criteria under paragraph (b),  
158.16 clauses (1), (3), and (4), are met and the individual is not disqualified for an offense specified  
158.17 in section 254C.15, subdivision 1. A notice of a set-aside under paragraph (d) shall be issued

158.22 initiated the subsequent background study. The notice must inform the individual that the  
158.23 individual may request reconsideration of the disqualification under section 245C.21 on the  
158.24 basis that the information used to disqualify the individual is incorrect.

158.25 Sec. 82. Minnesota Statutes 2018, section 245C.24, is amended to read:

158.26 **245C.24 DISQUALIFICATION; BAR TO SET ASIDE A DISQUALIFICATION;**

158.32 individual, even after the minimum disqualification period has passed.

159.8 ~~was set aside prior to July 1, 2005~~ more than 20 years have passed since the discharge of  
159.9 the sentence imposed or, if the disqualification is not based on a conviction, more than 20  
159.10 years have passed since the individual committed the act upon which the disqualification  
159.11 was based, the commissioner must consider granting a set aside or variance pursuant to  
159.12 section 245C.22 or 245C.30 for the license holder for a program dealing primarily with  
159.13 adults. ~~A request for reconsideration evaluated under this paragraph must include a letter~~

159.16 ~~circumstances of the individual's departure from that service~~ This paragraph does not apply  
159.17 to a person disqualified based on a violation of sections 609.342 to 609.3453; 617.23,

159.21 to receive a background study under section 245C.03, subdivision 1, paragraph (a), clause  
159.22 (2) or (6), the commissioner may grant a variance to the license holder under section 245C.30  
159.23 to permit the adopted individual with a permanent disqualification to remain affiliated with  
159.24 the license holder under the conditions of the variance when the variance is recommended  
159.25 by the county of responsibility for each of the remaining individuals in placement in the  
159.26 home and the licensing agency for the home.

159.27 (d) For an individual 18 years of age or older affiliated with a licensed family child foster  
159.28 care program, the commissioner must not set aside the disqualification of any individual  
159.29 disqualified pursuant to this chapter, regardless of how much time has passed, if the individual  
159.30 was disqualified for a crime or conduct listed in section 245C.15, subdivision 6, paragraph  
159.31 (a). This paragraph does not apply to an individual younger than 18 years of age at the time  
159.32 the background study is submitted.

176.21 sanctions against a vendor of medical care for any of the following: (1) fraud, theft, or abuse  
176.22 in connection with the provision of medical care to recipients of public assistance; (2) a  
176.23 pattern of presentment of false or duplicate claims or claims for services not medically  
176.24 necessary; (3) a pattern of making false statements of material facts for the purpose of  
176.25 obtaining greater compensation than that to which the vendor is legally entitled; (4)  
176.26 suspension or termination as a Medicare vendor; (5) refusal to grant the state agency access  
176.27 during regular business hours to examine all records necessary to disclose the extent of  
176.28 services provided to program recipients and appropriateness of claims for payment; (6)  
176.29 failure to repay an overpayment or a fine finally established under this section; (7) failure  
176.30 to correct errors in the maintenance of health service or financial records for which a fine  
176.31 was imposed or after issuance of a warning by the commissioner; ~~and~~ (8) any reason for  
176.32 which a vendor could be excluded from participation in the Medicare program under section  
176.33 1128, 1128A, or 1866(b)(2) of the Social Security Act; and (9) there is a preponderance of

177.1 the evidence that the vendor committed an act or acts that meet the definition of offenses  
177.2 listed in section 609.817.

177.3 Sec. 112. Minnesota Statutes 2018, section 256B.064, subdivision 1b, is amended to read:

177.4 Subd. 1b. **Sanctions available.** The commissioner may impose the following sanctions  
177.5 for the conduct described in subdivision 1a: suspension or withholding of payments to a  
177.6 vendor and suspending or terminating participation in the program, or imposition of a fine  
177.7 under subdivision 2, paragraph (f). When imposing sanctions under this section, the  
177.8 commissioner shall consider the nature, chronicity, or severity of the conduct and the effect  
177.9 of the conduct on the health and safety of persons served by the vendor. The commissioner  
177.10 shall suspend a vendor's participation in the program for a minimum of five years if, for an  
177.11 offense related to a provision of a health service under medical assistance or health care  
177.12 fraud, the vendor is convicted of a crime, received a stay of adjudication, or entered a  
177.13 court-ordered diversion program. Regardless of imposition of sanctions, the commissioner  
177.14 may make a referral to the appropriate state licensing board.

177.15 Sec. 113. Minnesota Statutes 2018, section 256B.064, subdivision 2, is amended to read:

177.16 Subd. 2. **Imposition of monetary recovery and sanctions.** (a) The commissioner shall  
177.17 determine any monetary amounts to be recovered and sanctions to be imposed upon a vendor  
177.18 of medical care under this section. Except as provided in paragraphs (b) and (d), neither a  
177.19 monetary recovery nor a sanction will be imposed by the commissioner without prior notice  
177.20 and an opportunity for a hearing, according to chapter 14, on the commissioner's proposed  
177.21 action, provided that the commissioner may suspend or reduce payment to a vendor of  
177.22 medical care, except a nursing home or convalescent care facility, after notice and prior to  
177.23 the hearing if in the commissioner's opinion that action is necessary to protect the public  
177.24 welfare and the interests of the program.

177.25 (b) Except when the commissioner finds good cause not to suspend payments under  
177.26 Code of Federal Regulations, title 42, section 455.23 (e) or (f), the commissioner shall  
177.27 withhold or reduce payments to a vendor of medical care without providing advance notice  
177.28 of such withholding or reduction if either of the following occurs:

177.29 (1) the vendor is convicted of a crime involving the conduct described in subdivision  
177.30 1a; or

177.31 (2) the commissioner determines there is a credible allegation of fraud for which an  
177.32 investigation is pending under the program. A credible allegation of fraud is an allegation  
177.33 which has been verified by the state, from any source, including but not limited to:

- 178.1 (i) fraud hotline complaints;
- 178.2 (ii) claims data mining; and
- 178.3 (iii) patterns identified through provider audits, civil false claims cases, and law
- 178.4 enforcement investigations.

178.5 Allegations are considered to be credible when they have an indicia of reliability and

178.6 the state agency has reviewed all allegations, facts, and evidence carefully and acts

178.7 judiciously on a case-by-case basis.

178.8 (c) The commissioner must send notice of the withholding or reduction of payments

178.9 under paragraph (b) within five days of taking such action unless requested in writing by a

178.10 law enforcement agency to temporarily withhold the notice. The notice must:

178.11 (1) state that payments are being withheld according to paragraph (b);

178.12 (2) set forth the general allegations as to the nature of the withholding action, but need

178.13 not disclose any specific information concerning an ongoing investigation;

178.14 (3) except in the case of a conviction for conduct described in subdivision 1a, state that

178.15 the withholding is for a temporary period and cite the circumstances under which withholding

178.16 will be terminated;

178.17 (4) identify the types of claims to which the withholding applies; and

178.18 (5) inform the vendor of the right to submit written evidence for consideration by the

178.19 commissioner.

178.20 The withholding or reduction of payments will not continue after the commissioner

178.21 determines there is insufficient evidence of fraud by the vendor, or after legal proceedings

178.22 relating to the alleged fraud are completed, unless the commissioner has sent notice of

178.23 intention to impose monetary recovery or sanctions under paragraph (a). Upon conviction

178.24 for a crime related to the provision, management, or administration of a health service under

178.25 medical assistance, a payment held pursuant to this section by the commissioner or a managed

178.26 care organization that contracts with the commissioner under section 256B.035 is forfeited

178.27 by the commissioner or managed care organization, regardless of the amount charged in

178.28 the criminal complaint or the amount of criminal restitution ordered.

178.29 (d) The commissioner shall suspend or terminate a vendor's participation in the program

178.30 without providing advance notice and an opportunity for a hearing when the suspension or

178.31 termination is required because of the vendor's exclusion from participation in Medicare.

179.1 Within five days of taking such action, the commissioner must send notice of the suspension  
179.2 or termination. The notice must:

179.3 (1) state that suspension or termination is the result of the vendor's exclusion from  
179.4 Medicare;

179.5 (2) identify the effective date of the suspension or termination; and

179.6 (3) inform the vendor of the need to be reinstated to Medicare before reapplying for  
179.7 participation in the program.

179.8 (e) Upon receipt of a notice under paragraph (a) that a monetary recovery or sanction is  
179.9 to be imposed, a vendor may request a contested case, as defined in section 14.02, subdivision  
179.10 3, by filing with the commissioner a written request of appeal. The appeal request must be  
179.11 received by the commissioner no later than 30 days after the date the notification of monetary  
179.12 recovery or sanction was mailed to the vendor. The appeal request must specify:

179.13 (1) each disputed item, the reason for the dispute, and an estimate of the dollar amount  
179.14 involved for each disputed item;

179.15 (2) the computation that the vendor believes is correct;

179.16 (3) the authority in statute or rule upon which the vendor relies for each disputed item;

179.17 (4) the name and address of the person or entity with whom contacts may be made  
179.18 regarding the appeal; and

179.19 (5) other information required by the commissioner.

179.20 (f) The commissioner may order a vendor to forfeit a fine for failure to fully document  
179.21 services according to standards in this chapter and Minnesota Rules, chapter 9505. The  
179.22 commissioner may assess fines if specific required components of documentation are  
179.23 missing. The fine for incomplete documentation shall equal 20 percent of the amount paid  
179.24 on the claims for reimbursement submitted by the vendor, or up to \$5,000, whichever is  
179.25 less. If the commissioner determines that a vendor repeatedly violated this chapter or  
179.26 Minnesota Rules, chapter 9505, related to the provision of services to program recipients  
179.27 and the submission of claims for payment, the commissioner may order a vendor to forfeit  
179.28 a fine based on the nature, severity, and chronicity of the violations in an amount of up to  
179.29 \$5,000 or 20 percent of the value of the claims, whichever is greater.

179.30 (g) The vendor shall pay the fine assessed on or before the payment date specified. If  
179.31 the vendor fails to pay the fine, the commissioner may withhold or reduce payments and

180.1 recover the amount of the fine. A timely appeal shall stay payment of the fine until the  
180.2 commissioner issues a final order.

180.3 Sec. 114. Minnesota Statutes 2018, section 256B.064, is amended by adding a subdivision  
180.4 to read:

180.5 Subd. 3. **Vendor mandates on prohibited payments.** (a) The commissioner shall  
180.6 maintain and publish a list of each excluded individual and entity that was convicted of a  
180.7 crime related to the provision, management, or administration of a medical assistance health  
180.8 service, or suspended or terminated under subdivision 2. Medical assistance payments cannot  
180.9 be made by a vendor for items or services furnished either directly or indirectly by an  
180.10 excluded individual or entity, or at the direction of excluded individuals or entities.

180.11 (b) The vendor must check the exclusion list on a monthly basis and document the date  
180.12 and time the exclusion list was checked and the name and title of the person who checked  
180.13 the exclusion list. The vendor must immediately terminate payments to an individual or  
180.14 entity on the exclusion list.

180.15 (c) A vendor's requirement to check the exclusion list and to terminate payments to  
180.16 individuals or entities on the exclusion list applies to each individual or entity on the  
180.17 exclusion list, even if the named individual or entity is not responsible for direct patient  
180.18 care or direct submission of a claim to medical assistance.

180.19 (d) A vendor that pays medical assistance program funds to an individual or entity on  
180.20 the exclusion list must refund any payment related to either items or services rendered by  
180.21 an individual or entity on the exclusion list from the date the individual or entity is first paid  
180.22 or the date the individual or entity is placed on the exclusion list, whichever is later, and a  
180.23 vendor may be subject to:

180.24 (1) sanctions under subdivision 2;

180.25 (2) a civil monetary penalty of up to \$25,000 for each determination by the department  
180.26 that the vendor employed or contracted with an individual or entity on the exclusion list;  
180.27 and

180.28 (3) other fines or penalties allowed by law.

180.29 Sec. 115. Minnesota Statutes 2018, section 256B.064, is amended by adding a subdivision  
180.30 to read:

180.31 Subd. 4. **Notice.** (a) The notice required under subdivision 2 shall be served by first class  
180.32 mail at the address submitted to the department by the vendor. Service is complete upon

181.1 mailing. The commissioner shall place an affidavit of the first class mailing in the vendor's  
181.2 file as an indication of the address and the date of mailing.

181.3 (b) The department shall give notice in writing to a recipient placed in the Minnesota  
181.4 restricted recipient program under section 256B.0646 and Minnesota Rules, part 9505.2200.  
181.5 The notice shall be sent by first class mail to the recipient's current address on file with the  
181.6 department. A recipient placed in the Minnesota restricted recipient program may contest  
181.7 the placement by submitting a written request for a hearing to the department within 90  
181.8 days of the notice being mailed.

181.9 Sec. 116. Minnesota Statutes 2018, section 256B.064, is amended by adding a subdivision  
181.10 to read:

181.11 Subd. 5. **Immunity; good faith reporters.** (a) A person who makes a good faith report  
181.12 is immune from any civil or criminal liability that might otherwise arise from reporting or  
181.13 participating in the investigation. Nothing in this subdivision affects a vendor's responsibility  
181.14 for an overpayment established under this subdivision.

181.15 (b) A person employed by a lead investigative agency who is conducting or supervising  
181.16 an investigation or enforcing the law according to the applicable law or rule is immune from  
181.17 any civil or criminal liability that might otherwise arise from the person's actions, if the  
181.18 person is acting in good faith and exercising due care.

181.19 (c) For purposes of this subdivision, "person" includes a natural person or any form of  
181.20 a business or legal entity.

181.21 (d) After an investigation is complete, the reporter's name must be kept confidential.  
181.22 The subject of the report may compel disclosure of the reporter's name only with the consent  
181.23 of the reporter or upon a written finding by a district court that the report was false and there  
181.24 is evidence that the report was made in bad faith. This subdivision does not alter disclosure  
181.25 responsibilities or obligations under the Rules of Criminal Procedure, except that when the  
181.26 identity of the reporter is relevant to a criminal prosecution the district court shall conduct  
181.27 an in-camera review before determining whether to order disclosure of the reporter's identity.

181.28 Sec. 117. [256B.0646] MINNESOTA RESTRICTED RECIPIENT PROGRAM;  
181.29 PERSONAL CARE ASSISTANCE SERVICES.

181.30 (a) When a recipient's use of personal care assistance services or community first services  
181.31 and supports under section 256B.85 results in abusive or fraudulent billing, the commissioner  
181.32 may place a recipient in the Minnesota restricted recipient program under Minnesota Rules,

182.1 part 9505.2165. A recipient placed in the Minnesota restricted recipient program under this  
182.2 section must: (1) use a designated traditional personal care assistance provider agency; and  
182.3 (2) obtain a new assessment under section 256B.0911, including consultation with a registered  
182.4 or public health nurse on the long-term care consultation team pursuant to section 256B.0911,  
182.5 subdivision 3, paragraph (b), clause (2).

182.6 (b) A recipient must comply with additional conditions for the use of personal care  
182.7 assistance services or community first services and supports if the commissioner determines  
182.8 it is necessary to prevent future misuse of personal care assistance services or abusive or  
182.9 fraudulent billing. Additional conditions may include but are not limited to restricting service  
182.10 authorizations for a duration of no more than one month and requiring a qualified professional  
182.11 to monitor and report services on a monthly basis.

182.12 (c) A recipient placed in the Minnesota restricted recipient program under this section  
182.13 may appeal the placement according to section 256.045.

182.14 **EFFECTIVE DATE.** This section is effective the day following final enactment.

182.15 Sec. 118. Minnesota Statutes 2018, section 256B.0651, subdivision 17, is amended to  
182.16 read:

182.17 Subd. 17. **Recipient protection.** (a) Providers of home care services must provide each  
182.18 recipient with a copy of the home care bill of rights under section 144A.44 at least 30 days  
182.19 prior to terminating services to a recipient, if the termination results from provider sanctions  
182.20 under section 256B.064, such as a payment withhold, a suspension of participation, or a  
182.21 termination of participation. If a home care provider determines it is unable to continue  
182.22 providing services to a recipient, the provider must notify the recipient, the recipient's  
182.23 responsible party, and the commissioner 30 days prior to terminating services to the recipient  
182.24 because of an action under section 256B.064, and must assist the commissioner and lead  
182.25 agency in supporting the recipient in transitioning to another home care provider of the  
182.26 recipient's choice.

182.27 (b) In the event of a payment withhold from a home care provider, a suspension of  
182.28 participation, or a termination of participation of a home care provider under section  
182.29 256B.064, the commissioner may inform the Office of Ombudsman for Long-Term Care  
182.30 and the lead agencies for all recipients with active service agreements with the provider. At  
182.31 the commissioner's request, the lead agencies must contact recipients to ensure that the  
182.32 recipients are continuing to receive needed care, and that the recipients have been given  
182.33 free choice of provider if they transfer to another home care provider. In addition, the  
182.34 commissioner or the commissioner's delegate may directly notify recipients who receive

183.1 care from the provider that payments have been or will be withheld or that the provider's  
183.2 participation in medical assistance has been or will be suspended or terminated, if the  
183.3 commissioner determines that notification is necessary to protect the welfare of the recipients.  
183.4 For purposes of this subdivision, "lead agencies" means counties, tribes, and managed care  
183.5 organizations.

183.6 **EFFECTIVE DATE.** This section is effective the day following final enactment.

183.7 Sec. 119. Minnesota Statutes 2018, section 256B.0659, subdivision 12, is amended to  
183.8 read:

183.9 Subd. 12. **Documentation of personal care assistance services provided.** (a) Personal  
183.10 care assistance services for a recipient must be documented daily by each personal care  
183.11 assistant, on a time sheet form approved by the commissioner. All documentation may be  
183.12 web-based, electronic, or paper documentation. The completed form must be submitted on  
183.13 a monthly basis to the provider and kept in the recipient's health record.

183.14 (b) The activity documentation must correspond to the personal care assistance care plan  
183.15 and be reviewed by the qualified professional.

183.16 (c) The personal care assistant time sheet must be on a form approved by the  
183.17 commissioner documenting time the personal care assistant provides services in the home.  
183.18 The following criteria must be included in the time sheet:

183.19 (1) full name of personal care assistant and individual provider number;

183.20 (2) provider name and telephone numbers;

183.21 (3) full name of recipient and either the recipient's medical assistance identification  
183.22 number or date of birth;

183.23 (4) consecutive dates, including month, day, and year, and arrival and departure times  
183.24 with a.m. or p.m. notations;

183.25 (5) signatures of recipient or the responsible party;

183.26 (6) personal signature of the personal care assistant;

183.27 (7) any shared care provided, if applicable;

183.28 (8) a statement that it is a federal crime to provide false information on personal care  
183.29 service billings for medical assistance payments; and

183.30 (9) dates and location of recipient stays in a hospital, care facility, or incarceration.

183.31 **EFFECTIVE DATE.** This section is effective the day following final enactment.

184.1 Sec. 120. Minnesota Statutes 2018, section 256B.27, subdivision 3, is amended to read:

184.2 Subd. 3. **Access to medical records.** The commissioner of human services, with the  
184.3 written consent of the recipient, on file with the local welfare agency, shall be allowed  
184.4 access to all personal medical records of medical assistance recipients solely for the purposes  
184.5 of investigating whether or not: (a) a vendor of medical care has submitted a claim for  
184.6 reimbursement, a cost report or a rate application which is duplicative, erroneous, or false  
184.7 in whole or in part, or which results in the vendor obtaining greater compensation than the  
184.8 vendor is legally entitled to; or (b) the medical care was medically necessary. ~~The vendor~~  
184.9 ~~of medical care shall receive notification from the commissioner at least 24 hours before~~  
184.10 ~~the commissioner gains access to such records.~~ When the commissioner is investigating a  
184.11 possible overpayment of Medicaid funds, the commissioner must be given immediate access  
184.12 without prior notice to the vendor's office during regular business hours and to documentation  
184.13 and records related to services provided and submission of claims for services provided.  
184.14 Denying the commissioner access to records is cause for the vendor's immediate suspension  
184.15 of payment or termination according to section 256B.064. The determination of provision  
184.16 of services not medically necessary shall be made by the commissioner. Notwithstanding  
184.17 any other law to the contrary, a vendor of medical care shall not be subject to any civil or  
184.18 criminal liability for providing access to medical records to the commissioner of human  
184.19 services pursuant to this section.

184.20 Sec. 121. Minnesota Statutes 2018, section 256B.4912, is amended by adding a subdivision  
184.21 to read:

184.22 Subd. 11. **Home and community-based service billing requirements.** (a) A home and  
184.23 community-based service is eligible for reimbursement if:

184.24 (1) the service is provided according to a federally approved waiver plan as authorized  
184.25 under sections 256B.0913, 256B.0915, 256B.092, and 256B.49;

184.26 (2) if applicable, the service is provided on days and times during the days and hours of  
184.27 operation specified on any license required under chapter 245A or 245D; and

184.28 (3) the provider complies with subdivisions 12 to 15, if applicable.

184.29 (b) The provider must maintain documentation that, upon employment and annually  
184.30 thereafter, staff providing a service have attested to reviewing and understanding the  
184.31 following statement: "It is a federal crime to provide materially false information on service  
184.32 billings for medical assistance or services provided under a federally approved waiver plan

185.1 as authorized under Minnesota Statutes, sections 256B.0913, 256B.0915, 256B.092, and  
185.2 256B.49."

185.3 (c) The department may recover payment according to section 256B.064 and Minnesota  
185.4 Rules, parts 9505.2160 to 9505.2245, for a service that does not satisfy this subdivision.

185.5 Sec. 122. Minnesota Statutes 2018, section 256B.4912, is amended by adding a subdivision  
185.6 to read:

185.7 Subd. 12. Home and community-based service documentation requirements. (a)  
185.8 Documentation may be collected and maintained electronically or in paper form by providers  
185.9 and must be produced upon request by the commissioner.

185.10 (b) Documentation of a delivered service must be in English and must be legible according  
185.11 to the standard of a reasonable person.

185.12 (c) If the service is reimbursed at an hourly or specified minute-based rate, each  
185.13 documentation of the provision of a service, unless otherwise specified, must include:

185.14 (1) the date the documentation occurred;

185.15 (2) the day, month, and year when the service was provided;

185.16 (3) the start and stop times with a.m. and p.m. designations, except for case management  
185.17 services as defined under sections 256B.0913, subdivision 7; 256B.0915, subdivision 1a;  
185.18 256B.092, subdivision 1a; and 256B.49, subdivision 13;

185.19 (4) the service name or description of the service provided; and

185.20 (5) the name, signature, and title, if any, of the provider of service. If the service is  
185.21 provided by multiple staff members, the provider may designate a staff member responsible  
185.22 for verifying services and completing the documentation required by this paragraph.

185.23 (d) If the service is reimbursed at a daily rate or does not meet the requirements in  
185.24 paragraph (c), each documentation of the provision of a service, unless otherwise specified,  
185.25 must include:

185.26 (1) the date the documentation occurred;

185.27 (2) the day, month, and year when the service was provided;

185.28 (3) the service name or description of the service provided; and

185.29 (4) the name, signature, and title, if any, of the person providing the service. If the service  
185.30 is provided by multiple staff, the provider may designate a staff member responsible for  
185.31 verifying services and completing the documentation required by this paragraph.

186.1 Sec. 123. Minnesota Statutes 2018, section 256B.4912, is amended by adding a subdivision  
186.2 to read:

186.3 Subd. 13. **Waiver transportation documentation and billing requirements.** (a) A  
186.4 waiver transportation service must be a waiver transportation service that: (1) is not covered  
186.5 by medical transportation under the Medicaid state plan; and (2) is not included as a  
186.6 component of another waiver service.

186.7 (b) In addition to the documentation requirements in subdivision 12, a waiver  
186.8 transportation service provider must maintain:

196.3 resident's representative, or the nursing facility or boarding care home may request that the  
196.4 commissioner of health reconsider the assigned reimbursement classification including any  
196.5 items changed during the audit process. The request for reconsideration must be submitted  
196.6 in writing to the commissioner within 30 days of the day the resident or the resident's  
196.7 representative receives the resident classification notice. The request for reconsideration  
196.8 must include the name of the resident, the name and address of the facility in which the  
196.9 resident resides, the reasons for the reconsideration, and documentation supporting the  
196.10 request. The documentation accompanying the reconsideration request is limited to ~~a copy~~  
196.11 ~~of the MDS that determined the classification and other~~ documents that would support or  
196.12 change the MDS findings.

196.13 (b) Upon request, the nursing facility must give the resident or the resident's representative  
196.14 a copy of the assessment form and the other documentation that was given to the  
196.15 commissioner of health to support the assessment findings. The nursing facility shall also  
196.16 provide access to and a copy of other information from the resident's record that has been  
196.17 requested by or on behalf of the resident to support a resident's reconsideration request. A  
196.18 copy of any requested material must be provided within three working days of receipt of a  
196.19 written request for the information. Notwithstanding any law to the contrary, the facility  
196.20 may not charge a fee for providing copies of the requested documentation. If a facility fails  
196.21 to provide the material within this time, it is subject to the issuance of a correction order  
196.22 and penalty assessment under sections 144.653 and 144A.10. Notwithstanding those sections,  
196.23 any correction order issued under this subdivision must require that the nursing facility  
196.24 immediately comply with the request for information and that as of the date of the issuance  
196.25 of the correction order, the facility shall forfeit to the state a \$100 fine for the first day of  
196.26 noncompliance, and an increase in the \$100 fine by \$50 increments for each day the  
196.27 noncompliance continues.

196.28 (c) In addition to the information required under paragraphs (a) and (b), a reconsideration  
196.29 request from a nursing facility must contain the following information: (i) the date the  
196.30 reimbursement classification notices were received by the facility; (ii) the date the  
196.31 classification notices were distributed to the resident or the resident's representative; and  
196.32 (iii) a copy of a notice sent to the resident or to the resident's representative. This notice  
196.33 must inform the resident or the resident's representative that a reconsideration of the resident's  
196.34 classification is being requested, the reason for the request, that the resident's rate will change  
196.35 if the request is approved by the commissioner, the extent of the change, that copies of the

197.1 facility's request and supporting documentation are available for review, and that the resident  
197.2 also has the right to request a reconsideration. If the facility fails to provide the required  
197.3 information listed in item (iii) with the reconsideration request, the commissioner may  
197.4 request that the facility provide the information within 14 calendar days. The reconsideration  
197.5 request must be denied if the information is then not provided, and the facility may not  
197.6 make further reconsideration requests on that specific reimbursement classification.

197.7 (d) Reconsideration by the commissioner must be made by individuals not involved in  
197.8 reviewing the assessment, audit, or reconsideration that established the disputed classification.  
197.9 The reconsideration must be based upon the assessment that determined the classification  
197.10 and upon the information provided to the commissioner under paragraphs (a) and (b). If  
197.11 necessary for evaluating the reconsideration request, the commissioner may conduct on-site  
197.12 reviews. Within 15 working days of receiving the request for reconsideration, the  
197.13 commissioner shall affirm or modify the original resident classification. The original  
197.14 classification must be modified if the commissioner determines that the assessment resulting  
197.15 in the classification did not accurately reflect characteristics of the resident at the time of  
197.16 the assessment. The resident and the nursing facility or boarding care home shall be notified  
197.17 within five working days after the decision is made. A decision by the commissioner under  
197.18 this subdivision is the final administrative decision of the agency for the party requesting  
197.19 reconsideration.

197.20 (e) The resident classification established by the commissioner shall be the classification  
197.21 that applies to the resident while the request for reconsideration is pending. If a request for  
197.22 reconsideration applies to an assessment used to determine nursing facility level of care  
197.23 under subdivision 4, paragraph (c), the resident shall continue to be eligible for nursing  
197.24 facility level of care while the request for reconsideration is pending.

197.25 (f) The commissioner may request additional documentation regarding a reconsideration  
197.26 necessary to make an accurate reconsideration determination.

199.30 **EFFECTIVE DATE.** This section is effective January 1, 2020.

200.1 Sec. 5. Minnesota Statutes 2018, section 144A.071, subdivision 2, is amended to read:

200.2 Subd. 2. **Moratorium.** The commissioner of health, in coordination with the  
200.3 commissioner of human services, shall deny each request for new licensed or certified  
200.4 nursing home or certified boarding care beds except as provided in subdivision 3 or 4a, or  
200.5 section 144A.073. "Certified bed" means a nursing home bed or a boarding care bed certified  
200.6 by the commissioner of health for the purposes of the medical assistance program, under  
200.7 United States Code, title 42, sections 1396 et seq. Certified beds in facilities which do not  
200.8 allow medical assistance intake shall be deemed to be decertified for purposes of this section  
200.9 only.

200.10 The commissioner of human services, in coordination with the commissioner of health,  
200.11 shall deny any request to issue a license under section 252.28 and chapter 245A to a nursing  
200.12 home or boarding care home, if that license would result in an increase in the medical  
200.13 assistance reimbursement amount.

200.14 In addition, the commissioner of health must not approve any construction project whose  
200.15 cost exceeds ~~\$1,000,000~~ \$1,500,000, unless:

200.16 (a) any construction costs exceeding ~~\$1,000,000~~ \$1,500,000 are not added to the facility's  
200.17 appraised value and are not included in the facility's payment rate for reimbursement under  
200.18 the medical assistance program; or

200.19 (b) the project:

200.20 (1) has been approved through the process described in section 144A.073;

200.21 (2) meets an exception in subdivision 3 or 4a;

200.22 (3) is necessary to correct violations of state or federal law issued by the commissioner  
200.23 of health;

200.24 (4) is necessary to repair or replace a portion of the facility that was damaged by fire,  
200.25 lightning, ground shifts, or other such hazards, including environmental hazards, provided  
200.26 that the provisions of subdivision 4a, clause (a), are met;

200.27 (5) as of May 1, 1992, the facility has submitted to the commissioner of health written  
200.28 documentation evidencing that the facility meets the "commenced construction" definition  
200.29 as specified in subdivision 1a, paragraph (d), or that substantial steps have been taken prior  
200.30 to April 1, 1992, relating to the construction project. "Substantial steps" require that the  
200.31 facility has made arrangements with outside parties relating to the construction project and  
200.32 include the hiring of an architect or construction firm, submission of preliminary plans to

201.1 the Department of Health or documentation from a financial institution that financing  
201.2 arrangements for the construction project have been made; or

201.3 (6) is being proposed by a licensed nursing facility that is not certified to participate in  
201.4 the medical assistance program and will not result in new licensed or certified beds.

201.5 Prior to the final plan approval of any construction project, the ~~commissioner~~  
201.6 commissioners of health and human services shall be provided with an itemized cost estimate  
201.7 for the project construction costs. If a construction project is anticipated to be completed in  
201.8 phases, the total estimated cost of all phases of the project shall be submitted to the  
201.9 ~~commissioner~~ commissioners and shall be considered as one construction project. Once the  
201.10 construction project is completed and prior to the final clearance by the ~~commissioner~~  
201.11 commissioners, the total project construction costs for the construction project shall be  
201.12 submitted to the ~~commissioner~~ commissioners. If the final project construction cost exceeds  
201.13 the dollar threshold in this subdivision, the commissioner of human services shall not  
201.14 recognize any of the project construction costs or the related financing costs in excess of  
201.15 this threshold in establishing the facility's property-related payment rate.

201.16 The dollar thresholds for construction projects are as follows: for construction projects  
201.17 other than those authorized in clauses (1) to (6), the dollar threshold is \$1,000,000. For  
201.18 projects authorized after July 1, 1993, under clause (1), the dollar threshold is the cost  
201.19 estimate submitted with a proposal for an exception under section 144A.073, plus inflation  
201.20 as calculated according to section 256B.431, subdivision 3f, paragraph (a). For projects  
201.21 authorized under clauses (2) to (4), the dollar threshold is the itemized estimate project  
201.22 construction costs submitted to the commissioner of health at the time of final plan approval,  
201.23 plus inflation as calculated according to section 256B.431, subdivision 3f, paragraph (a).

201.24 The commissioner of health shall adopt rules to implement this section or to amend the  
201.25 emergency rules for granting exceptions to the moratorium on nursing homes under section  
201.26 144A.073.

201.27 Sec. 6. Minnesota Statutes 2018, section 144A.071, subdivision 3, is amended to read:

201.28 **Subd. 3. Exceptions authorizing increase in beds; hardship areas.** (a) The  
201.29 commissioner of health, in coordination with the commissioner of human services, may  
201.30 approve the addition of new licensed and Medicare and Medicaid certified nursing home  
201.31 beds, using the criteria and process set forth in this subdivision.

202.1 (b) The commissioner, in cooperation with the commissioner of human services, shall  
202.2 consider the following criteria when determining that an area of the state is a hardship area  
202.3 with regard to access to nursing facility services:

202.4 (1) a low number of beds per thousand in a specified area using as a standard the beds  
202.5 per thousand people age 65 and older, in five year age groups, using data from the most  
202.6 recent census and population projections, weighted by each group's most recent nursing  
202.7 home utilization, of the county at the 20th percentile, as determined by the commissioner  
202.8 of human services;

202.9 (2) a high level of out-migration for nursing facility services associated with a described  
202.10 area from the county or counties of residence to other Minnesota counties, as determined  
202.11 by the commissioner of human services, using as a standard an amount greater than the  
202.12 out-migration of the county ranked at the 50th percentile;

202.13 (3) an adequate level of availability of noninstitutional long-term care services measured  
202.14 as public spending for home and community-based long-term care services per individual  
202.15 age 65 and older, in five year age groups, using data from the most recent census and  
202.16 population projections, weighted by each group's most recent nursing home utilization, as  
202.17 determined by the commissioner of human services using as a standard an amount greater  
202.18 than the 50th percentile of counties;

202.19 (4) there must be a declaration of hardship resulting from insufficient access to nursing  
202.20 home beds by local county agencies and area agencies on aging; and

202.21 (5) other factors that may demonstrate the need to add new nursing facility beds.

202.22 (c) On August 15 of odd-numbered years, the commissioner, in cooperation with the  
202.23 commissioner of human services, may publish in the State Register a request for information  
202.24 in which interested parties, using the data provided under section 144A.351, along with any  
202.25 other relevant data, demonstrate that a specified area is a hardship area with regard to access  
202.26 to nursing facility services. For a response to be considered, the commissioner must receive  
202.27 it by November 15. The commissioner shall make responses to the request for information  
202.28 available to the public and shall allow 30 days for comment. The commissioner shall review  
202.29 responses and comments and determine if any areas of the state are to be declared hardship  
202.30 areas.

202.31 (d) For each designated hardship area determined in paragraph (c), the commissioner  
202.32 shall publish a request for proposals in accordance with section 144A.073 and Minnesota  
202.33 Rules, parts 4655.1070 to 4655.1098. The request for proposals must be published in the  
202.34 State Register by March 15 following receipt of responses to the request for information.

203.1 The request for proposals must specify the number of new beds which may be added in the  
203.2 designated hardship area, which must not exceed the number which, if added to the existing  
203.3 number of beds in the area, including beds in layaway status, would have prevented it from  
203.4 being determined to be a hardship area under paragraph (b), clause (1). Beginning July 1,  
203.5 2011, the number of new beds approved must not exceed 200 beds statewide per biennium.  
203.6 After June 30, 2019, the number of new beds that may be approved in a biennium must not  
203.7 exceed 300 statewide. For a proposal to be considered, the commissioner must receive it  
203.8 within six months of the publication of the request for proposals. The commissioner shall  
203.9 review responses to the request for proposals and shall approve or disapprove each proposal  
203.10 by the following July 15, in accordance with section 144A.073 and Minnesota Rules, parts  
203.11 4655.1070 to 4655.1098. The commissioner shall base approvals or disapprovals on a  
203.12 comparison and ranking of proposals using only the criteria in subdivision 4a. Approval of  
203.13 a proposal expires after 18 months unless the facility has added the new beds using existing  
203.14 space, subject to approval by the commissioner, or has commenced construction as defined  
203.15 in subdivision 1a, paragraph (d). If, after the approved beds have been added, fewer than  
203.16 50 percent of the beds in a facility are newly licensed, the operating payment rates previously  
203.17 in effect shall remain. If, after the approved beds have been added, 50 percent or more of  
203.18 the beds in a facility are newly licensed, operating and external fixed payment rates shall  
203.19 be determined according to ~~Minnesota Rules, part 9549.0057, using the limits under sections~~  
203.20 ~~256R.23, subdivision 5, and 256R.24, subdivision 3. External fixed costs payment rates~~  
203.21 ~~must be determined according to section 256R.25~~ section 256R.21, subdivision 5. Property  
203.22 payment rates for facilities with beds added under this subdivision must be determined ~~in~~  
203.23 ~~the same manner as rate determinations resulting from projects approved and completed~~  
203.24 ~~under section 144A.073~~ under section 256R.26.

203.25 (e) The commissioner may:

203.26 (1) certify or license new beds in a new facility that is to be operated by the commissioner  
203.27 of veterans affairs or when the costs of constructing and operating the new beds are to be  
203.28 reimbursed by the commissioner of veterans affairs or the United States Veterans  
203.29 Administration; and

203.30 (2) license or certify beds in a facility that has been involuntarily delicensed or decertified  
203.31 for participation in the medical assistance program, provided that an application for  
203.32 relicensure or recertification is submitted to the commissioner by an organization that is  
203.33 not a related organization as defined in section 256R.02, subdivision 43, to the prior licensee  
203.34 within 120 days after delicensure or decertification.

203.35 **EFFECTIVE DATE.** This section is effective January 1, 2020.

204.1 Sec. 7. Minnesota Statutes 2018, section 144A.071, subdivision 4a, is amended to read:

204.2 Subd. 4a. **Exceptions for replacement beds.** It is in the best interest of the state to  
204.3 ensure that nursing homes and boarding care homes continue to meet the physical plant  
204.4 licensing and certification requirements by permitting certain construction projects. Facilities  
204.5 should be maintained in condition to satisfy the physical and emotional needs of residents  
204.6 while allowing the state to maintain control over nursing home expenditure growth.

204.7 The commissioner of health in coordination with the commissioner of human services,  
204.8 may approve the renovation, replacement, upgrading, or relocation of a nursing home or  
204.9 boarding care home, under the following conditions:

204.10 (a) to license or certify beds in a new facility constructed to replace a facility or to make  
204.11 repairs in an existing facility that was destroyed or damaged after June 30, 1987, by fire,  
204.12 lightning, or other hazard provided:

204.13 (i) destruction was not caused by the intentional act of or at the direction of a controlling  
204.14 person of the facility;

204.15 (ii) at the time the facility was destroyed or damaged the controlling persons of the  
204.16 facility maintained insurance coverage for the type of hazard that occurred in an amount  
204.17 that a reasonable person would conclude was adequate;

204.18 (iii) the net proceeds from an insurance settlement for the damages caused by the hazard  
204.19 are applied to the cost of the new facility or repairs;

204.20 (iv) the number of licensed and certified beds in the new facility does not exceed the  
204.21 number of licensed and certified beds in the destroyed facility; and

204.22 (v) the commissioner determines that the replacement beds are needed to prevent an  
204.23 inadequate supply of beds.

204.24 Project construction costs incurred for repairs authorized under this clause shall not be  
204.25 considered in the dollar threshold amount defined in subdivision 2;

204.26 (b) to license or certify beds that are moved from one location to another within a nursing  
204.27 home facility, provided the total costs of remodeling performed in conjunction with the  
204.28 relocation of beds does not exceed \$1,000,000;

204.29 (c) to license or certify beds in a project recommended for approval under section  
204.30 144A.073;

205.1 (d) to license or certify beds that are moved from an existing state nursing home to a  
205.2 different state facility, provided there is no net increase in the number of state nursing home  
205.3 beds;

205.4 (e) to certify and license as nursing home beds boarding care beds in a certified boarding  
205.5 care facility if the beds meet the standards for nursing home licensure, or in a facility that  
205.6 was granted an exception to the moratorium under section 144A.073, and if the cost of any  
205.7 remodeling of the facility does not exceed \$1,000,000. If boarding care beds are licensed  
205.8 as nursing home beds, the number of boarding care beds in the facility must not increase  
205.9 beyond the number remaining at the time of the upgrade in licensure. The provisions  
205.10 contained in section 144A.073 regarding the upgrading of the facilities do not apply to  
205.11 facilities that satisfy these requirements;

205.12 (f) to license and certify up to 40 beds transferred from an existing facility owned and  
205.13 operated by the Amherst H. Wilder Foundation in the city of St. Paul to a new unit at the  
205.14 same location as the existing facility that will serve persons with Alzheimer's disease and  
205.15 other related disorders. The transfer of beds may occur gradually or in stages, provided the  
205.16 total number of beds transferred does not exceed 40. At the time of licensure and certification  
205.17 of a bed or beds in the new unit, the commissioner of health shall delicense and decertify  
205.18 the same number of beds in the existing facility. As a condition of receiving a license or  
205.19 certification under this clause, the facility must make a written commitment to the  
205.20 commissioner of human services that it will not seek to receive an increase in its  
205.21 property-related payment rate as a result of the transfers allowed under this paragraph;

205.22 (g) to license and certify nursing home beds to replace currently licensed and certified  
205.23 boarding care beds which may be located either in a remodeled or renovated boarding care  
205.24 or nursing home facility or in a remodeled, renovated, newly constructed, or replacement  
205.25 nursing home facility within the identifiable complex of health care facilities in which the  
205.26 currently licensed boarding care beds are presently located, provided that the number of  
205.27 boarding care beds in the facility or complex are decreased by the number to be licensed as  
205.28 nursing home beds and further provided that, if the total costs of new construction,  
205.29 replacement, remodeling, or renovation exceed ten percent of the appraised value of the  
205.30 facility or \$200,000, whichever is less, the facility makes a written commitment to the  
205.31 commissioner of human services that it will not seek to receive an increase in its  
205.32 property-related payment rate by reason of the new construction, replacement, remodeling,  
205.33 or renovation. The provisions contained in section 144A.073 regarding the upgrading of  
205.34 facilities do not apply to facilities that satisfy these requirements;

206.1 (h) to license as a nursing home and certify as a nursing facility a facility that is licensed  
206.2 as a boarding care facility but not certified under the medical assistance program, but only  
206.3 if the commissioner of human services certifies to the commissioner of health that licensing  
206.4 the facility as a nursing home and certifying the facility as a nursing facility will result in  
206.5 a net annual savings to the state general fund of \$200,000 or more;

206.6 (i) to certify, after September 30, 1992, and prior to July 1, 1993, existing nursing home  
206.7 beds in a facility that was licensed and in operation prior to January 1, 1992;

206.8 (j) to license and certify new nursing home beds to replace beds in a facility acquired  
206.9 by the Minneapolis Community Development Agency as part of redevelopment activities  
206.10 in a city of the first class, provided the new facility is located within three miles of the site  
206.11 of the old facility. Operating and property costs for the new facility must be determined and  
206.12 allowed under section 256B.431 or 256B.434 or chapter 256R;

206.13 (k) to license and certify up to 20 new nursing home beds in a community-operated  
206.14 hospital and attached convalescent and nursing care facility with 40 beds on April 21, 1991,  
206.15 that suspended operation of the hospital in April 1986. The commissioner of human services  
206.16 shall provide the facility with the same per diem property-related payment rate for each  
206.17 additional licensed and certified bed as it will receive for its existing 40 beds;

206.18 (l) to license or certify beds in renovation, replacement, or upgrading projects as defined  
206.19 in section 144A.073, subdivision 1, so long as the cumulative total costs of the facility's  
206.20 remodeling projects do not exceed \$1,000,000;

206.21 (m) to license and certify beds that are moved from one location to another for the  
206.22 purposes of converting up to five four-bed wards to single or double occupancy rooms in  
206.23 a nursing home that, as of January 1, 1993, was county-owned and had a licensed capacity  
206.24 of 115 beds;

206.25 (n) to allow a facility that on April 16, 1993, was a 106-bed licensed and certified nursing  
206.26 facility located in Minneapolis to layaway all of its licensed and certified nursing home  
206.27 beds. These beds may be relicensed and recertified in a newly constructed teaching nursing  
206.28 home facility affiliated with a teaching hospital upon approval by the legislature. The  
206.29 proposal must be developed in consultation with the interagency committee on long-term  
206.30 care planning. The beds on layaway status shall have the same status as voluntarily delicensed  
206.31 and decertified beds, except that beds on layaway status remain subject to the surcharge in  
206.32 section 256.9657. This layaway provision expires July 1, 1998;

206.33 (o) to allow a project which will be completed in conjunction with an approved  
206.34 moratorium exception project for a nursing home in southern Cass County and which is

207.1 directly related to that portion of the facility that must be repaired, renovated, or replaced,  
207.2 to correct an emergency plumbing problem for which a state correction order has been  
207.3 issued and which must be corrected by August 31, 1993;

207.4 (p) to allow a facility that on April 16, 1993, was a 368-bed licensed and certified nursing  
207.5 facility located in Minneapolis to layaway, upon 30 days prior written notice to the  
207.6 commissioner, up to 30 of the facility's licensed and certified beds by converting three-bed  
207.7 wards to single or double occupancy. Beds on layaway status shall have the same status as  
207.8 voluntarily delicensed and decertified beds except that beds on layaway status remain subject  
207.9 to the surcharge in section 256.9657, remain subject to the license application and renewal  
207.10 fees under section 144A.07 and shall be subject to a \$100 per bed reactivation fee. In  
207.11 addition, at any time within three years of the effective date of the layaway, the beds on  
207.12 layaway status may be:

207.13 (1) relicensed and recertified upon relocation and reactivation of some or all of the beds  
207.14 to an existing licensed and certified facility or facilities located in Pine River, Brainerd, or  
207.15 International Falls; provided that the total project construction costs related to the relocation  
207.16 of beds from layaway status for any facility receiving relocated beds may not exceed the  
207.17 dollar threshold provided in subdivision 2 unless the construction project has been approved  
207.18 through the moratorium exception process under section 144A.073;

207.19 (2) relicensed and recertified, upon reactivation of some or all of the beds within the  
207.20 facility which placed the beds in layaway status, if the commissioner has determined a need  
207.21 for the reactivation of the beds on layaway status.

207.22 The property-related payment rate of a facility placing beds on layaway status must be  
207.23 adjusted by the incremental change in its rental per diem after recalculating the rental per  
207.24 diem as provided in section 256B.431, subdivision 3a, paragraph (c). The property-related  
207.25 payment rate for a facility relicensing and recertifying beds from layaway status must be  
207.26 adjusted by the incremental change in its rental per diem after recalculating its rental per  
207.27 diem using the number of beds after the relicensing to establish the facility's capacity day  
207.28 divisor, which shall be effective the first day of the month following the month in which  
207.29 the relicensing and recertification became effective. Any beds remaining on layaway status  
207.30 more than three years after the date the layaway status became effective must be removed  
207.31 from layaway status and immediately delicensed and decertified;

207.32 (q) to license and certify beds in a renovation and remodeling project to convert 12  
207.33 four-bed wards into 24 two-bed rooms, expand space, and add improvements in a nursing  
207.34 home that, as of January 1, 1994, met the following conditions: the nursing home was located

208.1 in Ramsey County; had a licensed capacity of 154 beds; and had been ranked among the  
208.2 top 15 applicants by the 1993 moratorium exceptions advisory review panel. The total  
208.3 project construction cost estimate for this project must not exceed the cost estimate submitted  
208.4 in connection with the 1993 moratorium exception process;

208.5 (r) to license and certify up to 117 beds that are relocated from a licensed and certified  
208.6 138-bed nursing facility located in St. Paul to a hospital with 130 licensed hospital beds  
208.7 located in South St. Paul, provided that the nursing facility and hospital are owned by the  
208.8 same or a related organization and that prior to the date the relocation is completed the  
208.9 hospital ceases operation of its inpatient hospital services at that hospital. After relocation,  
208.10 the nursing facility's status shall be the same as it was prior to relocation. The nursing  
208.11 facility's property-related payment rate resulting from the project authorized in this paragraph  
208.12 shall become effective no earlier than April 1, 1996. For purposes of calculating the  
208.13 incremental change in the facility's rental per diem resulting from this project, the allowable  
208.14 appraised value of the nursing facility portion of the existing health care facility physical  
208.15 plant prior to the renovation and relocation may not exceed \$2,490,000;

208.16 (s) to license and certify two beds in a facility to replace beds that were voluntarily  
208.17 delicensed and decertified on June 28, 1991;

208.18 (t) to allow 16 licensed and certified beds located on July 1, 1994, in a 142-bed nursing  
208.19 home and 21-bed boarding care home facility in Minneapolis, notwithstanding the licensure  
208.20 and certification after July 1, 1995, of the Minneapolis facility as a 147-bed nursing home  
208.21 facility after completion of a construction project approved in 1993 under section 144A.073,  
208.22 to be laid away upon 30 days' prior written notice to the commissioner. Beds on layaway  
208.23 status shall have the same status as voluntarily delicensed or decertified beds except that  
208.24 they shall remain subject to the surcharge in section 256.9657. The 16 beds on layaway  
208.25 status may be relicensed as nursing home beds and recertified at any time within five years  
208.26 of the effective date of the layaway upon relocation of some or all of the beds to a licensed  
208.27 and certified facility located in Watertown, provided that the total project construction costs  
208.28 related to the relocation of beds from layaway status for the Watertown facility may not  
208.29 exceed the dollar threshold provided in subdivision 2 unless the construction project has  
208.30 been approved through the moratorium exception process under section 144A.073.

208.31 The property-related payment rate of the facility placing beds on layaway status must  
208.32 be adjusted by the incremental change in its rental per diem after recalculating the rental  
208.33 per diem as provided in section 256B.431, subdivision 3a, paragraph (c). The property-related  
208.34 payment rate for the facility relicensing and recertifying beds from layaway status must be  
208.35 adjusted by the incremental change in its rental per diem after recalculating its rental per

209.1 diem using the number of beds after the relicensing to establish the facility's capacity day  
209.2 divisor, which shall be effective the first day of the month following the month in which  
209.3 the relicensing and recertification became effective. Any beds remaining on layaway status  
209.4 more than five years after the date the layaway status became effective must be removed  
209.5 from layaway status and immediately delicensed and decertified;

209.6 (u) to license and certify beds that are moved within an existing area of a facility or to  
209.7 a newly constructed addition which is built for the purpose of eliminating three- and four-bed  
209.8 rooms and adding space for dining, lounge areas, bathing rooms, and ancillary service areas  
209.9 in a nursing home that, as of January 1, 1995, was located in Fridley and had a licensed  
209.10 capacity of 129 beds;

209.11 (v) to relocate 36 beds in Crow Wing County and four beds from Hennepin County to  
209.12 a 160-bed facility in Crow Wing County, provided all the affected beds are under common  
209.13 ownership;

209.15 County that are relocated from a nursing home destroyed by flood and whose residents were  
209.16 relocated to other nursing homes. The operating cost payment rates for the new nursing  
209.17 facility shall be determined based on the interim and settle-up payment provisions of  
209.18 ~~Minnesota Rules, part 9549.0057,~~ section 256R.27 and the reimbursement provisions of  
209.19 chapter 256R. Property-related reimbursement rates shall be determined under section  
209.20 256R.26, taking into account any federal or state flood-related loans or grants provided to  
209.21 the facility;

209.22 (x) to license and certify to the licensee of a nursing home in Polk County that was  
209.23 destroyed by flood in 1997 replacement projects with a total of up to 129 beds, with at least  
209.24 25 beds to be located in Polk County and up to 104 beds distributed among up to three other  
209.25 counties. These beds may only be distributed to counties with fewer than the median number  
209.26 of age intensity adjusted beds per thousand, as most recently published by the commissioner  
209.27 of human services. If the licensee chooses to distribute beds outside of Polk County under  
209.28 this paragraph, prior to distributing the beds, the commissioner of health must approve the  
209.29 location in which the licensee plans to distribute the beds. The commissioner of health shall  
209.30 consult with the commissioner of human services prior to approving the location of the  
209.31 proposed beds. The licensee may combine these beds with beds relocated from other nursing  
209.32 facilities as provided in section 144A.073, subdivision 3c. The operating payment rates for  
209.33 the new nursing facilities shall be determined based on the interim and settle-up payment  
209.34 provisions of Minnesota Rules, parts 9549.0010 to 9549.0080. Property-related  
209.35 reimbursement rates shall be determined under section 256R.26. If the replacement beds

210.1 permitted under this paragraph are combined with beds from other nursing facilities, the  
210.2 rates shall be calculated as the weighted average of rates determined as provided in this  
210.3 paragraph and section 256R.50;

210.4 (y) to license and certify beds in a renovation and remodeling project to convert 13  
210.5 three-bed wards into 13 two-bed rooms and 13 single-bed rooms, expand space, and add  
210.6 improvements in a nursing home that, as of January 1, 1994, met the following conditions:  
210.7 the nursing home was located in Ramsey County, was not owned by a hospital corporation,  
210.8 had a licensed capacity of 64 beds, and had been ranked among the top 15 applicants by  
210.9 the 1993 moratorium exceptions advisory review panel. The total project construction cost  
210.10 estimate for this project must not exceed the cost estimate submitted in connection with the  
210.11 1993 moratorium exception process;

210.12 (z) to license and certify up to 150 nursing home beds to replace an existing 285 bed  
210.13 nursing facility located in St. Paul. The replacement project shall include both the renovation  
210.14 of existing buildings and the construction of new facilities at the existing site. The reduction  
210.15 in the licensed capacity of the existing facility shall occur during the construction project  
210.16 as beds are taken out of service due to the construction process. Prior to the start of the  
210.17 construction process, the facility shall provide written information to the commissioner of  
210.18 health describing the process for bed reduction, plans for the relocation of residents, and  
210.19 the estimated construction schedule. The relocation of residents shall be in accordance with  
210.20 the provisions of law and rule;

210.25 (bb) to license and certify a new facility in St. Louis County with 44 beds constructed  
210.26 to replace an existing facility in St. Louis County with 31 beds, which has resident rooms  
210.27 on two separate floors and an antiquated elevator that creates safety concerns for residents  
210.28 and prevents nonambulatory residents from residing on the second floor. The project shall  
210.29 include the elimination of three- and four-bed rooms;

210.30 (cc) to license and certify four beds in a 16-bed certified boarding care home in  
210.31 Minneapolis to replace beds that were voluntarily delicensed and decertified on or before  
210.32 March 31, 1992. The licensure and certification is conditional upon the facility periodically  
210.33 assessing and adjusting its resident mix and other factors which may contribute to a potential  
210.34 institution for mental disease declaration. The commissioner of human services shall retain

211.1 the authority to audit the facility at any time and shall require the facility to comply with  
211.2 any requirements necessary to prevent an institution for mental disease declaration, including  
211.3 delicensure and decertification of beds, if necessary;

211.4 (dd) to license and certify 72 beds in an existing facility in Mille Lacs County with 80

211.8 are located near resident living quarters; designation of four beds for rehabilitation in a  
211.9 self-contained area; designation of 30 private rooms; and other improvements;

211.12 (ff) to license and certify a total replacement project of up to 124 beds located in Wilkin  
211.13 County that are in need of relocation from a nursing home significantly damaged by flood.  
211.14 The operating cost payment rates for the new nursing facility shall be determined based on  
211.15 the interim and settle-up payment provisions of ~~Minnesota Rules, part 9549.0057, section~~  
211.16 256R.27 and the reimbursement provisions of chapter 256R. Property-related reimbursement  
211.17 rates shall be determined under section 256R.26, taking into account any federal or state  
211.18 flood-related loans or grants provided to the facility;

211.19 (gg) to allow the commissioner of human services to license an additional nine beds to  
211.20 provide residential services for the physically disabled under Minnesota Rules, parts  
211.21 9570.2000 to 9570.3400, in a 240-bed nursing home located in Duluth, provided that the

211.26 and property rates shall be determined and allowed under chapter 256R and Minnesota  
211.27 Rules, parts 9549.0010 to 9549.0080; or

211.28 (ii) to transfer up to 98 beds of a 129-licensed bed facility located in Anoka County that,  
211.29 as of March 25, 2001, is in the active process of closing, to a 122-licensed bed nonprofit  
211.30 nursing facility located in the city of Columbia Heights or its affiliate. The transfer is effective  
211.31 when the receiving facility notifies the commissioner in writing of the number of beds  
211.32 accepted. The commissioner shall place all transferred beds on layaway status held in the  
211.33 name of the receiving facility. The layaway adjustment provisions of section 256B.431,  
211.34 subdivision 30, do not apply to this layaway. The receiving facility may only remove the

212.1 beds from layaway for recertification and relicensure at the receiving facility's current site,  
212.2 or at a newly constructed facility located in Anoka County. The receiving facility must  
212.3 receive statutory authorization before removing these beds from layaway status, or may  
212.4 remove these beds from layaway status if removal from layaway status is part of a

212.10 under the following conditions:

212.11 (1) to license and certify an 80-bed city-owned facility in Nicollet County to be  
212.12 constructed on the site of a new city-owned hospital to replace an existing 85-bed facility  
212.13 attached to a hospital that is also being replaced. The threshold allowed for this project  
212.14 under section 144A.073 shall be the maximum amount available to pay the additional  
212.15 medical assistance costs of the new facility;

212.16 (2) to license and certify 29 beds to be added to an existing 69-bed facility in St. Louis  
212.17 County, provided that the 29 beds must be transferred from active or layaway status at an  
212.18 existing facility in St. Louis County that had 235 beds on April 1, 2003.

212.19 The licensed capacity at the 235-bed facility must be reduced to 206 beds, but the payment  
212.20 rate at that facility shall not be adjusted as a result of this transfer. The operating payment  
212.21 rate of the facility adding beds after completion of this project shall be the same as it was  
212.22 on the day prior to the day the beds are licensed and certified. This project shall not proceed  
212.23 unless it is approved and financed under the provisions of section 144A.073;

212.24 (3) to license and certify a new 60-bed facility in Austin, provided that: (i) 45 of the new  
212.25 beds are transferred from a 45-bed facility in Austin under common ownership that is closed  
212.26 and 15 of the new beds are transferred from a 182-bed facility in Albert Lea under common  
212.27 ownership; (ii) the commissioner of human services is authorized by the 2004 legislature  
212.28 to negotiate budget-neutral planned nursing facility closures; and (iii) money is available  
212.29 from planned closures of facilities under common ownership to make implementation of  
212.30 this clause budget-neutral to the state. The bed capacity of the Albert Lea facility shall be  
212.31 reduced to 167 beds following the transfer. Of the 60 beds at the new facility, 20 beds shall  
212.32 be used for a special care unit for persons with Alzheimer's disease or related dementias;

213.1 (4) to license and certify up to 80 beds transferred from an existing state-owned nursing  
213.2 facility in Cass County to a new facility located on the grounds of the Ah-Gwah-Ching

213.5 256R.27 and the reimbursement provisions of chapter 256R. The property payment rate for  
213.6 the first three years of operation shall be \$35 per day. For subsequent years, the property  
213.7 payment rate of \$35 per day shall be adjusted for inflation as provided in section 256B.434,

213.10 existing county-owned nursing facility in Steele County relocated to the site of a new acute  
213.11 care facility as part of the county's Communities for a Lifetime comprehensive plan to create  
213.12 innovative responses to the aging of its population. Upon relocation to the new site, the  
213.13 nursing facility shall delicense 28 beds. The payment rate for external fixed costs for the  
213.14 new facility shall be increased by an amount as calculated according to items (i) to (v):

213.15 (i) compute the estimated decrease in medical assistance residents served by the nursing  
213.16 facility by multiplying the decrease in licensed beds by the historical percentage of medical  
213.17 assistance resident days;

213.18 (ii) compute the annual savings to the medical assistance program from the delicensure  
213.19 of 28 beds by multiplying the anticipated decrease in medical assistance residents, determined  
213.20 in item (i), by the existing facility's weighted average payment rate multiplied by 365;

213.21 (iii) compute the anticipated annual costs for community-based services by multiplying

213.26 (v) divide the amount in item (iv) by an amount equal to the relocated nursing facility's

214.22 (vi) divide the difference of the amount in item (iv) and the amount in item (v) by an  
214.23 amount equal to the relocated nursing facility's occupancy factor under section 256B.431,

214.30 this section and section 144A.073, the cost estimate of a moratorium exception project shall  
214.31 include the effects of the proposed project on the costs of the state subsidy for  
214.32 community-based services, nursing services, and housing in institutional and noninstitutional  
214.33 settings. The commissioner of health, in cooperation with the commissioner of human

215.1 services, shall define the method for estimating these costs in the permanent rule

215.14 ~~property-related payment rate to be established upon completion of the project must use the~~  
215.15 ~~actual interest rate obtained by the facility for the project's permanent financing up to the~~  
215.16 ~~maximum permitted under Minnesota Rules, part 9549.0060, subpart 6.~~

215.17 ~~The applicant may choose an alternate interest rate for estimating the project's cost. If~~  
215.18 ~~the applicant makes this election, the commissioner of human services, in determining the~~  
215.19 ~~facility's actual property-related payment rate to be established upon completion of the~~  
215.20 ~~project, must use the lesser of the actual interest rate obtained for the project's permanent~~  
215.21 ~~financing or the interest rate which was used to estimate the proposal's project cost. For~~  
215.22 ~~succeeding rate years, the applicant is at risk for financing costs in excess of the interest~~  
215.23 ~~rate selected.~~

215.24 **EFFECTIVE DATE.** This section is effective January 1, 2020.

222.21 Subd. 5. **Determination of total care-related payment rate limits.** The commissioner  
222.22 must determine each facility's total care-related payment rate limit by:

222.23 (1) multiplying the facility's quality score, as determined under section 256R.16,  
222.24 subdivision 1, paragraph (d), by ~~0.5625~~ 2.0;

222.25 (2) ~~adding 89.375 to~~ subtracting 40.0 from the amount determined in clause (1), and  
222.26 dividing the total by 100; ~~and~~

222.27 (3) multiplying the amount determined in clause (2) by the median total care-related  
222.28 cost per day; and

222.29 (4) multiplying the amount determined in clause (3) by the most-recent available  
222.30 Core-Based Statistical Area wage indices established by the Centers for Medicare and  
222.31 Medicaid Services for the Skilled Nursing Facility Prospective Payment System.

223.1 **EFFECTIVE DATE.** This section is effective January 1, 2020.

223.2 Sec. 23. Minnesota Statutes 2018, section 256R.24, is amended to read:

223.3 **256R.24 OTHER OPERATING PAYMENT RATE.**

223.4 Subdivision 1. **Determination of ~~other operating~~ laundry, housekeeping, and dietary**  
223.5 **cost per day.** Each facility's ~~other operating~~ laundry, housekeeping, and dietary cost per  
223.6 day is ~~its other operating~~ equal to its laundry, housekeeping, and dietary costs divided by  
223.7 the sum of the facility's resident days.

223.8 Subd. 2. **Determination of the ~~median other operating cost per day~~ medians.** The  
223.9 commissioner must determine the laundry, housekeeping, and dietary median ~~other operating~~  
223.10 cost per resident day using the cost reports from nursing facilities in Anoka, Carver, Dakota,  
223.11 Hennepin, Ramsey, Scott, and Washington Counties.

223.12 Subd. 3. **Determination of the ~~other operating~~ payment rate for laundry,**  
223.13 **housekeeping, and dietary.** A facility's ~~other operating~~ payment rate for laundry,  
223.14 housekeeping, and dietary equals 105 percent of the median ~~other operating cost per day~~  
223.15 for laundry, housekeeping, and dietary cost as determined in subdivision 2.

223.16 Subd. 4. **Administrative, maintenance, and plant operations.** (a) The payment rate  
223.17 for administrative, maintenance, and plant operations is \$48.57 per day effective January  
223.18 1, 2020. For the rate period January 1, 2021, through December 31, 2023, this payment rate  
223.19 is increased by one percent annually on January 1.

223.20 (b) For rate years beginning on and after January 1, 2024, this payment rate is adjusted  
223.21 by a forecasting market basket and forecasting index. The adjustment factor must come  
223.22 from the Information Handling Services Healthcare Cost Review, the Skilled Nursing  
223.23 Facility Total Market Basket Index, and the four-quarter moving average percentage change  
223.24 line or a comparable index if this index ceases to be published. The commissioner shall use  
223.25 the fourth quarter index of the upcoming calendar year from the forecast published for the  
223.26 third quarter of the calendar year immediately prior to the rate year for which the rate is  
223.27 being determined.

223.28 Subd. 5. **Determination of the other operating payment rate.** A facility's other  
223.29 operating payment rate equals the sum of the factors determined in subdivisions 3 and 4.

224.1 Sec. 24. Minnesota Statutes 2018, section 256R.25, is amended to read:

224.2 **256R.25 EXTERNAL FIXED COSTS PAYMENT RATE.**

224.3 (a) The payment rate for external fixed costs is the sum of the amounts in paragraphs  
224.4 (b) to ~~(n)~~ (k).

224.5 (b) For a facility licensed as a nursing home, the portion related to the provider surcharge  
224.6 under section 256.9657 is equal to \$8.86 per resident day. For a facility licensed as both a  
224.7 nursing home and a boarding care home, the portion related to the provider surcharge under  
224.8 section 256.9657 is equal to \$8.86 per resident day multiplied by the result of its number  
224.9 of nursing home beds divided by its total number of licensed beds.

224.10 (c) The portion related to the licensure fee under section 144.122, paragraph (d), is the  
224.11 amount of the fee divided by the sum of the facility's resident days.

224.12 (d) The portion related to development and education of resident and family advisory  
224.13 councils under section 144A.33 is \$5 per resident day divided by 365.

224.14 (e) The portion related to scholarships is determined under section 256R.37.

224.15 ~~(f) The portion related to planned closure rate adjustments is as determined under section~~  
224.16 ~~256R.40, subdivision 5, and Minnesota Statutes 2010, section 256B.436.~~

224.17 ~~(g) The portion related to consolidation rate adjustments shall be as determined under~~  
224.18 ~~section 144A.071, subdivisions 4c, paragraph (a), clauses (5) and (6), and 4d.~~

224.19 ~~(h) The portion related to single-bed room incentives is as determined under section~~  
224.20 ~~256R.41.~~

224.21 ~~(i)~~ (f) The portions related to real estate taxes, special assessments, and payments made  
224.22 in lieu of real estate taxes directly identified or allocated to the nursing facility are the ~~actual~~  
224.23 allowable amounts divided by the sum of the facility's resident days. Allowable costs under  
224.24 this paragraph for payments made by a nonprofit nursing facility that are in lieu of real  
224.25 estate taxes shall not exceed the amount which the nursing facility would have paid to a  
224.26 city or township and county for fire, police, sanitation services, and road maintenance costs  
224.27 had real estate taxes been levied on that property for those purposes.

224.28 ~~(j)~~ (g) The portion related to employer health insurance costs is the allowable costs  
224.29 divided by the sum of the facility's resident days.

224.30 ~~(k)~~ (h) The portion related to the Public Employees Retirement Association is ~~actual~~  
224.31 allowable costs divided by the sum of the facility's resident days.

225.4 determined under section 256R.38.

225.5 ~~(n)~~ (k) The portion related to special dietary needs is the amount determined under  
225.6 section 256R.51.

225.7 **EFFECTIVE DATE.** This section is effective January 1, 2020.

225.8 Sec. 25. Minnesota Statutes 2018, section 256R.26, is amended to read:

225.9 **256R.26 PROPERTY PAYMENT RATE.**

225.10 Subdivision 1. **Generally.** The property payment rate for a nursing facility is the property  
225.11 rate established for the facility under sections 256B.431 and 256B.434. (a) For rate years  
225.12 beginning on or after January 1, 2020, the commissioner shall reimburse nursing facilities  
225.13 participating in the medical assistance program for the rental use of real estate and depreciable  
225.14 assets according to this section and sections 256R.261 to 256R.27. The property payment  
225.15 rate made under this methodology is the only payment for costs related to capital assets,  
225.16 including depreciation expense, interest and lease expenses for all depreciable assets, also  
225.17 including depreciable movable equipment, land improvements, and land.

225.18 (b) The commercial valuation system selected by the commissioner must be utilized in  
225.19 all appraisals. The appraisal is not intended to exactly reflect market value, and no  
225.20 adjustments or substitutions are permitted for any alternative analysis of properties than the  
225.21 selected commercial valuation system.

225.22 (c) Based on the valuation of a building and fixed equipment, the property appraisal  
225.23 firm selected by the commissioner must produce a report detailing both the depreciated  
225.24 replacement cost (DRC) and undepreciated replacement cost (URC) of the nursing facility.  
225.25 The valuation excludes depreciable movable equipment, land, or land improvements. The  
225.26 valuation must be adjusted for any shared area included in the DRC and URC not used for  
225.27 nursing facility purposes. Physical plant for central office operations is not included in the  
225.28 appraisal.

225.29 (d) The appraisal initially may include the full value of all shared areas. The DRC, URC,  
225.30 and square footage are established by an appraisal and must be adjusted to reflect only the  
225.31 nursing facility usage of shared areas in the final nursing facility values. The adjustment  
225.32 must be based on a Medicare-approved allocation basis for the type of service provided by

226.1 each area. Shared areas outside the appraised space must be added to the DRC, URC, and  
226.2 related square footage using the average of each value from the space in the appraisal.

226.3 Subd. 2. **Appraised value.** For rate years beginning on or after January 1, 2020, the  
226.4 DRC and URC are based on the appraisals of a building and attached fixtures as determined  
226.5 by the contracted property appraisal firm using a commercial valuation system selected by  
226.6 the commissioner.

226.7 Subd. 3. **Initial rate year.** The property payment rate calculated under section 256R.265  
226.8 for the initial rate year effective January 1, 2020, must be a per diem amount based on the  
226.9 DRC and URC of a nursing facility's building and attached fixtures, as estimated by a  
226.10 commercial property appraisal firm in 2016. The initial values for both the DRC and URC,  
226.11 adjusted for nonnursing facility space, must be increased by six percent.

226.12 Subd. 4. **Subsequent rate years.** (a) Beginning in calendar year 2020, the commissioner  
226.13 shall contract with a property appraisal firm to appraise the building and attached fixtures  
226.14 for nursing facilities using the commercial valuation system. Approximately one-third of  
226.15 the nursing facilities must be appraised each year.

226.16 (b) If a nursing facility wishes to appeal findings of fact in the appraisal report, the  
226.17 nursing facility must request a revision within 20 calendar days after receipt of the appraisal  
226.18 report.

226.19 (c) The property payment rate for rate year beginning January 1, 2021, for the one-third  
226.20 of nursing facilities that are newly appraised in 2020 must be based upon new DRCs and  
226.21 URCs for buildings and attached fixtures as determined by the contracted property appraisal  
226.22 firm.

226.23 (d) The property payment rate for rate years beginning January 1, 2021, and January 1,  
226.24 2022, for the remainder of the nursing facilities that were not previously appraised, must  
226.25 use the net DRC and URC used in the January 1, 2020, property payment rates adjusted for  
226.26 inflation before any formula limitations are applied. The index for the inflation adjustment  
226.27 must be based on the change in the United States All-Items Consumer Price Index (CPI-U)  
226.28 forecasted by the Reports and Forecasts Division of the Department of Human Services in  
226.29 the third quarter of the calendar year preceding the rate year. The inflation adjustment must  
226.30 be based on the 12-month period from the midpoint of the previous rate year to the midpoint  
226.31 of the rate year for which the rate is being determined. Nursing facilities under this paragraph  
226.32 must have the property payment rates beginning January 1, 2022, and January 1, 2023,  
226.33 based on new replacement costs and depreciated values as determined in appraisals based  
226.34 on the three-year cycle.

227.1 (e) For the nursing facilities that have an on-site property appraisal conducted by the  
227.2 commissioner's designee after the initial 2016 appraisal, the most recent appraisal must be  
227.3 used in subsequent years until a new on-site property appraisal is conducted. In the years  
227.4 after the initial appraisal, the most recent DRC and URC must be updated through the  
227.5 commercial valuation system. These valuations are updates only and not subject to revisions  
227.6 of any of the original valuations or appeal by the nursing facility.

227.7 Subd. 5. **Special reappraisals.** (a) A nursing facility that completes an addition to or  
227.8 replacement of a building or attached fixtures as approved in section 144A.073 after January  
227.9 1, 2020, may request a property rate adjustment effective the first of January, April, July,  
227.10 or October after project completion. The nursing facility must submit all cost data related  
227.11 to the project to the commissioner within 90 days of project completion. The commissioner  
227.12 must add the nursing facility to the next group of scheduled appraisals. The nursing facility's  
227.13 updated appraisal must be used to calculate a revised property rate effective the first of  
227.14 January, April, July, or October after project completion. If an updated appraisal cannot be  
227.15 scheduled within 90 days of the effective date of the revised property, the commissioner  
227.16 must establish an interim valuation which must be adjusted retroactively when the updated  
227.17 appraisal is available. For a nursing facility with projects approved under section 144A.073  
227.18 prior to January 1, 2020, moratorium project construction adjustments must be calculated  
227.19 under Minnesota Statutes 2018, section 256B.434, subdivision 4f, and the adjustment added  
227.20 to the nursing facility's hold harmless rate effective the first of January, April, July, or  
227.21 October after project completion. This adjustment is in addition to the updated appraisal  
227.22 described in this paragraph.

227.23 (b) A nursing facility that completes a threshold construction project after January 1,  
227.24 2020, may submit a project rate adjustment request to the commissioner if the building  
227.25 improvement or addition costs exceed \$300,000 and the threshold construction project is  
227.26 not reflected in an appraisal used for rate setting. The cost must be incurred by the nursing  
227.27 facility, or if the nursing facility is leased and the cost is incurred by the lease holder, the  
227.28 provider's lease has been increased for the project. Threshold project costs exceeding a total  
227.29 of \$1,500,000 within a three-year period, or a prorated amount if the appraisals are less than  
227.30 three years apart, must not be recognized. The property payment rate must be updated to  
227.31 reflect the new DRC and URC values effective the first of January or July after project  
227.32 completion. In subsequent property payment rate calculations, an addition to the DRC and  
227.33 URC must be eliminated once a full appraisal is complete for the nursing facility after project  
227.34 completion. At the option of the commissioner, the appraisal schedule may be adjusted for

228.1 nursing facilities completing threshold projects. Threshold project costs are not considered  
228.2 if the costs were incurred prior to the date of the last appraisal.

228.3 (c) Effective January 1, 2020, a nursing facility new to the medical assistance program  
228.4 must have the building and fixed equipment appraised by the property appraisal firm upon  
228.5 completion of construction of the nursing facility, or, if not newly constructed, upon entering  
228.6 the medical assistance program. If an appraisal cannot be scheduled within 90 days of the  
228.7 certification date, the commissioner must establish an interim valuation to be adjusted  
228.8 retroactively when the appraisal is available.

228.9 Subd. 6. **Limitation on appraisal valuations.** Effective for appraisals conducted on or  
228.10 after January 1, 2020, the increase in the URC is limited to \$500,000 per year since the last  
228.11 completed appraisal plus any completed project costs approved under section 144A.073.  
228.12 Any limitation to the URC must be applied in the same proportion to the DRC.

228.13 Subd. 7. **Total hold harmless rate.** (a) Total hold harmless rate includes planned closure  
228.14 adjustments under Minnesota Statutes 2018, section 256R.40, subdivision 5; consolidation  
228.15 adjustments under section 144A.071, subdivisions 4c, paragraph (a), clauses (5) and (6),  
228.16 and 4d; equity incentives under sections 256B.431, subdivision 16, and Minnesota Statutes  
228.17 2018, 256B.434, subdivision 4f; single-bed incentives under Minnesota Statutes 2018,  
228.18 section 256R.41; project construction costs under Minnesota Statutes 2018, section 144A.071,  
228.19 subdivision 1a, paragraph (j); and all components of the property payment rate under section  
228.20 256R.26 in effect on December 31, 2019.

228.21 (b) For moratorium projects as defined under sections 144A.071 and 144A.073 that are  
228.22 eligible for rate adjustments approved prior to January 1, 2020, but not reflected in the rate  
228.23 on December 31, 2019, the moratorium rate adjustments determined under Minnesota  
228.24 Statutes 2018, sections 256B.431, subdivisions 3f, 17, 17a, 17c, 17d, 17e, 21, 30, and 45,  
228.25 and 256B.434, subdivisions 4f and 4j, must be added to the total hold harmless rate in effect  
228.26 on the first of January, April, July, or October after project completion.

228.27 (c) Effective January 1, 2020, rate adjustments under Minnesota Statutes 2018, section  
228.28 256R.25, paragraphs (f) to (h) from previous rate years shall be included in the total hold  
228.29 harmless rate.

228.30 (d) This subdivision expires effective January 1, 2026.

228.31 Subd. 8. **Phase out of hold harmless rate.** (a) For a nursing facility that has a higher  
228.32 total hold harmless rate than the rate calculated in section 256R.265, the nursing facility  
228.33 must receive 100 percent of the total hold harmless rate for the rate year beginning January  
228.34 1, 2020.

229.1 (b) For rate years beginning January 1, 2021, to January 1, 2024, the property payment  
229.2 rate is a blending of the total hold harmless rate and the property rate determined in section  
229.3 256R.265, plus any adjustments issued for construction projects between appraisals, if a  
229.4 higher rate results. If not, the property payment rate is determined according to section  
229.5 256R.265.

229.6 (c) For the rate year beginning January 1, 2021, for eligible nursing facilities, the property  
229.7 payment rate is 80 percent of the total hold harmless rate and 20 percent of the property  
229.8 payment rate calculated in section 256R.265.

229.9 (d) For the rate year beginning January 1, 2022, for eligible nursing facilities, the property  
229.10 payment rate is 60 percent of the total hold harmless rate and 40 percent of the property  
229.11 payment rate calculated in section 256R.265.

229.12 (e) For the rate year beginning January 1, 2023, for eligible nursing facilities, the property  
229.13 payment rate is 40 percent of the total hold harmless rate and 60 percent of the property  
229.14 payment rate calculated in section 256R.265.

229.15 (f) For the rate year beginning January 1, 2024, for eligible nursing facilities, the property  
229.16 payment rate is 20 percent of the total hold harmless rate and 80 percent of the property  
229.17 payment rate calculated in section 256R.265.

229.18 (g) For rate years beginning January 1, 2025, and thereafter, the property payment rate  
229.19 is as calculated under section 256R.265.

229.20 (h) This subdivision expires effective January 1, 2026.

229.21 **Sec. 26. [256R.261] NURSING FACILITY PROPERTY RATE DEFINITIONS.**

229.22 Subdivision 1. **Definitions.** For purposes of sections 256R.26 to 256R.27, the following

230.7 equipment are: (1) a relatively fixed location in the building; (2) capable of being moved  
230.8 as distinguished from building equipment; (3) a unit cost sufficient to justify ledger control;  
230.9 and (4) sufficient size and identity to make control feasible by means of identification tags.

230.20 equipment.

230.21 Subd. 11. **Fair rental value system.** "Fair rental value system" means a system that  
230.22 establishes a price for the use of a space based on an appraised value of the property. The

230.25 by an established rental rate.

230.26 Subd. 12. **Fixed equipment.** "Fixed equipment" means equipment affixed to the building  
230.27 and not subject to transfer, including but not limited to wiring, electrical fixtures, plumbing,

231.8 Threshold projects exclude land, land improvements, and depreciable movable equipment  
231.9 purchases.

231.10 Subd. 17. **Undepreciated replacement cost or URC.** "Undepreciated replacement cost"  
231.11 or "URC" means the undepreciated replacement cost determined by the appraisal for building

231.20 Subdivision 1. **Square feet per bed limit.** The square feet per bed limit is calculated as  
231.21 follows:

231.22 (1) the URC of the nursing facility from the appraisal is divided by the total allowable  
231.23 square feet;

231.24 (2) the total allowable square feet per bed is calculated by dividing the actual square  
231.25 feet from the appraisal, after adjustment for non-nursing facility area, by the number of  
231.26 licensed beds three months prior to the beginning of the rate year limited to the following  
231.27 maximum. The allowable square feet maximum is 800 square feet per bed plus 25 percent  
231.28 of the square feet over 800 up to 1,200 square feet per bed. Square feet over 1,200 square  
231.29 feet per bed is not recognized; and

231.30 (3) the total allowable square feet per bed in clause (2) is multiplied by the amount in  
231.31 clause (1) and by the number of licensed beds three months prior to the beginning of the  
231.32 rate year to determine the square feet per bed limit.

232.1 Subd. 2. **Total URC limit.** The total URC limit is calculated as follows:

232.2 (1) the square feet per bed limit as determined in subdivision 1 is divided by the number  
232.3 of licensed beds three months prior to the beginning of the rate year to determine allowable  
232.4 URC per bed for each nursing facility, adjusted for square feet limitation;

232.5 (2) the allowable URC per bed, adjusted for square feet limitation, for all nursing facilities  
232.6 is placed in an array annually to determine the value at the 75th percentile. This is the limit  
232.7 for the URC per bed for non-single beds;

232.8 (3) the value determined in clause (2) is multiplied by 115 percent to determine the limit  
232.9 for the URC per bed for single beds;

232.10 (4) the number of non-single-licensed beds three months prior to the beginning of the  
232.11 rate year is multiplied by the amount in clause (2);

232.12 (5) the number of single-licensed beds three months prior to the beginning of the rate  
232.13 year is multiplied by the amount in clause (3); and

232.14 (6) the amounts in clauses (4) and (5) are summed to determine the total URC limit;

232.15 Subd. 3. **Calculation of total property rate.** The total property rate is calculated as  
232.16 follows:

232.17 (1) the lower of the allowable URC based on square feet per bed limit as determined  
232.18 under subdivision 1 or the total URC limit in subdivision 2 is the final allowed URC;

232.19 (2) the final allowed URC determined in clause (1) is divided by the URC from the  
232.20 appraisal to determine the allowed percentage. The allowed percentage is multiplied by the  
232.21 depreciated replacement value from the appraisal, adjusted for non-nursing facility area, to  
232.22 determine the final allowed depreciated replacement value;

232.23 (3) the number of licensed beds three months prior to the beginning of the rate year is  
232.24 multiplied by \$5,305 to determine reimbursement for land and land improvements. There  
232.25 is no separate addition to the property rate for parking structures;

232.26 (4) the values in clauses (2) and (3) are summed and then multiplied by the rental rate  
232.27 of 5.5 percent to determine allowable property reimbursement;

232.28 (5) the allowable property reimbursement determined in clause (4) is divided by 90  
232.29 percent of capacity days to determine the building property rate. Capacity days are determined  
232.30 by multiplying the number of licensed beds three months prior to the beginning of the report  
232.31 year by 365;

233.1 (6) for the rate year beginning January 1, 2020, the equipment allowance is \$2.77 per  
233.2 resident day. For the rate year beginning January 1, 2021, the equipment allowance must  
233.3 be adjusted annually for inflation. The index for the inflation adjustment must be based on  
233.4 the change in the United States All Items Consumer Price Index (CPI-U) forecasted by the  
233.5 Reports and Forecasts Division of the Department of Human Services in the third quarter  
233.6 of the calendar year preceding the rate year. The inflation adjustment must be based on the  
233.7 12-month period from the midpoint of the previous rate year to the midpoint of the rate year  
233.8 for which the rate is being determined; and

233.9 (7) the sum of the building property rate and the equipment allowance is the total property  
233.10 rate.

233.11 **Sec. 28. [256R.27] INTERIM AND SETTLE UP PAYMENT RATES.**

233.12 Subdivision 1. **Generally.** (a) The commissioner shall determine the interim payment  
233.13 rates and settle up payment rates for a newly constructed nursing facility, or a nursing facility  
233.14 with an increase in licensed capacity of 50 percent or more, according to subdivisions 2 and  
233.15 3.

233.16 (b) The nursing facility must submit a written application to the commissioner to receive  
233.17 interim payment rates. In its application, the nursing facility must state any reasons for  
233.18 noncompliance with this chapter.

233.19 (c) The effective date of the interim payment rates is the earlier of either the first day a  
233.20 resident is admitted to the newly constructed nursing facility or the date the nursing facility  
233.21 bed is certified for the medical assistance program. The interim payment rates must not be  
233.22 in effect for more than 17 months.

233.23 (d) The nursing facility must continue to receive the interim payment rates until the  
233.24 settle up payment rates are determined under subdivision 3.

233.25 (e) For the 15-month period following the settle up reporting period, the settle up payment  
233.26 rates must be determined according to subdivision 3, paragraph (c).

233.27 (f) The settle up payment rates are effective retroactively to the beginning of the interim  
233.28 cost reporting period and are effective until the end of the interim rate period.

233.29 (g) The total operating and external fixed costs payment rate for the rate year beginning  
233.30 January 1 following the 15-month period in paragraph (e) must be determined under this  
233.31 chapter.

234.1 Subd. 2. Determination of interim payment rates. (a) The nursing facility shall submit  
234.2 an interim cost report in a format similar to the Minnesota Statistical and Cost Report and  
234.3 other supporting information as required by this chapter for the reporting year in which the  
234.4 nursing facility plans to begin operation at least 60 days before the first day a resident is  
234.5 admitted to the newly constructed nursing facility bed. The interim cost report must include  
234.6 the nursing facility's anticipated interim costs and anticipated interim resident days for each  
234.7 resident class in the interim cost report. The anticipated interim resident days for each  
234.8 resident class is multiplied by the weight for that resident class to determine the anticipated  
234.9 interim standardized days as defined in section 256R.02, subdivision 50, and resident days  
234.10 as defined in section 256R.02, subdivision 45, for the reporting period.

234.11 (b) The interim total operating payment rate is determined according to this section,  
234.12 except that:

234.13 (1) the anticipated interim costs and anticipated interim resident days reported on the  
234.14 interim cost report and the anticipated interim standardized days as defined by section  
234.15 256R.02, subdivision 50, must be used for the interim;

234.16 (2) the commissioner shall use anticipated interim costs and anticipated interim  
234.17 standardized days in determining the allowable historical direct care cost per standardized  
234.18 day as determined under section 256R.23, subdivision 2;

234.19 (3) the commissioner shall use anticipated interim costs and anticipated interim resident  
234.20 days in determining the allowable historical other care-related cost per resident day as  
234.21 determined under section 256R.23, subdivision 3;

234.22 (4) the commissioner shall use anticipated interim costs and anticipated interim resident  
234.23 days to determine the allowable historical external fixed costs per day under section 256R.25,  
234.24 paragraphs (b) to (k);

234.25 (5) the total care-related payment rate limits established in section 256R.23, subdivision  
234.26 5, and in effect at the beginning of the interim period, must be increased by ten percent; and

234.27 (6) the other operating payment rate as determined under section 256R.24 in effect for  
234.28 the rate year must be used for the other operating cost per day.

234.29 Subd. 3. Determination of settle up payment rates. (a) When the interim payment  
234.30 rates begin between May 1 and September 30, the nursing facility shall file settle up cost  
234.31 reports for the period from the beginning of the interim payment rates through September  
234.32 30 of the following year.

235.1 (b) When the interim payment rates begin between October 1 and April 30, the nursing  
235.2 facility shall file settle up cost reports for the period from the beginning of the interim  
235.3 payment rates to the first September 30 following the beginning of the interim payment  
235.4 rates.

235.5 (c) The settle up total operating payment rate is determined according to this section,  
235.6 except that:

235.7 (1) the allowable costs and resident days reported on the settle up cost report and the  
235.8 standardized days as defined by section 256R.02, subdivision 50, must be used for the  
235.9 interim and settle-up period;

235.10 (2) the commissioner shall use the allowable costs and standardized days in clause (1)  
235.11 to determine the allowable historical direct care cost per standardized day as determined  
235.12 under section 256R.23, subdivision 2;

235.13 (3) the commissioner shall use the allowable costs and the allowable resident days to  
235.14 determine both the allowable historical other care-related cost per resident day as determined  
235.15 under section 256R.23, subdivision 3;

235.16 (4) the commissioner shall use the allowable costs and the allowable resident days to  
235.17 determine the allowable historical external fixed costs per day under section 256R.25,  
235.18 paragraphs (b) to (k);

235.19 (5) the total care-related payment limits established in section 256R.23, subdivision 5,  
235.20 are the limits for the settle up reporting periods. If the interim period includes more than  
235.21 one July 1 date, the commissioner shall use the total care-related payment rate limit  
235.22 established in section 256R.23, subdivision 5, increased by ten percent for the second July  
235.23 1 date; and

235.24 (6) the other operating payment rate as determined under section 256R.24 in effect for  
235.25 the rate year must be used for the other operating cost per day.

235.26 **Sec. 29. [256R.28] INTERIM AND SETTLE UP PAYMENT RATES FOR NEW**  
235.27 **OWNERS AND OPERATORS.**

235.28 Subdivision 1. **Generally.** (a) A nursing facility that undergoes a change of ownership  
235.29 or operator resulting in a change of licensee, as determined by the commissioner of health  
235.30 under chapter 144A, after December 31, 2019, must receive interim payment rates and settle  
235.31 up payment rates according to this section.

236.1 (b) The effective date of the interim rates is the effective date of the new license. The  
236.2 interim payment rates must not be in effect for more than 26 months.

236.3 (c) The nursing facility must continue to receive the interim payment rates until the settle  
236.4 up payment rates are determined under subdivision 3.

236.5 (d) The settle up payment rates are effective retroactively to the effective date of the  
236.6 new license and remain effective until the end of the interim rate period.

236.7 (e) For the 15-month period following the settle up payment, rates must be determined  
236.8 according to subdivision 3, paragraph (c).

236.9 (f) The total operating and external fixed costs payment rates for the rate year beginning  
236.10 January 1 following the 15-month period in paragraph (e) must be determined under section  
236.11 256R.21.

236.12 Subd. 2. **Determination of interim payment rates.** The interim total payment rates  
236.13 must be the rates established under section 256R.21.

236.14 Subd. 3. **Determination of settle up payment rates.** (a) When the interim payment  
236.15 rates begin between May 1 and September 30, the nursing facility shall file settle up cost  
236.16 reports for the period from the beginning of the interim payment rates through September  
236.17 30 of the following year.

236.18 (b) When the interim payment rates begin between October 1 and April 30, the nursing  
236.19 facility shall file settle up cost reports for the period from the beginning of the interim  
236.20 payment rates to the first September 30 following the beginning of the interim payment  
236.21 rates.

236.22 (c) The settle up total payment rates are determined according to section 256R.21, except  
236.23 that the commissioner shall:

236.24 (1) use the allowable costs and the resident days from the settle up cost reports to  
236.25 determine the allowable external fixed costs payment rate; and

236.26 (2) use the allowable costs and the resident days from the settle up cost reports to  
236.27 determine the total care-related payment rate.

237.1 Sec. 30. Minnesota Statutes 2018, section 256R.44, is amended to read:

237.2 **256R.44 RATE ADJUSTMENT FOR PRIVATE ROOMS FOR MEDICAL**  
237.3 **NECESSITY.**

237.4 The amount paid for a private room is ~~41.5~~ 110 percent of the established total payment  
237.5 rate for a resident if the resident is a medical assistance recipient and the private room is  
237.6 considered a medical necessity for the resident or others who are affected by the resident's  
237.7 condition, ~~except as provided in Minnesota Rules, part 9549.0060, subpart 11, item C.~~  
237.8 Conditions requiring a private room must be determined by the resident's attending physician  
237.9 and submitted to the commissioner for approval or denial by the commissioner on the basis  
237.10 of medical necessity.

237.11 **EFFECTIVE DATE.** This section is effective January 1, 2020.

237.12 Sec. 31. Minnesota Statutes 2018, section 256R.47, is amended to read:

237.13 **256R.47 RATE ADJUSTMENT FOR CRITICAL ACCESS NURSING**  
237.14 **FACILITIES.**

237.15 (a) The commissioner, in consultation with the commissioner of health, may designate  
237.16 certain nursing facilities as critical access nursing facilities. The designation shall be granted  
237.17 on a competitive basis, within the limits of funds appropriated for this purpose.

237.18 (b) The commissioner shall request proposals from nursing facilities every two years.  
237.19 Proposals must be submitted in the form and according to the timelines established by the  
237.20 commissioner. In selecting applicants to designate, the commissioner, in consultation with  
237.21 the commissioner of health, and with input from stakeholders, shall develop criteria designed  
237.22 to preserve access to nursing facility services in isolated areas, rebalance long-term care,  
237.23 and improve quality. To the extent practicable, the commissioner shall ensure an even  
237.24 distribution of designations across the state.

237.25 (c) The commissioner shall allow the benefits in clauses (1) to (5) for nursing facilities  
237.26 designated as critical access nursing facilities:

237.27 (1) partial rebasing, with the commissioner allowing a designated facility operating  
237.28 payment rates being the sum of up to 60 percent of the operating payment rate determined  
237.29 in accordance with section 256R.21, subdivision 3, and at least 40 percent, with the sum of  
237.30 the two portions being equal to 100 percent, of the operating payment rate that would have  
237.31 been allowed had the facility not been designated. The commissioner may adjust these  
237.32 percentages by up to 20 percent and may approve a request for less than the amount allowed;

238.1 (2) enhanced payments for leave days. Notwithstanding section 256R.43, upon  
238.2 designation as a critical access nursing facility, the commissioner shall limit payment for  
238.3 leave days to 60 percent of that nursing facility's total payment rate for the involved resident,  
238.4 and shall allow this payment only when the occupancy of the nursing facility, inclusive of  
238.5 bed hold days, is equal to or greater than 90 percent;

238.6 (3) two designated critical access nursing facilities, with up to 100 beds in active service,  
238.7 may jointly apply to the commissioner of health for a waiver of Minnesota Rules, part  
238.8 4658.0500, subpart 2, in order to jointly employ a director of nursing. The commissioner  
238.9 of health shall consider each waiver request independently based on the criteria under  
238.10 Minnesota Rules, part 4658.0040;

238.11 (4) the minimum threshold under section 256B.431, subdivision 15, paragraph (e), shall  
238.12 be 40 percent of the amount that would otherwise apply; and

238.13 (5) the quality-based rate limits under section 256R.23, subdivisions 5 to 7, apply to  
238.14 designated critical access nursing facilities.

238.15 (d) Designation of a critical access nursing facility is for a period of two years, after  
238.16 which the benefits allowed under paragraph (c) shall be removed. Designated facilities may  
238.17 apply for continued designation.

238.18 (e) This section is suspended and no state or federal funding shall be appropriated or  
238.19 allocated for the purposes of this section from January 1, 2016, to ~~December 31, 2019~~,  
238.20 through December 31, 2023.

238.21 Sec. 32. Minnesota Statutes 2018, section 256R.50, subdivision 6, is amended to read:

238.22 Subd. 6. **Determination of rate adjustment.** (a) If the amount determined in subdivision  
238.23 5 is less than or equal to the amount determined in subdivision 4, the commissioner shall  
238.24 allow a total payment rate equal to the amount used in subdivision 5, clause (3).

238.25 (b) If the amount determined in subdivision 5 is greater than the amount determined in  
238.26 subdivision 4, the commissioner shall allow a rate with a case mix index of 1.0 that when  
238.27 used in subdivision 5, clause (3), results in the amount determined in subdivision 5 being  
238.28 equal to the amount determined in subdivision 4.

238.29 (c) If the commissioner relies upon provider estimates in subdivision 5, clause (1) or  
238.30 (2), then annually, for three years after the rates determined in this section take effect, the  
238.31 commissioner shall determine the accuracy of the alternative factors of medical assistance  
238.32 case load and the facility average case mix index used in this section and shall reduce the  
238.33 total payment rate if the factors used result in medical assistance costs exceeding the amount

239.1 in subdivision 4. If the actual medical assistance costs exceed the estimates by more than  
239.2 five percent, the commissioner shall also recover the difference between the estimated costs  
239.3 in subdivision 5 and the actual costs according to section 256B.0641. The commissioner  
239.4 may require submission of data from the receiving facility needed to implement this  
239.5 paragraph.

239.6 (d) When beds approved for relocation are put into active service at the destination  
239.7 facility, rates determined in this section must be adjusted by any adjustment amounts that  
239.8 were implemented after the date of the letter of approval.

239.9 (e) Rate adjustments determined under this subdivision expire after three full rate years  
239.10 following the effective date of the rate adjustment. This subdivision expires when the final  
239.11 rate adjustment determined under this subdivision expires.

239.12 Sec. 33. **DIRECTION TO COMMISSIONER; MORATORIUM EXCEPTION**  
239.13 **FUNDING.**

239.14 In fiscal year 2020, the commissioner of health may approve moratorium exception  
239.15 projects under Minnesota Statutes, section 144A.073, for which the full annualized state  
239.16 share of medical assistance costs does not exceed \$1,500,000 plus any carryover of previous  
239.17 appropriations for this purpose.

239.18 **EFFECTIVE DATE.** This section is effective the day following final enactment.

239.19 Sec. 34. **REVISOR INSTRUCTION.**

239.20 In Minnesota Statutes, the revisor of statutes shall renumber the nursing facility  
239.21 contracting provisions that are currently coded as section 256B.434, subdivisions 1 and 3,  
239.22 as amended by this act, as a section in chapter 256R and revise any statutory cross-references  
239.23 consistent with that recoding.

239.24 Sec. 35. **REPEALER.**

239.25 (a) Minnesota Statutes 2018, sections 144A.071, subdivision 4d; 256R.40; and 256R.41,

252.27 be given at least 30 days before the increased fee is due.

252.28 (i) The contribution under paragraph (b) shall be reduced by \$300 per fiscal year if, in

295.6 year that ended not more than 18 months prior to the submission date. The commissioner

295.8 fails to submit required reporting data, the commissioner shall provide notice to providers  
295.9 that have not provided required data 30 days after the required submission date, and a second  
295.10 notice for providers who have not provided required data 60 days after the required  
295.11 submission date. The commissioner shall temporarily suspend payments to the provider if  
295.12 cost data is not received 90 days after the required submission date. Withheld payments  
295.13 shall be made once data is received by the commissioner.

295.14 (c) The commissioner shall conduct a random validation of data submitted under

295.25 in current law.

295.26 (e) The commissioner, in consultation with stakeholders identified in section 256B.4913,  
295.27 subdivision 5, shall develop and implement a process for providing training and technical  
295.28 assistance necessary to support provider submission of cost documentation required under  
295.29 paragraph (a).

295.30 (f) Beginning November 1, 2019, providers enrolled to provide services with rates  
295.31 determined under this section shall submit labor market data to the commissioner annually,

- 296.12 requested under paragraph (f) is not received 90 days after the required submission date.
- 296.13 The commissioner shall make withheld payments once data is received by the commissioner.
- 296.14 **EFFECTIVE DATE.** This section is effective the day following final enactment.
- 296.15 Sec. 51. Minnesota Statutes 2018, section 256B.4914, subdivision 14, is amended to read:

- 296.17 must identify individuals with exceptional needs that cannot be met under the disability
- 296.18 waiver rate system. The commissioner shall use that information to evaluate and, if necessary,
- 296.19 approve an alternative payment rate for those individuals. Whether granted, denied, or
- 296.20 modified, the commissioner shall respond to all exception requests in writing. The
- 296.21 commissioner shall include in the written response the basis for the action and provide
- 296.22 notification of the right to appeal under paragraph (h).
- 296.23 (b) Lead agencies must act on an exception request within 30 days and notify the initiator
- 296.24 of the request of their recommendation in writing. A lead agency shall submit all exception

- 296.26 (c) An application for a rate exception may be submitted for the following criteria:
- 296.27 (1) an individual has service needs that cannot be met through additional units of service;
- 296.28 (2) an individual's rate determined under subdivisions 6, 7, 8, and 9 is so insufficient
- 296.29 that it has resulted in an individual receiving a notice of discharge from the individual's
- 296.30 provider; or

297.1 (3) an individual's service needs, including behavioral changes, require a level of service  
297.2 which necessitates a change in provider or which requires the current provider to propose  
297.3 service changes beyond those currently authorized.

297.4 (d) Exception requests must include the following information:

297.5 (1) the service needs required by each individual that are not accounted for in subdivisions  
297.6 6, 7, 8, and 9;

297.7 (2) the service rate requested and the difference from the rate determined in subdivisions  
297.8 6, 7, 8, and 9;

297.9 (3) a basis for the underlying costs used for the rate exception and any accompanying  
297.10 documentation; and

297.11 (4) any contingencies for approval.

297.12 (e) Approved rate exceptions shall be managed within lead agency allocations under  
297.13 sections 256B.092 and 256B.49.

297.14 (f) Individual disability waiver recipients, an interested party, or the license holder that  
297.15 would receive the rate exception increase may request that a lead agency submit an exception  
297.16 request. A lead agency that denies such a request shall notify the individual waiver recipient,  
297.17 interested party, or license holder of its decision and the reasons for denying the request in  
297.18 writing no later than 30 days after the request has been made and shall submit its denial to  
297.19 the commissioner in accordance with paragraph (b). The reasons for the denial must be  
297.20 based on the failure to meet the criteria in paragraph (c).

297.21 (g) The commissioner shall determine whether to approve or deny an exception request  
297.22 no more than 30 days after receiving the request. If the commissioner denies the request,  
297.23 the commissioner shall notify the lead agency and the individual disability waiver recipient,  
297.24 the interested party, and the license holder in writing of the reasons for the denial.

297.25 (h) The individual disability waiver recipient may appeal any denial of an exception  
297.26 request by either the lead agency or the commissioner, pursuant to sections 256.045 and  
297.27 256.0451. When the denial of an exception request results in the proposed demission of a  
297.28 waiver recipient from a residential or day habilitation program, the commissioner shall issue  
297.29 a temporary stay of demission, when requested by the disability waiver recipient, consistent  
297.30 with the provisions of section 256.045, subdivisions 4a and 6, paragraph (c). The temporary  
297.31 stay shall remain in effect until the lead agency can provide an informed choice of  
297.32 appropriate, alternative services to the disability waiver.

298.1 (i) Providers may petition lead agencies to update values that were entered incorrectly  
298.2 or erroneously into the rate management system, based on past service level discussions  
298.3 and determination in subdivision 4, without applying for a rate exception.

298.4 (j) The starting date for the rate exception will be the later of the date of the recipient's  
298.5 change in support or the date of the request to the lead agency for an exception.

298.6 (k) The commissioner shall track all exception requests received and their dispositions.  
298.7 The commissioner shall issue quarterly public exceptions statistical reports, including the  
298.8 number of exception requests received and the numbers granted, denied, withdrawn, and  
298.9 pending. The report shall include the average amount of time required to process exceptions.

298.10 ~~(l) No later than January 15, 2016, the commissioner shall provide research findings on~~  
298.11 ~~the estimated fiscal impact, the primary cost drivers, and common population characteristics~~  
298.12 ~~of recipients with needs that cannot be met by the framework rates.~~

298.13 ~~(m) No later than July 1, 2016, the commissioner shall develop and implement, in~~  
298.14 ~~consultation with stakeholders, a process to determine eligibility for rate exceptions for~~  
298.15 ~~individuals with rates determined under the methodology in section 256B.4913, subdivision~~  
298.16 ~~4a. Determination of eligibility for an exception will occur as annual service renewals are~~  
298.17 ~~completed.~~

298.18 ~~(n) (l) Approved rate exceptions will be implemented at such time that the individual's~~  
298.19 ~~rate is no longer banded and remain in effect in all cases until an individual's needs change~~  
298.20 ~~as defined in paragraph (c).~~

322.3 services are provided.

322.4 (b) If an entity is unable to provide one or more of the services listed in paragraph (a),  
322.5 clauses (6) to (17), the commissioner may certify the entity as a CCBHC, if the entity has

322.7 and that meets federal CCBHC criteria as a designated collaborating organization, or, to  
322.8 the extent allowed by the federal CCBHC criteria, the commissioner may approve a referral  
322.9 arrangement. The CCBHC must meet federal requirements regarding the type and scope of  
322.10 services to be provided directly by the CCBHC.

322.11 (c) Notwithstanding any other law that requires a county contract or other form of county

322.16 As part of the certification process in paragraph (a), the commissioner shall require a letter  
322.17 of support from the CCBHC's host county confirming that the CCBHC and the county or  
322.18 counties it serves have an ongoing relationship to facilitate access and continuity of care,  
322.19 especially for individuals who are uninsured or who may go on and off medical assistance.

322.20 (d) When the standards listed in paragraph (a) or other applicable standards conflict or  
322.21 address similar issues in duplicative or incompatible ways, the commissioner may grant  
322.22 variances to state requirements if the variances do not conflict with federal requirements.  
322.23 If standards overlap, the commissioner may substitute all or a part of a licensure or  
322.24 certification that is substantially the same as another licensure or certification. The  
322.25 commissioner shall consult with stakeholders, as described in subdivision 4, before granting  
322.26 variances under this provision. For the CCBHC that is certified but not approved for  
322.27 prospective payment under section 256B.0625, subdivision 5m, the commissioner may  
322.28 grant a variance under this paragraph if the variance does not increase the state share of  
322.29 costs.

322.30 (e) The commissioner shall issue a list of required evidence-based practices to be  
322.31 delivered by CCBHCs, and may also provide a list of recommended evidence-based practices.  
322.32 The commissioner may update the list to reflect advances in outcomes research and medical  
322.33 services for persons living with mental illnesses or substance use disorders. The commissioner  
322.34 shall take into consideration the adequacy of evidence to support the efficacy of the practice,  
322.35 the quality of workforce available, and the current availability of the practice in the state.

323.1 At least 30 days before issuing the initial list and any revisions, the commissioner shall  
323.2 provide stakeholders with an opportunity to comment.

323.3 ~~(f) The commissioner shall establish standards and methodologies for a prospective~~  
323.4 ~~payment system for medical assistance payments for services delivered by certified~~  
323.5 ~~community behavioral health clinics, in accordance with guidance issued by the Centers~~  
323.6 ~~for Medicare and Medicaid Services. During the operation of the demonstration project,~~  
323.7 ~~payments shall comply with federal requirements for an enhanced federal medical assistance~~  
323.8 ~~percentage. The commissioner may include quality bonus payment in the prospective~~  
323.9 ~~payment system based on federal criteria and on a clinic's provision of the evidence-based~~  
323.10 ~~practices in paragraph (e). The prospective payment system does not apply to MinnesotaCare.~~  
323.11 ~~Implementation of the prospective payment system is effective July 1, 2017, or upon federal~~  
323.12 ~~approval, whichever is later.~~

323.13 ~~(g) The commissioner shall seek federal approval to continue federal financial~~  
323.14 ~~participation in payment for CCBHC services after the federal demonstration period ends~~  
323.15 ~~for clinics that were certified as CCBHCs during the demonstration period and that continue~~  
323.16 ~~to meet the CCBHC certification standards in paragraph (a). Payment for CCBHC services~~  
323.17 ~~shall cease effective July 1, 2019, if continued federal financial participation for the payment~~  
323.18 ~~of CCBHC services cannot be obtained.~~

323.19 ~~(h) The commissioner may certify at least one CCBHC located in an urban area and at~~  
323.20 ~~least one CCBHC located in a rural area, as defined by federal criteria. To the extent allowed~~  
323.21 ~~by federal law, the commissioner may limit the number of certified clinics so that the~~  
323.22 ~~projected claims for certified clinics will not exceed the funds budgeted for this purpose.~~  
323.23 ~~The commissioner shall give preference to clinics that:~~

323.24 ~~(1) provide a comprehensive range of services and evidence-based practices for all age~~  
323.25 ~~groups, with services being fully coordinated and integrated; and~~

323.26 ~~(2) enhance the state's ability to meet the federal priorities to be selected as a CCBHC~~  
323.27 ~~demonstration state.~~

323.28 ~~(i)~~ (f) The commissioner shall recertify CCBHCs at least every three years. The  
323.29 commissioner shall establish a process for decertification and shall require corrective action,  
323.30 medical assistance repayment, or decertification of a CCBHC that no longer meets the  
323.31 requirements in this section or that fails to meet the standards provided by the commissioner  
323.32 in the application and certification process.

324.1 **EFFECTIVE DATE.** This section is effective July 1, 2019, or upon federal approval,  
324.2 whichever is later. The commissioner of human services shall notify the revisor of statutes  
324.3 when federal approval is obtained.

324.6 management program, the program must make a determination that the program services  
324.7 are appropriate to the needs of the individual. A program may only admit individuals ~~who~~  
324.8 ~~meet the admission criteria and~~ who, at the time of admission, meet the criteria for admission  
324.9 as determined by current American Society of Addiction Medicine standards for appropriate  
324.10 level of withdrawal management.

324.11 ~~(1) are impaired as the result of intoxication;~~

324.12 ~~(2) are experiencing physical, mental, or emotional problems due to intoxication or~~  
324.13 ~~withdrawal from alcohol or other drugs;~~

324.14 ~~(3) are being held under apprehend and hold orders under section 253B.07, subdivision~~  
324.15 ~~2b;~~

324.16 ~~(4) have been committed under chapter 253B and need temporary placement;~~

324.17 ~~(5) are held under emergency holds or peace and health officer holds under section~~  
324.18 ~~253B.05, subdivision 1 or 2; or~~

324.19 ~~(6) need to stay temporarily in a protective environment because of a crisis related to~~  
324.20 ~~substance use disorder. Individuals satisfying this clause may be admitted only at the request~~  
324.21 ~~of the county of fiscal responsibility, as determined according to section 256G.02, subdivision~~  
324.22 ~~4. Individuals admitted according to this clause must not be restricted to the facility.~~

324.23 Sec. 7. Minnesota Statutes 2018, section 254A.03, subdivision 3, is amended to read:

324.24 Subd. 3. **Rules for substance use disorder care.** (a) The commissioner of human  
324.25 services shall establish by rule criteria to be used in determining the appropriate level of  
324.26 chemical dependency care for each recipient of public assistance seeking treatment for  
324.27 substance misuse or substance use disorder. Upon federal approval of a comprehensive  
324.28 assessment as a Medicaid benefit, or on July 1, 2018, whichever is later, and notwithstanding  
324.29 the criteria in Minnesota Rules, parts 9530.6600 to 9530.6655, an eligible vendor of  
324.30 comprehensive assessments under section 254B.05 may determine and approve the  
324.31 appropriate level of substance use disorder treatment for a recipient of public assistance.  
324.32 The process for determining an individual's financial eligibility for the consolidated chemical

325.1 dependency treatment fund or determining an individual's enrollment in or eligibility for a  
325.2 publicly subsidized health plan is not affected by the individual's choice to access a  
325.3 comprehensive assessment for placement.

325.4 (b) The commissioner shall develop and implement a utilization review process for  
325.5 publicly funded treatment placements to monitor and review the clinical appropriateness  
325.6 and timeliness of all publicly funded placements in treatment.

325.7 (c) If a screen result is positive for alcohol or substance misuse, a brief screening for  
325.8 alcohol or substance use disorder that is provided to a recipient of public assistance within  
325.9 a primary care clinic, hospital, or other medical setting or school setting establishes medical  
325.10 necessity and approval for an initial set of substance use disorder services identified in  
325.11 section 254B.05, subdivision 5. The initial set of services approved for a recipient whose  
325.12 screen result is positive may include any combination of up to four hours of individual or  
325.13 group substance use disorder treatment, two hours of substance use disorder treatment  
325.14 coordination, or two hours of substance use disorder peer support services provided by a  
325.15 qualified individual according to chapter 245G. A recipient must obtain an assessment  
325.16 pursuant to paragraph (a) to be approved for additional treatment services.

325.17 **EFFECTIVE DATE.** Contingent upon federal approval, this section is effective July  
325.18 1, 2019. The commissioner of human services shall notify the revisor of statutes when  
325.19 federal approval is obtained or denied.

325.20 Sec. 8. Minnesota Statutes 2018, section 254B.02, subdivision 1, is amended to read:

325.21 Subdivision 1. **Chemical dependency treatment allocation.** The chemical dependency  
325.22 treatment appropriation shall be placed in a special revenue account. ~~The commissioner~~  
325.23 ~~shall annually transfer funds from the chemical dependency fund to pay for operation of~~  
325.24 ~~the drug and alcohol abuse normative evaluation system and to pay for all costs incurred~~  
325.25 ~~by adding two positions for licensing of chemical dependency treatment and rehabilitation~~  
325.26 ~~programs located in hospitals for which funds are not otherwise appropriated. The remainder~~  
325.27 ~~of the money in the special revenue account must be used according to the requirements in~~  
325.28 this chapter.

325.29 **EFFECTIVE DATE.** This section is effective July 1, 2019.

325.30 Sec. 9. Minnesota Statutes 2018, section 254B.03, subdivision 2, is amended to read:

325.31 Subd. 2. **Chemical dependency fund payment.** (a) Payment from the chemical  
325.32 dependency fund is limited to payments for services other than detoxification licensed under

326.1 Minnesota Rules, parts 9530.6510 to 9530.6590, that, if located outside of federally  
326.2 recognized tribal lands, would be required to be licensed by the commissioner as a chemical  
326.3 dependency treatment or rehabilitation program under sections 245A.01 to 245A.16, and  
326.4 services other than detoxification provided in another state that would be required to be  
326.5 licensed as a chemical dependency program if the program were in the state. Out of state  
326.6 vendors must also provide the commissioner with assurances that the program complies  
326.7 substantially with state licensing requirements and possesses all licenses and certifications  
326.8 required by the host state to provide chemical dependency treatment. Vendors receiving  
326.9 payments from the chemical dependency fund must not require co-payment from a recipient  
326.10 of benefits for services provided under this subdivision. The vendor is prohibited from using  
326.11 the client's public benefits to offset the cost of services paid under this section. The vendor  
326.12 shall not require the client to use public benefits for room or board costs. This includes but  
326.13 is not limited to cash assistance benefits under chapters 119B, 256D, and 256J, or SNAP  
326.14 benefits. Retention of SNAP benefits is a right of a client receiving services through the  
326.15 consolidated chemical dependency treatment fund or through state contracted managed care  
326.16 entities. Payment from the chemical dependency fund shall be made for necessary room  
326.17 and board costs provided by vendors ~~certified according to~~ meeting the criteria under section  
326.18 254B.05, subdivision 1a, or in a community hospital licensed by the commissioner of health  
326.19 according to sections 144.50 to 144.56 to a client who is:

326.20 (1) determined to meet the criteria for placement in a residential chemical dependency  
326.21 treatment program according to rules adopted under section 254A.03, subdivision 3; and

326.22 (2) concurrently receiving a chemical dependency treatment service in a program licensed  
326.23 by the commissioner and reimbursed by the chemical dependency fund.

326.24 (b) A county may, from its own resources, provide chemical dependency services for  
326.25 which state payments are not made. A county may elect to use the same invoice procedures  
326.26 and obtain the same state payment services as are used for chemical dependency services  
326.27 for which state payments are made under this section if county payments are made to the  
326.28 state in advance of state payments to vendors. When a county uses the state system for  
326.29 payment, the commissioner shall make monthly billings to the county using the most recent  
326.30 available information to determine the anticipated services for which payments will be made  
326.31 in the coming month. Adjustment of any overestimate or underestimate based on actual  
326.32 expenditures shall be made by the state agency by adjusting the estimate for any succeeding  
326.33 month.

326.34 (c) The commissioner shall coordinate chemical dependency services and determine  
326.35 whether there is a need for any proposed expansion of chemical dependency treatment

327.1 services. The commissioner shall deny vendor certification to any provider that has not  
327.2 received prior approval from the commissioner for the creation of new programs or the  
327.3 expansion of existing program capacity. The commissioner shall consider the provider's  
327.4 capacity to obtain clients from outside the state based on plans, agreements, and previous  
327.5 utilization history, when determining the need for new treatment services.

327.6 **EFFECTIVE DATE.** This section is effective July 1, 2019.

327.7 Sec. 10. Minnesota Statutes 2018, section 254B.03, subdivision 4, is amended to read:

327.8 Subd. 4. **Division of costs.** (a) Except for services provided by a county under section  
327.9 254B.09, subdivision 1, or services provided under section 256B.69, the county shall, out  
327.10 of local money, pay the state for 22.95 percent of the cost of chemical dependency services,  
327.11 ~~including~~ except for those services provided to persons eligible for enrolled in medical  
327.12 assistance under chapter 256B and room and board services under section 254B.05,  
327.13 subdivision 5, paragraph (b), clause (12). Counties may use the indigent hospitalization  
327.14 levy for treatment and hospital payments made under this section.

327.15 (b) 22.95 percent of any state collections from private or third-party pay, less 15 percent  
327.16 for the cost of payment and collections, must be distributed to the county that paid for a  
327.17 portion of the treatment under this section.

327.25 income standards of section 256B.056, subdivision 4, and are not enrolled in medical  
327.26 assistance, are entitled to chemical dependency fund services. State money appropriated  
327.27 for this paragraph must be placed in a separate account established for this purpose.

327.28 (b) Persons with dependent children who are determined to be in need of chemical  
327.29 dependency treatment pursuant to an assessment under section 626.556, subdivision 10, or

341.19 an applicant to offer behavioral health home services of a type or in a manner that is  
341.20 innovative, if the commissioner finds that the variance does not impede the achievement of  
341.21 the criteria in subdivisions 4a, 4b, 4c, or 4d and may improve the behavioral health home  
341.22 services provided by the applicant.

341.23 (d) The commissioner's decision to grant or deny a variance request is final and not  
341.24 subject to appeal.

342.11 continuum of high quality care.

342.12 **Subd. 2. Provider participation.** Substance use disorder treatment providers may elect

343.3 do not conflict with federal requirements. The commissioner shall publish service

343.17 Subd. 3b. **Cost limits for elderly waiver applicants who reside in a nursing facility**  
343.18 **or another eligible facility.** (a) For a person who is a nursing facility resident at the time  
343.19 of requesting a determination of eligibility for elderly waived services, a monthly  
343.20 conversion budget limit for the cost of elderly waived services may be requested. The  
343.21 monthly conversion budget limit for the cost of elderly waiver services shall be the resident  
343.22 class assigned under Minnesota Rules, parts 9549.0050 to 9549.0059, for that resident in  
343.23 the nursing facility where the resident currently resides until July 1 of the state fiscal year  
343.24 in which the resident assessment system as described in section 256B.438 for nursing home  
343.25 rate determination is implemented. Effective on July 1 of the state fiscal year in which the  
343.26 resident assessment system as described in section 256B.438 for nursing home rate  
343.27 determination is implemented, the monthly conversion budget limit for the cost of elderly  
343.28 waiver services shall be based on the per diem nursing facility rate as determined by the  
343.29 resident assessment system as described in section ~~256B.438~~ 256R.17 for residents in the  
343.30 nursing facility where the elderly waiver applicant currently resides. The monthly conversion  
343.31 budget limit shall be calculated by multiplying the per diem by 365, divided by 12, and  
343.32 reduced by the recipient's maintenance needs allowance as described in subdivision 1d. The  
343.33 initially approved monthly conversion budget limit shall be adjusted annually as described  
343.34 in subdivision 3a, paragraph (a). The limit under this ~~subdivision~~ paragraph only applies to

344.1 persons discharged from a nursing facility after a minimum 30-day stay and found eligible  
344.2 for waived services on or after July 1, 1997. For conversions from the nursing home to  
344.3 the elderly waiver with consumer directed community support services, the nursing facility  
344.4 per diem used to calculate the monthly conversion budget limit must be reduced by a  
344.5 percentage equal to the percentage difference between the consumer directed services budget  
344.6 limit that would be assigned according to the federally approved waiver plan and the  
344.7 corresponding community case mix cap, but not to exceed 50 percent.

344.8 (b) A person who meets elderly waiver eligibility criteria and the eligibility criteria under  
344.9 section 256.478, subdivision 1, is eligible for a special monthly budget limit for the cost of  
344.10 elderly waived services up to \$21,610 per month. The special monthly budget limit must  
344.11 be adjusted annually as described in subdivision 3a, paragraphs (a) and (e). For a person  
344.12 using a special monthly budget limit under the elderly waiver with consumer-directed  
344.13 community support services, the special monthly budget limit must be reduced as described  
344.14 in paragraph (a).

344.15 (c) The commissioner may provide an additional payment for documented costs between  
344.16 a threshold determined by the commissioner and the special monthly budget limit to a  
344.17 managed care plan for elderly waiver services provided to a person who is: (1) eligible for  
344.18 a special monthly budget limit under paragraph (b); and (2) enrolled in a managed care plan  
344.19 that provides elderly waiver services under section 256B.69.

344.20 (d) For monthly conversion budget limits under paragraph (a) and special monthly budget  
344.21 limits under paragraph (b), the service rate limits for adult foster care under subdivision 3d  
344.22 and for customized living under subdivision 3e may be exceeded if necessary for the provider  
344.23 to meet identified needs and provide services as approved in the coordinated service and  
344.24 support plan, if the total cost of all services does not exceed the monthly conversion or  
344.25 special monthly budget limit. Service rates must be established using tools provided by the  
344.26 commissioner.

344.27 (e) The following costs must be included in determining the total monthly costs for the  
344.28 waiver client:

344.29 (1) cost of all waived services, including specialized supplies and equipment and  
344.30 environmental accessibility adaptations; and

344.31 (2) cost of skilled nursing, home health aide, and personal care services reimbursable  
344.32 by medical assistance.

344.33 **EFFECTIVE DATE.** This section is effective upon federal approval. The commissioner

345.3 make available additional waiver allocations and additional necessary resources to assure  
345.4 timely discharges from the Anoka Metro Regional Treatment Center and the Minnesota

345.13 (b) Additional waiver allocations under this subdivision must meet cost-effectiveness  
345.14 requirements of the federal approved waiver plan.

345.16 an exception under section 245A.03, subdivision 7, paragraph (a).

345.17 **EFFECTIVE DATE.** This section is effective July 1, 2019.

345.18 Sec. 34. Minnesota Statutes 2018, section 256B.0941, subdivision 3, is amended to read:

345.19 Subd. 3. **Per diem rate.** (a) The commissioner shall establish a statewide one per diem  
345.20 rate per provider for psychiatric residential treatment facility services for individuals 21  
345.21 years of age or younger. The rate for a provider must not exceed the rate charged by that  
345.22 provider for the same service to other payers. Payment must not be made to more than one  
345.23 entity for each individual for services provided under this section on a given day. The  
345.24 commissioner shall set rates prospectively for the annual rate period. The commissioner  
345.25 shall require providers to submit annual cost reports on a uniform cost reporting form and  
345.26 shall use submitted cost reports to inform the rate-setting process. The cost reporting shall  
345.27 be done according to federal requirements for Medicare cost reports.

345.28 (b) The following are included in the rate:

346.10 to prior authorization by the state's medical review agent.

346.11 (d) Medicaid shall reimburse for concurrent services as approved by the commissioner  
346.12 to support continuity of care and successful discharge from the facility. "Concurrent services"  
346.13 means services provided by another entity or provider while the individual is admitted to a  
346.14 psychiatric residential treatment facility. Payment for concurrent services may be limited  
346.15 and these services are subject to prior authorization by the state's medical review agent.  
346.16 Concurrent services may include targeted case management, assertive community treatment,  
346.17 clinical care consultation, team consultation, and treatment planning.

435.25 Sec. 74. Minnesota Statutes 2018, section 256B.0624, subdivision 5, is amended to read:

435.26 Subd. 5. **Mobile crisis intervention staff qualifications.** ~~For provision of adult mental~~  
435.27 ~~health mobile crisis intervention services, a mobile crisis intervention team is comprised of~~  
435.28 ~~at least two mental health professionals as defined in section 245.462, subdivision 18, clauses~~

435.30 ~~practitioner as defined in section 245.462, subdivision 17, with the required mental health~~

436.1 (a) Mobile crisis intervention team staff must be qualified to provide services as mental

436.3 family peer specialists, or mental health certified peer specialists.

436.6 a mental health professional, clinical trainee, or mental health practitioner. A provider entity  
436.7 must consider the needs of the area served when adding staff.

436.8 (c) Mental health crisis assessment and intervention services must be led by a mental  
436.9 health professional, or under the supervision of a mental health professional according to  
436.10 subdivision 9, by a clinical trainee or mental health practitioner.

436.11 (d) The team must have ~~at least two people with~~ at least one member providing on-site  
436.12 crisis intervention services when needed. Team members must be experienced in mental  
436.13 health assessment, crisis intervention techniques, treatment engagement strategies, working  
436.14 with families, and clinical decision-making under emergency conditions and have knowledge  
436.15 of local services and resources. The team must recommend and coordinate the team's services  
436.16 with appropriate local resources such as the county social services agency, mental health  
436.17 services, and local law enforcement when necessary.

436.18 Sec. 75. Minnesota Statutes 2018, section 256B.0624, subdivision 6, is amended to read:

436.19 **Subd. 6. Crisis assessment and mobile intervention treatment planning.** (a) Prior to  
436.20 initiating mobile crisis intervention services, a screening of the potential crisis situation  
436.21 must be conducted. The screening may use the resources of crisis assistance and emergency  
436.22 services as defined in sections 245.462, subdivision 6, and 245.469, subdivisions 1 and 2.  
436.23 The screening must gather information, determine whether a crisis situation exists, identify  
436.24 parties involved, and determine an appropriate response. Nothing in this section precludes  
436.25 crisis staff from answering a call from a third party.

436.26 (b) In conducting the screening, a provider shall:

436.27 (1) employ evidence-based practices as identified by the commissioner in collaboration  
436.28 with the commissioner of health to reduce the risk of the recipient's suicide and self-injurious  
436.29 behavior;

436.30 (2) work with the recipient to establish a plan and time frame for responding to the crisis,  
436.31 including immediate needs for support by telephone or text message until a face-to-face  
436.32 response arrives;

437.1 (3) document significant factors related to the determination of a crisis, including prior  
437.2 calls to the crisis team, recent presentation at an emergency department, known calls to 911  
437.3 or law enforcement, or third parties with knowledge of a potential recipient's history or  
437.4 current needs;

437.5 (4) screen for the needs of a third-party caller, including a recipient who primarily  
437.6 identifies as a family member or a caregiver but also presents signs of a crisis; and

437.7 (5) provide psychoeducation, including education on the available means for reducing  
437.8 self-harm, to relevant third parties, including family members or other persons living in the  
437.9 home.

437.10 (c) A provider entity shall consider the following to indicate a positive screening unless  
437.11 the provider entity documents specific evidence to show why crisis response was clinically  
437.12 inappropriate:

437.13 (1) the recipient presented in an emergency department or urgent care setting, and the  
437.14 health care team at that location requested crisis services; or

437.15 (2) a peace officer requested crisis services for a recipient who may be subject to  
437.16 transportation under section 253B.05 for a mental health crisis.

437.17 ~~(b)~~ (d) If a crisis exists, a crisis assessment must be completed. A crisis assessment  
437.18 evaluates any immediate needs for which emergency services are needed and, as time  
437.19 permits, the recipient's current life situation, health information including current medications,  
437.20 sources of stress, mental health problems and symptoms, strengths, cultural considerations,  
437.21 support network, vulnerabilities, current functioning, and the recipient's preferences as  
437.22 communicated directly by the recipient, or as communicated in a health care directive as  
437.23 described in chapters 145C and 253B, the treatment plan described under paragraph (d), a  
437.24 crisis prevention plan, or a wellness recovery action plan.

437.25 ~~(e)~~ (e) If the crisis assessment determines mobile crisis intervention services are needed,  
437.26 the intervention services must be provided promptly. As opportunity presents during the  
437.27 intervention, at least two members of the mobile crisis intervention team must confer directly  
437.28 or by telephone about the assessment, treatment plan, and actions taken and needed. At least  
437.29 one of the team members must be on site providing crisis intervention services. If providing  
437.30 on-site crisis intervention services, a mental health practitioner must seek ~~clinical~~ treatment  
437.31 supervision as required in subdivision 9.

437.32 (f) Direct contact with the recipient is not required before initiating a crisis assessment  
437.33 or intervention service. A crisis team may gather relevant information from a third party at

438.1 the scene to establish the need for services and potential safety factors. A crisis assessment  
438.2 is provided face-to-face by a mobile crisis intervention team outside of an inpatient hospital  
438.3 setting. A service must be provided promptly and respond to the recipient's location whenever  
438.4 possible, including community or clinical settings. As clinically appropriate, a mobile crisis  
438.5 intervention team must coordinate a response with other health care providers if a recipient  
438.6 requires detoxification, withdrawal management, or medical stabilization services in addition  
438.7 to crisis services.

438.8 ~~(d)~~ (g) The mobile crisis intervention team must develop an initial, brief crisis treatment  
438.9 plan as soon as appropriate but no later than 24 hours after the initial face-to-face intervention.  
438.10 The plan must address the needs and problems noted in the crisis assessment and include  
438.11 measurable short-term goals, cultural considerations, and frequency and type of services to  
438.12 be provided to achieve the goals and reduce or eliminate the crisis. The treatment plan must  
438.13 be updated as needed to reflect current goals and services.

438.14 ~~(e)~~ (h) The team must document which short-term goals have been met and when no  
438.15 further crisis intervention services are required. If after an assessment a crisis provider entity  
438.16 refers a recipient to an intensive setting, including an emergency department, in-patient  
438.17 hospitalization, or crisis residential treatment, one of the crisis team members who performed  
438.18 or conferred on the assessment must immediately contact the provider entity and consult  
438.19 with the triage nurse or other staff responsible for intake. The crisis team member must  
438.20 convey key findings or concerns that led to the referral. The consultation shall occur with  
438.21 the recipient's consent, the recipient's legal guardian's consent, or as allowed by section  
438.22 144.293, subdivision 5. Any available written documentation, including a crisis treatment  
438.23 plan, must be sent no later than the next business day.

438.24 ~~(f)~~ (i) If the recipient's crisis is stabilized, but the recipient needs a referral to other  
438.25 services, the team must provide referrals to these services. If the recipient has a case manager,  
438.26 planning for other services must be coordinated with the case manager. If the recipient is  
438.27 unable to follow up on the referral, the team must link the recipient to the service and follow

457.23 absence from the family psychotherapy session is necessary to carry out the client's individual  
457.24 treatment plan. If the client is excluded, the mental health professional must document the

457.30 professional or clinical trainee is required to conduct the group. For a group of nine to 12  
457.31 persons, a team of at least two mental health professionals or two clinical trainees or one  
457.32 mental health professional and one clinical trainee is required to co-conduct the group.  
457.33 Medical assistance payment is limited to a group of no more than 12 persons.

458.1 (e) A multiple-family group psychotherapy session is eligible for medical assistance  
458.2 payment if the psychotherapy session is designed for at least two but not more than five

458.4 identified treatment needs of each client as indicated in each client's treatment plan. If the  
458.5 client is excluded, the mental health professional or clinical trainee must document the  
458.6 reason for and the length of time of the exclusion. The mental health professional or clinical  
458.7 trainee must document any reason a member of the client's family is excluded.

458.17 hospital admission under Minnesota Rules, part 9505.0520, subpart 1, and who has the  
458.18 family and community resources necessary and appropriate to support the client's residence  
458.19 in the community. Partial hospitalization consists of multiple intensive short-term therapeutic  
458.20 services provided by a multidisciplinary staff person to treat the client's mental illness.

458.21 Sec. 97. **[256B.0671] CLIENT ELIGIBILITY FOR MENTAL HEALTH SERVICES.**

478.13 to 144.55; (ii) a community mental health center under section 245.62; or (iii) an entity that  
478.14 is certified under subdivision 4 to operate a program that meets the requirements of section  
478.15 245.4884, subdivision 2, and Minnesota Rules, parts 9505.0170 to 9505.0475. The day  
478.16 treatment program must stabilize the client's mental health status while developing and  
478.17 improving the client's independent living and socialization skills. The goal of the day  
478.18 treatment program must be to reduce or relieve the effects of mental illness and provide  
478.19 training to enable the client to live in the community. The program must be available  
478.20 year-round at least three to five days per week, two or three hours per day, unless the normal  
478.21 five-day school week is shortened by a holiday, weather-related cancellation, or other  
478.22 districtwide reduction in a school week. A child transitioning into or out of day treatment  
478.23 must receive a minimum treatment of one day a week for a two-hour time block. The  
478.24 two-hour time block must include at least one hour of patient and/or family or group  
478.25 psychotherapy. The remainder of the structured treatment program may include patient  
478.26 and/or family or group psychotherapy, and individual or group skills training, if included  
478.27 in the client's individual treatment plan. Day treatment programs are not part of inpatient  
478.28 or residential treatment services. When a day treatment group that meets the minimum group  
478.29 size requirement temporarily falls below the minimum group size because of a member's  
478.30 temporary absence, medical assistance covers a group session conducted for the group  
478.31 members in attendance. A day treatment program may provide fewer than the minimally  
478.32 required hours for a particular child during a billing period in which the child is transitioning  
478.33 into, or out of, the program.

479.1 (b) To be eligible for medical assistance payment, a provider entity must deliver the  
479.2 service components of children's therapeutic services and supports in compliance with the  
479.3 following requirements:

479.4 (1) patient and/or family, family, and group psychotherapy must be delivered as specified  
479.5 in ~~Minnesota Rules, part 9505.0372, subpart 6~~ section 256B.0625, subdivision 69.

479.6 Psychotherapy to address the child's underlying mental health disorder must be documented  
479.7 as part of the child's ongoing treatment. A provider must deliver, or arrange for, medically  
479.8 necessary psychotherapy, unless the child's parent or caregiver chooses not to receive it.

479.9 When a provider delivering other services to a child under this section deems it not medically  
479.10 necessary to provide psychotherapy to the child for a period of 90 days or longer, the provider  
479.11 entity must document the medical reasons why psychotherapy is not necessary. When a  
479.12 provider determines that a child needs psychotherapy but psychotherapy cannot be delivered  
479.13 due to a shortage of licensed mental health professionals in the child's community, the  
479.14 provider must document the lack of access in the child's medical record;

479.15 (2) individual, family, or group skills training ~~must be provided by a mental health~~  
479.16 ~~professional or a mental health practitioner who is delivering services that fall within the~~  
479.17 ~~scope of the provider's practice and is supervised by a mental health professional who~~  
479.18 ~~accepts full professional responsibility for the training.~~ Skills training is subject to the  
479.19 following requirements:

479.20 (i) a mental health professional, clinical trainee, or mental health practitioner shall provide  
479.21 skills training;

479.22 (ii) skills training delivered to a child or the child's family must be targeted to the specific  
479.23 deficits or maladaptations of the child's mental health disorder and must be prescribed in  
479.24 the child's individual treatment plan;

479.25 (iii) the mental health professional delivering or supervising the delivery of skills training  
479.26 must document any underlying psychiatric condition and must document how skills training  
479.27 is being used in conjunction with psychotherapy to address the underlying condition;

479.28 (iv) skills training delivered to the child's family must teach skills needed by parents or  
479.29 primary caregivers to enhance the child's skill development, to help the child utilize daily  
479.30 life skills taught by a mental health professional, clinical trainee, or mental health practitioner,  
479.31 and to develop or maintain a home environment that supports the child's progressive use of  
479.32 skills;

480.1 (v) group skills training may be provided to multiple recipients who, because of the  
480.2 nature of their emotional, behavioral, or social dysfunction, can derive mutual benefit from  
480.3 interaction in a group setting, which must be staffed as follows:

480.4 (A) one mental health professional or one clinical trainee or mental health practitioner  
480.5 ~~under supervision of a licensed mental health professional~~ must work with a group of three  
480.6 to eight clients; or

480.7 (B) any combination of two mental health professionals, two clinical trainees, or mental  
480.8 health practitioners ~~under supervision of a licensed mental health professional, or one mental~~  
480.9 ~~health professional or clinical trainee and one mental health practitioner~~ must work with a  
480.10 group of nine to 12 clients;

480.11 (vi) a mental health professional, clinical trainee, or mental health practitioner must have  
480.12 taught the psychosocial skill before a mental health behavioral aide may practice that skill  
480.13 with the client; and

480.14 (vii) for group skills training, when a skills group that meets the minimum group size  
480.15 requirement temporarily falls below the minimum group size because of a group member's  
480.16 temporary absence, the provider may conduct the session for the group members in  
480.17 attendance;

480.18 (3) ~~crisis assistance~~ crisis planning to a child and family must include development of a written  
480.19 plan that anticipates the particular factors specific to the child that may precipitate a  
480.20 psychiatric crisis for the child in the near future. The written plan must document actions  
480.21 that the family should be prepared to take to resolve or stabilize a crisis, such as advance  
480.22 arrangements for direct intervention and support services to the child and the child's family.  
480.23 ~~Crisis assistance~~ crisis planning must include preparing resources designed to address abrupt or  
480.24 substantial changes in the functioning of the child or the child's family when sudden change  
480.25 in behavior or a loss of usual coping mechanisms is observed, or the child begins to present  
480.26 a danger to self or others;

480.27 (4) mental health behavioral aide services must be medically necessary treatment services,  
480.28 identified in the child's individual treatment plan and individual behavior plan, ~~which are~~  
480.29 ~~performed minimally by a paraprofessional qualified according to subdivision 7, paragraph~~  
480.30 ~~(b), clause (3), and~~ which are designed to improve the functioning of the child in the  
480.31 progressive use of developmentally appropriate psychosocial skills. Activities involve  
480.32 working directly with the child, child-peer groupings, or child-family groupings to practice,  
480.33 repeat, reintroduce, and master the skills defined in subdivision 1, paragraph (t), as previously  
480.34 taught by a mental health professional, clinical trainee, or mental health practitioner including:

- 481.1 (i) providing cues or prompts in skill-building peer-to-peer or parent-child interactions  
481.2 so that the child progressively recognizes and responds to the cues independently;
- 481.3 (ii) performing as a practice partner or role-play partner;
- 481.4 (iii) reinforcing the child's accomplishments;
- 481.5 (iv) generalizing skill-building activities in the child's multiple natural settings;
- 481.6 (v) assigning further practice activities; and
- 481.7 (vi) intervening as necessary to redirect the child's target behavior and to de-escalate  
481.8 behavior that puts the child or other person at risk of injury.

481.9 To be eligible for medical assistance payment, mental health behavioral aide services must  
481.10 be delivered to a child who has been diagnosed with an emotional disturbance or a mental  
481.11 illness, as provided in subdivision 1, paragraph (a). The mental health behavioral aide must  
481.12 implement treatment strategies in the individual treatment plan and the individual behavior  
481.13 plan as developed by the mental health professional, clinical trainee, or mental health  
481.14 practitioner providing direction for the mental health behavioral aide. The mental health  
481.15 behavioral aide must document the delivery of services in written progress notes. Progress  
481.16 notes must reflect implementation of the treatment strategies, as performed by the mental  
481.17 health behavioral aide and the child's responses to the treatment strategies;

481.18 (5) direction of a mental health behavioral aide must include ~~the following:~~

481.19 ~~(i) ongoing face-to-face observation of the mental health behavioral aide delivering~~  
481.20 ~~services to a child by a mental health professional or mental health practitioner for at least~~  
481.21 ~~a total of one hour during every 40 hours of service provided to a child; and~~

481.22 ~~(ii) immediate accessibility of the mental health professional, clinical trainee, or mental~~  
481.23 ~~health practitioner to the mental health behavioral aide during service provision; and~~

481.24 (6) mental health service plan development must be performed in consultation with the  
481.25 child's family and, when appropriate, with other key participants in the child's life by the  
481.26 child's treating mental health professional or clinical trainee or by a mental health practitioner  
481.27 and approved by the treating mental health professional. Treatment plan drafting consists  
481.28 of development, review, and revision by face-to-face or electronic communication. The  
481.29 provider must document events, including the time spent with the family and other key  
481.30 participants in the child's life to ~~review, revise, and sign~~ approve the individual treatment  
481.31 plan. ~~Notwithstanding Minnesota Rules, part 9505.0371, subpart 7, medical assistance~~  
481.32 ~~covers service plan development before completion of the child's individual treatment plan.~~  
481.33 Service plan development is covered only if a treatment plan is completed for the child. If

482.1 upon review it is determined that a treatment plan was not completed for the child, the  
482.2 commissioner shall recover the payment for the service plan development; and,

482.3 ~~(7) to be eligible for payment, a diagnostic assessment must be complete with regard to~~  
482.4 ~~all required components, including multiple assessment appointments required for an~~  
482.5 ~~extended diagnostic assessment and the written report. Dates of the multiple assessment~~  
482.6 ~~appointments must be noted in the client's clinical record.~~

482.7 Sec. 109. Minnesota Statutes 2018, section 256B.0943, subdivision 11, is amended to  
482.8 read:

482.9 Subd. 11. **Documentation and billing.** (a) A provider entity must document the services  
482.10 it provides under this section according to section 245I.33. ~~The provider entity must ensure~~  
482.11 ~~that documentation complies with Minnesota Rules, parts 9505.2175 and 9505.2197. Services~~  
482.12 ~~billed under this section that are not documented according to this subdivision shall be~~  
482.13 ~~subject to monetary recovery by the commissioner. Billing for covered service components~~  
482.14 ~~under subdivision 2, paragraph (b), must not include anything other than direct service time.~~

482.15 ~~(b) An individual mental health provider must promptly document the following in a~~  
482.16 ~~client's record after providing services to the client:~~

482.17 ~~(1) each occurrence of the client's mental health service, including the date, type, start~~  
482.18 ~~and stop times, scope of the service as described in the child's individual treatment plan,~~  
482.19 ~~and outcome of the service compared to baselines and objectives;~~

482.20 ~~(2) the name, dated signature, and credentials of the person who delivered the service;~~

482.21 ~~(3) contact made with other persons interested in the client, including representatives~~  
482.22 ~~of the courts, corrections systems, or schools. The provider must document the name and~~  
482.23 ~~date of each contact;~~

482.24 ~~(4) any contact made with the client's other mental health providers, case manager,~~  
482.25 ~~family members, primary caregiver, legal representative, or the reason the provider did not~~  
482.26 ~~contact the client's family members, primary caregiver, or legal representative, if applicable;~~

482.27 ~~(5) required clinical supervision directly related to the identified client's services and~~  
482.28 ~~needs, as appropriate, with co-signatures of the supervisor and supervisee; and~~

482.29 ~~(6) the date when services are discontinued and reasons for discontinuation of services.~~

483.23 recipient's baseline level of functioning. Mental health mobile services ~~must be provided~~  
483.24 ~~on site by a mobile crisis intervention team outside of an emergency room, urgent care, or~~

485.13 Subd. 5. **Mobile crisis intervention staff qualifications.** ~~(a) To provide children's~~  
485.14 ~~mental health mobile crisis intervention services, a mobile crisis intervention team must~~  
485.15 ~~include:~~

485.16 ~~(1) at least two mental health professionals as defined in section 256B.0943, subdivision~~

486.3 recommend and coordinate the team's services with appropriate local resources, including  
486.4 the county social services agency, mental health service providers, and local law enforcement,  
486.5 if necessary.

486.6 Sec. 114. Minnesota Statutes 2018, section 256B.0944, subdivision 6, is amended to read:

486.7 Subd. 6. **Initial screening and crisis assessment planning.** (a) Before initiating mobile  
486.8 crisis intervention services, a screening of the potential crisis situation must be conducted.  
486.9 The screening may use the resources of crisis assistance and emergency services as defined  
486.10 in sections 245.4871, subdivision 14, and 245.4879, subdivisions 1 and 2. The screening  
486.11 must gather information, determine whether a crisis situation exists, identify the parties  
486.12 involved, and determine an appropriate response.

486.13 (b) In conducting the screening, a provider shall:

486.14 (1) employ evidence-based practices as identified by the commissioner in collaboration  
486.15 with the commissioner of health to reduce the risk of the recipient's suicide and self-injurious  
486.16 behavior;

486.17 (2) work with the recipient to establish a plan and time frame for responding to the crisis,  
486.18 including immediate needs for support by telephone or text message until a face-to-face  
486.19 response arrives;

486.20 (3) document significant factors related to the determination of a crisis, including prior  
486.21 calls to the crisis team, recent presentation at an emergency department, known calls to 911  
486.22 or law enforcement, or the presence of third parties with knowledge of a potential recipient's  
486.23 history or current needs;

486.24 (4) screen for the needs of a third-party caller, including a recipient who primarily  
486.25 identifies as a family member or a caregiver but also presents signs of a crisis; and

486.26 (5) provide psychoeducation, including education on the available means for reducing  
486.27 self-harm, to relevant third parties, including family members or other persons living in the  
486.28 home.

486.29 (c) A provider entity shall consider the following to indicate a positive screening unless  
486.30 the provider entity documents specific evidence to show why crisis response was clinically  
486.31 inappropriate:

487.1 (1) the recipient presented in an emergency department or urgent care setting, and the  
487.2 health care team at that location requested crisis services;

487.3 (2) a peace officer requested crisis services for a recipient who may be subject to  
487.4 transportation under section 253B.05 for a mental health crisis.

487.5 ~~(b)~~ (d) If a crisis exists, a crisis assessment must be completed. A crisis assessment must  
487.6 evaluate any immediate needs for which emergency services are needed and, as time permits,  
487.7 the recipient's current life situation, health information including current medications, sources  
487.8 of stress, mental health problems and symptoms, strengths, cultural considerations, support  
487.9 network, vulnerabilities, and current functioning.

487.10 ~~(e)~~ (e) If the crisis assessment determines mobile crisis intervention services are needed,  
487.11 the intervention services must be provided promptly. As the opportunity presents itself  
487.12 during the intervention, at least two members of the mobile crisis intervention team must  
487.13 confer directly or by telephone about the assessment, treatment plan, and actions taken and  
487.14 needed. At least one of the team members must be on site providing crisis intervention  
487.15 services. If providing on-site crisis intervention services, a mental health practitioner must  
487.16 seek ~~clinical~~ treatment supervision as required under subdivision 9.

487.17 (f) Direct contact with the recipient is not required before initiating a crisis assessment  
487.18 or intervention service. A crisis team may gather relevant information from a third party at  
487.19 the scene to establish the need for services and potential safety factors. A crisis assessment  
487.20 is provided face-to-face by a mobile crisis intervention team outside of an inpatient hospital  
487.21 setting. A service must be provided promptly and respond to the recipient's location whenever  
487.22 possible, including community or clinical settings. As clinically appropriate, a mobile crisis  
487.23 intervention team must coordinate a response with other health care providers if a recipient  
487.24 requires detoxification, withdrawal management, or medical stabilization services in addition  
487.25 to crisis services.

487.26 ~~(d)~~ (g) The mobile crisis intervention team must develop an initial, brief crisis treatment  
487.27 plan as soon as appropriate but no later than 24 hours after the initial face-to-face intervention.  
487.28 The plan must address the needs and problems noted in the crisis assessment and include  
487.29 measurable short-term goals, cultural considerations, and frequency and type of services to  
487.30 be provided to achieve the goals and reduce or eliminate the crisis. The crisis treatment plan  
487.31 must be updated as needed to reflect current goals and services. The team must involve the  
487.32 client and the client's family in developing and implementing the plan.

487.33 ~~(e)~~ (h) The team must document in progress notes which short-term goals have been  
487.34 met and when no further crisis intervention services are required. If after an assessment a

488.1 crisis provider entity refers a recipient to an intensive setting, including an emergency  
488.2 department, in-patient hospitalization, or residential treatment, one of the crisis team members

511.18 Sec. 4. Minnesota Statutes 2018, section 62Q.184, subdivision 1, is amended to read:

511.20 subdivision have the meanings given them.

511.21 (b) "Clinical practice guideline" means a systematically developed statement to assist  
511.22 health care providers and enrollees in making decisions about appropriate health care services  
511.23 for specific clinical circumstances and conditions developed independently of a health plan  
511.24 company, pharmaceutical manufacturer, or any entity with a conflict of interest. A clinical  
511.25 practice guideline also includes a preferred drug list developed in accordance with section  
511.26 256B.0625.

511.27 (c) "Clinical review criteria" means the written screening procedures, decision abstracts,  
511.28 clinical protocols, and clinical practice guidelines used by a health plan company to determine  
511.29 the medical necessity and appropriateness of health care services.

511.30 (d) "Health plan company" has the meaning given in section 62Q.01, subdivision 4, but  
511.31 ~~does not include a managed care organization or~~ also includes a county-based purchasing

512.1 plan participating in a public program under chapter 256B or 256L, ~~or~~ and an integrated  
512.2 health partnership under section 256B.0755.

512.3 (e) "Step therapy protocol" means a protocol or program that establishes the specific  
512.4 sequence in which prescription drugs for a specified medical condition, including  
512.5 self-administered and physician-administered drugs, are medically appropriate for a particular  
512.6 enrollee and are covered under a health plan.

512.7 (f) "Step therapy override" means that the step therapy protocol is overridden in favor  
512.8 of coverage of the selected prescription drug of the prescribing health care provider because  
512.9 at least one of the conditions of subdivision 3, paragraph (a), exists.

512.10 Sec. 5. Minnesota Statutes 2018, section 62Q.184, subdivision 3, is amended to read:

512.11 Subd. 3. **Step therapy override process; transparency.** (a) When coverage of a  
512.12 prescription drug for the treatment of a medical condition is restricted for use by a health  
512.13 plan company through the use of a step therapy protocol, enrollees and prescribing health  
512.14 care providers shall have access to a clear, readily accessible, and convenient process to  
512.15 request a step therapy override. The process shall be made easily accessible on the health  
512.16 plan company's website. A health plan company may use its existing medical exceptions  
512.17 process to satisfy this requirement. A health plan company shall grant an override to the  
512.18 step therapy protocol if at least one of the following conditions exist:

512.19 (1) the prescription drug required under the step therapy protocol is contraindicated  
512.20 pursuant to the pharmaceutical manufacturer's prescribing information for the drug or, due  
512.21 to a documented adverse event with a previous use or a documented medical condition,  
512.22 including a comorbid condition, is likely to do any of the following:

512.23 (i) cause an adverse reaction to the enrollee;

512.24 (ii) decrease the ability of the enrollee to achieve or maintain reasonable functional  
512.25 ability in performing daily activities; or

512.26 (iii) cause physical or mental harm to the enrollee;

512.27 (2) the enrollee has had a trial of the required prescription drug covered by their current  
512.28 or previous health plan, or another prescription drug in the same pharmacologic class or  
512.29 with the same mechanism of action, and was adherent during such trial for a period of time  
512.30 sufficient to allow for a positive treatment outcome, and the prescription drug was  
512.31 discontinued by the enrollee's health care provider due to lack of effectiveness, or an adverse  
512.32 event. This clause does not prohibit a health plan company from requiring an enrollee to  
512.33 try another drug in the same pharmacologic class or with the same mechanism of action if

513.1 that therapy sequence is supported by the evidence-based and peer-reviewed clinical practice  
513.2 guideline, Food and Drug Administration label, or pharmaceutical manufacturer's prescribing  
513.3 information; or

513.4 (3) the enrollee is currently receiving a positive therapeutic outcome on a prescription  
513.5 drug for the medical condition under consideration if, while on their current health plan or  
513.6 the immediately preceding health plan, the enrollee received coverage for the prescription  
513.7 drug and the enrollee's prescribing health care provider gives documentation to the health  
513.8 plan company that the change in prescription drug required by the step therapy protocol is  
513.9 expected to be ineffective or cause harm to the enrollee based on the known characteristics  
513.10 of the specific enrollee and the known characteristics of the required prescription drug.

513.11 (b) Upon granting a step therapy override, a health plan company shall authorize coverage  
513.12 for the prescription drug if the prescription drug is a covered prescription drug under the  
513.13 enrollee's health plan.

513.14 (c) The enrollee, or the prescribing health care provider if designated by the enrollee,  
513.15 may appeal the denial of a step therapy override by a health plan company using the  
513.16 complaint procedure under sections 62Q.68 to 62Q.73 or 256.045.

513.17 (d) In a denial of an override request and any subsequent appeal, a health plan company's  
513.18 decision must specifically state why the step therapy override request did not meet the  
513.19 condition under paragraph (a) cited by the prescribing health care provider in requesting  
513.20 the step therapy override and information regarding the procedure to request external review  
513.21 of the denial pursuant to section 62Q.73. A denial of a request for a step therapy override  
513.22 that is upheld on appeal is a final adverse determination for purposes of section 62Q.73 and  
513.23 is eligible for a request for external review by an enrollee pursuant to section 62Q.73.

513.24 (e) A health plan company shall respond to a step therapy override request or an appeal  
513.25 within five days of receipt of a complete request. In cases where exigent circumstances  
513.26 exist, a health plan company shall respond within 72 hours of receipt of a complete request.  
513.27 If a health plan company does not send a response to the enrollee or prescribing health care  
513.28 provider if designated by the enrollee within the time allotted, the override request or appeal  
513.29 is granted and binding on the health plan company.

513.30 (f) Step therapy override requests must be accessible to and submitted by health care  
513.31 providers, and accepted by group purchasers electronically through secure electronic  
513.32 transmission, as described under section 62J.497, subdivision 5.

513.33 (g) Nothing in this section prohibits a health plan company from:

514.1 (1) requesting relevant documentation from an enrollee's medical record in support of  
514.2 a step therapy override request; or

514.3 (2) requiring an enrollee to try a generic equivalent drug pursuant to section 151.21, or  
514.4 a biosimilar, as defined under United States Code, chapter 42, section 262(i)(2), prior to  
514.5 providing coverage for the equivalent branded prescription drug.

514.6 (h) This section shall not be construed to allow the use of a pharmaceutical sample for  
514.7 the primary purpose of meeting the requirements for a step therapy override.

514.8 Sec. 6. Minnesota Statutes 2018, section 245A.02, subdivision 5a, is amended to read:

517.1 (1) critical access hospitals as defined by Medicare shall be paid using a cost-based  
517.2 methodology;

517.3 (2) long-term hospitals as defined by Medicare shall be paid on a per diem methodology  
517.4 under subdivision 25;

517.5 (3) rehabilitation hospitals or units of hospitals that are recognized as rehabilitation  
517.6 distinct parts as defined by Medicare shall be paid according to the methodology under  
517.7 subdivision 12; and

517.8 (4) all other hospitals shall be paid on a diagnosis-related group (DRG) methodology.

517.9 (b) For the period beginning January 1, 2011, through October 31, 2014, rates shall not  
517.10 be rebased, except that a Minnesota long-term hospital shall be rebased effective January  
517.11 1, 2011, based on its most recent Medicare cost report ending on or before September 1,  
517.12 2008, with the provisions under subdivisions 9 and 23, based on the rates in effect on  
517.13 December 31, 2010. For rate setting periods after November 1, 2014, in which the base  
517.14 years are updated, a Minnesota long-term hospital's base year shall remain within the same  
517.15 period as other hospitals.

517.16 (c) Effective for discharges occurring on and after November 1, 2014, payment rates  
517.17 for hospital inpatient services provided by hospitals located in Minnesota or the local trade  
517.18 area, except for the hospitals paid under the methodologies described in paragraph (a),  
517.19 clauses (2) and (3), shall be rebased, incorporating cost and payment methodologies in a  
517.20 manner similar to Medicare. The base year for the rates effective November 1, 2014, shall  
517.21 be calendar year 2012. The rebasing under this paragraph shall be budget neutral, ensuring  
517.22 that the total aggregate payments under the rebased system are equal to the total aggregate  
517.23 payments that were made for the same number and types of services in the base year. Separate  
517.24 budget neutrality calculations shall be determined for payments made to critical access  
517.25 hospitals and payments made to hospitals paid under the DRG system. Only the rate increases  
517.26 or decreases under subdivision 3a or 3c that applied to the hospitals being rebased during  
517.27 the entire base period shall be incorporated into the budget neutrality calculation.

517.28 (d) For discharges occurring on or after November 1, 2014, through the next rebasing  
517.29 that occurs, the rebased rates under paragraph (c) that apply to hospitals under paragraph  
517.30 (a), clause (4), shall include adjustments to the projected rates that result in no greater than  
517.31 a five percent increase or decrease from the base year payments for any hospital. Any  
517.32 adjustments to the rates made by the commissioner under this paragraph and paragraph (e)  
517.33 shall maintain budget neutrality as described in paragraph (c).

518.1 (e) For discharges occurring on or after November 1, 2014, ~~through the next two rebasing~~  
518.2 ~~periods~~ the commissioner may make additional adjustments to the rebased rates, and when  
518.3 evaluating whether additional adjustments should be made, the commissioner shall consider  
518.4 the impact of the rates on the following:

518.5 (1) pediatric services;

518.6 (2) behavioral health services;

518.7 (3) trauma services as defined by the National Uniform Billing Committee;

518.8 (4) transplant services;

518.9 (5) obstetric services, newborn services, and behavioral health services provided by  
518.10 hospitals outside the seven-county metropolitan area;

518.11 (6) outlier admissions;

518.12 (7) low-volume providers; and

518.13 (8) services provided by small rural hospitals that are not critical access hospitals.

518.14 (f) Hospital payment rates established under paragraph (c) must incorporate the following:

518.15 (1) for hospitals paid under the DRG methodology, the base year payment rate per  
518.16 admission is standardized by the applicable Medicare wage index and adjusted by the  
518.17 hospital's disproportionate population adjustment;

518.18 (2) for critical access hospitals, payment rates for discharges between November 1, 2014,  
518.19 and June 30, 2015, shall be set to the same rate of payment that applied for discharges on  
518.20 October 31, 2014;

518.21 (3) the cost and charge data used to establish hospital payment rates must only reflect  
518.22 inpatient services covered by medical assistance; and

518.23 (4) in determining hospital payment rates for discharges occurring on or after the rate  
518.24 year beginning January 1, 2011, through December 31, 2012, the hospital payment rate per  
518.25 discharge shall be based on the cost-finding methods and allowable costs of the Medicare  
518.26 program in effect during the base year or years. In determining hospital payment rates for  
518.27 discharges in subsequent base years, the per discharge rates shall be based on the cost-finding  
518.28 methods and allowable costs of the Medicare program in effect during the base year or  
518.29 years.

518.30 (g) The commissioner shall validate the rates effective November 1, 2014, by applying  
518.31 the rates established under paragraph (c), and any adjustments made to the rates under

519.1 paragraph (d) or (e), to hospital claims paid in calendar year 2013 to determine whether the  
519.2 total aggregate payments for the same number and types of services under the rebased rates  
519.3 are equal to the total aggregate payments made during calendar year 2013.

519.4 (h) Effective for discharges occurring on or after July 1, 2017, and every two years  
519.5 thereafter, payment rates under this section shall be rebased to reflect only those changes  
519.6 in hospital costs between the existing base year and the next base year. Changes in costs  
519.7 between base years shall be measured using the lower of the hospital cost index defined in  
519.8 subdivision 1, paragraph (a), or the percentage change in the case mix adjusted cost per  
519.9 claim. The commissioner shall establish the base year for each rebasing period considering  
519.10 the most recent year for which filed Medicare cost reports are available. The estimated  
519.11 change in the average payment per hospital discharge resulting from a scheduled rebasing  
519.12 must be calculated and made available to the legislature by January 15 of each year in which  
519.13 rebasing is scheduled to occur, and must include by hospital the differential in payment  
519.14 rates compared to the individual hospital's costs.

519.15 (i) Effective for discharges occurring on or after July 1, 2015, inpatient payment rates  
519.16 for critical access hospitals located in Minnesota or the local trade area shall be determined  
519.17 using a new cost-based methodology. The commissioner shall establish within the  
519.18 methodology tiers of payment designed to promote efficiency and cost-effectiveness.  
519.19 Payment rates for hospitals under this paragraph shall be set at a level that does not exceed  
519.20 the total cost for critical access hospitals as reflected in base year cost reports. Until the  
519.21 next rebasing that occurs, the new methodology shall result in no greater than a five percent  
519.22 decrease from the base year payments for any hospital, except a hospital that had payments  
519.23 that were greater than 100 percent of the hospital's costs in the base year shall have their  
519.24 rate set equal to 100 percent of costs in the base year. The rates paid for discharges on and  
519.25 after July 1, 2016, covered under this paragraph shall be increased by the inflation factor  
519.26 in subdivision 1, paragraph (a). The new cost-based rate shall be the final rate and shall not  
519.27 be settled to actual incurred costs. Hospitals shall be assigned a payment tier based on the  
519.28 following criteria:

519.29 (1) hospitals that had payments at or below 80 percent of their costs in the base year  
519.30 shall have a rate set that equals 85 percent of their base year costs;

519.31 (2) hospitals that had payments that were above 80 percent, up to and including 90  
519.32 percent of their costs in the base year shall have a rate set that equals 95 percent of their  
519.33 base year costs; and

520.1 (3) hospitals that had payments that were above 90 percent of their costs in the base year  
520.2 shall have a rate set that equals 100 percent of their base year costs.

520.3 (j) The commissioner may refine the payment tiers and criteria for critical access hospitals  
520.4 to coincide with the next rebasing under paragraph (h). The factors used to develop the new  
520.5 methodology may include, but are not limited to:

520.6 (1) the ratio between the hospital's costs for treating medical assistance patients and the  
520.7 hospital's charges to the medical assistance program;

520.8 (2) the ratio between the hospital's costs for treating medical assistance patients and the  
520.9 hospital's payments received from the medical assistance program for the care of medical  
520.10 assistance patients;

520.11 (3) the ratio between the hospital's charges to the medical assistance program and the  
520.12 hospital's payments received from the medical assistance program for the care of medical  
520.13 assistance patients;

520.14 (4) the statewide average increases in the ratios identified in clauses (1), (2), and (3);

520.15 (5) the proportion of that hospital's costs that are administrative and trends in  
520.16 administrative costs; and

520.17 (6) geographic location.

520.18 Sec. 10. Minnesota Statutes 2018, section 256.969, subdivision 3a, is amended to read:

520.19 Subd. 3a. **Payments.** (a) Acute care hospital billings under the medical assistance program  
520.20 must not be submitted until the recipient is discharged. However, the commissioner shall  
520.21 establish monthly interim payments for inpatient hospitals that have individual patient  
520.22 lengths of stay over 30 days regardless of diagnostic category. Except as provided in section  
520.23 256.9693, medical assistance reimbursement for treatment of mental illness shall be  
520.24 reimbursed based on diagnostic classifications. Individual hospital payments established  
520.25 under this section and sections 256.9685, 256.9686, and 256.9695, in addition to third-party  
520.26 and recipient liability, for discharges occurring during the rate year shall not exceed, ~~in~~  
520.27 ~~aggregate~~ on a per claim basis, the charges for the medical assistance covered inpatient  
520.28 services paid for the same period of time to the hospital. Services that have rates established  
520.29 under subdivision 12, must be limited separately from other services. After consulting with  
520.30 the affected hospitals, the commissioner may consider related hospitals one entity and may  
520.31 merge the payment rates while maintaining separate provider numbers. The operating and  
520.32 property base rates per admission or per day shall be derived from the best Medicare and  
520.33 claims data available when rates are established. The commissioner shall determine the best

521.1 Medicare and claims data, taking into consideration variables of recency of the data, audit  
521.2 disposition, settlement status, and the ability to set rates in a timely manner. The  
521.3 commissioner shall notify hospitals of payment rates 30 days prior to implementation. The  
521.4 rate setting data must reflect the admissions data used to establish relative values. The  
521.5 commissioner may adjust base year cost, relative value, and case mix index data to exclude  
521.6 the costs of services that have been discontinued by October 1 of the year preceding the  
521.7 rate year or that are paid separately from inpatient services. Inpatient stays that encompass  
521.8 portions of two or more rate years shall have payments established based on payment rates  
521.9 in effect at the time of admission unless the date of admission preceded the rate year in  
521.10 effect by six months or more. In this case, operating payment rates for services rendered  
521.11 during the rate year in effect and established based on the date of admission shall be adjusted  
521.12 to the rate year in effect by the hospital cost index.

521.13 (b) For fee-for-service admissions occurring on or after July 1, 2002, the total payment,  
521.14 before third-party liability and spenddown, made to hospitals for inpatient services is reduced  
521.15 by .5 percent from the current statutory rates.

521.16 (c) In addition to the reduction in paragraph (b), the total payment for fee-for-service  
521.17 admissions occurring on or after July 1, 2003, made to hospitals for inpatient services before  
521.18 third-party liability and spenddown, is reduced five percent from the current statutory rates.  
521.19 Mental health services within diagnosis related groups 424 to 432 or corresponding  
521.20 APR-DRGs, and facilities defined under subdivision 16 are excluded from this paragraph.

521.21 (d) In addition to the reduction in paragraphs (b) and (c), the total payment for  
521.22 fee-for-service admissions occurring on or after August 1, 2005, made to hospitals for  
521.23 inpatient services before third-party liability and spenddown, is reduced 6.0 percent from  
521.24 the current statutory rates. Mental health services within diagnosis related groups 424 to  
521.25 432 or corresponding APR-DRGs, and facilities defined under subdivision 16 are excluded  
521.26 from this paragraph. Payments made to managed care plans shall be reduced for services  
521.27 provided on or after January 1, 2006, to reflect this reduction.

521.28 (e) In addition to the reductions in paragraphs (b), (c), and (d), the total payment for  
521.29 fee-for-service admissions occurring on or after July 1, 2008, through June 30, 2009, made  
521.30 to hospitals for inpatient services before third-party liability and spenddown, is reduced  
521.31 3.46 percent from the current statutory rates. Mental health services with diagnosis related  
521.32 groups 424 to 432 or corresponding APR-DRGs, and facilities defined under subdivision  
521.33 16 are excluded from this paragraph. Payments made to managed care plans shall be reduced  
521.34 for services provided on or after January 1, 2009, through June 30, 2009, to reflect this  
521.35 reduction.

522.1 (f) In addition to the reductions in paragraphs (b), (c), and (d), the total payment for  
522.2 fee-for-service admissions occurring on or after July 1, 2009, through June 30, 2011, made  
522.3 to hospitals for inpatient services before third-party liability and spenddown, is reduced 1.9  
522.4 percent from the current statutory rates. Mental health services with diagnosis related groups  
522.5 424 to 432 or corresponding APR-DRGs, and facilities defined under subdivision 16 are  
522.6 excluded from this paragraph. Payments made to managed care plans shall be reduced for  
522.7 services provided on or after July 1, 2009, through June 30, 2011, to reflect this reduction.

522.8 (g) In addition to the reductions in paragraphs (b), (c), and (d), the total payment for  
522.9 fee-for-service admissions occurring on or after July 1, 2011, made to hospitals for inpatient  
522.10 services before third-party liability and spenddown, is reduced 1.79 percent from the current  
522.11 statutory rates. Mental health services with diagnosis related groups 424 to 432 or  
522.12 corresponding APR-DRGs, and facilities defined under subdivision 16 are excluded from  
522.13 this paragraph. Payments made to managed care plans shall be reduced for services provided  
522.14 on or after July 1, 2011, to reflect this reduction.

522.15 (h) In addition to the reductions in paragraphs (b), (c), (d), (f), and (g), the total payment  
522.16 for fee-for-service admissions occurring on or after July 1, 2009, made to hospitals for  
522.17 inpatient services before third-party liability and spenddown, is reduced one percent from  
522.18 the current statutory rates. Facilities defined under subdivision 16 are excluded from this  
522.19 paragraph. Payments made to managed care plans shall be reduced for services provided  
522.20 on or after October 1, 2009, to reflect this reduction.

522.21 (i) In addition to the reductions in paragraphs (b), (c), (d), (g), and (h), the total payment  
522.22 for fee-for-service admissions occurring on or after July 1, 2011, made to hospitals for  
522.23 inpatient services before third-party liability and spenddown, is reduced 1.96 percent from  
522.24 the current statutory rates. Facilities defined under subdivision 16 are excluded from this  
522.25 paragraph. Payments made to managed care plans shall be reduced for services provided  
522.26 on or after January 1, 2011, to reflect this reduction.

522.27 (j) Effective for discharges on and after November 1, 2014, from hospitals paid under  
522.28 subdivision 2b, paragraph (a), clauses (1) and (4), the rate adjustments in this subdivision  
522.29 must be incorporated into the rebased rates established under subdivision 2b, paragraph (c),  
522.30 and must not be applied to each claim.

522.31 (k) Effective for discharges on and after July 1, 2015, from hospitals paid under  
522.32 subdivision 2b, paragraph (a), clauses (2) and (3), the rate adjustments in this subdivision  
522.33 must be incorporated into the rates and must not be applied to each claim.

523.1 (l) Effective for discharges on and after July 1, 2017, from hospitals paid under  
523.2 subdivision 2b, paragraph (a), clause (2), the rate adjustments in this subdivision must be  
523.3 incorporated into the rates and must not be applied to each claim.

523.4 Sec. 11. Minnesota Statutes 2018, section 256.969, subdivision 9, is amended to read:

523.5 Subd. 9. **Disproportionate numbers of low-income patients served.** (a) For admissions  
523.6 occurring on or after July 1, 1993, the medical assistance disproportionate population  
523.7 adjustment shall comply with federal law and shall be paid to a hospital, excluding regional  
523.8 treatment centers and facilities of the federal Indian Health Service, with a medical assistance  
523.9 inpatient utilization rate in excess of the arithmetic mean. The adjustment must be determined  
523.10 as follows:

523.11 (1) for a hospital with a medical assistance inpatient utilization rate above the arithmetic  
523.12 mean for all hospitals excluding regional treatment centers and facilities of the federal Indian  
523.13 Health Service but less than or equal to one standard deviation above the mean, the  
523.14 adjustment must be determined by multiplying the total of the operating and property  
523.15 payment rates by the difference between the hospital's actual medical assistance inpatient  
523.16 utilization rate and the arithmetic mean for all hospitals excluding regional treatment centers  
523.17 and facilities of the federal Indian Health Service; and

523.18 (2) for a hospital with a medical assistance inpatient utilization rate above one standard  
523.19 deviation above the mean, the adjustment must be determined by multiplying the adjustment  
523.20 that would be determined under clause (1) for that hospital by 1.1. The commissioner shall  
523.21 report annually on the number of hospitals likely to receive the adjustment authorized by  
523.22 this paragraph. The commissioner shall specifically report on the adjustments received by  
523.23 public hospitals and public hospital corporations located in cities of the first class.

523.24 (b) Certified public expenditures made by Hennepin County Medical Center shall be  
523.25 considered Medicaid disproportionate share hospital payments. Hennepin County and  
523.26 Hennepin County Medical Center shall report by June 15, 2007, on payments made beginning  
523.27 July 1, 2005, or another date specified by the commissioner, that may qualify for  
523.28 reimbursement under federal law. Based on these reports, the commissioner shall apply for  
523.29 federal matching funds.

523.30 (c) Upon federal approval of the related state plan amendment, paragraph (b) is effective  
523.31 retroactively from July 1, 2005, or the earliest effective date approved by the Centers for  
523.32 Medicare and Medicaid Services.

524.1 (d) Effective July 1, 2015, disproportionate share hospital (DSH) payments shall be paid  
524.2 in accordance with a new methodology using 2012 as the base year. Annual payments made  
524.3 under this paragraph shall equal the total amount of payments made for 2012. A licensed  
524.4 children's hospital shall receive only a single DSH factor for children's hospitals. Other  
524.5 DSH factors may be combined to arrive at a single factor for each hospital that is eligible  
524.6 for DSH payments. The new methodology shall make payments only to hospitals located  
524.7 in Minnesota and include the following factors:

524.8 (1) a licensed children's hospital with at least 1,000 fee-for-service discharges in the  
524.9 base year shall receive a factor of 0.868. A licensed children's hospital with less than 1,000  
524.10 fee-for-service discharges in the base year shall receive a factor of 0.7880;

524.11 (2) a hospital that has in effect for the initial rate year a contract with the commissioner  
524.12 to provide extended psychiatric inpatient services under section 256.9693 shall receive a  
524.13 factor of 0.0160;

524.14 (3) a hospital that has received payment from the fee-for-service program for at least 20  
524.15 transplant services in the base year shall receive a factor of 0.0435;

524.16 (4) a hospital that has a medical assistance utilization rate in the base year between 20  
524.17 percent up to one standard deviation above the statewide mean utilization rate shall receive  
524.18 a factor of 0.0468;

524.19 (5) a hospital that has a medical assistance utilization rate in the base year that is at least  
524.20 one standard deviation above the statewide mean utilization rate but is less than three standard  
524.21 deviations above the mean shall receive a factor of 0.2300; and

524.22 (6) a hospital that has a medical assistance utilization rate in the base year that is at least  
524.23 ~~three~~ two and one-half standard deviations above the statewide mean utilization rate shall  
524.24 receive a factor of 0.3711.

524.25 (e) Any payments or portion of payments made to a hospital under this subdivision that  
524.26 are subsequently returned to the commissioner because the payments are found to exceed  
524.27 the hospital-specific DSH limit for that hospital shall be redistributed, proportionate to the  
524.28 number of fee-for-service discharges, to other DSH-eligible non-children's hospitals that  
524.29 have a medical assistance utilization rate that is at least one standard deviation above the  
524.30 mean.

524.31 (f) An additional payment adjustment shall be established by the commissioner under  
524.32 this subdivision for a hospital that provides high levels of administering high-cost drugs to  
524.33 enrollees in fee-for-service medical assistance. The commissioner shall consider factors

525.1 including fee-for-service medical assistance utilization rates and payments made for drugs  
525.2 purchased through the 340B drug purchasing program and administered to fee-for-service  
525.3 enrollees. If any part of this adjustment exceeds a hospital's hospital-specific disproportionate  
525.4 share hospital limit, the commissioner shall make a payment to the hospital that equals the  
525.5 nonfederal share of the amount that exceeds the limit. The total nonfederal share of the  
525.6 amount of the payment adjustment under this paragraph shall not exceed \$1,500,000.

525.7 **EFFECTIVE DATE.** This section is effective July 1, 2019, except paragraph (f) is  
525.8 effective for discharges on or after April 1, 2019.

525.9 Sec. 12. Minnesota Statutes 2018, section 256.969, subdivision 17, is amended to read:

525.10 Subd. 17. **Out-of-state hospitals in local trade areas.** Out-of-state hospitals that are  
525.11 located within a Minnesota local trade area and that have ~~more than 20~~ admissions in the  
525.12 base year or years shall have rates established using the same procedures and methods that  
525.13 apply to Minnesota hospitals. For this subdivision and subdivision 18, local trade area means  
525.14 a county contiguous to Minnesota and located in a metropolitan statistical area as determined  
525.15 by Medicare for October 1 prior to the most current rebased rate year. Hospitals that are  
525.16 not required by law to file information in a format necessary to establish rates shall have  
525.17 rates established based on the commissioner's estimates of the information. Relative values  
525.18 of the diagnostic categories shall not be redetermined under this subdivision until required  
525.19 by statute. Hospitals affected by this subdivision shall then be included in determining  
525.20 relative values. However, hospitals that have rates established based upon the commissioner's  
525.21 estimates of information shall not be included in determining relative values. This subdivision  
525.22 is effective for hospital fiscal years beginning on or after July 1, 1988. A hospital shall  
525.23 provide the information necessary to establish rates under this subdivision at least 90 days  
525.24 before the start of the hospital's fiscal year.

525.25 Sec. 13. Minnesota Statutes 2018, section 256.969, subdivision 19, is amended to read:

525.26 Subd. 19. **Metabolic disorder testing of medical assistance recipients.** Medical  
525.27 assistance inpatient payment rates must include the cost incurred by hospitals to pay the  
525.28 Department of Health for metabolic disorder testing of newborns who are medical assistance  
525.29 recipients, if the cost is not recognized by another payment source. This payment increase  
525.30 remains in effect until the increase is fully recognized in the base year cost under subdivision  
525.31 2b.

526.1 Sec. 14. Minnesota Statutes 2018, section 256B.04, subdivision 14, is amended to read:

526.2 Subd. 14. **Competitive bidding.** (a) When determined to be effective, economical, and  
526.3 feasible, the commissioner may utilize volume purchase through competitive bidding and  
526.4 negotiation under the provisions of chapter 16C, to provide items under the medical assistance  
526.5 program including but not limited to the following:

526.6 (1) eyeglasses;

526.7 (2) oxygen. The commissioner shall provide for oxygen needed in an emergency situation  
526.8 on a short-term basis, until the vendor can obtain the necessary supply from the contract  
526.9 dealer;

526.10 (3) hearing aids and supplies; ~~and~~

526.11 (4) durable medical equipment, including but not limited to:

526.12 (i) hospital beds;

526.23 public transportation passes and tokens, and volunteer and recipient mileage and parking  
526.24 reimbursements; and

526.25 (6) drugs.

526.26 (b) Rate changes and recipient cost-sharing under this chapter and chapter 256L do not  
526.27 affect contract payments under this subdivision unless specifically identified.

526.28 (c) The commissioner may not utilize volume purchase through competitive bidding  
526.29 and negotiation for special transportation services under the provisions of chapter 16C.

527.1 Sec. 15. Minnesota Statutes 2018, section 256B.04, subdivision 21, is amended to read:

527.2 Subd. 21. **Provider enrollment.** (a) The commissioner shall enroll providers and conduct  
527.3 screening activities as required by Code of Federal Regulations, title 42, section 455, subpart  
527.4 E. A provider providing services from multiple locations must enroll each location separately.  
527.5 The commissioner may deny a provider's incomplete application if a provider fails to respond  
527.6 to the commissioner's request for additional information within 60 days of the request. The  
527.7 commissioner must conduct a background study under chapter 245C, including a review  
527.8 of databases in section 245C.08, subdivision 1, paragraph (a), clauses (1) to (5), for a provider  
527.9 described in this paragraph. The background study requirement may be satisfied if the  
527.10 commissioner conducted a fingerprint-based background study on the provider that includes  
527.11 a review of databases in section 245C.08, subdivision 1, paragraph (a), clauses (1) to (5).

527.12 (b) The commissioner shall revalidate each: (1) provider under this subdivision at least  
527.13 once every five years; and (2) personal care assistance agency under this subdivision once  
527.14 every three years.

527.15 (c) The commissioner shall conduct revalidation as follows:

527.16 (1) provide 30-day notice of the revalidation due date including instructions for  
527.17 revalidation and a list of materials the provider must submit;

527.18 (2) if a provider fails to submit all required materials by the due date, notify the provider  
527.19 of the deficiency within 30 days after the due date and allow the provider an additional 30  
527.20 days from the notification date to comply; and

527.21 (3) if a provider fails to remedy a deficiency within the 30-day time period, give 60-day  
527.22 notice of termination and immediately suspend the provider's ability to bill. The provider  
527.23 does not have the right to appeal suspension of ability to bill.

527.24 (d) If a provider fails to comply with any individual provider requirement or condition  
527.25 of participation, the commissioner may suspend the provider's ability to bill until the provider  
527.26 comes into compliance. The commissioner's decision to suspend the provider is not subject  
527.27 to an administrative appeal.

527.28 (e) All correspondence and notifications, including notifications of termination and other  
527.29 actions, must be delivered electronically to a provider's MN-ITS mailbox. For a provider  
527.30 that does not have a MN-ITS account and mailbox, notice must be sent by first-class mail.  
527.31 This paragraph does not apply to correspondences and notifications related to background  
527.32 studies.

528.1 (f) If the commissioner or the Centers for Medicare and Medicaid Services determines  
528.2 that a provider is designated "high-risk," the commissioner may withhold payment from  
528.3 providers within that category upon initial enrollment for a 90-day period. The withholding  
528.4 for each provider must begin on the date of the first submission of a claim.

528.5 ~~(b)~~ (g) An enrolled provider that is also licensed by the commissioner under chapter  
528.6 245A, or is licensed as a home care provider by the Department of Health under chapter  
528.7 144A and has a home and community-based services designation on the home care license  
528.8 under section 144A.484, must designate an individual as the entity's compliance officer.  
528.9 The compliance officer must:

528.10 (1) develop policies and procedures to assure adherence to medical assistance laws and  
528.11 regulations and to prevent inappropriate claims submissions;

528.12 (2) train the employees of the provider entity, and any agents or subcontractors of the  
528.13 provider entity including billers, on the policies and procedures under clause (1);

528.14 (3) respond to allegations of improper conduct related to the provision or billing of  
528.15 medical assistance services, and implement action to remediate any resulting problems;

528.16 (4) use evaluation techniques to monitor compliance with medical assistance laws and  
528.17 regulations;

528.18 (5) promptly report to the commissioner any identified violations of medical assistance  
528.19 laws or regulations; and

528.20 (6) within 60 days of discovery by the provider of a medical assistance reimbursement  
528.21 overpayment, report the overpayment to the commissioner and make arrangements with  
528.22 the commissioner for the commissioner's recovery of the overpayment.

528.23 The commissioner may require, as a condition of enrollment in medical assistance, that a  
528.24 provider within a particular industry sector or category establish a compliance program that  
528.25 contains the core elements established by the Centers for Medicare and Medicaid Services.

528.26 ~~(e)~~ (h) The commissioner may revoke the enrollment of an ordering or rendering provider  
528.27 for a period of not more than one year, if the provider fails to maintain and, upon request  
528.28 from the commissioner, provide access to documentation relating to written orders or requests  
528.29 for payment for durable medical equipment, certifications for home health services, or  
528.30 referrals for other items or services written or ordered by such provider, when the  
528.31 commissioner has identified a pattern of a lack of documentation. A pattern means a failure  
528.32 to maintain documentation or provide access to documentation on more than one occasion.

529.1 Nothing in this paragraph limits the authority of the commissioner to sanction a provider  
529.2 under the provisions of section 256B.064.

529.3 ~~(d)~~ (i) The commissioner shall terminate or deny the enrollment of any individual or  
529.4 entity if the individual or entity has been terminated from participation in Medicare or under  
529.5 the Medicaid program or Children's Health Insurance Program of any other state.

529.6 ~~(e)~~ (j) As a condition of enrollment in medical assistance, the commissioner shall require  
529.7 that a provider designated "moderate" or "high-risk" by the Centers for Medicare and  
529.8 Medicaid Services or the commissioner permit the Centers for Medicare and Medicaid  
529.9 Services, its agents, or its designated contractors and the state agency, its agents, or its  
529.10 designated contractors to conduct unannounced on-site inspections of any provider location.  
529.11 The commissioner shall publish in the Minnesota Health Care Program Provider Manual a  
529.12 list of provider types designated "limited," "moderate," or "high-risk," based on the criteria  
529.13 and standards used to designate Medicare providers in Code of Federal Regulations, title  
529.14 42, section 424.518. The list and criteria are not subject to the requirements of chapter 14.  
529.15 The commissioner's designations are not subject to administrative appeal.

529.16 ~~(f)~~ (k) As a condition of enrollment in medical assistance, the commissioner shall require  
529.17 that a high-risk provider, or a person with a direct or indirect ownership interest in the  
529.18 provider of five percent or higher, consent to criminal background checks, including  
529.19 fingerprinting, when required to do so under state law or by a determination by the  
529.20 commissioner or the Centers for Medicare and Medicaid Services that a provider is designated  
529.21 high-risk for fraud, waste, or abuse.

529.22 ~~(g)~~ (l)(1) Upon initial enrollment, reenrollment, and notification of revalidation, all  
529.23 durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) medical suppliers  
529.24 meeting the durable medical equipment provider and supplier definition in clause (3),  
529.25 operating in Minnesota and receiving Medicaid funds must purchase a surety bond that is  
529.26 annually renewed and designates the Minnesota Department of Human Services as the  
529.27 obligee, and must be submitted in a form approved by the commissioner. For purposes of  
529.28 this clause, the following medical suppliers are not required to obtain a surety bond: a  
529.29 federally qualified health center, a home health agency, the Indian Health Service, a  
529.30 pharmacy, and a rural health clinic.

529.31 (2) At the time of initial enrollment or reenrollment, durable medical equipment providers  
529.32 and suppliers defined in clause (3) must purchase a surety bond of \$50,000. If a revalidating  
529.33 provider's Medicaid revenue in the previous calendar year is up to and including \$300,000,  
529.34 the provider agency must purchase a surety bond of \$50,000. If a revalidating provider's

530.1 Medicaid revenue in the previous calendar year is over \$300,000, the provider agency must  
530.2 purchase a surety bond of \$100,000. The surety bond must allow for recovery of costs and  
530.3 fees in pursuing a claim on the bond.

530.4 (3) "Durable medical equipment provider or supplier" means a medical supplier that can  
530.5 purchase medical equipment or supplies for sale or rental to the general public and is able  
530.6 to perform or arrange for necessary repairs to and maintenance of equipment offered for  
530.7 sale or rental.

530.8 ~~(h)~~ (m) The Department of Human Services may require a provider to purchase a surety  
530.9 bond as a condition of initial enrollment, reenrollment, reinstatement, or continued enrollment  
530.10 if: (1) the provider fails to demonstrate financial viability, (2) the department determines  
530.11 there is significant evidence of or potential for fraud and abuse by the provider, or (3) the  
530.12 provider or category of providers is designated high-risk pursuant to paragraph ~~(a)~~ (f) and  
530.13 as per Code of Federal Regulations, title 42, section 455.450. The surety bond must be in  
530.14 an amount of \$100,000 or ten percent of the provider's payments from Medicaid during the  
530.15 immediately preceding 12 months, whichever is greater. The surety bond must name the  
530.16 Department of Human Services as an obligee and must allow for recovery of costs and fees  
530.17 in pursuing a claim on the bond. This paragraph does not apply if the provider currently  
530.18 maintains a surety bond under the requirements in section 256B.0659 or 256B.85.

530.19 **EFFECTIVE DATE.** This section is effective July 1, 2019.

530.20 Sec. 16. Minnesota Statutes 2018, section 256B.04, subdivision 22, is amended to read:

530.21 Subd. 22. **Application fee.** (a) The commissioner must collect and retain federally  
530.22 required nonrefundable application fees to pay for provider screening activities in accordance  
530.23 with Code of Federal Regulations, title 42, section 455, subpart E. The enrollment application  
530.24 must be made under the procedures specified by the commissioner, in the form specified  
530.25 by the commissioner, and accompanied by an application fee described in paragraph (b),  
530.26 or a request for a hardship exception as described in the specified procedures. Application  
530.27 fees must be deposited in the provider screening account in the special revenue fund.  
530.28 Amounts in the provider screening account are appropriated to the commissioner for costs  
530.29 associated with the provider screening activities required in Code of Federal Regulations,  
530.30 title 42, section 455, subpart E. ~~The commissioner shall conduct screening activities as~~  
530.31 ~~required by Code of Federal Regulations, title 42, section 455, subpart E, and as otherwise~~  
530.32 ~~provided by law, to include database checks, unannounced pre- and postenrollment site~~  
530.33 ~~visits, fingerprinting, and criminal background studies. The commissioner must revalidate~~  
530.34 ~~all providers under this subdivision at least once every five years.~~

531.1 (b) The application fee under this subdivision is \$532 for the calendar year 2013. For  
531.2 calendar year 2014 and subsequent years, the fee:

531.3 (1) is adjusted by the percentage change to the Consumer Price Index for all urban  
531.4 consumers, United States city average, for the 12-month period ending with June of the  
531.5 previous year. The resulting fee must be announced in the Federal Register;

531.6 (2) is effective from January 1 to December 31 of a calendar year;

531.7 (3) is required on the submission of an initial application, an application to establish a  
531.8 new practice location, an application for reenrollment when the provider is not enrolled at  
531.9 the time of application of reenrollment, or at revalidation when required by federal regulation;  
531.10 and

531.11 (4) must be in the amount in effect for the calendar year during which the application  
531.12 for enrollment, new practice location, or reenrollment is being submitted.

531.13 (c) The application fee under this subdivision cannot be charged to:

531.14 (1) providers who are enrolled in Medicare or who provide documentation of payment  
531.15 of the fee to, and enrollment with, another state, unless the commissioner is required to  
531.16 rescreen the provider;

531.17 (2) providers who are enrolled but are required to submit new applications for purposes  
531.18 of reenrollment;

531.19 (3) a provider who enrolls as an individual; and

531.20 (4) group practices and clinics that bill on behalf of individually enrolled providers  
531.21 within the practice who have reassigned their billing privileges to the group practice or  
531.22 clinic.

531.23 **EFFECTIVE DATE.** This section is effective July 1, 2019.

531.24 Sec. 17. Minnesota Statutes 2018, section 256B.055, subdivision 2, is amended to read:

531.26 for or receiving foster care maintenance payments under Title IV-E of the Social Security  
531.27 Act, United States Code, title 42, sections 670 to 676, and for a child who is not eligible for  
531.28 Title IV-E of the Social Security Act but who is determined eligible for foster care or kinship  
531.29 assistance under chapter 256N.

532.1 **EFFECTIVE DATE.** This section is effective January 1, 2020, or upon federal approval,  
532.2 whichever is later. The commissioner of human services shall notify the revisor of statutes  
532.3 when federal approval is obtained.

532.4 Sec. 18. Minnesota Statutes 2018, section 256B.056, subdivision 3, is amended to read:

532.5 Subd. 3. **Asset limitations for certain individuals.** (a) To be eligible for medical  
532.6 assistance, a person must not individually own more than \$3,000 in assets, or if a member  
532.7 of a household with two family members, husband and wife, or parent and child, the  
532.8 household must not own more than \$6,000 in assets, plus \$200 for each additional legal  
532.9 dependent. In addition to these maximum amounts, an eligible individual or family may  
532.10 accrue interest on these amounts, but they must be reduced to the maximum at the time of  
532.11 an eligibility redetermination. The accumulation of the clothing and personal needs allowance  
532.12 according to section 256B.35 must also be reduced to the maximum at the time of the  
532.13 eligibility redetermination. The value of assets that are not considered in determining  
532.14 eligibility for medical assistance is the value of those assets excluded under the Supplemental  
532.15 Security Income program for aged, blind, and disabled persons, with the following  
532.16 exceptions:

532.17 (1) household goods and personal effects are not considered;

532.24 life insurance policies must irrevocably designate the individual's estate as contingent  
532.25 beneficiary to the extent proceeds are not used for payment of selected burial expenses;

532.26 (5) for a person who no longer qualifies as an employed person with a disability due to  
532.27 loss of earnings, assets allowed while eligible for medical assistance under section 256B.057,  
532.28 subdivision 9, are not considered for 12 months, beginning with the first month of ineligibility  
532.29 as an employed person with a disability, to the extent that the person's total assets remain  
532.30 within the allowed limits of section 256B.057, subdivision 9, paragraph (d);

532.31 ~~(6) when a person enrolled in medical assistance under section 256B.057, subdivision~~  
532.32 ~~9, is age 65 or older and has been enrolled during each of the 24 consecutive months before~~  
532.33 ~~the person's 65th birthday, the assets owned by the person and the person's spouse must be~~

533.1 ~~disregarded, up to the limits of section 256B.057, subdivision 9, paragraph (d), when~~  
533.2 ~~determining eligibility for medical assistance under section 256B.055, subdivision 7. a~~

533.6 been enrolled in medical assistance under section 256B.057, subdivision 9, for a  
533.7 24-consecutive-month period. A designated employment incentives asset account contains  
533.8 qualified assets owned by the person and the person's spouse in the last month of enrollment  
533.9 in medical assistance under section 256B.057, subdivision 9. Qualified assets include  
533.10 retirement and pension accounts, medical expense accounts, and up to \$17,000 of the person's  
533.11 other nonexcluded assets. An employment incentives asset account is no longer designated  
533.12 when a person loses medical assistance eligibility for a calendar month or more before  
533.13 turning age 65. A person who loses medical assistance eligibility before age 65 can establish  
533.14 a new designated employment incentives asset account by establishing a new  
533.15 24-consecutive-month period of enrollment under section 256B.057, subdivision 9. The  
533.16 income of a spouse of a person enrolled in medical assistance under section 256B.057,  
533.17 subdivision 9, during each of the 24 consecutive months before the person's 65th birthday  
533.18 must be disregarded when determining eligibility for medical assistance under section  
533.19 256B.055, subdivision 7. Persons eligible under this clause are not subject to the provisions  
533.20 in section 256B.059; and

533.24 definition of Indian according to Code of Federal Regulations, title 42, section 447.50.

533.25 (b) No asset limit shall apply to persons eligible under section 256B.055, subdivision  
533.26 15.

533.27 **EFFECTIVE DATE.** This section is effective July 1, 2019.

533.28 Sec. 19. Minnesota Statutes 2018, section 256B.056, subdivision 5c, is amended to read:

533.29 Subd. 5c. **Excess income standard.** (a) The excess income standard for parents and  
533.30 caretaker relatives, pregnant women, infants, and children ages two through 20 is the standard  
533.31 specified in subdivision 4, paragraph (b).

533.32 (b) The excess income standard for a person whose eligibility is based on blindness,  
533.33 disability, or age of 65 or more years shall equal:

534.1 (1) 81 percent of the federal poverty guidelines; and

534.2 (2) 83 percent of the federal poverty guidelines, effective July 1, 2021.

534.3 Sec. 20. Minnesota Statutes 2018, section 256B.0625, subdivision 3b, is amended to read:

534.4 Subd. 3b. **Telemedicine services.** (a) Medical assistance covers medically necessary  
534.5 services and consultations delivered by a licensed health care provider via telemedicine in  
534.6 the same manner as if the service or consultation was delivered in person. Coverage is  
534.7 limited to three telemedicine services per enrollee per calendar week, except as provided  
534.8 in paragraph (f). Telemedicine services shall be paid at the full allowable rate.

534.9 (b) The commissioner shall establish criteria that a health care provider must attest to  
534.10 in order to demonstrate the safety or efficacy of delivering a particular service via  
534.11 telemedicine. The attestation may include that the health care provider:

534.12 (1) has identified the categories or types of services the health care provider will provide  
534.13 via telemedicine;

534.14 (2) has written policies and procedures specific to telemedicine services that are regularly  
534.15 reviewed and updated;

534.16 (3) has policies and procedures that adequately address patient safety before, during,  
534.17 and after the telemedicine service is rendered;

534.18 (4) has established protocols addressing how and when to discontinue telemedicine  
534.19 services; and

534.20 (5) has an established quality assurance process related to telemedicine services.

534.21 (c) As a condition of payment, a licensed health care provider must document each  
534.22 occurrence of a health service provided by telemedicine to a medical assistance enrollee.  
534.23 Health care service records for services provided by telemedicine must meet the requirements  
534.24 set forth in Minnesota Rules, part 9505.2175, subparts 1 and 2, and must document:

534.25 (1) the type of service provided by telemedicine;

534.26 (2) the time the service began and the time the service ended, including an a.m. and p.m.  
534.27 designation;

534.28 (3) the licensed health care provider's basis for determining that telemedicine is an  
534.29 appropriate and effective means for delivering the service to the enrollee;

534.30 (4) the mode of transmission of the telemedicine service and records evidencing that a  
534.31 particular mode of transmission was utilized;

535.1 (5) the location of the originating site and the distant site;

535.2 (6) if the claim for payment is based on a physician's telemedicine consultation with  
535.3 another physician, the written opinion from the consulting physician providing the  
535.4 telemedicine consultation; and

535.5 (7) compliance with the criteria attested to by the health care provider in accordance  
535.6 with paragraph (b).

535.7 (d) For purposes of this subdivision, unless otherwise covered under this chapter,  
535.8 "telemedicine" is defined as the delivery of health care services or consultations while the  
535.9 patient is at an originating site and the licensed health care provider is at a distant site. A  
535.10 communication between licensed health care providers, or a licensed health care provider  
535.11 and a patient that consists solely of a telephone conversation, e-mail, or facsimile transmission  
535.12 does not constitute telemedicine consultations or services. Telemedicine may be provided  
535.13 by means of real-time two-way, interactive audio and visual communications, including the  
535.14 application of secure video conferencing or store-and-forward technology to provide or  
535.15 support health care delivery, which facilitate the assessment, diagnosis, consultation,  
535.16 treatment, education, and care management of a patient's health care.

535.17 (e) For purposes of this section, "licensed health care provider" means a licensed health  
535.18 care provider under section 62A.671, subdivision 6, and a mental health practitioner defined  
535.19 under section 245.462, subdivision 17, or 245.4871, subdivision 26, working under the  
535.20 general supervision of a mental health professional; "health care provider" is defined under  
535.21 section 62A.671, subdivision 3; and "originating site" is defined under section 62A.671,

540.21 amounts applied to the charge by any third-party provider/insurer agreement or contract for  
540.22 submitted charges to medical assistance programs. The net submitted charge may not be  
540.23 greater than the patient liability for the service. The ~~pharmacy~~ professional dispensing fee

540.31 prescriptions filled with over-the-counter drugs meeting the definition of covered outpatient  
540.32 drugs shall be \$10.48 for dispensed quantities equal to or greater than the number of units  
540.33 contained in the manufacturer's original package. The professional dispensing fee shall be  
540.34 prorated based on the percentage of the package dispensed when the pharmacy dispenses

541.1 a quantity less than the number of units contained in the manufacturer's original package.  
541.2 The pharmacy dispensing fee for prescribed over-the-counter drugs not meeting the definition  
541.3 of covered outpatient drugs shall be \$3.65, ~~except that the fee shall be \$1.31 for~~  
541.4 ~~retrospectively billing pharmacies when billing for quantities less than the number of units~~  
541.5 ~~contained in the manufacturer's original package. Actual acquisition cost includes quantity~~  
541.6 ~~and other special discounts except time and cash discounts. The actual acquisition cost of~~  
541.7 ~~a drug shall be estimated by the commissioner at wholesale acquisition cost plus four percent~~  
541.8 ~~for independently owned pharmacies located in a designated rural area within Minnesota,~~  
541.9 ~~and at wholesale acquisition cost plus two percent for all other pharmacies. A pharmacy is~~

541.13 ~~system developed for the United States Health Resources and Services Administration.~~  
541.14 Effective January 1, 2014, the actual acquisition for quantities equal to or greater than the  
541.15 number of units contained in the manufacturer's original package and shall be prorated based  
541.16 on the percentage of the package dispensed when the pharmacy dispenses a quantity less  
541.17 than the number of units contained in the manufacturer's original package. The National  
541.18 Average Drug Acquisition Cost (NADAC) shall be used to determine the ingredient cost  
541.19 of a drug. For drugs for which a NADAC is not reported, the commissioner shall estimate  
541.20 the ingredient cost at the wholesale acquisition cost minus two percent. The ingredient cost  
541.21 of a drug acquired through for a provider participating in the federal 340B Drug Pricing  
541.22 Program shall be estimated by the commissioner at wholesale acquisition cost minus 40  
541.23 percent either the 340B Drug Pricing Program ceiling price established by the Health  
541.24 Resources and Services Administration or NADAC, whichever is lower. Wholesale  
541.25 acquisition cost is defined as the manufacturer's list price for a drug or biological to  
541.26 wholesalers or direct purchasers in the United States, not including prompt pay or other  
541.27 discounts, rebates, or reductions in price, for the most recent month for which information  
541.28 is available, as reported in wholesale price guides or other publications of drug or biological  
541.29 pricing data. The maximum allowable cost of a multisource drug may be set by the  
541.30 commissioner and it shall be comparable to, but the actual acquisition cost of the drug

541.34 of the Administrative Procedure Act.

541.35 (b) Pharmacies dispensing prescriptions to residents of long-term care facilities using  
541.36 an automated drug distribution system meeting the requirements of section 151.58, or a

542.1 packaging system meeting the packaging standards set forth in Minnesota Rules, part  
542.2 6800.2700, that govern the return of unused drugs to the pharmacy for reuse, may employ  
542.3 retrospective billing for prescription drugs dispensed to long-term care facility residents. A  
542.4 retrospectively billing pharmacy must submit a claim only for the quantity of medication  
542.5 used by the enrolled recipient during the defined billing period. A retrospectively billing  
542.6 pharmacy must use a billing period not less than one calendar month or 30 days.

542.7 ~~(c) An additional dispensing fee of \$.30 may be added to the dispensing fee paid to~~  
542.8 ~~pharmacists for legend drug prescriptions dispensed to residents of long-term care facilities~~  
542.9 ~~when a unit dose blister card system, approved by the department, is used. Under this type~~  
542.10 ~~of dispensing system, the pharmacist must dispense a 30-day supply of drug. The National~~  
542.11 ~~Drug Code (NDC) from the drug container used to fill the blister card must be identified~~  
542.12 ~~on the claim to the department. The unit dose blister card containing the drug must meet~~  
542.13 ~~the packaging standards set forth in Minnesota Rules, part 6800.2700, that govern the return~~  
542.14 ~~of unused drugs to the pharmacy for reuse. A pharmacy provider using packaging that meets~~  
542.15 the standards set forth in Minnesota Rules, part 6800.2700, is required to credit the  
542.16 department for the actual acquisition cost of all unused drugs that are eligible for reuse,  
542.17 unless the pharmacy is using retrospective billing. The commissioner may permit the drug  
542.18 clozapine to be dispensed in a quantity that is less than a 30-day supply.

542.19 ~~(d) Whenever a maximum allowable cost has been set for~~ If a pharmacy dispenses a  
542.20 multisource drug, payment shall be the lower of the usual and customary price charged to  
542.21 the public or the ingredient cost shall be the NADAC of the generic product or the maximum  
542.22 allowable cost established by the commissioner unless prior authorization for the brand  
542.23 name product has been granted according to the criteria established by the Drug Formulary  
542.24 Committee as required by subdivision 13f, paragraph (a), and the prescriber has indicated  
542.25 "dispense as written" on the prescription in a manner consistent with section 151.21,  
542.26 subdivision 2.

542.27 (e) The basis for determining the amount of payment for drugs administered in an  
542.28 outpatient setting shall be the lower of the usual and customary cost submitted by the  
542.29 provider, 106 percent of the average sales price as determined by the United States  
542.30 Department of Health and Human Services pursuant to title XVIII, section 1847a of the  
542.31 federal Social Security Act, the specialty pharmacy rate, or the maximum allowable cost  
542.32 set by the commissioner. If average sales price is unavailable, the amount of payment must  
542.33 be lower of the usual and customary cost submitted by the provider, the wholesale acquisition  
542.34 cost, the specialty pharmacy rate, or the maximum allowable cost set by the commissioner.  
542.35 ~~Effective January 1, 2014,~~ The commissioner shall discount the payment rate for drugs

543.1 obtained through the federal 340B Drug Pricing Program by ~~20~~ 28.6 percent. The payment  
543.2 for drugs administered in an outpatient setting shall be made to the administering facility  
543.3 or practitioner. A retail or specialty pharmacy dispensing a drug for administration in an  
543.4 outpatient setting is not eligible for direct reimbursement.

543.5 (f) The commissioner may ~~negotiate lower reimbursement~~ establish maximum allowable  
543.6 cost rates for specialty pharmacy products than the rates that are lower than the ingredient  
543.7 cost formulas specified in paragraph (a). The commissioner may require individuals enrolled  
543.8 in the health care programs administered by the department to obtain specialty pharmacy  
543.9 products from providers with whom the commissioner has negotiated lower reimbursement  
543.10 rates. Specialty pharmacy products are defined as those used by a small number of recipients  
543.11 or recipients with complex and chronic diseases that require expensive and challenging drug  
543.12 regimens. Examples of these conditions include, but are not limited to: multiple sclerosis,  
543.13 HIV/AIDS, transplantation, hepatitis C, growth hormone deficiency, Crohn's Disease,  
543.14 rheumatoid arthritis, and certain forms of cancer. Specialty pharmaceutical products include  
543.15 injectable and infusion therapies, biotechnology drugs, antihemophilic factor products,  
543.16 high-cost therapies, and therapies that require complex care. The commissioner shall consult  
543.17 with the Formulary Committee to develop a list of specialty pharmacy products subject to  
543.18 ~~this paragraph~~ maximum allowable cost reimbursement. In consulting with the Formulary  
543.19 Committee in developing this list, the commissioner shall take into consideration the  
543.20 population served by specialty pharmacy products, the current delivery system and standard  
543.21 of care in the state, and access to care issues. The commissioner shall have the discretion  
543.22 to adjust the ~~reimbursement rate~~ maximum allowable cost to prevent access to care issues.

543.23 (g) Home infusion therapy services provided by home infusion therapy pharmacies must  
543.24 be paid at rates according to subdivision 8d.

543.25 (h) The commissioner shall contract with a vendor to conduct a cost of dispensing survey  
543.26 for all pharmacies that are physically located in the state of Minnesota that dispense outpatient  
543.27 drugs under medical assistance. The commissioner shall ensure that the vendor has prior  
543.28 experience in conducting cost of dispensing surveys. Each pharmacy enrolled with the  
543.29 department to dispense outpatient prescription drugs to fee-for-service members must  
543.30 respond to the cost of dispensing survey. The commissioner may sanction a pharmacy under  
543.31 section 256B.064 for failure to respond. The commissioner shall require the vendor to  
543.32 measure a single statewide cost of dispensing for all responding pharmacies to measure the  
543.33 mean, mean weighted by total prescription volume, mean weighted by medical assistance  
543.34 prescription volume, median, median weighted by total prescription volume, and median  
543.35 weighted by total medical assistance prescription volume. The commissioner shall post a

544.1 copy of the final cost of dispensing survey report on the department's website. The initial  
544.2 survey must be completed no later than January 1, 2021, and repeated every three years.  
544.3 The commissioner shall provide a summary of the results of each cost of dispensing survey  
544.4 and provide recommendations for any changes to the dispensing fee to the chairs and ranking  
544.5 members of the legislative committees with jurisdiction over medical assistance pharmacy  
544.6 reimbursement.

544.7 (i) The commissioner shall increase the ingredient cost reimbursement calculated in  
544.8 paragraphs (a) and (f) by two percent for prescription and nonprescription drugs subject to  
544.9 the wholesale drug distributor tax under section 295.52.

544.10 **EFFECTIVE DATE.** This section is effective April 1, 2019, or upon federal approval,  
544.11 whichever is later. Paragraph (i) expires if federal approval is denied. The commissioner  
544.12 of human services shall inform the revisor of statutes when federal approval is obtained or  
544.13 denied.

544.14 Sec. 25. Minnesota Statutes 2018, section 256B.0625, subdivision 13f, is amended to read:

544.15 Subd. 13f. **Prior authorization.** (a) The Formulary Committee shall review and  
544.16 recommend drugs which require prior authorization. The Formulary Committee shall  
544.17 establish general criteria to be used for the prior authorization of brand-name drugs for  
544.18 which generically equivalent drugs are available, but the committee is not required to review  
544.19 each brand-name drug for which a generically equivalent drug is available.

544.20 (b) Prior authorization may be required by the commissioner before certain formulary  
544.21 drugs are eligible for payment. The Formulary Committee may recommend drugs for prior  
544.22 authorization directly to the commissioner. The commissioner may also request that the  
544.23 Formulary Committee review a drug for prior authorization. Before the commissioner may  
544.24 require prior authorization for a drug:

544.25 (1) the commissioner must provide information to the Formulary Committee on the  
544.26 impact that placing the drug on prior authorization may have on the quality of patient care  
544.27 and on program costs, information regarding whether the drug is subject to clinical abuse  
544.28 or misuse, and relevant data from the state Medicaid program if such data is available;

544.29 (2) the Formulary Committee must review the drug, taking into account medical and  
544.30 clinical data and the information provided by the commissioner; and

544.31 (3) the Formulary Committee must hold a public forum and receive public comment for  
544.32 an additional 15 days.

545.1 The commissioner must provide a 15-day notice period before implementing the prior  
545.2 authorization.

545.3 (c) Except as provided in subdivision 13j, prior authorization shall not be required or  
545.4 utilized for any atypical antipsychotic drug prescribed for the treatment of mental illness  
545.5 if:

546.27 accordance with Minnesota health care programs criteria. Publicly operated transit systems,  
546.28 volunteers, and not-for-hire vehicles are exempt from the requirements outlined in this  
546.29 paragraph.

546.30 (d) An organization may be terminated, denied, or suspended from enrollment if:

546.31 (1) the provider has not initiated background studies on the individuals specified in  
546.32 section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or

547.15 administrative structure assessment tool that meets the technical requirements established  
547.16 by the commissioner, reconciles trip information with claims being submitted by providers,  
547.17 and ensures prompt payment for nonemergency medical transportation services.

547.18 (f) Until the commissioner implements the single administrative structure and delivery  
547.19 system under subdivision 18e, clients shall obtain their level-of-service certificate from the  
547.20 commissioner or an entity approved by the commissioner that does not dispatch rides for  
547.21 clients using modes of transportation under paragraph (i), clauses (4), (5), (6), and (7).

547.22 (g) The commissioner may use an order by the recipient's attending physician or a medical

547.30 provider using the most direct route, and must not exceed 30 miles for a trip to a primary  
547.31 care provider or 60 miles for a trip to a specialty care provider, unless the client receives  
547.32 authorization from the local agency.

548.1 Nonemergency medical transportation providers may not bill for separate base rates for  
548.2 the continuation of a trip beyond the original destination. Nonemergency medical  
548.3 transportation providers must maintain trip logs, which include pickup and drop-off times,  
548.4 signed by the medical provider or client, whichever is deemed most appropriate, attesting  
548.5 to mileage traveled to obtain covered medical services. Clients requesting client mileage  
548.6 reimbursement must sign the trip log attesting mileage traveled to obtain covered medical  
548.7 services.

548.8 (h) The administrative agency shall use the level of service process established by the  
548.9 commissioner in consultation with the Nonemergency Medical Transportation Advisory  
548.10 Committee to determine the client's most appropriate mode of transportation. If public transit  
548.11 or a certified transportation provider is not available to provide the appropriate service mode  
548.12 for the client, the client may receive a onetime service upgrade.

548.13 (i) The covered modes of transportation are:

548.14 (1) client reimbursement, which includes client mileage reimbursement provided to  
548.15 clients who have their own transportation, or to family or an acquaintance who provides

548.30 locks, a video recorder, and a transparent thermoplastic partition between the passenger and  
548.31 the vehicle driver; and (ii) who is certified as a protected transport provider; and

549.1 (7) stretcher transport, which includes transport for a client in a prone or supine position

549.5 reimburse for modes defined in paragraph (i) according to paragraphs (m) and (n) when the

549.18 (m) Payments for nonemergency medical transportation must be paid based on the client's  
549.19 assessed mode under paragraph (h), not the type of vehicle used to provide the service. The

549.21 that are payable by or on behalf of the commissioner for nonemergency medical  
549.22 transportation services are:

555.24 to compute the rebased organization rates no later than six months following the date the  
555.25 applicable Medicare cost reports are due to the Centers for Medicare and Medicaid Services;

555.26 (8) the commissioner shall reimburse FQHCs and rural health clinics an additional

555.32 health clinic;

556.1 (10) For FQHCs and rural health clinics seeking a change in scope with the commissioner

556.14 the medical or dental organization rate, and if this is the case, the commissioner shall revise  
556.15 the rate accordingly and shall adjust payments retrospectively to the effective date established  
556.16 in item (ii);

557.2 or rural health clinic's participation in health care educational programs to the extent that  
557.3 the costs are not accounted for in the alternative payment methodology encounter rate  
557.4 established in this paragraph.

557.13 (b) Vendors of durable medical equipment, prosthetics, orthotics, or medical supplies  
557.14 must enroll as a Medicare provider.

557.15 (c) When necessary to ensure access to durable medical equipment, prosthetics, orthotics,  
557.16 or medical supplies, the commissioner may exempt a vendor from the Medicare enrollment  
557.17 requirement if:

557.18 (1) the vendor supplies only one type of durable medical equipment, prosthetic, orthotic,  
557.19 or medical supply;

557.20 (2) the vendor serves ten or fewer medical assistance recipients per year;

558.4 tablet will be used as an augmentative and alternative communication system as defined  
558.5 under subdivision 31a, paragraph (a). To be covered by medical assistance, the device must  
558.6 be locked in order to prevent use not related to communication.

558.7 (f) Notwithstanding the requirement in paragraph (e) that an electronic tablet must be  
558.8 locked to prevent use not as an augmentative communication device, a recipient of waiver  
558.9 services may use an electronic tablet for a use not related to communication when the  
558.10 recipient has been authorized under the waiver to receive one or more additional applications  
558.11 that can be loaded onto the electronic tablet, such that allowing the additional use prevents  
558.12 the purchase of a separate electronic tablet with waiver funds.

558.13 (g) An order or prescription for medical supplies, equipment, or appliances must meet  
558.14 the requirements in Code of Federal Regulations, title 42, part 440.70.

585.16 reimbursements to dentists and dental clinics deemed by the commissioner to be critical  
585.17 access dental providers. For dental services rendered on or after July 1, 2016, through  
585.18 December 31, 2021, the commissioner shall increase reimbursement by 37.5 percent above  
585.19 the reimbursement rate that would otherwise be paid to the critical access dental provider,

585.23 (b) For dental services rendered on or after July 1, 2016, by a dental clinic or dental  
585.24 group that meets the critical access dental provider designation under paragraph (d), clause

585.31 from the managed care plan or county-based purchasing plan. The managed care plan or  
585.32 county-based purchasing plan must base the additional critical access dental payment on  
585.33 the amount that would have been paid for that service had the dental provider been paid

586.1 according to the managed care plan or county-based purchasing plan's fee schedule that  
586.2 applies to dental providers that are not paid under a capitated payment or cost-based payment.

587.4 according to section 256L.30. This subdivision applies to all individuals enrolled in the

587.18 chapter.

587.19 ~~(b)~~ (c) This subdivision does not apply to a family or individual who no longer has

588.12 **EFFECTIVE DATE.** This section is effective the day following final enactment.

588.13 Sec. 16. Minnesota Statutes 2018, section 256L.11, subdivision 7, is amended to read:

588.14 Subd. 7. **Critical access dental providers.** Effective for dental services provided to  
588.15 MinnesotaCare enrollees on or after July 1, 2017, through December 31, 2021, the  
588.16 commissioner shall increase payment rates to dentists and dental clinics deemed by the  
588.17 commissioner to be critical access providers under section 256B.76, subdivision 4, by 20  
588.18 percent above the payment rate that would otherwise be paid to the provider. The  
588.19 commissioner shall pay the prepaid health plans under contract with the commissioner  
588.20 amounts sufficient to reflect this rate increase. The prepaid health plan must pass this rate  
588.21 increase to providers who have been identified by the commissioner as critical access dental  
588.22 providers under section 256B.76, subdivision 4.

588.23 Sec. 17. **[256L.30] OUTPATIENT PRESCRIPTION DRUGS.**

588.24 Subdivision 1. **Establishment of program.** The commissioner shall administer and  
588.25 oversee the outpatient prescription drug program for MinnesotaCare. The commissioner  
588.26 shall not include the outpatient pharmacy benefit in a contract with a public or private entity.

588.27 Subd. 2. **Covered outpatient prescription drugs.** (a) In consultation with the Drug  
588.28 Formulary Committee under section 256B.0625, subdivision 13d, the commissioner shall  
588.29 establish an outpatient prescription drug formulary for MinnesotaCare that satisfies the  
588.30 requirements for an essential health benefit under Code of Federal Regulations, title 45,  
588.31 section 156.122. The commissioner may modify the formulary after consulting with the  
588.32 Drug Formulary Committee and providing public notice and the opportunity for public

589.1 comment. The commissioner is exempt from the rulemaking requirements of chapter 14 to  
589.2 establish the drug formulary, and section 14.386 does not apply. The commissioner shall  
589.3 make the drug formulary available to the public on the agency website.

589.4 (b) The MinnesotaCare formulary must contain at least one drug in every United States  
589.5 Pharmacopeia category and class or the same number of prescription drugs in each category  
589.6 and class as the essential health benefit benchmark plan, whichever is greater.

589.7 (c) The commissioner may negotiate drug rebates or discounts directly with a drug  
589.8 manufacturer to place a drug on the formulary. The commissioner may also negotiate drug  
589.9 rebates, or discounts, with a drug manufacturer through a contract with a vendor. The  
589.10 commissioner, beginning January 15, 2022, and each January 15 thereafter, shall notify the  
589.11 chairs and ranking minority members of the legislative committees with jurisdiction over  
589.12 health and human services policy and finance of the rebates and discounts negotiated, their  
589.13 aggregate dollar value, and how the department applied these savings, including the extent  
589.14 to which these savings were passed on to enrollees.

589.15 (d) Prior authorization may be required by the commissioner before certain formulary  
589.16 drugs are eligible for payment. The Drug Formulary Committee may recommend drugs for  
589.17 prior authorization directly to the commissioner. The commissioner may also request that  
589.18 the Drug Formulary Committee review a drug for prior authorization.

589.19 (e) Before the commissioner requires prior authorization for a drug:

589.20 (1) the commissioner must provide the Drug Formulary Committee with information  
589.21 on the impact that placing the drug on prior authorization may have on the quality of patient  
589.22 care and on program costs and information regarding whether the drug is subject to clinical  
589.23 abuse or misuse if such data is available; and

589.24 (2) the Drug Formulary Committee must hold a public forum and receive public comment  
589.25 for an additional 15 days from the date of the public forum.

589.26 (f) Notwithstanding paragraph (e), the commissioner may automatically require prior  
589.27 authorization for a period not to exceed 180 days for any drug that is approved by the United  
589.28 States Food and Drug Administration after July 1, 2019. The 180-day period begins no later  
589.29 than the first day that a drug is available for shipment to pharmacies within the state. The  
589.30 Drug Formulary Committee shall recommend to the commissioner general criteria to use  
589.31 for determining prior authorization of the drugs, but the Drug Formulary Committee is not  
589.32 required to review each individual drug.

590.1 (g) The commissioner may also require prior authorization before nonformulary drugs  
590.2 are eligible for payment.

590.3 (h) Prior authorization requests must be processed in accordance with Code of Federal  
590.4 Regulations, title 45, section 156.122.

590.5 **Subd. 3. Pharmacy provider participation.** (a) A pharmacy enrolled to dispense  
590.6 prescription drugs to medical assistance enrollees under section 256B.0625 must participate  
590.7 as a provider in the MinnesotaCare outpatient prescription drug program.

590.8 (b) A pharmacy that is enrolled to dispense prescription drugs to MinnesotaCare enrollees  
590.9 is not permitted to refuse service to an enrollee unless:

590.10 (1) the pharmacy does not have a prescription drug in stock and cannot obtain the drug  
590.11 in time to treat the enrollee's medical condition;

590.12 (2) the enrollee is unable or unwilling to pay the enrollee's co-payment at the time the  
590.13 drug is dispensed;

590.14 (3) after performing drug utilization review, the pharmacist identifies the prescription  
590.15 drug as being a therapeutic duplication, having a drug-disease contraindication, having a  
590.16 drug-drug interaction, having been prescribed for the incorrect dosage or duration of  
590.17 treatment, having a drug-allergy interaction, or having issues related to clinical abuse or  
590.18 misuse by the enrollee;

590.19 (4) the prescription drug is not covered by MinnesotaCare; or

590.20 (5) dispensing the drug would violate a provision of chapter 151.

590.21 **Subd. 4. Covered outpatient prescription drug reimbursement rate.** (a) The basis  
590.22 for determining the amount of payment shall be the lowest of the National Average Drug  
590.23 Acquisition Cost, plus a fixed dispensing fee; the maximum allowable cost established  
590.24 under section 256B.0625, subdivision 13e, plus a fixed dispensing fee; or the usual and  
590.25 customary price. The fixed dispensing fee shall be \$1.50 for covered outpatient prescription  
590.26 drugs.

590.27 (b) The basis for determining the amount of payment for a pharmacy that acquires drugs  
590.28 through the federal 340B Drug Pricing Program shall be the lowest of:

590.29 (1) the National Average Drug Acquisition Cost minus 30 percent;

590.30 (2) the maximum allowable cost established under section 256B.0625, subdivision 13e,  
590.31 minus 30 percent, plus a fixed dispensing fee; or

591.1 (3) the usual and customary price. The fixed dispensing fee shall be \$1.50 for covered  
591.2 outpatient prescription drugs.

591.3 (c) For purposes of this subdivision, the usual and customary price is the lowest price  
591.4 charged by the provider to a patient who pays for the prescription by cash, check, or charge  
591.5 account and includes the prices the pharmacy charges to customers enrolled in a prescription  
591.6 savings club or prescription discount club administered by the pharmacy, pharmacy chain,  
591.7 or contractor to the provider.

591.8 Subd. 5. **Prescription drug benefit consumer protections.** The prescription drug benefit  
591.9 shall include the protections required under Code of Federal Regulations, title 45, section  
591.10 156.122, including a standard formulary exception request, expedited exception request,  
591.11 external exception request, and application of coverage appeals laws.

591.12 **EFFECTIVE DATE.** This section is effective January 1, 2022.

597.30 (c) If the amount of credit that the individual is allowed under subdivision 1, after

601.9 Sec. 27. Minnesota Statutes 2018, section 295.582, subdivision 1, is amended to read:

601.10 Subdivision 1. **Tax expense transfer.** (a) A hospital, surgical center, or health care  
601.11 provider that is subject to a tax under section 295.52, or a pharmacy that has paid additional  
601.12 expense transferred under this section by a wholesale drug distributor, may transfer additional  
601.13 expense generated by section 295.52 obligations on to all third-party contracts for the  
601.14 purchase of health care services on behalf of a patient or consumer. Nothing shall prohibit  
601.15 a pharmacy from transferring the additional expense generated under section 295.52 to a  
601.16 pharmacy benefits manager. The additional expense transferred to the third-party purchaser  
601.17 or a pharmacy benefits manager must not exceed the tax percentage specified in section  
601.18 295.52 multiplied against the gross revenues received under the third-party contract, and  
601.19 the tax percentage specified in section 295.52 multiplied against co-payments and deductibles  
601.20 paid by the individual patient or consumer. The expense must not be generated on revenues  
601.21 derived from payments that are excluded from the tax under section 295.53. All third-party  
601.22 purchasers of health care services including, but not limited to, third-party purchasers  
601.23 regulated under chapter 60A, 62A, 62C, 62D, 62H, 62N, 64B, 65A, 65B, 79, ~~or~~ 79A, or  
601.24 256T, or under section 471.61 or 471.617, and pharmacy benefits managers must pay the  
601.25 transferred expense in addition to any payments due under existing contracts with the  
601.26 hospital, surgical center, pharmacy, or health care provider, to the extent allowed under  
601.27 federal law. A third-party purchaser of health care services includes, but is not limited to,  
601.28 a health carrier or community integrated service network that pays for health care services  
601.29 on behalf of patients or that reimburses, indemnifies, compensates, or otherwise insures  
601.30 patients for health care services. For purposes of this section, a pharmacy benefits manager  
601.31 means an entity that performs pharmacy benefits management. A third-party purchaser or  
601.32 pharmacy benefits manager shall comply with this section regardless of whether the  
601.33 third-party purchaser or pharmacy benefits manager is a for-profit, not-for-profit, or nonprofit  
601.34 entity. A wholesale drug distributor may transfer additional expense generated by section

602.1 295.52 obligations to entities that purchase from the wholesaler, and the entities must pay  
602.2 the additional expense. Nothing in this section limits the ability of a hospital, surgical center,  
602.3 pharmacy, wholesale drug distributor, or health care provider to recover all or part of the  
602.4 section 295.52 obligation by other methods, including increasing fees or charges.

602.5 (b) Any hospital, surgical center, or health care provider subject to a tax under section  
602.6 295.52 or a pharmacy that has paid additional expense transferred under this section by a  
602.7 wholesale drug distributor may file a complaint with the commissioner responsible for  
602.8 regulating the third-party purchaser if at any time the third-party purchaser fails to comply  
602.9 with paragraph (a).

602.10 (c) If the commissioner responsible for regulating the third-party purchaser finds at any  
602.11 time that the third-party purchaser has not complied with paragraph (a), the commissioner  
602.12 may take enforcement action against a third-party purchaser which is subject to the  
602.13 commissioner's regulatory jurisdiction and which does not allow a hospital, surgical center,  
602.14 pharmacy, or provider to pass-through the tax. The commissioner may by order fine or  
602.15 censure the third-party purchaser or revoke or suspend the certificate of authority or license  
602.16 of the third-party purchaser to do business in this state if the commissioner finds that the  
602.17 third-party purchaser has not complied with this section. The third-party purchaser may  
602.18 appeal the commissioner's order through a contested case hearing in accordance with chapter  
602.19 14.

602.20 Sec. 28. **DIRECTION TO COMMISSIONER; STATE-BASED RISK ADJUSTMENT**  
602.21 **ANALYSIS.**

602.22 The commissioner of commerce, in consultation with the commissioner of health, shall  
602.23 conduct a study on the design and implementation of a state-based risk adjustment program.  
602.24 The commissioner shall report on the findings of the study and any recommendations to  
602.25 the chairs and ranking minority members of the legislative committees with jurisdiction  
602.26 over the individual health insurance market by February 15, 2021.

602.27 Sec. 29. **STUDY OF COST OF PROVIDING DENTAL SERVICES.**

602.28 The commissioner of human services shall contract with a vendor to conduct a survey  
602.29 of the cost to Minnesota dental providers of delivering dental services to medical assistance  
602.30 and MinnesotaCare enrollees under both fee-for-service and managed care. The commissioner  
602.31 of human services shall ensure that the vendor has prior experience in conducting surveys  
602.32 of the cost of providing health care services. Each dental provider enrolled with the  
602.33 department must respond to the cost of service survey. The commissioner of human services

603.1 may sanction a dental provider under Minnesota Statutes, section 256B.064, for failure to  
603.2 respond. The commissioner of human services shall require the vendor to measure statewide  
603.3 and regional costs for both fee-for-service and managed care, by major dental service  
603.4 category and for the most common dental services. The commissioner of human services  
603.5 shall post a copy of the final survey report on the department's website. The initial survey  
603.6 must be completed no later than January 1, 2021, and the survey must be repeated every  
603.7 three years. The commissioner of human services shall provide a summary of the results of  
603.8 each cost of dental services survey and provide recommendations for any changes to dental  
603.9 payment rates to the chairs and ranking members of the legislative committees with  
603.10 jurisdiction over health and human services policy and finance.

603.11 **Sec. 30. OUTPATIENT PHARMACY BENEFIT FOR ENROLLEES OF HEALTH**  
603.12 **PLAN COMPANIES.**

603.13 (a) The commissioner of human services shall develop a plan for an outpatient pharmacy  
603.14 benefit to be administered by the commissioner of human services for enrollees of health  
603.15 plan companies. The plan must:

603.16 (1) provide prescription drug coverage, beginning January 1, 2022, to the enrollees of  
603.17 health plan companies that choose to participate in the pharmacy benefit program;

603.18 (2) provide coverage and reimbursement for outpatient prescription drugs in accordance  
603.19 with Minnesota Statutes, chapter 256L;

603.20 (3) require the commissioner to annually determine and publish the monthly premium  
603.21 per enrollee for prescription drug coverage by August 1 of each year, for coverage taking  
603.22 effect the following January 1;

603.23 (4) establish different co-payments for each of the following categories: preferred generic  
603.24 drugs; preferred branded drugs; nonpreferred generic drugs; nonpreferred branded drugs;  
603.25 and specialty drugs; and

603.26 (5) require a health plan company that enters into a contract with the commissioner to  
603.27 participate in the program to pay the commissioner for all costs incurred in providing a  
603.28 prescription drug benefit, including costs related to benefit administration and the purchasing  
603.29 of prescription drugs.

603.30 (b) The commissioner shall present the plan to the chairs and ranking minority members  
603.31 of the legislative committees with jurisdiction over health and human services policy and  
603.32 finance and health insurance by December 15, 2019.

604.1 Sec. 31. **BENEFIT AND COST ANALYSIS OF A UNIFIED HEALTH CARE**  
604.2 **FINANCING SYSTEM.**

604.3 **Subdivision 1. Contract for analysis of proposal.** The commissioner of health shall  
604.4 contract with the University of Minnesota School of Public Health to conduct an analysis  
604.5 of the current health care financing environment and evaluate whether a unified health care  
604.6 financing system would provide better access to care, reduce or slow the rate of increase in  
604.7 total health care spending, and provide other benefits to individuals, businesses, and the  
604.8 state economy, relative to the current health care financing environment.

604.9 **Subd. 2. Proposal.** The analysis shall include recommendations for a framework for a  
604.10 unified health care financing system designed to:

604.11 (1) ensure all Minnesotans have access to all necessary primary and specialty care,  
604.12 including dental, vision and hearing, mental health, chemical dependency treatment,  
604.13 prescription drugs, medical equipment and supplies, long-term, and home care;

604.14 (2) maximize the ability for patients to choose doctors, hospitals, and other providers;  
604.15 and

604.16 (3) incentivize a focus on preventative care and public health, including social  
604.17 determinants of health and care coordination.

604.18 **Subd. 3. Proposal analysis.** (a) The analysis must forecast over a ten-year or longer  
604.19 period determined to be sufficient to capture all benefits and costs of the unified health care  
604.20 financing system. The analysis must compare and contrast the impact of the proposed health  
604.21 care financing system and the current health care financing environment on:

604.22 (1) the number of people covered versus the number of people who continue to lack  
604.23 access to health care because of financial or other barriers, if any;

604.24 (2) the completeness of the coverage and the number of people lacking coverage for  
604.25 dental, long-term care, medical equipment or supplies, vision and hearing, or other health  
604.26 services that are not covered, if any;

604.27 (3) the adequacy of the coverage, the level of underinsured in the state, and whether  
604.28 people with coverage can afford the care they need or whether cost prevents them from  
604.29 accessing care;

604.30 (4) the timeliness and appropriateness of the care received and whether people turn to  
604.31 less appropriate care such as emergency rooms because of a lack of proper care in accordance  
604.32 with clinical guidelines; and

605.1 (5) total public and private health care spending in Minnesota under the current health  
605.2 care financing environment versus a unified health care financing system, including all  
605.3 spending by individuals, businesses, and government. "Total public and private health care  
605.4 spending" means spending on all medical care including but not limited to dental, vision  
605.5 and hearing, mental health, chemical dependency treatment, prescription drugs, medical  
605.6 equipment and supplies, long-term care, and home care, whether paid through premiums,  
605.7 co-pays and deductibles, other out-of-pocket payments, or other funding from government,  
605.8 employers, or other sources. Total public and private health care spending also includes the  
605.9 costs associated with administering, delivering, and paying for the care. The costs of  
605.10 administering, delivering, and paying for the care includes all expenses by insurers, providers,  
605.11 employers, individuals, and government to select, negotiate, purchase, and administer  
605.12 insurance and care including but not limited to coverage for health care, dental, prescription  
605.13 drugs, medical expense portions of workers compensation and automobile insurance, and  
605.14 the cost of administering and paying for all health care products and services that are not  
605.15 covered by insurance. The analysis of total health care spending shall examine, to the extent  
605.16 possible given available data and resources, whether there are savings or additional costs  
605.17 under the proposed health care financing system compared to the existing health care  
605.18 financing environment due to:

605.19 (i) reduced insurance, billing, underwriting, marketing, evaluation, and other  
605.20 administrative functions including savings from global budgeting for hospitals and  
605.21 institutional care instead of billing for individual services provided;

605.22 (ii) reduced prices on medical services and products including pharmaceuticals due to  
605.23 price negotiations, if applicable under the proposal;

605.24 (iii) shortages or excess capacity of medical facilities and equipment;

605.25 (iv) changes in utilization, better health outcomes, and reduced time away from work  
605.26 due to prevention, early intervention, and health-promoting activities; and

605.27 (v) the impact on state, local, and federal government non-health-care expenditures,  
605.28 such as reduced demand for public services and reduced out-of-home placement costs due  
605.29 to increased access to mental health and chemical dependency services.

605.30 (b) The analysis shall assume that operation of the unified health care financing system  
605.31 is not preempted by federal law.

605.32 (c) The commissioner shall issue a final report by January 15, 2021, and may provide  
605.33 interim reports and status updates to the governor and the chairs and ranking minority

606.1 members of the legislative committees with jurisdiction over health and human services  
606.2 policy and finance.

606.3 Sec. 32. **RATE CHANGES AND DENTAL ACCESS.**

606.4 The commissioner of human services, in consultation with stakeholders, including the  
606.5 Health Services Policy Committee established in Minnesota Statutes, section 256B.0625,  
606.6 subdivision 3c, shall analyze the impact of the dental rate changes in this article that take  
606.7 effect January 1, 2022, to evaluate the impact on access to dental services for medical  
606.8 assistance and MinnesotaCare program participants. The analysis may recommend changes  
606.9 to payment methodologies. In evaluating access, the analysis shall at a minimum consider  
606.10 distance traveled by enrollees, access to regular and urgent dental care, and the availability  
606.11 of a dental home. The analysis shall consider the impact of any changes on the providers  
606.12 currently enrolled in the medical assistance and MinnesotaCare programs as well as the  
606.13 potential impact on providers who currently do not participate. Any changes to payment  
606.14 methodologies recommended as part of this analysis must include a comprehensive, uniform  
606.15 rate for the provision of dental services for all recipients of medical assistance and  
606.16 MinnesotaCare, prioritizing access to both preventative and restorative dental services  
606.17 among children under age 21. The commissioner shall provide, to the chairs and ranking  
606.18 minority members of the legislative committees with jurisdiction over health and human  
606.19 services policy and finance, a preliminary report on the results of the analysis by December  
606.20 1, 2019, and a final report and any recommendations by December 1, 2020.

607.16 drug, medical supply, or medical equipment offered by a pharmaceutical manufacturer,  
607.17 medical supply or device manufacturer, health plan company, or pharmacy benefit manager,

608.13 Sec. 3. **[62Q.528] DRUG COVERAGE IN EMERGENCY SITUATIONS.**

608.14 A health plan that provides prescription drug coverage must provide coverage for a

608.16 the terms of coverage that would apply had the prescription drug been dispensed according  
608.17 to a prescription.

608.18 Sec. 4. **[62Q.83] PRESCRIPTIONS FOR SPECIALTY DRUGS.**

608.20 the meaning given them.

608.27 provide consultation with patients by telephone or electronically rather than face-to-face.

609.14 through contract and other means that the mail order pharmacy dispenses the prescription  
609.15 drug to the enrollee in a timely manner, such that the enrollee receives the filled prescription

611.2 that these changes do not apply to enrollees who are currently taking the drugs affected by

611.4 (d) A health plan company may remove any drugs from its formulary that have been  
611.5 deemed unsafe by the Food and Drug Administration, that have been withdrawn by either  
611.6 the Food and Drug Administration or the product manufacturer, or when an independent  
611.7 source of research, clinical guidelines, or evidence-based standards has issued drug-specific

615.7 adequacy report required under section 62W.05, and the applicable license fee, the  
615.8 commissioner shall review the application and issue a license if the applicant is deemed  
615.9 qualified under this section. If the commissioner determines the applicant is not qualified,  
615.10 the commissioner shall notify the applicant and shall specify the reason or reasons for the  
615.11 denial.

615.12 Subd. 3. **Renewal.** (a) A license issued under this chapter is valid for a period of one  
615.13 year. To renew a license, an applicant must submit a completed renewal application on a  
615.14 form prescribed by the commissioner, the network adequacy report required under section  
615.15 62W.05, and a renewal fee of \$8,500. The commissioner may request a renewal applicant  
615.16 to submit additional information to clarify any new information presented in the renewal  
615.17 application. The fees collected under this paragraph shall be deposited in the general fund.

615.18 (b) A renewal application submitted after the renewal deadline date must be accompanied  
615.19 by a nonrefundable late fee of \$500. The fees collected under this paragraph shall be  
615.20 deposited in the general fund.

615.21 (c) The commissioner shall deny the renewal of a license for any of the following reasons:

615.22 (1) the pharmacy benefit manager is operating in a financially hazardous condition  
615.23 relative to its financial condition and the services it administers for health carriers;

615.24 (2) the pharmacy benefit manager has been determined by the commissioner to be in  
615.25 violation or noncompliance with the requirements of state law or the rules promulgated  
615.26 under this chapter; or

615.27 (3) the pharmacy benefit manager has failed to timely submit a renewal application and  
615.28 the information required under paragraph (a).

615.29 In lieu of a denial of a renewal application, the commissioner may permit the pharmacy  
615.30 benefit manager to submit to the commissioner a corrective action plan to cure or correct  
615.31 deficiencies.

616.1 Subd. 4. **Oversight.** (a) The commissioner may suspend, revoke, or place on probation  
616.2 a pharmacy benefit manager license issued under this chapter for any of the following  
616.3 circumstances:

616.4 (1) the pharmacy benefit manager has engaged in fraudulent activity that constitutes a  
616.5 violation of state or federal law;

616.6 (2) the commissioner has received consumer complaints that justify an action under this  
616.7 subdivision to protect the safety and interests of consumers;

616.8 (3) the pharmacy benefit manager fails to pay an application license or renewal fee; and

616.9 (4) the pharmacy benefit manager fails to comply with a requirement set forth in this  
616.10 chapter.

616.11 (b) The commissioner may issue a license subject to restrictions or limitations, including  
616.12 the types of services that may be supplied or the activities in which the pharmacy benefit  
616.13 manager may be engaged.

616.14 Subd. 5. **Penalty.** If a pharmacy benefit manager acts without a license, the pharmacy  
616.15 benefit manager may be subject to a fine of \$5,000 per day for the period the pharmacy  
616.16 benefit manager is found to be in violation. Any penalties collected under this subdivision  
616.17 shall be deposited in the general fund.

616.18 Subd. 6. **Rulemaking.** The commissioner may adopt rules to implement this section.

616.19 Subd. 7. **Enforcement.** The commissioner shall enforce this chapter under the provisions  
616.20 of chapter 45.

616.21 Sec. 9. **[62W.04] PHARMACY BENEFIT MANAGER GENERAL BUSINESS**  
616.22 **PRACTICES.**

616.23 (a) A pharmacy benefit manager has a fiduciary duty to a health carrier and must  
616.24 discharge that duty in accordance with the provisions of state and federal law.

616.25 (b) A pharmacy benefit manager must perform its duties with care, skill, prudence,  
616.26 diligence, and professionalism. A pharmacy benefit manager must exercise good faith and  
616.27 fair dealing in the performance of its contractual duties. A provision in a contract between  
616.28 a pharmacy benefit manager and a health carrier or a network pharmacy that attempts to  
616.29 waive or limit this obligation is void.

616.30 (c) A pharmacy benefit manager must notify a health carrier in writing of any activity,  
616.31 policy, or practice of the pharmacy benefit manager that directly or indirectly presents a  
616.32 conflict of interest with the duties imposed in this section.

617.1 **Sec. 10. [62W.05] PHARMACY BENEFIT MANAGER NETWORK ADEQUACY.**

617.2 (a) A pharmacy benefit manager must provide an adequate and accessible pharmacy  
617.3 network for the provision of prescription drugs as defined under section 62K.10. Mail order  
617.4 pharmacies must not be included in the calculations of determining the adequacy of the  
617.5 pharmacy benefit manager's pharmacy network under section 62K.10.

617.6 (b) A pharmacy benefit manager must submit to the commissioner a pharmacy network  
617.7 adequacy report describing the pharmacy network and pharmacy accessibility in this state,  
617.8 with the pharmacy benefit manager's license application and renewal, in a manner prescribed  
617.9 by the commissioner.

617.10 (c) A pharmacy benefit manager may apply for a waiver of the requirements in paragraph  
617.11 (a) if it is unable to meet the statutory requirements. A waiver application must be submitted  
617.12 on a form provided by the commissioner and must (1) demonstrate with specific data that  
617.13 the requirement of paragraph (a) is not feasible in a particular service area or part of a service  
617.14 area, and (2) include information as to the steps that were and will be taken to address the  
617.15 network inadequacy. The waiver shall automatically expire after three years. If a renewal  
617.16 of the waiver is sought, the commissioner shall take into consideration steps that have been  
617.17 taken to address network adequacy.

617.18 (d) The pharmacy benefit manager must establish a pharmacy network service area  
617.19 consistent with the requirements under section 62K.13 for every pharmacy network subject  
617.20 to review under this section.

617.21 **Sec. 11. [62W.06] PHARMACY BENEFIT MANAGER TRANSPARENCY.**

617.22 Subdivision 1. **Transparency to plan sponsors.** (a) Beginning in the second quarter  
617.23 after the effective date of a contract between a pharmacy benefit manager and a plan sponsor,  
617.24 the pharmacy benefit manager must disclose, upon the request of the plan sponsor, the  
617.25 following information with respect to prescription drug benefits specific to the plan sponsor:

617.26 (1) the aggregate wholesale acquisition costs from a drug manufacturer or wholesale  
617.27 drug distributor for each therapeutic category of prescription drugs;

617.28 (2) the aggregate amount of rebates received by the pharmacy benefit manager by  
617.29 therapeutic category of prescription drugs. The aggregate amount of rebates must include  
617.30 any utilization discounts the pharmacy benefit manager receives from a drug manufacturer  
617.31 or wholesale drug distributor;

617.32 (3) any other fees received from a drug manufacturer or wholesale drug distributor;

618.1 (4) whether the pharmacy benefit manager has a contract, agreement, or other arrangement  
618.2 with a drug manufacturer to exclusively dispense or provide a drug to a plan sponsor's  
618.3 employees or enrollees, and the application of all consideration or economic benefits collected  
618.4 or received pursuant to the arrangement;

618.5 (5) prescription drug utilization information for the plan sponsor's employees or enrollees  
618.6 that is not specific to any individual employee or enrollee;

618.7 (6) de-identified claims level information in electronic format that allows the plan sponsor  
618.8 to sort and analyze the following information for each claim:

618.9 (i) the drug and quantity for each prescription;

618.10 (ii) whether the claim required prior authorization;

618.11 (iii) patient cost-sharing paid on each prescription;

618.12 (iv) the amount paid to the pharmacy for each prescription, net of the aggregate amount  
618.13 of fees or other assessments imposed on the pharmacy, including point-of-sale and retroactive  
618.14 charges;

618.15 (v) any spread between the net amount paid to the pharmacy in item (iv) and the amount  
618.16 charged to the plan sponsor;

618.17 (vi) identity of the pharmacy for each prescription;

618.18 (vii) whether the pharmacy is, or is not, under common control or ownership with the  
618.19 pharmacy benefit manager;

618.20 (viii) whether the pharmacy is, or is not, a preferred pharmacy under the plan;

618.21 (ix) whether the pharmacy is, or is not, a mail order pharmacy; and

618.22 (x) whether enrollees are required by the plan to use the pharmacy;

618.23 (7) the aggregate amount of payments made by the pharmacy benefit manager to  
618.24 pharmacies owned or controlled by the pharmacy benefit manager;

618.25 (8) the aggregate amount of payments made by the pharmacy benefit manager to  
618.26 pharmacies not owned or controlled by the pharmacy benefit manager; and

618.27 (9) the aggregate amount of the fees imposed on, or collected from, network pharmacies  
618.28 or other assessments against network pharmacies, including point-of-sale fees and retroactive  
618.29 charges, and the application of those amounts collected pursuant to the contract with the  
618.30 plan sponsor.

619.1 Subd. 2. Transparency report to the commissioner. (a) Beginning June 1, 2020, and  
619.2 annually thereafter, each pharmacy benefit manager must submit to the commissioner of  
619.3 commerce a transparency report containing data from the prior calendar year. The report  
619.4 must contain the following information:

619.5 (1) the aggregate wholesale acquisition costs from a drug manufacturer or wholesale  
619.6 drug distributor for each therapeutic category of prescription drugs for all of the pharmacy  
619.7 benefit manager's health carrier clients and for each health carrier client, and these costs net  
619.8 of all rebates and other fees and payments, direct or indirect, from all sources;

619.9 (2) the aggregate amount of all rebates that the pharmacy benefit manager received from  
619.10 all drug manufacturers for all of the pharmacy benefit manager's health carrier clients and  
619.11 for each health carrier client. The aggregate amount of rebates must include any utilization  
619.12 discounts the pharmacy benefit manager receives from a drug manufacturer or wholesale  
619.13 drug distributor;

619.14 (3) the aggregate of all fees from all sources, direct or indirect, that the pharmacy benefit  
619.15 manager received for all of the pharmacy benefit manager's health carrier clients, and the  
619.16 amount of these fees for each health carrier client separately;

619.17 (4) the aggregate retained rebates and other fees, as listed in clause (3), that the pharmacy  
619.18 benefit manager received from all sources, direct or indirect, that were not passed through  
619.19 to the health carrier;

619.20 (5) the aggregate retained rebate and fees percentage;

619.21 (6) the highest, lowest, and mean aggregate retained rebate and fees percentage for all  
619.22 of the pharmacy benefit manager's health carrier clients and for each health carrier client;  
619.23 and

619.24 (7) de-identified claims level information in electronic format that allows the  
619.25 commissioner to sort and analyze the following information for each claim:

619.26 (i) the drug and quantity for each prescription;

619.27 (ii) whether the claim required prior authorization;

619.28 (iii) patient cost-sharing paid on each prescription;

619.29 (iv) the amount paid to the pharmacy for each prescription, net of the aggregate amount  
619.30 of fees or other assessments imposed on the pharmacy, including point-of-sale and retroactive  
619.31 charges;

620.1 (v) any spread between the net amount paid to the pharmacy in item (iv) and the amount  
620.2 charged to the plan sponsor;

620.3 (vi) identity of the pharmacy for each prescription;

620.4 (vii) whether the pharmacy is, or is not, under common control or ownership with the  
620.5 pharmacy benefit manager;

620.6 (viii) whether the pharmacy is, or is not, a preferred pharmacy under the plan;

620.7 (ix) whether the pharmacy is, or is not, a mail order pharmacy; and

620.8 (x) whether enrollees are required by the plan to use the pharmacy.

620.9 (b) Within 60 days upon receipt of the transparency report, the commissioner shall  
620.10 publish the report from each pharmacy benefit manager on the Department of Commerce's  
620.11 website, with the exception of data considered trade secret information under section 13.37.

620.12 (c) For purposes of this subdivision, the aggregate retained rebate and fee percentage  
620.13 must be calculated for each health carrier for rebates and fees in the previous calendar year  
620.14 as follows:

620.15 (1) the sum total dollar amount of rebates and fees from all drug manufacturers for all  
620.16 utilization of enrollees of a health carrier that was not passed through to the health carrier;  
620.17 and

620.18 (2) divided by the sum total dollar amount of all rebates and fees received from all  
620.19 sources, direct or indirect, for all enrollees of a health carrier.

620.20 Subd. 3. **Penalty.** The commissioner may impose civil penalties of not more than \$1,000  
620.21 per day per violation of this section.

620.22 Sec. 12. **[62W.07] PHARMACY OWNERSHIP INTEREST; SPECIALTY**  
620.23 **PHARMACY SERVICES; NONDISCRIMINATION.**

620.24 (a) A pharmacy benefit manager that has an ownership interest either directly or indirectly,  
620.25 or through an affiliate or subsidiary, in a pharmacy must disclose to a plan sponsor that  
620.26 contracts with the pharmacy benefit manager any difference between the amount paid to a  
620.27 pharmacy and the amount charged to the plan sponsor.

620.28 (b) A pharmacy benefit manager or a pharmacy benefit manager's affiliates or subsidiaries  
620.29 must not own or have an ownership interest in a patient assistance program or a mail order  
620.30 specialty pharmacy, unless the pharmacy benefit manager, affiliate, or subsidiary agrees to

621.1 fair competition, no self-dealing, and no interference with prospective economic advantage,  
621.2 and establishes a firewall between the administrative functions and the mail order pharmacy.

621.3 (c) A pharmacy benefit manager or health carrier is prohibited from penalizing, requiring,  
621.4 or providing financial incentives, including variations in premiums, deductibles, co-payments,  
621.5 or coinsurance, to an enrollee as an incentive to use a retail pharmacy, mail order pharmacy,  
621.6 specialty pharmacy, or other network pharmacy provider in which a pharmacy benefit  
621.7 manager has an ownership interest or that has an ownership interest in a pharmacy benefit  
621.8 manager.

621.9 (d) A pharmacy benefit manager or health carrier is prohibited from imposing limits,  
621.10 including quantity limits or refill frequency limits, on a patient's access to medication that  
621.11 differ based solely on whether the health carrier or pharmacy benefit manager has an  
621.12 ownership interest in a pharmacy or the pharmacy has an ownership in the pharmacy benefit  
621.13 manager.

621.14 (e) A pharmacy benefit manager must not require pharmacy accreditation standards or  
621.15 recertification requirements to participate in a network that are inconsistent with, more  
621.16 stringent than, or in addition to federal and state requirements for licensure as a pharmacy  
621.17 in this state.

621.18 (f) A pharmacy benefit manager or health carrier must not prohibit an entity authorized  
621.19 to participate in the federal 340B Drug Pricing Program under section 340B of the Public  
621.20 Health Service Act (United States Code, title 42, chapter 6A), or a pharmacy under contract  
621.21 with such an entity to provide pharmacy services from participating in the pharmacy benefit  
621.22 manager's or health carrier's provider network. A pharmacy benefit manager or health carrier  
621.23 must not reimburse an entity or a pharmacy under contract with such an entity participating  
621.24 in the federal 340B Drug Pricing Program differently than other similarly situated pharmacies.  
621.25 A pharmacy benefit manager that contracts with a managed care plan or county-based  
621.26 purchasing plan under contract with the commissioner of human services under chapter  
621.27 256B or 256L must comply with this paragraph only if the entity or contracted pharmacy  
621.28 can identify all claims eligible for 340B drugs at the time of initial claims submission at the  
621.29 point-of-sale. This paragraph does not preclude a pharmacy benefit manager that contracts  
621.30 with a managed care plan or county-based purchasing plan under contract with the  
621.31 commissioner of human services under chapter 256B or 256L, from reimbursing an entity  
621.32 or pharmacy identified in this paragraph at a lower rate for any prescription drug purchased  
621.33 by the entity or pharmacy through the federal 340B Drug Pricing Program.

622.1 Sec. 13. [62W.08] MAXIMUM ALLOWABLE COST PRICING.

622.2 (a) With respect to each contract and contract renewal between a pharmacy benefit  
622.3 manager and a pharmacy, the pharmacy benefits manager must:

622.4 (1) provide to the pharmacy, at the beginning of each contract and contract renewal, the  
622.5 sources utilized to determine the maximum allowable cost pricing of the pharmacy benefit  
622.6 manager;

622.7 (2) update any maximum allowable cost price list at least every seven business days,  
622.8 noting any price changes from the previous list, and provide a means by which network  
622.9 pharmacies may promptly review current prices in an electronic, print, or telephonic format  
622.10 within one business day at no cost to the pharmacy;

622.11 (3) maintain a procedure to eliminate products from the list of drugs subject to maximum  
622.12 allowable cost pricing in a timely manner in order to remain consistent with changes in the  
622.13 marketplace;

622.14 (4) ensure that the maximum allowable cost prices are not set below sources utilized by  
622.15 the pharmacy benefits manager; and

622.16 (5) upon request of a network pharmacy, disclose the sources utilized for setting  
622.17 maximum allowable cost price rates on each maximum allowable cost price list included  
622.18 under the contract and identify each maximum allowable cost price list that applies to the  
622.19 network pharmacy. A pharmacy benefit manager must make the list of the maximum  
622.20 allowable costs available to a contracted pharmacy in a format that is readily accessible and  
622.21 usable to the network pharmacy.

622.22 (b) A pharmacy benefit manager must not place a prescription drug on a maximum  
622.23 allowable cost list unless the drug is available for purchase by pharmacies in this state from  
622.24 a national or regional drug wholesaler and is not obsolete.

622.25 (c) Each contract between a pharmacy benefit manager and a pharmacy must include a  
622.26 process to appeal, investigate, and resolve disputes regarding maximum allowable cost  
622.27 pricing that includes:

622.28 (1) a 15-business-day limit on the right to appeal following the initial claim;

622.29 (2) a requirement that the appeal be investigated and resolved within seven business  
622.30 days after the appeal is received; and

622.31 (3) a requirement that a pharmacy benefit manager provide a reason for any appeal denial  
622.32 and identify the national drug code of a drug that may be purchased by the pharmacy at a

623.1 price at or below the maximum allowable cost price as determined by the pharmacy benefit  
623.2 manager.

623.3 (d) If an appeal is upheld, the pharmacy benefit manager must make an adjustment to  
623.4 the maximum allowable cost price no later than one business day after the date of  
623.5 determination. The pharmacy benefit manager must make the price adjustment applicable  
623.6 to all similarly situated network pharmacy providers as defined by the plan sponsor.

623.7 **Sec. 14. [62W.09] PHARMACY AUDITS.**

623.8 Subdivision 1. Procedure and process for conducting and reporting an audit. (a)  
623.9 Unless otherwise prohibited by federal requirements or regulations, any entity conducting  
623.10 a pharmacy audit must follow the following procedures:

623.11 (1) a pharmacy must be given notice 14 days before an initial on-site audit is conducted;

623.12 (2) an audit that involves clinical or professional judgment must be conducted by or in  
623.13 consultation with a licensed pharmacist; and

623.14 (3) each pharmacy shall be audited under the same standards and parameters as other  
623.15 similarly situated pharmacies.

623.16 (b) Unless otherwise prohibited by federal requirements or regulations, for any entity  
623.17 conducting a pharmacy audit the following items apply:

623.18 (1) the period covered by the audit may not exceed 24 months from the date that the  
623.19 claim was submitted to or adjudicated by the entity, unless a longer period is required under  
623.20 state or federal law;

623.21 (2) if an entity uses random sampling as a method for selecting a set of claims for  
623.22 examination, the sample size must be appropriate for a statistically reliable sample.  
623.23 Notwithstanding section 151.69, the auditing entity shall provide the pharmacy a masked  
623.24 list that provides a prescription number or date range that the auditing entity is seeking to  
623.25 audit;

623.26 (3) an on-site audit may not take place during the first five business days of the month  
623.27 unless consented to by the pharmacy;

623.28 (4) auditors may not enter the pharmacy area unless escorted where patient-specific  
623.29 information is available and to the extent possible must be out of sight and hearing range  
623.30 of the pharmacy customers;

623.31 (5) any recoupment will not be deducted against future remittances until after the appeals  
623.32 process and both parties have received the results of the final audit;

624.1 (6) a pharmacy benefit manager may not require information to be written on a  
624.2 prescription unless the information is required to be written on the prescription by state or  
624.3 federal law. Recoupment may be assessed for items not written on the prescription if:

624.4 (i) additional information is required in the provider manual; or

624.5 (ii) the information is required by the Food and Drug Administration (FDA); or

624.6 (iii) the information is required by the drug manufacturer's product safety program; and

624.7 (iv) the information in item (i), (ii), or (iii) is not readily available for the auditor at the  
624.8 time of the audit; and

624.9 (7) the auditing company or agent may not receive payment based on a percentage of  
624.10 the amount recovered. This section does not prevent the entity conducting the audit from  
624.11 charging or assessing the responsible party, directly or indirectly, based on amounts recouped  
624.12 if both of the following conditions are met:

624.13 (i) the plan sponsor and the entity conducting the audit have a contract that explicitly  
624.14 states the percentage charge or assessment to the plan sponsor; and

624.15 (ii) a commission to an agent or employee of the entity conducting the audit is not based,  
624.16 directly or indirectly, on amounts recouped.

624.17 (c) An amendment to pharmacy audit terms in a contract between a pharmacy benefit  
624.18 manager and a pharmacy must be disclosed to the pharmacy at least 60 days prior to the  
624.19 effective date of the proposed change.

624.20 Subd. 2. **Requirement for recoupment or chargeback.** For recoupment or chargeback,  
624.21 the following criteria apply:

624.22 (1) audit parameters must consider consumer-oriented parameters based on manufacturer  
624.23 listings;

624.24 (2) a pharmacy's usual and customary price for compounded medications is considered  
624.25 the reimbursable cost unless the pricing methodology is outlined in the pharmacy provider  
624.26 contract;

624.27 (3) a finding of overpayment or underpayment must be based on the actual overpayment  
624.28 or underpayment and not a projection based on the number of patients served having a  
624.29 similar diagnosis or on the number of similar orders or refills for similar drugs;

624.30 (4) the entity conducting the audit shall not use extrapolation in calculating the  
624.31 recoupment or penalties for audits unless required by state or federal law or regulations;

625.1 (5) calculations of overpayments must not include dispensing fees unless a prescription  
625.2 was not actually dispensed, the prescriber denied authorization, the prescription dispensed  
625.3 was a medication error by the pharmacy, or the identified overpayment is solely based on  
625.4 an extra dispensing fee;

625.5 (6) an entity may not consider any clerical or record-keeping error, such as a typographical  
625.6 error, scrivener's error, or computer error regarding a required document or record as fraud,  
625.7 however such errors may be subject to recoupment;

625.8 (7) in the case of errors that have no actual financial harm to the patient or plan, the  
625.9 pharmacy benefit manager must not assess any chargebacks. Errors that are a result of the  
625.10 pharmacy failing to comply with a formal corrective action plan may be subject to recovery;  
625.11 and

625.12 (8) interest may not accrue during the audit period for either party, beginning with the  
625.13 notice of the audit and ending with the final audit report.

625.14 Subd. 3. **Documentation.** (a) To validate the pharmacy record and delivery, the pharmacy  
625.15 may use authentic and verifiable statements or records including medication administration  
625.16 records of a nursing home, assisted living facility, hospital, physician, or other authorized  
625.17 practitioner or additional audit documentation parameters located in the provider manual.

625.18 (b) Any legal prescription that meets the requirements in this chapter may be used to  
625.19 validate claims in connection with prescriptions, refills, or changes in prescriptions, including  
625.20 medication administration records, faxes, e-prescriptions, or documented telephone calls  
625.21 from the prescriber or the prescriber's agents.

625.22 Subd. 4. **Appeals process.** The entity conducting the audit must establish a written  
625.23 appeals process which must include appeals of preliminary reports and final reports.

625.24 Subd. 5. **Audit information and reports.** (a) A preliminary audit report must be delivered  
625.25 to the pharmacy within 60 days after the conclusion of the audit.

625.26 (b) A pharmacy must be allowed at least 45 days following receipt of the preliminary  
625.27 audit to provide documentation to address any discrepancy found in the audit.

625.28 (c) A final audit report must be delivered to the pharmacy within 120 days after receipt  
625.29 of the preliminary audit report or final appeal, whichever is later.

627.21 all sources for dispensing the prescription drug, once the claim has been completed by the  
627.22 pharmacy benefit manager or the patient's health carrier.

627.23 (d) A pharmacy benefit manager or health carrier must not prohibit a pharmacist or  
627.24 pharmacy from discussing the availability of any therapeutically equivalent alternative

635.27 Subd. 2. **Refill requirements.** Except as provided in subdivision 3, a prescription drug  
635.28 order may be refilled only with the written, electronic, or verbal consent of the prescriber  
635.29 and in accordance with the requirements of this chapter, the rules of the board, and where  
635.30 applicable, section 152.11. The date of such refill must be recorded and initialed upon the  
635.31 original prescription drug order, or within the electronically maintained record of the original

636.1 prescription drug order, by the pharmacist, pharmacist intern, or practitioner who refills the  
636.2 prescription.

636.3 Sec. 28. Minnesota Statutes 2018, section 151.211, is amended by adding a subdivision  
636.4 to read:

636.5 Subd. 3. **Emergency prescription refills.** (a) A pharmacist may, using sound professional  
636.6 judgment and in accordance with accepted standards of practice, dispense a legend drug  
636.7 without a current prescription drug order from a licensed practitioner if all of the following  
636.8 conditions are met:

636.9 (1) the patient has been compliant with taking the medication and has consistently had  
636.10 the drug filled or refilled as demonstrated by records maintained by the pharmacy;

636.11 (2) the pharmacy from which the legend drug is dispensed has record of a prescription  
636.12 drug order for the drug in the name of the patient who is requesting it, but the prescription  
636.13 drug order does not provide for a refill, or the time during which the refills were valid has  
636.14 elapsed;

636.15 (3) the pharmacist has tried but is unable to contact the practitioner who issued the  
636.16 prescription drug order, or another practitioner responsible for the patient's care, to obtain  
636.17 authorization to refill the prescription;

636.18 (4) the drug is essential to sustain the life of the patient or to continue therapy for a  
636.19 chronic condition;

636.20 (5) failure to dispense the drug to the patient would result in harm to the health of the  
636.21 patient; and

636.22 (6) the drug is not a controlled substance listed in section 152.02, subdivisions 3 to 6,  
636.23 except for a controlled substance that has been specifically prescribed to treat a seizure  
636.24 disorder, in which case the pharmacist may dispense up to a 72-hour supply.

636.25 (b) If the conditions in paragraph (a) are met, the amount of the drug dispensed by the  
636.26 pharmacist to the patient must not exceed a 30-day supply, or the quantity originally  
636.27 prescribed, whichever is less, except as provided for controlled substances in paragraph (a),  
636.28 clause (6). If the standard unit of dispensing for the drug exceeds a 30-day supply, the  
636.29 amount of the drug dispensed or sold must not exceed the standard unit of dispensing.

636.30 (c) A pharmacist shall not dispense or sell the same drug to the same patient, as provided  
636.31 in this section, more than one time in any 12-month period.

637.1 (d) A pharmacist must notify the practitioner who issued the prescription drug order not  
637.2 later than 72 hours after the drug is sold or dispensed. The pharmacist must request and  
637.3 receive authorization before any additional refills may be dispensed. If the practitioner  
637.4 declines to provide authorization for additional refills, the pharmacist must inform the patient  
637.5 of that fact.

637.6 (e) The record of a drug sold or dispensed under this section shall be maintained in the  
637.7 same manner required for prescription drug orders under this section.

637.8 Sec. 29. Minnesota Statutes 2018, section 151.252, subdivision 1, is amended to read:

637.9 Subdivision 1. **Requirements.** (a) No person shall act as a drug manufacturer without  
637.10 first obtaining a license from the board and paying any applicable fee specified in section  
637.11 151.065.

637.12 (b) In addition to the license required under paragraph (a), a manufacturer of insulin  
637.13 must pay the applicable insulin registration fee in section 151.254, by June 1 of each year,  
637.14 beginning June 1, 2020. In the event of a change of ownership of the manufacturer, the new  
637.15 owner must pay the registration fee in section 151.254 that the original owner would have  
637.16 been assessed had it retained ownership. The board may assess a late fee of ten percent per  
637.17 month for any portion of a month that the registration fee is paid after the due date. The  
637.18 registration fee collected under this paragraph, including any late fees, shall be deposited  
637.19 in the insulin assistance account established under section 256.938.

637.20 ~~(b)~~ (c) Application for a drug manufacturer license under this section shall be made in  
637.21 a manner specified by the board.

637.22 ~~(e)~~ (d) No license shall be issued or renewed for a drug manufacturer unless the applicant  
637.23 agrees to operate in a manner prescribed by federal and state law and according to Minnesota  
637.24 Rules.

637.25 ~~(d)~~ (e) No license shall be issued or renewed for a drug manufacturer that is required to  
637.26 be registered pursuant to United States Code, title 21, section 360, unless the applicant  
637.27 supplies the board with proof of registration. The board may establish by rule the standards  
637.28 for licensure of drug manufacturers that are not required to be registered under United States  
637.29 Code, title 21, section 360.

637.30 ~~(e)~~ (f) No license shall be issued or renewed for a drug manufacturer that is required to  
637.31 be licensed or registered by the state in which it is physically located unless the applicant  
637.32 supplies the board with proof of licensure or registration. The board may establish, by rule,

638.1 standards for the licensure of a drug manufacturer that is not required to be licensed or  
638.2 registered by the state in which it is physically located.

638.3 ~~(f)~~ (g) The board shall require a separate license for each facility located within the state  
638.4 at which drug manufacturing occurs and for each facility located outside of the state at  
638.5 which drugs that are shipped into the state are manufactured.

638.6 ~~(g)~~ (h) The board shall not issue an initial or renewed license for a drug manufacturing  
638.7 facility unless the facility passes an inspection conducted by an authorized representative  
638.8 of the board. In the case of a drug manufacturing facility located outside of the state, the  
638.9 board may require the applicant to pay the cost of the inspection, in addition to the license  
638.10 fee in section 151.065, unless the applicant furnishes the board with a report, issued by the  
638.11 appropriate regulatory agency of the state in which the facility is located or by the United  
638.12 States Food and Drug Administration, of an inspection that has occurred within the 24  
638.13 months immediately preceding receipt of the license application by the board. The board  
638.14 may deny licensure unless the applicant submits documentation satisfactory to the board  
638.15 that any deficiencies noted in an inspection report have been corrected.

638.16 Sec. 30. [151.254] INSULIN REGISTRATION FEE.

638.17 Subdivision 1. Definition. (a) For purposes of this section, the following terms have the  
638.18 meanings given them.

638.19 (b) "Manufacturer" means a manufacturer licensed under section 151.252 engaged in  
638.20 the manufacturing of insulin.

638.21 (c) "Wholesaler" means a wholesale drug distributor licensed under section 151.47 and  
638.22 engaged in the wholesale drug distribution of insulin.

638.23 Subd. 2. Reporting requirements. (a) Effective March 1 of each year, beginning March  
638.24 1, 2020, each manufacturer and each wholesaler must report to the Board of Pharmacy every  
638.25 sale, delivery, or other distribution within or into the state of insulin that was made to any  
638.26 practitioner, pharmacy, hospital, or other person who is permitted by section 151.37 to  
638.27 possess insulin for administration or was dispensed to human patients during the previous  
638.28 calendar year. Reporting must be in a manner specified by the board. If the manufacturer  
638.29 or wholesaler fails to provide information required under this paragraph on a timely basis,  
638.30 the board may assess an administrative penalty of \$100 per day. This penalty shall not be  
638.31 considered a form of disciplinary action. Any penalty assessed under this section shall be  
638.32 deposited in the insulin assistance account established under section 256.938.

639.1 (b) By March 1 of each year, beginning March 1, 2020, each owner of a pharmacy with  
639.2 at least one location within this state must report to the board any intracompany delivery  
639.3 or distribution of insulin into this state, to the extent that those deliveries and distributions  
639.4 are not reported to the board by a licensed wholesaler owned by, under contract to, or  
639.5 otherwise operating on behalf of the owner of the pharmacy. Reporting must be in the  
639.6 manner and format specified by the board for deliveries and distributions that occurred  
639.7 during the previous calendar year. The report must include the name of the manufacturer  
639.8 or wholesaler from which the owner of the pharmacy ultimately purchased the insulin and  
639.9 the amount and date the purchase occurred.

639.10 Subd. 3. **Determination of manufacturer's registration fee.** (a) The board shall annually  
639.11 assess manufacturers a registration fee that in aggregate equals the total cost of the insulin  
639.12 assistance program established under section 256.937 for the previous fiscal year, including  
639.13 any administration costs incurred by the commissioner of human services or the board in  
639.14 collecting the fee. The board shall determine each manufacturer's annual insulin registration  
639.15 fee that is prorated and based on the manufacturer's percentage of the total number of units  
639.16 reported to the board under subdivision 2. For the first assessment, the commissioner shall  
639.17 estimate the cost of the program for the first fiscal year and notify the board of the estimated  
639.18 cost by March 1, 2020. The board shall determine each manufacturer's initial registration  
639.19 fee based on the estimated cost.

639.20 (b) By April 1 of each year, beginning April 1, 2020, the board shall notify each  
639.21 manufacturer of the annual amount of the manufacturer's insulin registration fee to be paid  
639.22 in accordance with section 151.252, subdivision 1, paragraph (b).

639.23 (c) A manufacturer may dispute the fee assessed under this section as determined by the  
639.24 board no later than 30 days after the date of notification. However, the manufacturer must  
639.25 still remit the registration fee required by section 151.252, subdivision 1, paragraph (b).  
639.26 The dispute must be filed with the board in the manner and using the forms specified by  
639.27 the board. A manufacturer must submit, with the required forms, data satisfactory to the  
639.28 board that demonstrates that the fee was incorrect or otherwise unwarranted. The board  
639.29 must make a decision concerning a dispute no later than 60 days after receiving the required  
639.30 dispute forms. If the board determines that the manufacturer has satisfactorily demonstrated  
639.31 that the original fee was incorrect, the board must: (1) adjust the manufacturer's fee; (2)  
639.32 adjust the manufacturer's fee due the next year by the amount in excess of the correct fee  
639.33 that should have been paid; or (3) refund the amount paid in error.

640.1 Sec. 31. [151.462] PROHIBITION AGAINST CHARGING UNCONSCIONABLE  
640.2 PRICES FOR PRESCRIPTION DRUGS.

640.3 Subdivision 1. Purpose. The purpose of this section is to promote public health in  
640.4 Minnesota by preventing unconscionable price gouging with respect to the price of essential  
640.5 prescription drugs sold in Minnesota. Essential prescription drugs are a necessity. These  
640.6 drugs, which are made available in this state by drug manufacturers and wholesale  
640.7 distributors, provide critically important benefits to the health and well-being of Minnesota  
640.8 citizens. Abuses in the pricing of various essential prescription drugs are well-documented,  
640.9 jeopardize the health and welfare of the public, and have caused the death of patients who  
640.10 could not afford to pay an unconscionable price for these drugs. For example, these price  
640.11 gouging practices have created a public health catastrophe in Minnesota regarding the sale  
640.12 of insulin, an essential prescription drug for the treatment of more than 320,000 people  
640.13 residing in Minnesota who are diabetic. This section is intended to address such abuses, but  
640.14 allow drug manufacturers and wholesale drug distributors a fair rate of return with respect  
640.15 to their sale of essential prescription drugs in the state of Minnesota.

640.16 Subd. 2. Definitions. (a) For purposes of this section, the following definitions apply.

640.17 (b) "Essential prescription drug" means a patented (including an exclusivity-protected  
640.18 drug), off-patent, or generic drug prescribed in Minnesota by a practitioner:

640.19 (1) that either:

640.20 (i) is covered under the medical assistance program or by any Medicare Part D plan  
640.21 offered in the state of Minnesota; or

640.22 (ii) has been designated by the commissioner of human services under subdivision 4 as  
640.23 an essential medicine due to its efficacy in treating a life-threatening health condition or a  
640.24 chronic health condition that substantially impairs an individual's ability to engage in  
640.25 activities of daily living; and

640.26 (2) for which:

640.27 (i) a 30-day supply of the maximum recommended dosage of the drug for any indication,  
640.28 according to the label for the drug approved under the Federal Food, Drug, and Cosmetic  
640.29 Act, would cost more than \$80 at the drug's wholesale acquisition cost;

640.30 (ii) a full course of treatment with the drug, according to the label for the drug approved  
640.31 under the Federal Food, Drug, and Cosmetic Act, would cost more than \$80 at the drug's  
640.32 wholesale acquisition cost; or

641.1 (iii) if the drug is made available to consumers only in quantities that do not correspond  
641.2 to a 30-day supply, a full course of treatment, or a single dose, it would cost more than \$80  
641.3 at the drug's wholesale acquisition cost to obtain a 30-day supply or a full course of treatment.

641.4 Essential prescription drug also includes a patented or off-patent drug-device combination  
641.5 product, whose wholesale acquisition cost is more than \$80, and which is used at least in  
641.6 part for delivery of a drug described in this paragraph.

641.7 (c) "Health plan company" has the meaning provided in section 62Q.01, subdivision 4.

641.8 (d) "Unconscionable price" means a price that:

641.9 (1) is not reasonably justified by the actual cost of inventing, producing, selling, and  
641.10 distributing the essential prescription drug, and any actual cost of an appropriate expansion  
641.11 of access to the drug to promote public health; and

641.12 (2) applies to an essential prescription drug sold to:

641.13 (i) consumers in Minnesota;

641.14 (ii) the commissioner of human services for use in a Minnesota public health care  
641.15 program; or

641.16 (iii) a health plan company providing medical care to Minnesota consumers; and the  
641.17 consumer, commissioner, or health plan company has no meaningful choice about whether  
641.18 to purchase the drug, because there is no other comparable drug sold in Minnesota at a price  
641.19 that is reasonably justified by the actual cost of inventing, producing, selling, and distributing  
641.20 the comparable drug, and any actual cost of an appropriate expansion of access to the drug  
641.21 to promote public health.

641.22 (e) "Wholesale acquisition cost" has the meaning given in United States Code, title 42,  
641.23 section 1395w-3a.

641.24 Subd. 3. **Prohibition.** No drug manufacturer or wholesale drug distributor shall charge  
641.25 or cause to be charged in Minnesota an unconscionable price for an essential prescription  
641.26 drug sold in Minnesota. It is not a violation of this section for a wholesale drug distributor  
641.27 to charge a price for an essential prescription drug to be sold in Minnesota that is directly  
641.28 and substantially attributable to the cost of the drug charged by the manufacturer.

641.29 Subd. 4. **Commissioner of human services; list of essential prescription drugs.** The  
641.30 commissioner of human services, in consultation with the Formulary Committee established  
641.31 under section 256B.0625, subdivision 13c, may designate essential medicines in accordance  
641.32 with subdivision 2, paragraph (b), clause (1), item (ii), and shall maintain a list of all essential

642.1 prescription drugs on the agency website. The commissioner is exempt from the rulemaking  
642.2 requirements of chapter 14 in making the essential medicine designation and compiling the  
642.3 list of all essential prescription drugs under this subdivision.

642.4 Subd. 5. **Notification of attorney general.** The Minnesota Board of Pharmacy, the  
642.5 commissioner of human services, and health plan companies providing health coverage to  
642.6 Minnesota consumers, shall notify the attorney general of any increase of 15 percent or  
642.7 more during a one-year period in the price of any essential prescription drug sold in  
642.8 Minnesota.

642.9 Subd. 6. **Attorney general's office to confer with drug manufacturer or distributor.** In  
642.10 order for the attorney general to bring an action for an alleged violation of subdivision 3  
642.11 against a drug manufacturer or wholesale distributor, the attorney general must have provided  
642.12 the manufacturer or wholesale distributor an opportunity to meet with the attorney general  
642.13 to present any justification for the price of the essential prescription drug. This meeting  
642.14 shall be in addition to any response or responses that the drug manufacturer or wholesale  
642.15 distributor may make to prelitigation investigation or discovery conducted by the attorney  
642.16 general pursuant to section 8.31.

642.17 Subd. 7. **Private right of action.** Any action brought pursuant to section 8.31, subdivision  
642.18 3a, by a person injured by a violation of this section is for the benefit of the public.

642.19 Subd. 8. **Severability.** In accordance with section 645.20, it is the intent of the legislature  
642.20 that the provisions, or any part of a provision, of this section or its effective date are severable  
642.21 in the event any provision, or any part of a provision, of this section or its effective date is  
642.22 found by a court to be unconstitutional.

642.23 **EFFECTIVE DATE.** This section is effective the day following final enactment and,  
642.24 notwithstanding any statutory or common law to the contrary, applies retroactively to any  
642.25 prices charged by a drug manufacturer or drug wholesaler for essential prescription drugs  
642.26 sold or distributed in Minnesota on or after July 1, 2014.

642.27 Sec. 32. **[151.555] PRESCRIPTION DRUG REPOSITORY PROGRAM.**

642.28 Subdivision 1. **Definitions.** (a) For the purposes of this section, the terms defined in this  
642.29 subdivision have the meanings given.

642.30 (b) "Central repository" means a wholesale distributor that meets the requirements under  
642.31 subdivision 3 and enters into a contract with the Board of Pharmacy in accordance with this  
642.32 section.

643.9 (6) a drug manufacturer licensed under section 151.252; or

643.11 is donated was obtained legally and meets the requirements of this section for donation.

643.12 (e) "Drug" means any prescription drug that has been approved for medical use in the  
643.13 United States, is listed in the United States Pharmacopoeia or National Formulary, and  
643.14 meets the criteria established under this section for donation. This definition includes cancer  
643.15 drugs and antirejection drugs, but does not include controlled substances, as defined in  
643.16 section 152.01, subdivision 4, or a prescription drug that can only be dispensed to a patient  
643.17 registered with the drug's manufacturer in accordance with federal Food and Drug  
643.18 Administration requirements.

643.19 (f) "Health care facility" means:

643.20 (1) a physician's office or health care clinic where licensed practitioners provide health

643.24 (4) a nonprofit community clinic, including a federally qualified health center; a rural  
643.25 health clinic; public health clinic; or other community clinic that provides health care utilizing  
643.26 a sliding fee scale to patients who are low-income, uninsured, or underinsured.

643.27 (g) "Local repository" means a health care facility that elects to accept donated drugs

643.30 supply needed to administer a prescription drug.

644.1 (i) "Original, sealed, unopened, tamper-evident packaging" means packaging that is  
644.2 sealed, unopened, and tamper-evident, including a manufacturer's original unit dose or  
644.3 unit-of-use container, a repackager's original unit dose or unit-of-use container, or unit-dose  
644.4 packaging prepared by a licensed pharmacy according to the standards of Minnesota Rules,  
644.5 part 6800.3750.

644.6 (j) "Practitioner" has the meaning given in section 151.01, subdivision 23, except that  
644.7 it does not include a veterinarian.

644.8 Subd. 2. **Establishment.** By January 1, 2020, the Board of Pharmacy shall establish a  
644.9 drug repository program, through which donors may donate a drug or medical supply for  
644.10 use by an individual who meets the eligibility criteria specified under subdivision 5. The  
644.11 board shall contract with a central repository that meets the requirements of subdivision 3  
644.12 to implement and administer the prescription drug repository program.

644.13 Subd. 3. **Central repository requirements.** (a) The board shall publish a request for  
644.14 proposal for participants who meet the requirements of this subdivision and are interested  
644.15 in acting as the central repository for the drug repository program. The board shall follow  
644.16 all applicable state procurement procedures in the selection process.

644.17 (b) To be eligible to act as the central repository, the participant must be a wholesale  
644.18 drug distributor located in Minnesota, licensed pursuant to section 151.47, and in compliance  
644.19 with all applicable federal and state statutes, rules, and regulations.

644.20 (c) The central repository shall be subject to inspection by the board pursuant to section

644.24 The facility must maintain in good standing any state license or registration that applies to  
644.25 the facility.

644.26 Subd. 4. **Local repository requirements.** (a) To be eligible for participation in the drug  
644.27 repository program, a health care facility must agree to comply with all applicable federal  
644.28 and state laws, rules, and regulations pertaining to the drug repository program, drug storage,  
644.29 and dispensing. The facility must also agree to maintain in good standing any required state  
644.30 license or registration that may apply to the facility.

644.31 (b) A local repository may elect to participate in the program by submitting the following  
644.32 information to the central repository on a form developed by the board and made available  
644.33 on the board's website:

645.1 (1) the name, street address, and telephone number of the health care facility and any

645.7 that the health care facility meets the eligibility requirements under this section and agrees  
645.8 to comply with this section.

645.9 (c) Participation in the drug repository program is voluntary. A local repository may  
645.10 withdraw from participation in the drug repository program at any time by providing written  
645.11 notice to the central repository on a form developed by the board and made available on  
645.12 the board's website. The central repository shall provide the board with a copy of the  
645.13 withdrawal notice within ten business days from the date of receipt of the withdrawal notice.

645.14 Subd. 5. **Individual eligibility and application requirements.** (a) To be eligible for  
645.15 the drug repository program, an individual must submit to a local repository an intake

645.18 (2) is uninsured and is not enrolled in the medical assistance program under chapter  
645.19 256B or the MinnesotaCare program under chapter 256L, has no prescription drug coverage,  
645.20 or is underinsured;

645.21 (3) acknowledges that the drugs or medical supplies to be received through the program  
645.22 may have been donated; and

645.23 (4) consents to a waiver of the child-resistant packaging requirements of the federal  
645.24 Poison Prevention Packaging Act.

645.25 (b) Upon determining that an individual is eligible for the program, the local repository  
645.26 shall furnish the individual with an identification card. The card shall be valid for one year  
645.27 from the date of issuance and may be used at any local repository. A new identification card  
645.28 may be issued upon expiration once the individual submits a new application form.

645.29 (c) The local repository shall send a copy of the intake application form to the central  
645.30 repository by regular mail, facsimile, or secured e-mail within ten days from the date the  
645.31 application is approved by the local repository.

646.1 (d) The board shall develop and make available on the board's website an application  
646.2 form and the format for the identification card.

646.3 **Subd. 6. Standards and procedures for accepting donations of drugs and supplies. (a)**  
646.4 A donor may donate prescription drugs or medical supplies to the central repository or a  
646.5 local repository if the drug or supply meets the requirements of this section as determined  
646.6 by a pharmacist or practitioner who is employed by or under contract with the central  
646.7 repository or a local repository.

646.8 (b) A prescription drug is eligible for donation under the drug repository program if the  
646.9 following requirements are met:

646.10 (1) the donation is accompanied by a drug repository donor form described under  
646.11 paragraph (d) that is signed by an individual who is authorized by the donor to attest to the  
646.12 donor's knowledge in accordance with paragraph (d);

646.13 (2) the drug's expiration date is at least six months after the date the drug was donated.  
646.14 If a donated drug bears an expiration date that is less than six months from the donation  
646.15 date, the drug may be accepted and distributed if the drug is in high demand and can be  
646.16 dispensed for use by a patient before the drug's expiration date;

646.17 (3) the drug is in its original, sealed, unopened, tamper-evident packaging that includes  
646.18 the expiration date. Single-unit-dose drugs may be accepted if the single-unit-dose packaging  
646.19 is unopened;

646.20 (4) the drug or the packaging does not have any physical signs of tampering, misbranding,  
646.21 deterioration, compromised integrity, or adulteration;

646.22 (5) the drug does not require storage temperatures other than normal room temperature  
646.23 as specified by the manufacturer or United States Pharmacopoeia, unless the drug is being  
646.24 donated directly by its manufacturer, a wholesale drug distributor, or a pharmacy located  
646.25 in Minnesota; and

646.26 (6) the prescription drug is not a controlled substance.

646.27 (c) A medical supply is eligible for donation under the drug repository program if the  
646.28 following requirements are met:

646.29 (1) the supply has no physical signs of tampering, misbranding, or alteration and there  
646.30 is no reason to believe it has been adulterated, tampered with, or misbranded;

646.31 (2) the supply is in its original, unopened, sealed packaging;

647.1 (3) the donation is accompanied by a drug repository donor form described under  
647.2 paragraph (d) that is signed by an individual who is authorized by the donor to attest to the  
647.3 donor's knowledge in accordance with paragraph (d); and

647.4 (4) if the supply bears an expiration date, the date is at least six months later than the  
647.5 date the supply was donated. If the donated supply bears an expiration date that is less than  
647.6 six months from the date the supply was donated, the supply may be accepted and distributed  
647.7 if the supply is in high demand and can be dispensed for use by a patient before the supply's  
647.8 expiration date.

647.9 (d) The board shall develop the drug repository donor form and make it available on the  
647.10 board's website. The form must state that to the best of the donor's knowledge the donated  
647.11 drug or supply has been properly stored under appropriate temperature and humidity  
647.12 conditions, and that the drug or supply has never been opened, used, tampered with,  
647.13 adulterated, or misbranded.

647.14 (e) Donated drugs and supplies may be shipped or delivered to the premises of the central  
647.15 repository or a local repository, and shall be inspected by a pharmacist or an authorized  
647.16 practitioner who is employed by or under contract with the repository and who has been  
647.17 designated by the repository to accept donations. A drop box must not be used to deliver  
647.18 or accept donations.

647.19 (f) The central repository and local repository shall inventory all drugs and supplies  
647.20 donated to the repository. For each drug, the inventory must include the drug's name, strength,  
647.21 quantity, manufacturer, expiration date, and the date the drug was donated. For each medical  
647.22 supply, the inventory must include a description of the supply, its manufacturer, the date  
647.23 the supply was donated, and, if applicable, the supply's brand name and expiration date.

647.24 **Subd. 7. Standards and procedures for inspecting and storing donated prescription**  
647.25 **drugs and supplies.** (a) A pharmacist or authorized practitioner who is employed by or  
647.26 under contract with the central repository or a local repository shall inspect all donated  
647.27 prescription drugs and supplies before the drug or supply is dispensed to determine, to the  
647.28 extent reasonably possible in the professional judgment of the pharmacist or practitioner,  
647.29 that the drug or supply is not adulterated or misbranded, has not been tampered with, is safe  
647.30 and suitable for dispensing, has not been subject to a recall, and meets the requirements for  
647.31 donation. The pharmacist or practitioner who inspects the drugs or supplies shall sign an  
647.32 inspection record stating that the requirements for donation have been met. If a local  
647.33 repository receives drugs and supplies from the central repository, the local repository does  
647.34 not need to reinspect the drugs and supplies.

648.1 (b) The central repository and local repositories shall store donated drugs and supplies  
648.2 in a secure storage area under environmental conditions appropriate for the drug or supply  
648.3 being stored. Donated drugs and supplies may not be stored with nondonated inventory. If  
648.4 donated drugs or supplies are not inspected immediately upon receipt, a repository must  
648.5 quarantine the donated drugs or supplies separately from all dispensing stock until the  
648.6 donated drugs or supplies have been inspected and (1) approved for dispensing under the  
648.7 program; (2) disposed of pursuant to paragraph (c); or (3) returned to the donor pursuant to  
648.8 paragraph (d).

648.9 (c) The central repository and local repositories shall dispose of all prescription drugs  
648.10 and medical supplies that are not suitable for donation in compliance with applicable federal  
648.11 and state statutes, regulations, and rules concerning hazardous waste.

648.12 (d) In the event that controlled substances or prescription drugs that can only be dispensed  
648.13 to a patient registered with the drug's manufacturer are shipped or delivered to a central or  
648.14 local repository for donation, the shipment delivery must be documented by the repository  
648.15 and returned immediately to the donor or the donor's representative that provided the drugs.

648.16 (e) Each repository must develop drug and medical supply recall policies and procedures.  
648.17 If a repository receives a recall notification, the repository shall destroy all of the drug or  
648.18 medical supply in its inventory that is the subject of the recall and complete a record of  
648.19 destruction form in accordance with paragraph (f). If a drug or medical supply that is the  
648.20 subject of a Class I or Class II recall has been dispensed, the repository shall immediately  
648.21 notify the recipient of the recalled drug or medical supply. A drug that potentially is subject  
648.22 to a recall need not be destroyed if its packaging bears a lot number and that lot of the drug  
648.23 is not subject to the recall. If no lot number is on the drug's packaging, it must be destroyed.

648.24 (f) A record of destruction of donated drugs and supplies that are not dispensed under  
648.25 subdivision 8, are subject to a recall under paragraph (e), or are not suitable for donation  
648.26 shall be maintained by the repository for at least five years. For each drug or supply  
648.27 destroyed, the record shall include the following information:

648.28 (1) the date of destruction;

648.29 (2) the name, strength, and quantity of the drug destroyed; and

648.30 (3) the name of the person or firm that destroyed the drug.

648.31 Subd. 8. **Dispensing requirements.** (a) Donated drugs and supplies may be dispensed  
648.32 if the drugs or supplies are prescribed by a practitioner for use by an eligible individual and  
648.33 are dispensed by a pharmacist or practitioner. A repository shall dispense drugs and supplies

649.1 to eligible individuals in the following priority order: (1) individuals who are uninsured;  
649.2 (2) individuals with no prescription drug coverage; and (3) individuals who are underinsured.  
649.3 A repository shall dispense donated prescription drugs in compliance with applicable federal  
649.4 and state laws and regulations for dispensing prescription drugs, including all requirements  
649.5 relating to packaging, labeling, record keeping, drug utilization review, and patient  
649.6 counseling.

649.7 (b) Before dispensing or administering a drug or supply, the pharmacist or practitioner  
649.8 shall visually inspect the drug or supply for adulteration, misbranding, tampering, and date  
649.9 of expiration. Drugs or supplies that have expired or appear upon visual inspection to be  
649.10 adulterated, misbranded, or tampered with in any way must not be dispensed or administered.

649.11 (c) Before a drug or supply is dispensed or administered to an individual, the individual  
649.12 must sign a drug repository recipient form acknowledging that the individual understands  
649.13 the information stated on the form. The board shall develop the form and make it available  
649.14 on the board's website. The form must include the following information:

649.15 (1) that the drug or supply being dispensed or administered has been donated and may  
649.16 have been previously dispensed;

649.17 (2) that a visual inspection has been conducted by the pharmacist or practitioner to ensure  
649.18 that the drug or supply has not expired, has not been adulterated or misbranded, and is in  
649.19 its original, unopened packaging; and

649.20 (3) that the dispensing pharmacist, the dispensing or administering practitioner, the  
649.21 central repository or local repository, the Board of Pharmacy, and any other participant of  
649.22 the drug repository program cannot guarantee the safety of the drug or medical supply being  
649.23 dispensed or administered and that the pharmacist or practitioner has determined that the  
649.24 drug or supply is safe to dispense or administer based on the accuracy of the donor's form  
649.25 submitted with the donated drug or medical supply and the visual inspection required to be  
649.26 performed by the pharmacist or practitioner before dispensing or administering.

649.27 Subd. 9. **Handling fees.** (a) The central or local repository may charge the individual  
649.28 receiving a drug or supply a handling fee of no more than 250 percent of the medical  
649.29 assistance program dispensing fee for each drug or medical supply dispensed or administered  
649.30 by that repository.

649.31 (b) A repository that dispenses or administers a drug or medical supply through the drug  
649.32 repository program shall not receive reimbursement under the medical assistance program  
649.33 or the MinnesotaCare program for that dispensed or administered drug or supply.

650.1 Subd. 10. **Distribution of donated drugs and supplies.** (a) The central repository and  
650.2 local repositories may distribute drugs and supplies donated under the drug repository  
650.3 program to other participating repositories for use pursuant to this program.

650.4 (b) A local repository that elects not to dispense donated drugs or supplies must transfer  
650.5 all donated drugs and supplies to the central repository. A copy of the donor form that was  
650.6 completed by the original donor under subdivision 6 must be provided to the central  
650.7 repository at the time of transfer.

650.8 Subd. 11. **Forms and record-keeping requirements.** (a) The following forms developed  
650.9 for the administration of this program shall be utilized by the participants of the program  
650.10 and shall be available on the board's website:

650.11 (1) intake application form described under subdivision 5;

650.12 (2) local repository participation form described under subdivision 4;

650.13 (3) local repository withdrawal form described under subdivision 4;

650.14 (4) drug repository donor form described under subdivision 6;

650.15 (5) record of destruction form described under subdivision 7; and

650.16 (6) drug repository recipient form described under subdivision 8.

650.17 (b) All records, including drug inventory, inspection, and disposal of donated prescription  
650.18 drugs and medical supplies must be maintained by a repository for a minimum of five years.  
650.19 Records required as part of this program must be maintained pursuant to all applicable  
650.20 practice acts.

650.21 (c) Data collected by the drug repository program from all local repositories shall be  
650.22 submitted quarterly or upon request to the central repository. Data collected may consist of  
650.23 the information, records, and forms required to be collected under this section.

650.24 (d) The central repository shall submit reports to the board as required by the contract  
650.25 or upon request of the board.

650.26 Subd. 12. **Liability.** (a) The manufacturer of a drug or supply is not subject to criminal  
650.27 or civil liability for injury, death, or loss to a person or to property for causes of action  
650.28 described in clauses (1) and (2). A manufacturer is not liable for:

650.29 (1) the intentional or unintentional alteration of the drug or supply by a party not under  
650.30 the control of the manufacturer; or

651.1 (2) the failure of a party not under the control of the manufacturer to transfer or  
651.2 communicate product or consumer information or the expiration date of the donated drug  
651.3 or supply.

651.4 (b) A health care facility participating in the program, a pharmacist dispensing a drug  
651.5 or supply pursuant to the program, a practitioner dispensing or administering a drug or  
651.6 supply pursuant to the program, or a donor of a drug or medical supply is immune from  
651.7 civil liability for an act or omission that causes injury to or the death of an individual to  
651.8 whom the drug or supply is dispensed and no disciplinary action by a health-related licensing  
651.9 board shall be taken against a pharmacist or practitioner so long as the drug or supply is  
651.10 donated, accepted, distributed, and dispensed according to the requirements of this section.  
651.11 This immunity does not apply if the act or omission involves reckless, wanton, or intentional  
651.12 misconduct, or malpractice unrelated to the quality of the drug or medical supply.

651.13 Subd. 13. **Drug returned for credit.** Nothing in this section allows a long-term care  
651.14 facility to donate a drug to a central or local repository when federal or state law requires  
651.15 the drug to be returned to the pharmacy that initially dispensed it, so that the pharmacy can  
651.16 credit the payer for the amount of the drug returned.

651.17 **Sec. 33. [151.80] PRESCRIPTION DRUG PRICE TRANSPARENCY ACT.**

651.18 Sections 151.80 to 151.83 shall be known as the "Prescription Drug Price Transparency

698.2 read:

698.3 Subd. 1a. **Licensing.** (a) The board shall license wholesale distributors in a manner that  
698.4 is consistent with United States Code, title 21, section 360eee-2, and the regulations  
698.5 promulgated thereunder. In the event that the provisions of this section, or of the rules of  
698.6 the board, conflict with the provisions of United States Code, title 21, section 360eee-2, or  
698.7 the rules promulgated thereunder, the federal provisions shall prevail. The board shall not  
698.8 license a person as a wholesale distributor unless the person is engaged in wholesale  
698.9 distribution.

698.10 (b) No person shall act as a wholesale distributor without first obtaining a license from  
698.11 the board and paying any applicable fee specified in section 151.065.

698.12 (c) Application for a wholesale distributor license under this section shall be made in a  
698.13 manner specified by the board.

698.14 (d) No license shall be issued or renewed for a wholesale distributor unless the applicant  
698.15 agrees to operate in a manner prescribed by federal and state law and according to the rules  
698.16 adopted by the board.

698.17 (e) No license may be issued or renewed for a wholesale distributor facility that is located  
698.18 in another state unless the applicant supplies the board with proof of licensure or registration  
698.19 by the state in which the wholesale distributor is physically located or by the United States  
698.20 Food and Drug Administration.

698.21 (f) The board shall require a separate license for each drug wholesale distributor facility  
698.22 located within the state and for each drug wholesale distributor facility located outside of  
698.23 the state from which drugs are shipped into the state or to which drugs are reverse distributed.

698.24 (g) The board shall not issue an initial or renewed license for a drug wholesale distributor  
698.25 facility unless the facility passes an inspection conducted by an authorized representative  
698.26 of the board or is inspected and accredited by an accreditation program approved by the  
698.27 board. In the case of a drug wholesale distributor facility located outside of the state, the  
698.28 board may require the applicant to pay the cost of the inspection, in addition to the license  
698.29 fee in section 151.065, unless the applicant furnishes the board with a report, issued by the  
698.30 appropriate regulatory agency of the state in which the facility is located, of an inspection  
698.31 that has occurred within the 24 months immediately preceding receipt of the license  
698.32 application by the board, or furnishes the board with proof of current accreditation. The  
698.33 board may deny licensure unless the applicant submits documentation satisfactory to the  
698.34 board that any deficiencies noted in an inspection report have been corrected.

699.1 (h) As a condition for receiving and retaining a wholesale drug distributor license issued  
699.2 under this section, an applicant shall satisfy the board that it:

699.3 (1) has adequate storage conditions and facilities to allow for the safe receipt, storage,  
699.4 handling, and sale of drugs;

699.5 (2) has minimum liability and other insurance as may be required under any applicable  
699.6 federal or state law;

699.7 (3) has a functioning security system that includes an after-hours central alarm or  
699.8 comparable entry detection capability, and security policies and procedures that include  
699.9 provisions for restricted access to the premises, comprehensive employee applicant screening,  
699.10 and safeguards against all forms of employee theft;

699.11 (4) will maintain appropriate records of the distribution of drugs, which shall be kept  
699.12 for a minimum of two years and be made available to the board upon request;

699.13 (5) employs principals and other persons, including officers, directors, primary  
699.14 shareholders, and key management executives, who will at all times demonstrate and maintain  
699.15 their capability of conducting business in conformity with state and federal law, at least one  
699.16 of whom will serve as the primary designated representative for each licensed facility and  
699.17 who will be responsible for ensuring that the facility operates in a manner consistent with  
699.18 state and federal law;

699.19 (6) will ensure that all personnel have sufficient education, training, and experience, in  
699.20 any combination, so that they may perform assigned duties in a manner that maintains the  
699.21 quality, safety, and security of drugs;

699.22 (7) will provide the board with updated information about each wholesale distributor  
699.23 facility to be licensed, as requested by the board;

699.24 (8) will develop and, as necessary, update written policies and procedures that assure  
699.25 reasonable wholesale drug distributor preparation for, protection against, and handling of  
699.26 any facility security or operation problems, including but not limited to those caused by  
699.27 natural disaster or government emergency, inventory inaccuracies or drug shipping and  
699.28 receiving, outdated drugs, appropriate handling of returned goods, and drug recalls;

699.29 (9) will have sufficient policies and procedures in place for the inspection of all incoming  
699.30 and outgoing drug shipments;

699.31 (10) will operate in compliance with all state and federal requirements applicable to  
699.32 wholesale drug distribution; and

700.1 (11) will meet the requirements for inspections found in this subdivision.

700.2 (i) An agent or employee of any licensed wholesale drug distributor need not seek  
700.3 licensure under this section. Paragraphs (i) to (p) apply to wholesaler personnel.

700.4 (j) The board is authorized to and shall require fingerprint-based criminal background  
700.5 checks of facility managers or designated representatives, as required under United States  
700.6 Code, title 21, section 360eee-2. The criminal background checks shall be conducted as  
700.7 provided in section 214.075. The board shall use the criminal background check data received  
700.8 to evaluate the qualifications of persons for ownership of or employment by a licensed  
700.9 wholesaler and shall not disseminate this data except as allowed by law.

700.10 (k) A licensed wholesaler shall not be owned by, or employ, a person who has:

700.11 (1) been convicted of any felony for conduct relating to wholesale distribution, any  
700.12 felony violation of United States Code, title 21, section 331, subsections (i) or (k), or any  
700.13 felony violation of United States Code, title 18, section 1365, relating to product tampering;  
700.14 or

700.15 (2) engaged in a pattern of violating the requirements of United States Code, title 21,  
700.16 section 360eee-2, or the regulations promulgated thereunder, or state requirements for  
700.17 licensure, that presents a threat of serious adverse health consequences or death to humans.

700.18 (l) An applicant for the issuance or renewal of a wholesale distributor license shall  
700.19 execute and file with the board a surety bond.

700.20 (m) Prior to issuing or renewing a wholesale distributor license, the board shall require  
700.21 an applicant that is not a government owned and operated wholesale distributor to submit  
700.22 a surety bond of \$100,000, except that if the annual gross receipts of the applicant for the  
700.23 previous tax year is \$10,000,000 or less, a surety bond of \$25,000 shall be required.

700.24 (n) If a wholesale distributor can provide evidence satisfactory to the board that it  
700.25 possesses the required bond in another state, the requirement for a bond shall be waived.

700.26 (o) The purpose of the surety bond required under this subdivision is to secure payment  
700.27 of any civil penalty imposed by the board pursuant to section 151.071, subdivision 1. The  
700.28 board may make a claim against the bond if the licensee fails to pay a civil penalty within  
700.29 30 days after the order imposing the fine or costs become final.

700.30 (p) A single surety bond shall satisfy the requirement for the submission of a bond for  
700.31 all licensed wholesale distributor facilities under common ownership.

701.2 Subdivision 1. **Generally.** Each third-party logistics provider shall comply with the  
701.3 requirements set forth in United States Code, title 21, section 360eee to 360eee-4, that are  
701.4 applicable to third-party logistics providers.

701.5 Subd. 2. **Licensing.** (a) The board shall license third-party logistics providers in a manner  
701.6 that is consistent with United States Code, title 21, section 360eee-3, and the regulations  
701.7 promulgated thereunder. In the event that the provisions of this section or of the rules of  
701.8 the board conflict with the provisions of United States Code, title 21, section 360eee-3, or  
701.9 the rules promulgated thereunder, the federal provisions shall prevail. The board shall not  
701.10 license a person as a third-party logistics provider unless the person is operating as such.

701.11 (b) No person shall act as a third-party logistics provider without first obtaining a license  
701.12 from the board and paying any applicable fee specified in section 151.065.

701.14 made in a manner specified by the board.

701.15 (d) No license shall be issued or renewed for a third-party logistics provider unless the

701.19 is located in another state unless the applicant supplies the board with proof of licensure or  
701.20 registration by the state in which the third-party logistics provider facility is physically  
701.21 located or by the United States Food and Drug Administration.

701.22 (f) The board shall require a separate license for each third-party logistics provider  
701.23 facility located within the state and for each third-party logistics provider facility located  
701.24 outside of the state from which drugs are shipped into the state or to which drugs are reverse  
701.25 distributed.

701.26 (g) The board shall not issue an initial or renewed license for a third-party logistics  
701.27 provider facility unless the facility passes an inspection conducted by an authorized  
701.28 representative of the board or is inspected and accredited by an accreditation program  
701.29 approved by the board. In the case of a third-party logistics provider facility located outside  
701.30 of the state, the board may require the applicant to pay the cost of the inspection, in addition  
701.31 to the license fee in section 151.065, unless the applicant furnishes the board with a report,  
701.32 issued by the appropriate regulatory agency of the state in which the facility is located, of

702.5 license issued under this section, an applicant shall satisfy the board that it:

702.6 (1) has adequate storage conditions and facilities to allow for the safe receipt, storage,  
702.7 handling, and transfer of drugs;

794.16 disorder.

794.17 (c) "Pediatric autoimmune neuropsychiatric disorders associated with streptococcal  
794.18 infections" means a condition in which a streptococcal infection in a child or adolescent  
794.19 causes the abrupt onset of clinically significant obsessions, compulsions, tics, or other  
794.20 neuropsychiatric symptoms or behavioral changes, or a relapsing and remitting course of  
794.21 symptom severity.

794.22 Subd. 2. **Scope of coverage.** This section applies to all health plans that provide coverage  
794.23 to Minnesota residents.

794.24 Subd. 3. **Required coverage.** Every health plan included in subdivision 2 must provide  
794.25 coverage for treatment for pediatric autoimmune neuropsychiatric disorders associated with  
794.26 streptococcal infections (PANDAS) and for treatment for pediatric acute-onset  
794.27 neuropsychiatric syndrome (PANS). Treatments that must be covered under this section  
794.28 must be recommended by the insured's licensed health care professional and include but  
794.29 are not limited to antibiotics, medication and behavioral therapies to manage neuropsychiatric  
794.30 symptoms, plasma exchange, and immunoglobulin.

794.31 Subd. 4. **Reimbursement.** The commissioner of commerce shall reimburse health carriers  
794.32 for coverage under this section. Reimbursement is available only for coverage that would  
794.33 not have been provided by the health carrier without the requirements of this section.

795.1 Reimbursement from the commissioner shall be at the medical assistance rate. Health care  
795.2 providers are prohibited from billing an enrollee for any amount in excess of the medical  
795.3 assistance rate. A provider is permitted to bill an enrollee for the applicable co-payment,  
795.4 deductible, or coinsurance.

795.5 **EFFECTIVE DATE.** This section is effective January 1, 2020, and applies to health  
795.6 plans offered, sold, issued, or renewed on or after that date.

795.7 Sec. 9. Minnesota Statutes 2018, section 62A.65, subdivision 7, is amended to read:

795.8 Subd. 7. **Short-term coverage.** (a) For purposes of this section, "short-term coverage"  
795.9 means an individual health plan that:

795.10 (1) is issued to provide coverage for a period of ~~185~~ 90 days or less, except that the  
795.11 health plan may permit coverage to continue until the end of a period of hospitalization for  
795.12 a condition for which the covered person was hospitalized on the day that coverage would  
795.13 otherwise have ended;

795.14 (2) is nonrenewable, provided that the health carrier may provide coverage for one or  
795.15 more subsequent periods that satisfy clause (1), if the total of the periods of coverage do  
795.16 not exceed a total of ~~365~~ 185 days out of any 555-day period, plus any additional days  
795.17 covered as a result of hospitalization on the day that a period of coverage would otherwise  
795.18 have ended;

795.19 (3) does not cover any preexisting conditions, including ones that originated during a  
795.20 previous identical policy or contract with the same health carrier where coverage was  
795.21 continuous between the previous and the current policy or contract; and

795.22 (4) is available with an immediate effective date without underwriting upon receipt of  
795.23 a completed application indicating eligibility under the health carrier's eligibility  
795.24 requirements, provided that coverage that includes optional benefits may be offered on a  
795.25 basis that does not meet this requirement.

795.26 (b) Short-term coverage is not subject to subdivisions 2 and 5. Short-term coverage may  
795.27 exclude as a preexisting condition any injury, illness, or condition for which the covered  
795.28 person had medical treatment, symptoms, or any manifestations before the effective date  
795.29 of the coverage, but dependent children born or placed for adoption during the policy period  
795.30 must not be subject to this provision.

795.31 (c) Notwithstanding subdivision 3, and section 62A.021, a health carrier may combine  
795.32 short-term coverage with its most commonly sold individual qualified plan, as defined in

796.1 section 62E.02, other than short-term coverage, for purposes of complying with the loss  
796.2 ratio requirement.

796.3 (d) The ~~365-day~~ 185-day coverage limitation provided in paragraph (a) applies to the  
796.4 total number of days of short-term coverage that covers a person, regardless of the number  
796.5 of policies, contracts, or health carriers that provide the coverage. A written application for  
796.6 short-term coverage must ask the applicant whether the applicant has been covered by  
796.7 short-term coverage by any health carrier within the 555 days immediately preceding the  
796.8 effective date of the coverage being applied for. Short-term coverage issued in violation of  
796.9 the ~~365-day~~ 185-day limitation is valid until the end of its term and does not lose its status  
796.10 as short-term coverage, in spite of the violation. A health carrier that knowingly issues  
796.11 short-term coverage in violation of the ~~365-day~~ 185-day limitation is subject to the  
796.12 administrative penalties otherwise available to the commissioner of commerce or the  
796.13 commissioner of health, as appropriate.

796.14 **EFFECTIVE DATE.** This section is effective January 1, 2020, and applies to short-term  
796.15 coverage offered, issued, or renewed on or after that date.

796.16 Sec. 10. **[62C.045] APPLICATION OF OTHER LAWS.**

796.17 Chapter 317B and Laws 2017, First Special Session chapter 6, article 5, section 11, as  
796.18 amended by this act, apply to service plan corporations operating under this chapter.

796.19 Sec. 11. Minnesota Statutes 2018, section 62D.02, subdivision 4, is amended to read:

796.20 Subd. 4. **Health maintenance organization.** "Health maintenance organization" means  
796.21 a ~~foreign or domestic~~ nonprofit corporation organized under chapter 317A, or a local  
796.22 governmental unit as defined in subdivision 11, controlled and operated as provided in  
796.23 sections 62D.01 to 62D.30, which provides, either directly or through arrangements with  
796.24 providers or other persons, comprehensive health maintenance services, or arranges for the  
796.25 provision of these services, to enrollees on the basis of a fixed prepaid sum without regard  
796.26 to the frequency or extent of services furnished to any particular enrollee.

796.27 Sec. 12. Minnesota Statutes 2018, section 62D.03, subdivision 1, is amended to read:

796.28 Subdivision 1. **Certificate of authority required.** Notwithstanding any law of this state  
796.29 to the contrary, any ~~foreign or domestic~~ nonprofit corporation organized to do so or a local  
796.30 governmental unit may apply to the commissioner of health for a certificate of authority to  
796.31 establish and operate a health maintenance organization in compliance with sections 62D.01  
796.32 to 62D.30. No person shall establish or operate a health maintenance organization in this

797.1 state, nor sell or offer to sell, or solicit offers to purchase or receive advance or periodic  
797.2 consideration in conjunction with a health maintenance organization or health maintenance  
797.3 contract unless the organization has a certificate of authority under sections 62D.01 to  
797.4 62D.30.

797.5 Sec. 13. [62D.046] APPLICATION OF OTHER LAW.

797.6 Chapter 317B applies to nonprofit health maintenance organizations operating under  
797.7 this chapter.

797.8 Sec. 14. Minnesota Statutes 2018, section 62D.05, subdivision 1, is amended to read:

797.9 Subdivision 1. **Authority granted.** Any nonprofit corporation or local governmental  
797.10 unit may, upon obtaining a certificate of authority as required in sections 62D.01 to 62D.30,  
797.11 operate as a health maintenance organization.

797.12 Sec. 15. Minnesota Statutes 2018, section 62D.06, subdivision 1, is amended to read:

797.13 Subdivision 1. **Governing body composition; enrollee advisory body.** The governing  
797.14 body of any health maintenance organization which is a nonprofit corporation may include  
797.15 enrollees, providers, or other individuals; provided, however, that after a health maintenance  
797.16 organization which is a nonprofit corporation has been authorized under sections 62D.01  
797.17 to 62D.30 for one year, at least 40 percent of the governing body shall be composed of  
797.18 enrollees and members elected by the enrollees and members from among the enrollees and  
797.19 members. For purposes of this section, "member" means a consumer who receives health  
797.20 care services through a self-insured contract that is administered by the health maintenance  
797.21 organization or its related third-party administrator. The number of members elected to the  
797.22 governing body shall not exceed the number of enrollees elected to the governing body. An  
797.23 enrollee or member elected to the governing board may not be a person:

797.24 (1) whose occupation involves, or before retirement involved, the administration of  
797.25 health activities or the provision of health services;

797.26 (2) who is or was employed by a health care facility as a licensed health professional;  
797.27 or

797.28 (3) who has or had a direct substantial financial or managerial interest in the rendering  
797.29 of a health service, other than the payment of a reasonable expense reimbursement or  
797.30 compensation as a member of the board of a health maintenance organization.

798.1 After a health maintenance organization which is a local governmental unit has been  
798.2 authorized under sections 62D.01 to 62D.30 for one year, an enrollee advisory body shall  
798.3 be established. The enrollees who make up this advisory body shall be elected by the enrollees  
798.4 from among the enrollees.

798.5 Sec. 16. Minnesota Statutes 2018, section 62D.12, is amended by adding a subdivision to  
798.6 read:

798.7 Subd. 8a. **Net earnings.** All net earnings of a nonprofit health maintenance organization  
798.8 must be devoted to the nonprofit purposes of the health maintenance organization in providing  
798.9 comprehensive health care. A nonprofit health maintenance organization must not provide  
798.10 for the payment, whether directly or indirectly, of any part of its net earnings to any person  
798.11 for a purpose other than providing comprehensive health care, except that the health  
798.12 maintenance organization may make payments to providers or other persons based on the  
798.13 efficient provision of services or as incentives to provide quality care. The commissioner  
798.14 of health shall, pursuant to this chapter, revoke the certificate of authority of any nonprofit  
798.15 health maintenance organization in violation of this subdivision.

798.16 **EFFECTIVE DATE.** This section is effective the day following final enactment.

798.17 Sec. 17. Minnesota Statutes 2018, section 62D.124, subdivision 1, is amended to read:

798.18 Subdivision 1. **Emergency care; primary care; mental health services; general**  
798.19 **hospital services.** (a) Within the health maintenance organization's service area, the  
798.20 maximum travel distance or time shall be the lesser of 30 miles or 30 minutes to the nearest  
798.21 provider of each of the following services: primary care services, mental health services,  
798.22 and general hospital services. The health maintenance organization must designate which  
798.23 method is used.

798.24 (b) Emergency care must be available to enrollees 24 hours a day, 7 days a week.  
798.25 Appointment wait times for primary care services must not exceed 45 calendar days from  
798.26 the date of the enrollee's request for routine and preventive care and 48 hours for urgent  
798.27 care. Appointment wait times for mental health services and substance use disorder treatment  
798.28 services must not exceed 15 calendar days from the date of the enrollee's request for routine  
798.29 care and 24 hours for urgent care.

798.30 Sec. 18. Minnesota Statutes 2018, section 62D.124, subdivision 2, is amended to read:

798.31 Subd. 2. **Other health services.** (a) Within a health maintenance organization's service  
798.32 area, the maximum travel distance or time shall be the lesser of 60 miles or 60 minutes to

799.1 the nearest provider of specialty physician services, ancillary services, specialized hospital  
799.2 services, and all other health services not listed in subdivision 1. The health maintenance  
799.3 organization must designate which method is used.

799.4 (b) Appointment wait times for nonurgent specialty care must not exceed 60 calendar  
799.5 days from the date of the enrollee's request.

799.6 (c) Appointment wait time for dental, optometry, laboratory, and x-ray services must  
799.7 not exceed 45 calendar days from the date of the enrollee's request for regular appointments  
799.8 and 48 hours for urgent care. For purposes of this paragraph, regular appointments for dental  
799.9 care means preventive care and initial appointments for restorative care.

799.10 Sec. 19. Minnesota Statutes 2018, section 62D.124, subdivision 3, is amended to read:

799.11 Subd. 3. ~~**Exception Waiver.** The commissioner shall grant an exception to the~~  
799.12 ~~requirements of this section according to Minnesota Rules, part 4685.1010, subpart 4, if the~~  
799.13 ~~health maintenance organization can demonstrate with specific data that the requirement~~  
799.14 ~~of subdivision 1 or 2 is not feasible in a particular service area or part of a service area. (a)~~  
799.15 A health maintenance organization may apply to the commissioner of health for a waiver  
799.16 of the requirements in subdivision 1 or 2 if it is unable to meet those requirements. A waiver  
799.17 application must be submitted on a form provided by the commissioner, must be accompanied  
799.18 by an application fee of \$1,000 per county per year, for each application to waive the  
799.19 requirements in subdivision 1 or 2 for one or more provider types in that county, and must:

799.20 (1) demonstrate with specific data that the requirements of subdivision 1 or 2 are not  
799.21 feasible in a particular service area or part of a service area; and

799.22 (2) include specific information as to the steps that were and will be taken to address  
799.23 network inadequacy, and for steps that will be taken prospectively to address network  
799.24 inadequacy, the time frame within which those steps will be taken.

799.25 (b) Using the guidelines and standards established under section 62K.10, subdivision 5,  
799.26 paragraph (b), the commissioner shall review each waiver request and shall approve a waiver  
799.27 only if:

799.28 (1) the standards for approval established by the commissioner are satisfied; and

799.29 (2) the steps that were and will be taken to address the network inadequacy and the time  
799.30 frame for implementing these steps satisfy the standards established by the commissioner.

799.31 (c) If, in its waiver application, a health maintenance organization demonstrates to the  
799.32 commissioner that there are no providers of a specific type or specialty in a county, the

800.1 commissioner may approve a waiver in which the health maintenance organization is allowed  
800.2 to address network inadequacy in that county by providing for patient access to providers  
800.3 of that type or specialty via telemedicine, as defined in section 62A.671, subdivision 9.

800.4 (d) A waiver shall automatically expire after three years. Upon or prior to expiration of  
800.5 a waiver, a health maintenance organization unable to meet the requirements in subdivision  
800.6 1 or 2 must submit a new waiver application under paragraph (a) and must also submit  
800.7 evidence of steps the organization took to address the network inadequacy. When the  
800.8 commissioner reviews a waiver application for a network adequacy requirement which has  
800.9 been waived for the organization for the most recent three-year period, the commissioner  
800.10 shall also examine the steps the organization took during that three-year period to address  
800.11 network inadequacy, and shall only approve a subsequent waiver application if it satisfies  
800.12 the requirements in paragraph (b), demonstrates that the organization took the steps it  
800.13 proposed to address network inadequacy, and explains why the organization continues to  
800.14 be unable to satisfy the requirements in subdivision 1 or 2.

800.15 (e) Application fees collected under this subdivision shall be deposited in the state  
800.16 government special revenue fund in the state treasury.

800.17 Sec. 20. Minnesota Statutes 2018, section 62D.124, is amended by adding a subdivision  
800.18 to read:

800.19 Subd. 6. **Complaints alleging violation of network adequacy requirements;**  
800.20 **investigation.** Enrollees of a health maintenance organization may file a complaint with  
800.21 the commissioner that the health maintenance organization is not in compliance with the  
800.22 requirements of subdivision 1 or 2, using the process established under section 62K.105,  
800.23 subdivision 1. The commissioner shall investigate all complaints received under this  
800.24 subdivision and may use the program established under section 62K.105, subdivision 2, to  
800.25 investigate complaints.

800.26 Sec. 21. Minnesota Statutes 2018, section 62D.124, is amended by adding a subdivision  
800.27 to read:

800.28 Subd. 7. **Provider network notifications.** A health maintenance organization must  
800.29 provide on the organization's website the provider network for each product offered by the  
800.30 organization, and must update the organization's website at least once a month with any  
800.31 changes to the organization's provider network, including provider changes from in-network  
800.32 status to out-of-network status. A health maintenance organization must also provide on  
800.33 the organization's website, for each product offered by the organization, a list of the current

801.1 waivers of the requirements in subdivision 1 or 2, in a format that is easily accessed and  
801.2 searchable by enrollees and prospective enrollees.

801.3 Sec. 22. Minnesota Statutes 2018, section 62D.17, subdivision 1, is amended to read:

801.4 Subdivision 1. **Administrative penalty.** The commissioner of health may, for any  
801.5 violation of statute or rule applicable to a health maintenance organization, or in lieu of  
801.6 suspension or revocation of a certificate of authority under section 62D.15, levy an  
801.7 administrative penalty in an amount up to \$25,000 for each violation. In the case of contracts  
801.8 or agreements made pursuant to section 62D.05, subdivisions 2 to 4, each contract or  
801.9 agreement entered into or implemented in a manner which violates sections 62D.01 to  
801.10 62D.30 shall be considered a separate violation. The commissioner shall impose an  
801.11 administrative penalty of at least \$100 per day that a provider network in a county violates  
801.12 section 62D.124, subdivision 1 or 2, and may take other enforcement action authorized in  
801.13 law but shall not also impose an administrative penalty under section 62K.105, subdivision  
801.14 3, for a violation. In determining the level of an administrative penalty, the commissioner  
801.15 shall consider the following factors:

- 801.16 (1) the number of enrollees affected by the violation;
- 801.17 (2) the effect of the violation on enrollees' health and access to health services;
- 801.18 (3) if only one enrollee is affected, the effect of the violation on that enrollee's health;
- 801.19 (4) whether the violation is an isolated incident or part of a pattern of violations; and
- 801.20 (5) the economic benefits derived by the health maintenance organization or a  
801.21 participating provider by virtue of the violation.

801.22 Reasonable notice in writing to the health maintenance organization shall be given of  
801.23 the intent to levy the penalty and the reasons therefor, and the health maintenance  
801.24 organization may have 15 days within which to file a written request for an administrative  
801.25 hearing and review of the commissioner of health's determination. Such administrative  
801.26 hearing shall be subject to judicial review pursuant to chapter 14. If an administrative penalty  
801.27 is levied, the commissioner must divide 50 percent of the amount among any enrollees  
801.28 affected by the violation, unless the commissioner certifies in writing that the division and  
801.29 distribution to enrollees would be too administratively complex or that the number of  
801.30 enrollees affected by the penalty would result in a distribution of less than \$50 per enrollee.

802.1 Sec. 23. Minnesota Statutes 2018, section 62D.19, is amended to read:

802.2 **62D.19 UNREASONABLE EXPENSES.**

802.3 No health maintenance organization shall incur or pay for any expense of any nature  
802.4 which is unreasonably high in relation to the value of the service or goods provided. The  
802.5 commissioner of health shall implement and enforce this section by rules adopted under  
802.6 this section.

802.7 In an effort to achieve the stated purposes of sections 62D.01 to 62D.30, in order to  
802.8 safeguard the underlying nonprofit status of nonprofit health maintenance organizations,  
802.9 and to ensure that the payment of health maintenance organization money to major  
802.10 participating entities results in a corresponding benefit to the health maintenance organization  
802.11 and its enrollees, when determining whether an organization has incurred an unreasonable  
802.12 expense in relation to a major participating entity, due consideration shall be given to, in  
802.13 addition to any other appropriate factors, whether the officers and trustees of the health  
802.14 maintenance organization have acted with good faith and in the best interests of the health  
802.15 maintenance organization in entering into, and performing under, a contract under which  
802.16 the health maintenance organization has incurred an expense. The commissioner has standing  
802.17 to sue, on behalf of a health maintenance organization, officers or trustees of the health  
802.18 maintenance organization who have breached their fiduciary duty in entering into and  
802.19 performing such contracts.

802.20 Sec. 24. Minnesota Statutes 2018, section 62D.30, subdivision 8, is amended to read:

802.21 Subd. 8. **Rural demonstration project.** (a) The commissioner may permit demonstration  
802.22 projects to allow health maintenance organizations to extend coverage to a health  
802.23 improvement and purchasing coalition located in rural Minnesota, comprised of the health  
802.24 maintenance organization and members from a geographic area. For purposes of this  
802.25 subdivision, rural is defined as greater Minnesota excluding the seven-county metropolitan  
802.26 area of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington. The coalition  
802.27 must be designed in such a way that members will:

802.28 (1) become better informed about health care trends and cost increases;

802.29 (2) be actively engaged in the design of health benefit options that will meet the needs  
802.30 of their community;

802.31 (3) pool their insurance risk;

802.32 (4) purchase these products from the health maintenance organization involved in the  
802.33 demonstration project; and

803.1 (5) actively participate in health improvement decisions for their community.

803.2 (b) The commissioner must consider the following when approving applications for  
803.3 rural demonstration projects:

803.4 (1) the extent of consumer involvement in development of the project;

803.5 (2) the degree to which the project is likely to reduce the number of uninsured or to  
803.6 maintain existing coverage; and

803.7 (3) a plan to evaluate and report to the commissioner and legislature as prescribed by  
803.8 paragraph (e).

803.9 (c) For purposes of this subdivision, the commissioner must waive compliance with the  
803.10 following statutes and rules: the cost-sharing restrictions under section 62D.095, subdivisions  
803.11 2, 3, and 4, and Minnesota Rules, part 4685.0801, subparts 1 to 7; for a period of at least  
803.12 two years, participation in government programs under section 62D.04, subdivision 5, in  
803.13 the counties of the demonstration project if that compliance would have been required solely  
803.14 due to participation in the demonstration project and shall continue to waive this requirement  
803.15 beyond two years if the enrollment in the demonstration project is less than 10,000 enrollees;  
803.16 small employer marketing under section 62L.05, subdivisions 1 to 3; and small employer  
803.17 geographic premium variations under section 62L.08, subdivision 4. The commissioner  
803.18 shall approve enrollee cost-sharing features desired by the coalition that appropriately share  
803.19 costs between employers, individuals, and the health maintenance organization.

803.20 (d) The health maintenance organization may make the starting date of the project  
803.21 contingent upon a minimum number of enrollees as cited in the application, provide for an  
803.22 initial term of contract with the purchasers of a minimum of three years, and impose a  
803.23 reasonable penalty for employers who withdraw early from the project. For purposes of this  
803.24 subdivision, loss ratios are to be determined as if the policies issued under this section are  
803.25 considered individual or small employer policies pursuant to section 62A.021, subdivision  
803.26 ~~1, paragraph (f) 1a.~~ The health maintenance organization may consider businesses of one  
803.27 to be a small employer under section 62L.02, subdivision 26. The health maintenance  
803.28 organization may limit enrollment and establish enrollment criteria for businesses of one.  
803.29 Health improvement and purchasing coalitions under this subdivision are not associations  
803.30 under section 62L.045, subdivision 1, paragraph (a).

803.31 (e) The health improvement and purchasing coalition must report to the commissioner  
803.32 and legislature annually on the progress of the demonstration project and, to the extent  
803.33 possible, any significant findings in the criteria listed in clauses (1), (2), and (3) for the final  
803.34 report. The coalition must submit a final report five years from the starting date of the

804.1 project. The final report must detail significant findings from the project and must include,  
804.2 to the extent available, but should not be limited to, information on the following:

804.3 (1) the extent to which the project had an impact on the number of uninsured in the  
804.4 project area;

804.5 (2) the effect on health coverage premiums for groups in the project's geographic area,  
804.6 including those purchasing health coverage outside the health improvement and purchasing  
804.7 coalition; and

804.8 (3) the degree to which health care consumers were involved in the development and  
804.9 implementation of the demonstration project.

804.10 (f) The commissioner must limit the number of demonstration projects under this  
804.11 subdivision to five projects.

804.12 (g) Approval of the application for the demonstration project is deemed to be in  
804.13 compliance with section 62E.06, subdivisions 1, paragraph (a), 2, and 3.

804.14 (h) Subdivisions 2 to 7 apply to demonstration projects under this subdivision. Waivers  
804.15 permitted under subdivision 1 do not apply to demonstration projects under this subdivision.

804.16 (i) If a demonstration project under this subdivision works in conjunction with a  
804.17 purchasing alliance formed under chapter 62T, that chapter will apply to the purchasing  
804.18 alliance except to the extent that chapter 62T is inconsistent with this subdivision.

804.19 Sec. 25. Minnesota Statutes 2018, section 62E.02, subdivision 3, is amended to read:

804.22 Sec. 26. Minnesota Statutes 2018, section 62E.23, subdivision 4, is amended to read:

804.23 Subd. 4. **Calculation of reinsurance payments.** (a) Each reinsurance payment must be  
804.24 calculated with respect to an eligible health carrier's incurred claims costs for an individual  
804.25 enrollee's covered benefits in the applicable benefit year. If the claims costs do not exceed  
804.26 the attachment point, the reinsurance payment is \$0. If the claims costs exceed the attachment  
804.27 point, the reinsurance payment shall be calculated as the product of the coinsurance rate  
804.28 and the lesser of:

804.29 (1) the claims costs minus the attachment point; or

804.30 (2) the reinsurance cap minus the attachment point.

805.1 (b) The board must ensure that reinsurance payments made to eligible health carriers do  
805.2 not exceed the total amount paid by the eligible health carrier for any eligible claim. "Total  
805.3 amount paid of an eligible claim" means the amount paid by the eligible health carrier based  
805.4 upon the allowed amount less any deductible, coinsurance, or co-payment, as of the time  
805.5 the data are submitted or made accessible under subdivision 5, paragraph (c).

805.6 (c) In calculating claims costs incurred for an individual enrollee's covered benefits for  
805.7 a benefit year and eligible to be reimbursed by the commissioner of commerce, an eligible

805.9 PANDAS or PANS under section 62A.25, subdivision 2; 62A.28, subdivision 2; 62A.3096;

805.15 (a) A health carrier must provide on the carrier's website the provider network for each  
805.16 product offered by the carrier, and must update the carrier's website at least once a month  
805.17 with any changes to the carrier's provider network, including provider changes from  
805.18 in-network status to out-of-network status. A health carrier must also provide on the carrier's  
805.19 website, for each product offered by the carrier, a list of the current waivers of the  
805.20 requirements in section 62K.10, subdivision 2 or 3, in a format that is easily accessed and  
805.21 searchable by enrollees and prospective enrollees.

805.22 (b) Upon notification from an enrollee, a health carrier must reprocess any claim for  
805.23 services provided by a provider whose status has changed from in-network to out-of-network  
805.24 as an in-network claim if the service was provided after the network change went into effect  
805.25 but before the change was posted as required under paragraph (a) unless the health carrier  
805.26 notified the enrollee of the network change prior to the service being provided. This paragraph  
805.27 does not apply if the health carrier is able to verify that the health carrier's website displayed  
805.28 the correct provider network status on the health carrier's website at the time the service  
805.29 was provided.

805.30 (c) The limitations of section 62Q.56, subdivision 2a, shall apply to payments required  
805.31 by paragraph (b).

806.7 provider network must comply with the access standards for appointment wait times specified  
806.8 in section 62D.124, subdivision 1, paragraph (b), for primary care services, mental health  
806.9 services, and substance use disorder treatment services.

806.10 Sec. 29. Minnesota Statutes 2018, section 62K.10, subdivision 3, is amended to read:

806.11 Subd. 3. **Other health services.** (a) The maximum travel distance or time shall be the

806.14 subdivision 2.

806.15 (b) A provider network must comply with the access standards for appointment wait  
806.16 times specified in section 62D.124, subdivision 2, paragraph (b), for nonurgent specialty  
806.17 care.

806.18 (c) A provider network must comply with the access standards for appointment wait  
806.19 times specified in section 62D.124, subdivision 2, paragraph (c), for dental, optometry,

806.21 Sec. 30. Minnesota Statutes 2018, section 62K.10, subdivision 4, is amended to read:

806.22 Subd. 4. **Network adequacy.** Each designated provider network must include a sufficient  
806.23 number and type of providers, including providers that specialize in mental health and  
806.24 substance use disorder services, to ensure that covered services are available to all enrollees  
806.25 without unreasonable delay. In determining network adequacy, the commissioner of health  
806.26 shall ensure that a provider network is sufficient to satisfy the access standards for emergency  
806.27 care and appointment wait times in subdivisions 2 and 3 and shall also consider availability  
806.28 of services, including the following:

806.29 (1) primary care physician services are available and accessible 24 hours per day, seven  
806.30 days per week, within the network area;

807.1 (2) a sufficient number of primary care physicians have hospital admitting privileges at  
807.2 one or more participating hospitals within the network area so that necessary admissions  
807.3 are made on a timely basis consistent with generally accepted practice parameters;

807.4 (3) specialty physician service is available through the network or contract arrangement;

807.5 (4) mental health and substance use disorder treatment providers are available and  
807.6 accessible through the network or contract arrangement;

807.7 (5) to the extent that primary care services are provided through primary care providers  
807.8 other than physicians, and to the extent permitted under applicable scope of practice in state  
807.9 law for a given provider, these services shall be available and accessible; and

807.10 (6) the network has available, either directly or through arrangements, appropriate and  
807.11 sufficient personnel, physical resources, and equipment to meet the projected needs of  
807.12 enrollees for covered health care services.

807.13 Sec. 31. Minnesota Statutes 2018, section 62K.10, subdivision 5, is amended to read:

807.14 Subd. 5. **Waiver.** (a) A health carrier or preferred provider organization may apply to  
807.15 the commissioner of health for a waiver of the requirements in subdivision 2 or 3 if it is  
807.16 unable to meet the statutory requirements. A waiver application must be submitted on a  
807.17 form provided by the commissioner, must be accompanied by an application fee of \$1,000  
807.18 for each application to waive the requirements in subdivision 2 or 3 for one or more provider  
807.19 types per county, and must:

807.20 (1) demonstrate with specific data that the requirement of subdivision 2 or 3 is not  
807.21 feasible in a particular service area or part of a service area; and

807.22 (2) include specific information as to the steps that were and will be taken to address  
807.23 the network inadequacy, and for steps that will be taken prospectively to address network  
807.24 inadequacy, the time frame within which those steps will be taken.

807.25 (b) The commissioner shall establish guidelines for evaluating waiver applications,  
807.26 standards governing approval or denial of a waiver application, and standards for steps that  
807.27 health carriers must take to address the network inadequacy and allow the health carrier to  
807.28 meet network adequacy requirements within a reasonable time period. The commissioner  
807.29 shall review each waiver application using these guidelines and standards and shall approve  
807.30 a waiver application only if:

807.31 (1) the standards for approval established by the commissioner are satisfied; and

808.1 (2) the steps that were and will be taken to address the network inadequacy and the time  
808.2 frame for taking these steps satisfy the standards established by the commissioner.

808.3 (c) If, in its waiver application, a health carrier demonstrates to the commissioner that  
808.4 there are no providers of a specific type or specialty in a county, the commissioner may  
808.5 approve a waiver in which the health carrier is allowed to address network inadequacy in  
808.6 that county by providing for patient access to providers of that type or specialty via  
808.7 telemedicine, as defined in section 62A.671, subdivision 9.

808.8 (d) The waiver shall automatically expire after four years. If a renewal of the waiver is  
808.9 sought, the commissioner of health shall take into consideration steps that have been taken  
808.10 to address network adequacy. one year. Upon or prior to expiration of a waiver, a health  
808.11 carrier unable to meet the requirements in subdivision 2 or 3 must submit a new waiver  
808.12 application under paragraph (a) and must also submit evidence of steps the carrier took to  
808.13 address the network inadequacy. When the commissioner reviews a waiver application for  
808.14 a network adequacy requirement which has been waived for the carrier for the most recent  
808.15 one-year period, the commissioner shall also examine the steps the carrier took during that  
808.16 one-year period to address network inadequacy, and shall only approve a subsequent waiver  
808.17 application that satisfies the requirements in paragraph (b), demonstrates that the carrier  
808.18 took the steps it proposed to address network inadequacy, and explains why the carrier  
808.19 continues to be unable to satisfy the requirements in subdivision 2 or 3.

808.20 (e) Application fees collected under this subdivision shall be deposited in the state  
808.21 government special revenue fund in the state treasury.

808.22 **Sec. 32. [62K.105] NETWORK ADEQUACY COMPLAINTS AND**  
808.23 **INVESTIGATIONS.**

808.24 Subdivision 1. **Complaints.** The commissioner shall establish a clear, easily accessible  
808.25 process for accepting complaints from enrollees regarding health carrier compliance with  
808.26 section 62K.10, subdivision 2, 3, or 4. Using this process, an enrollee may file a complaint  
808.27 with the commissioner that a health carrier is not in compliance with the requirements of  
808.28 section 62K.10, subdivision 2, 3, or 4. The commissioner shall investigate all complaints  
808.29 received under this subdivision.

808.30 Subd. 2. **Commissioner investigations of provider networks.** The commissioner shall  
808.31 establish a program to examine health carrier compliance with the requirements in section  
808.32 62K.10, subdivisions 2, 3, and 4. Under this program, department employees or contractors  
808.33 shall seek to make appointments with a range of provider types in a carrier's designated  
808.34 provider network to determine whether covered services are available to enrollees within

809.1 the required appointment times, and shall examine whether the carrier's network complies  
809.2 with the maximum distance or travel time requirements for specific provider types. The  
809.3 commissioner shall develop a schedule to ensure that all health carriers are periodically  
809.4 examined under this program, and shall also use this program to investigate enrollee  
809.5 complaints filed under subdivision 1.

809.6 Subd. 3. **Administrative penalties.** The commissioner shall impose on a health carrier  
809.7 an administrative penalty of at least \$100 per day that a provider network violates section  
809.8 62K.10, subdivision 2, 3, or 4, in a county. The commissioner may also take other  
809.9 enforcement actions authorized in law for a violation, except that if the commissioner  
809.10 imposes an administrative penalty under this subdivision, the commissioner shall not also  
809.11 impose an administrative penalty under section 62D.17, subdivision 1. The commissioner  
809.12 shall use the factors in section 62D.17, subdivision 1, to determine the amount of the  
809.13 administrative penalty, and the procedures in section 62D.17, subdivision 1, apply to  
809.14 administrative penalties imposed under this subdivision.

809.15 Sec. 33. Minnesota Statutes 2018, section 62Q.01, is amended by adding a subdivision to

809.18 limitations" or "NQTLs" means processes, strategies, or evidentiary standards, or other  
809.19 factors that are not expressed numerically, but otherwise limit the scope or duration of  
809.20 benefits for treatment. NQTLs include but are not limited to:

809.22 necessity or medical appropriateness, or (ii) whether the treatment is experimental or  
809.23 investigative;

809.24 (2) formulary design for prescription drugs;

809.25 (3) health plans with multiple network tiers;

809.26 (4) criteria and parameters for provider inclusion in provider networks, including  
809.27 credentialing standards and reimbursement rates;

809.28 (5) health plan methods for determining usual, customary, and reasonable charges;

809.29 (6) fail-first or step therapy protocols;

809.30 (7) exclusions based on failure to complete a course of treatment;

810.1 (8) restrictions based on geographic location, facility type, provider specialty, and other  
810.2 criteria that limit the scope or duration of benefits for services provided under the health  
810.3 plan;

810.4 (9) in- and out-of-network geographic limitations;

810.5 (10) standards for providing access to out-of-network providers;

810.6 (11) limitations on inpatient services for situations where the enrollee is a threat to self  
810.7 or others;

810.8 (12) exclusions for court-ordered and involuntary holds;

810.9 (13) experimental treatment limitations;

810.10 (14) service coding;

810.28 must not limit or exclude coverage for a drug approved by the United States Food and Drug  
810.29 Administration that is on the health plan's prescription drug formulary by mandating that  
810.30 an enrollee with stage four advanced metastatic cancer or associated conditions follow a  
810.31 step therapy protocol if the use of the approved drug is consistent with:

812.1 (f) The commissioner, in consultation with advocates, providers, and health plan  
812.2 companies, may require information from health plan companies to confirm that mental  
812.3 health parity is being implemented. Information required may include comparisons between  
812.4 mental health and substance use disorder treatment against other health care conditions for  
812.5 other issues, including wait times, prior authorizations, provider credentialing and  
812.6 reimbursement, drug formularies, use of out-of-network providers, out-of-pocket costs,

812.11 the provider's scope of practice and the health plan's credentialing and contracting provisions,  
812.12 mental health therapy visits and medication maintenance visits are considered primary care  
812.13 visits for the purposes of applying any patient cost-sharing requirements imposed by the

814.20 determined by the attending provider.

814.21 (g) "Religious employer" means an organization that is organized and operates as a

816.16 or a subset of contraceptive methods or services.

816.17 (b) The notice from an eligible organization to a health plan company under paragraph  
816.18 (a) must include the name of the eligible organization, a statement that it objects to coverage  
816.19 for some or all of contraceptive methods or services, including a list of the contraceptive

817.26 (b) The prescribing health care provider must determine the appropriate number of  
817.27 months to prescribe the prescription contraceptives for, up to 12 months.

817.28 **EFFECTIVE DATE.** This section is effective January 1, 2021, and applies to coverage  
817.29 offered, sold, issued, or renewed on or after that date.

820.15 restrictive than the requirements or limitations that apply to emergency services received  
820.16 from providers who have a contractual relationship with the health plan. If services are

821.2 quality of life.

821.3 Subd. 5. **Exception.** This section does not apply to a dental plan ~~described in section~~

821.8 specifically used to enhance fertility, if prescribed by a licensed practitioner and dispensed  
821.9 by a licensed pharmacist, by a physician enrolled in the medical assistance program as a  
821.10 dispensing physician, or by a physician, physician assistant, or a nurse practitioner employed  
821.11 by or under contract with a community health board as defined in section 145A.02,  
821.12 subdivision 5, for the purposes of communicable disease control.

821.13 (b) The dispensed quantity of a prescription drug must not exceed a 34-day supply,  
821.14 unless authorized by the commissioner or as provided in paragraph (g).

821.15 (c) For the purpose of this subdivision and subdivision 13d, an "active pharmaceutical  
821.16 ingredient" is defined as a substance that is represented for use in a drug and when used in

821.20 excipients which are included in the medical assistance formulary. Medical assistance covers  
821.21 selected active pharmaceutical ingredients and excipients used in compounded prescriptions  
821.22 when the compounded combination is specifically approved by the commissioner or when  
821.23 a commercially available product:

821.24 (1) is not a therapeutic option for the patient;

821.25 (2) does not exist in the same combination of active ingredients in the same strengths  
821.26 as the compounded prescription; and

821.27 (3) cannot be used in place of the active pharmaceutical ingredient in the compounded  
821.28 prescription.

822.3 cost-effective for the treatment of certain specified chronic diseases, conditions, or disorders,  
822.4 and this determination shall not be subject to the requirements of chapter 14. A pharmacist  
822.5 may prescribe over-the-counter medications as provided under this paragraph for purposes  
822.6 of receiving reimbursement under Medicaid. When prescribing over-the-counter drugs under  
822.7 this paragraph, licensed pharmacists must consult with the recipient to determine necessity,  
822.8 provide drug counseling, review drug therapy for potential adverse interactions, and make  
822.9 referrals as needed to other health care professionals. Over-the-counter medications must  
822.10 be dispensed in a quantity that is the lowest of: (1) the number of dosage units contained in  
822.11 the manufacturer's original package; (2) the number of dosage units required to complete  
822.12 the patient's course of therapy; or (3) if applicable, the number of dosage units dispensed  
822.13 from a system using retrospective billing, as provided under subdivision 13e, paragraph  
822.14 (b).

822.21 Code, title 42, section 1396r-8(d)(2), subject to this subdivision and subdivisions 13a to  
822.22 13g, except that drugs listed in United States Code, title 42, section 1396r-8(d)(2)(E), shall  
822.23 not be covered.

822.24 (f) Medical assistance covers drugs acquired through the federal 340B Drug Pricing  
822.25 Program and dispensed by 340B covered entities and ambulatory pharmacies under common  
822.26 ownership of the 340B covered entity. Medical assistance does not cover drugs acquired  
822.27 through the federal 340B Drug Pricing Program and dispensed by 340B contract pharmacies.

822.28 (g) Medical assistance coverage for a prescription contraceptive must provide a 12-month  
822.29 supply for any prescription contraceptive, regardless of whether the enrollee was covered  
822.30 by medical assistance or the health plan at the time of the first dispensing. The prescribing  
822.31 health care provider must determine the appropriate number of months to prescribe the  
822.32 prescription contraceptives for, up to 12 months.

822.33 For purposes of this paragraph, "prescription contraceptive" means any drug or device that  
822.34 requires a prescription and is approved by the Food and Drug Administration to prevent

823.2 paragraph, "health plan" has the meaning provided in section 62Q.01, subdivision 3.

823.3 **EFFECTIVE DATE.** This section applies to medical assistance and MinnesotaCare  
823.4 coverage effective January 1, 2021.

823.5 Sec. 40. Minnesota Statutes 2018, section 256B.0625, subdivision 13f, is amended to read:

823.6 Subd. 13f. **Prior authorization.** (a) The Formulary Committee shall review and  
823.7 recommend drugs which require prior authorization. The Formulary Committee shall  
823.8 establish general criteria to be used for the prior authorization of brand-name drugs for  
823.9 which generically equivalent drugs are available, but the committee is not required to review  
823.10 each brand-name drug for which a generically equivalent drug is available.

823.11 (b) Prior authorization may be required by the commissioner before certain formulary  
823.12 drugs are eligible for payment. The Formulary Committee may recommend drugs for prior  
823.13 authorization directly to the commissioner. The commissioner may also request that the  
823.14 Formulary Committee review a drug for prior authorization. Before the commissioner may  
823.15 require prior authorization for a drug:

823.16 (1) the commissioner must provide information to the Formulary Committee on the  
823.17 impact that placing the drug on prior authorization may have on the quality of patient care  
823.18 and on program costs, information regarding whether the drug is subject to clinical abuse  
823.19 or misuse, and relevant data from the state Medicaid program if such data is available;

823.20 (2) the Formulary Committee must review the drug, taking into account medical and  
823.21 clinical data and the information provided by the commissioner; and

823.22 (3) the Formulary Committee must hold a public forum and receive public comment for  
823.23 an additional 15 days.

823.24 The commissioner must provide a 15-day notice period before implementing the prior  
823.25 authorization.

823.26 (c) Except as provided in subdivision 13j, prior authorization shall not be required or  
823.27 utilized for any atypical antipsychotic drug prescribed for the treatment of mental illness  
823.28 if:

823.29 (1) there is no generically equivalent drug available; and

823.30 (2) the drug was initially prescribed for the recipient prior to July 1, 2003; or

823.31 (3) the drug is part of the recipient's current course of treatment.

824.1 This paragraph applies to any multistate preferred drug list or supplemental drug rebate  
824.2 program established or administered by the commissioner. Prior authorization shall  
824.3 automatically be granted for 60 days for brand name drugs prescribed for treatment of mental  
824.4 illness within 60 days of when a generically equivalent drug becomes available, provided  
824.5 that the brand name drug was part of the recipient's course of treatment at the time the  
824.6 generically equivalent drug became available.

824.7 (d) Prior authorization shall not be required or utilized for any antihemophilic factor  
824.8 drug prescribed for the treatment of hemophilia and blood disorders where there is no  
824.9 generically equivalent drug available if the prior authorization is used in conjunction with  
824.10 any supplemental drug rebate program or multistate preferred drug list established or  
824.11 administered by the commissioner.

824.12 (e) The commissioner may require prior authorization for brand name drugs whenever  
824.13 a generically equivalent product is available, even if the prescriber specifically indicates  
824.14 "dispense as written-brand necessary" on the prescription as required by section 151.21,  
824.15 subdivision 2.

824.16 (f) Notwithstanding this subdivision, the commissioner may automatically require prior

830.9 the public benefit for which the assets are held by the nonprofit health care entity;
- 830.10 (6) the proposed transaction will result in a breach of fiduciary duty, as determined by  
830.11 the attorney general, including whether:

830.13 directors, or key employees of the nonprofit health care entity or a related organization;

830.18 alternatives, including any competing offers for its public benefit assets, or alternative  
830.19 transactions;
- 830.20 (7) the transaction will result in financial benefit to a person, including owners, directors,  
830.21 officers, or key employees of the nonprofit health care entity or of the entity to which the  
830.22 nonprofit health care entity proposes to transfer public benefit assets;

830.25 information by the nonprofit health care entity to adequately evaluate the proposed transaction  
830.26 and its effects on the public and enrollees, provided the attorney general or commissioner  
830.27 has notified the nonprofit health care entity or the proposed conversion benefit entity if the  
830.28 information provided is insufficient and has provided the nonprofit health care entity or  
830.29 proposed conversion benefit entity with a reasonable opportunity to remedy that insufficiency.
- 830.30 (b) In addition to the elements in paragraph (a), the attorney general shall also consider  
830.31 public comments received under subdivision 5 regarding the proposed conversion transaction

831.1 and the proposed transaction's likely effect on the availability, accessibility, and affordability  
831.2 of health care services to the public.

831.3 (c) In deciding whether to approve, conditionally approve, or disapprove a transaction,  
831.4 the attorney general must consult with the commissioner.

831.10 (i) the directors, officers, or key employees of the conversion benefit entity;

831.14 care entity transfers public benefit assets in connection with a conversion transaction;

831.15 (3) operate to benefit the health of the people of this state; and

831.16 (4) have in place procedures and policies that prohibit:

831.17 (i) an officer, director, or key employee of the nonprofit health care entity from serving  
831.18 as an officer, director, or key employee of the conversion benefit entity for the five-year  
831.19 period following the conversion transaction;

831.20 (ii) an officer, director, or key employee of the nonprofit health care entity or of the  
831.21 conversion benefit entity from directly or indirectly benefiting from the conversion  
831.22 transaction; and

831.23 (iii) elected or appointed public officials from serving as an officer, director, or key  
831.24 employee of the conversion benefit entity.

831.25 (b) A conversion benefit entity shall not make grants or payments or otherwise provide  
831.26 financial benefit to an entity to which a nonprofit health care entity transfers public benefit  
831.27 assets as part of a conversion transaction, or to a related organization of the entity to which  
831.28 the nonprofit health care entity transfers public benefit assets as part of a conversion  
831.29 transaction.

832.1 (c) No person who has been an officer, director, or key employee of an entity that has  
832.2 received public benefit assets in connection with a conversion transaction may serve as an  
832.3 officer, director, or key employee of the conversion benefit entity.

832.4 (d) The attorney general must review and approve the governance structure of a  
832.5 conversion benefit entity before the conversion benefit entity receives the value of public  
832.6 benefit assets from a nonprofit health care entity. In order to be approved by the attorney  
832.7 general under this paragraph, the conversion benefit entity's governance must be broadly  
832.8 based in the community served by the nonprofit health care entity and must be independent  
832.9 of the entity to which the nonprofit health care entity transfers public benefit assets as part  
832.10 of the conversion transaction. As part of the review of the conversion benefit entity's  
832.11 governance, the attorney general shall hold a public hearing. If the attorney general finds  
832.12 it necessary, a portion of the value of the public benefit assets shall be used to develop a  
832.13 community-based plan for use by the conversion benefit entity.

832.14 (e) The attorney general shall establish a community advisory committee for a conversion  
832.15 benefit entity receiving the value of public benefit assets. The members of the community  
832.16 advisory committee must be selected to represent the diversity of the community previously  
832.17 served by the nonprofit health care entity. The community advisory committee shall:

832.18 (1) provide a slate of three nominees for each vacancy on the governing board of the  
832.19 conversion benefit entity, from which the remaining board members shall select new members  
832.20 to the board;

832.21 (2) provide the governing board with guidance on the health needs of the community  
832.22 previously served by the nonprofit health care entity; and

832.23 (3) promote dialogue and information sharing between the conversion benefit entity and  
832.24 the community previously served by the nonprofit health care entity.

832.25 **Subd. 5. Hearing; public comment; maintenance of record.** (a) Before issuing a  
832.26 decision under subdivision 6, the attorney general shall hold one or more hearings and solicit  
832.27 public comments regarding the proposed conversion transaction. No later than 45 days after  
832.28 the attorney general receives notice of a proposed conversion transaction, the attorney  
832.29 general shall hold at least one public hearing in the area served by the nonprofit health care  
832.30 entity, and shall hold as many hearings as necessary in various parts of the state to ensure  
832.31 that each community in the nonprofit health care entity's service area has an opportunity to  
832.32 provide comments on the conversion transaction. Any person may appear and speak at the  
832.33 hearing, file written comments, or file exhibits for the hearing. At least 14 days before the  
832.34 hearing, the attorney general shall provide written notice of the hearing through posting on

833.1 the attorney general's website, publication in one or more newspapers of general circulation,  
833.2 and notice by means of a public listserv or through other means to all persons who request  
833.3 notice from the attorney general of such hearings. A public hearing is not required if the  
833.4 waiting period under subdivision 6 is waived or is shorter than 45 days in duration. The  
833.5 attorney general may also solicit public comments through other means.

833.6 (b) The attorney general shall develop and maintain a summary of written and oral public  
833.7 comments made at a hearing and otherwise received by the attorney general, shall record  
833.8 all questions posed during the public hearing or received by the attorney general, and shall  
833.9 require answers from the appropriate parties. The summary materials, questions, and answers  
833.10 shall be maintained on the attorney general's website, and the attorney general must provide  
833.11 a copy of these materials at no cost to any person who requests them.

833.12 Subd. 6. **Approval required; period for approval or disapproval; extension.** (a)  
833.13 Notwithstanding the time periods in section 15.99 or 317A.811, a nonprofit health care  
833.14 entity shall not enter into a conversion transaction until:

833.15 (1) 150 days after the entity has given written notice to the attorney general, unless the  
833.16 attorney general waives all or a part of the waiting period. The attorney general shall establish  
833.17 guidelines for when the attorney general may waive all or part of the waiting period, and  
833.18 must provide public notice if the attorney general waives all or part of the waiting period;  
833.19 and

833.20 (2) the nonprofit health care entity obtains approval of the transaction from the attorney  
833.21 general, or obtains conditional approval from the attorney general and satisfies the required  
833.22 conditions.

833.23 (b) During the waiting period, the attorney general shall decide whether to approve,  
833.24 conditionally approve, or disapprove the conversion transaction and shall notify the nonprofit  
833.25 health care entity in writing of the attorney general's decision. If the transaction is  
833.26 disapproved, the notice must include the reasons for the decision. If the transaction is  
833.27 conditionally approved, the notice must specify the conditions that must be met and the  
833.28 reasons for these conditions. The attorney general may extend the waiting period for an  
833.29 additional 90 days by notifying the nonprofit health care entity of the extension in writing.

833.30 (c) The time periods under this subdivision shall be suspended while a request from the  
833.31 attorney general for additional information is outstanding.

833.32 Subd. 7. **Transfer of value of assets required.** If a proposed conversion transaction is  
833.33 approved or conditionally approved by the attorney general, the nonprofit health care entity

834.1 shall transfer the entirety of the full and fair value of its public benefit assets to one or more  
834.2 conversion benefit entities as part of the transaction.

834.3 Subd. 8. **Assessment of costs.** (a) The nonprofit health care entity must reimburse the  
834.4 attorney general or a state agency for all reasonable and actual costs incurred by the attorney  
834.5 general or the state agency in reviewing the proposed conversion transaction and in exercising  
834.6 enforcement remedies under this section. Costs incurred may include attorney fees at the  
834.7 rate at which the attorney general bills state agencies; costs for retaining actuarial, valuation,  
834.8 or other experts and consultants; and administrative costs. In order to receive reimbursement  
834.9 under this subdivision, the attorney general or state agency must provide the nonprofit health  
834.10 care entity with a statement of costs incurred.

834.11 (b) The nonprofit health care entity must remit the total amount listed on the statement  
834.12 to the attorney general or state agency within 30 days after the statement date, unless the  
834.13 entity disputes some or all of the submitted costs. The nonprofit health care entity may  
834.14 dispute the submitted costs by bringing an action in district court to have the court determine  
834.15 the amount of the reasonable and actual costs that must be remitted.

847.6 (b) Residents have the right to respect and privacy regarding the resident's health care  
847.7 and personal care program. Case discussion, consultation, examination, and treatment are  
847.8 confidential and must be conducted discreetly. Privacy must be respected during toileting,

849.10 against a resident or employee if the resident, employee, or any person acting on behalf of  
849.11 the resident:

850.27 Subd. 4. **Rebuttable presumption of retaliation.** (a) Except as provided in paragraphs  
850.28 (b), (c), and (d), there is a rebuttable presumption that any action described in subdivision  
850.29 2 or 3 and taken within 90 days of an initial action described in subdivision 1 is retaliatory.

851.1 (b) The presumption does not apply to actions described in subdivision 2, clause (4), if

851.16 Sec. 7. **[144J.04] DECEPTIVE MARKETING AND BUSINESS PRACTICES**  
851.17 **PROHIBITED.**

851.18 (a) No employee or agent of any facility may make any false, fraudulent, deceptive, or

851.20 or any other description or representation of care or services.

851.21 (b) No assisted living contract may include any provision that the facility knows or  
851.22 should know to be deceptive, unlawful, or unenforceable under state or federal law, nor

851.24 is required by law.

851.25 (c) No facility may advertise or represent that it is licensed as an assisted living facility  
851.26 with dementia care without complying with disclosure requirements under section 325F.72

852.8 section.

852.9 (e) "Electronic monitoring device" means a camera or other device that captures, records,  
852.10 or broadcasts audio, video, or both, that is placed in a resident's room or private living unit  
852.11 and is used to monitor the resident or activities in the room or private living unit.

852.12 (f) "Facility" means a facility that is:

852.13 (1) licensed as a nursing home under chapter 144A;

852.19 (g) "Resident" means a person 18 years of age or older residing in a facility.

852.20 (h) "Resident representative" means one of the following in the order of priority listed,

852.26 with the resident's executed housing with services contract or nursing home contract.

852.27 **Subd. 2. Electronic monitoring authorized.** (a) A resident or a resident representative  
852.28 may conduct electronic monitoring of the resident's room or private living unit through the  
852.29 use of electronic monitoring devices placed in the resident's room or private living unit as  
852.30 provided in this section.

853.1 (b) Nothing in this section precludes the use of electronic monitoring of health care  
853.2 allowed under other law.

853.3 (c) Electronic monitoring authorized under this section is not a covered service under  
853.4 home and community-based waivers under sections 256B.0913, 256B.0915, 256B.092, and  
853.5 256B.49.

853.8 Subd. 3. **Consent to electronic monitoring.** (a) Except as otherwise provided in this  
853.9 subdivision, a resident must consent to electronic monitoring in the resident's room or private  
853.10 living unit in writing on a notification and consent form. If the resident has not affirmatively  
853.11 objected to electronic monitoring and the resident's medical professional determines that  
853.12 the resident currently lacks the ability to understand and appreciate the nature and  
853.13 consequences of electronic monitoring, the resident representative may consent on behalf  
853.14 of the resident. For purposes of this subdivision, a resident affirmatively objects when the  
853.15 resident orally, visually, or through the use of auxiliary aids or services declines electronic  
853.16 monitoring. The resident's response must be documented on the notification and consent  
853.17 form.

853.18 (b) Prior to a resident representative consenting on behalf of a resident, the resident must  
853.19 be asked if the resident wants electronic monitoring to be conducted. The resident  
853.20 representative must explain to the resident:

853.21 (1) the type of electronic monitoring device to be used;

853.22 (2) the standard conditions that may be placed on the electronic monitoring device's use,  
853.23 including those listed in subdivision 6;

853.24 (3) with whom the recording may be shared under subdivision 10 or 11; and

853.25 (4) the resident's ability to decline all recording.

853.26 (c) A resident, or resident representative when consenting on behalf of the resident, may  
853.27 consent to electronic monitoring with any conditions of the resident's or resident  
853.28 representative's choosing, including the list of standard conditions provided in subdivision  
853.29 6. A resident, or resident representative when consenting on behalf of the resident, may  
853.30 request that the electronic monitoring device be turned off or the visual or audio recording  
853.31 component of the electronic monitoring device be blocked at any time.

853.32 (d) Prior to implementing electronic monitoring, a resident, or resident representative  
853.33 when acting on behalf of the resident, must obtain the written consent on the notification

854.1 and consent form of any other resident residing in the shared room or shared private living  
854.2 unit. A roommate's or roommate's resident representative's written consent must comply  
854.3 with the requirements of paragraphs (a) to (c). Consent by a roommate or a roommate's  
854.4 resident representative under this paragraph authorizes the resident's use of any recording  
854.5 obtained under this section, as provided under subdivision 10 or 11.

854.6 (e) Any resident conducting electronic monitoring must immediately remove or disable  
854.7 an electronic monitoring device prior to a new roommate moving into a shared room or  
854.8 shared private living unit, unless the resident obtains the roommate's or roommate's resident  
854.9 representative's written consent as provided under paragraph (d) prior to the roommate  
854.10 moving into the shared room or shared private living unit. Upon obtaining the new  
854.11 roommate's signed notification and consent form and submitting the form to the facility as  
854.12 required under subdivision 5, the resident may resume electronic monitoring.

854.13 (f) The resident or roommate, or the resident representative or roommate's resident  
854.14 representative if the representative is consenting on behalf of the resident or roommate, may  
854.15 withdraw consent at any time and the withdrawal of consent must be documented on the  
854.16 original consent form as provided under subdivision 5, paragraph (d).

854.17 Subd. 4. **Refusal of roommate to consent.** If a resident of a facility who is residing in  
854.18 a shared room or shared living unit, or the resident representative of such a resident when  
854.19 acting on behalf of the resident, wants to conduct electronic monitoring and another resident  
854.20 living in or moving into the same shared room or shared living unit refuses to consent to  
854.21 the use of an electronic monitoring device, the facility shall make a reasonable attempt to  
854.22 accommodate the resident who wants to conduct electronic monitoring. A facility has met  
854.23 the requirement to make a reasonable attempt to accommodate a resident or resident  
854.24 representative who wants to conduct electronic monitoring when, upon notification that a  
854.25 roommate has not consented to the use of an electronic monitoring device in the resident's  
854.26 room, the facility offers to move the resident to another shared room or shared living unit  
854.27 that is available at the time of the request. If a resident chooses to reside in a private room  
854.28 or private living unit in a facility in order to accommodate the use of an electronic monitoring  
854.29 device, the resident must pay either the private room rate in a nursing home setting, or the  
854.30 applicable rent in a housing with services establishment or assisted living facility. If a facility  
854.31 is unable to accommodate a resident due to lack of space, the facility must reevaluate the  
854.32 request every two weeks until the request is fulfilled. A facility is not required to provide  
854.33 a private room, a single-bed room, or a private living unit to a resident who is unable to  
854.34 pay.

855.1 Subd. 5. Notice to facility; exceptions. (a) Electronic monitoring may begin only after  
855.2 the resident or resident representative who intends to place an electronic monitoring device  
855.3 and any roommate or roommate's resident representative completes the notification and  
855.4 consent form and submits the form to the facility.

855.5 (b) Notwithstanding paragraph (a), the resident or resident representative who intends  
855.6 to place an electronic monitoring device may do so without submitting a notification and  
855.7 consent form to the facility for up to 30 days:

855.8 (1) if the resident or the resident representative reasonably fears retaliation against the  
855.9 resident by the facility, timely submits the completed notification and consent form to the  
855.10 Office of Ombudsman for Long-Term Care, and timely submits a Minnesota Adult Abuse  
855.11 Reporting Center report or police report, or both, upon evidence from the electronic  
855.12 monitoring device that suspected maltreatment has occurred;

855.13 (2) if there has not been a timely written response from the facility to a written  
855.14 communication from the resident or resident representative expressing a concern prompting  
855.15 the desire for placement of an electronic monitoring device and if the resident or a resident  
855.16 representative timely submits a completed notification and consent form to the Office of  
855.17 Ombudsman for Long-Term Care; or

855.18 (3) if the resident or resident representative has already submitted a Minnesota Adult  
855.19 Abuse Reporting Center report or police report regarding the resident's concerns prompting  
855.20 the desire for placement and if the resident or a resident representative timely submits a  
855.21 completed notification and consent form to the Office of Ombudsman for Long-Term Care.

855.22 (c) Upon receipt of any completed notification and consent form, the facility must place  
855.23 the original form in the resident's file or file the original form with the resident's housing  
855.24 with services contract. The facility must provide a copy to the resident and the resident's  
855.25 roommate, if applicable.

855.26 (d) In the event that a resident or roommate, or the resident representative or roommate's  
855.27 resident representative if the representative is consenting on behalf of the resident or  
855.28 roommate, chooses to alter the conditions under which consent to electronic monitoring is  
855.29 given or chooses to withdraw consent to electronic monitoring, the facility must make  
855.30 available the original notification and consent form so that it may be updated. Upon receipt  
855.31 of the updated form, the facility must place the updated form in the resident's file or file the  
855.32 original form with the resident's signed housing with services contract. The facility must  
855.33 provide a copy of the updated form to the resident and the resident's roommate, if applicable.

856.1 (e) If a new roommate, or the new roommate's resident representative when consenting  
856.2 on behalf of the new roommate, does not submit to the facility a completed notification and  
856.3 consent form and the resident conducting the electronic monitoring does not remove or  
856.4 disable the electronic monitoring device, the facility must remove the electronic monitoring  
856.5 device.

856.6 (f) If a roommate, or the roommate's resident representative when withdrawing consent  
856.7 on behalf of the roommate, submits an updated notification and consent form withdrawing  
856.8 consent and the resident conducting electronic monitoring does not remove or disable the  
856.9 electronic monitoring device, the facility must remove the electronic monitoring device.

856.10 **Subd. 6. Form requirements.** (a) The notification and consent form completed by the  
856.11 resident must include, at a minimum, the following information:

856.12 (1) the resident's signed consent to electronic monitoring or the signature of the resident  
856.13 representative, if applicable. If a person other than the resident signs the consent form, the  
856.14 form must document the following:

856.15 (i) the date the resident was asked if the resident wants electronic monitoring to be  
856.16 conducted;

856.17 (ii) who was present when the resident was asked;

856.18 (iii) an acknowledgment that the resident did not affirmatively object; and

856.19 (iv) the source of authority allowing the resident representative to sign the notification  
856.20 and consent form on the resident's behalf;

856.21 (2) the resident's roommate's signed consent or the signature of the roommate's resident  
856.22 representative, if applicable. If a roommate's resident representative signs the consent form,  
856.23 the form must document the following:

856.24 (i) the date the roommate was asked if the roommate wants electronic monitoring to be  
856.25 conducted;

856.26 (ii) who was present when the roommate was asked;

856.27 (iii) an acknowledgment that the roommate did not affirmatively object; and

856.28 (iv) the source of authority allowing the resident representative to sign the notification  
856.29 and consent form on the roommate's behalf;

856.30 (3) the type of electronic monitoring device to be used;

- 857.1 (4) a list of standard conditions or restrictions that the resident or a roommate may elect  
857.2 to place on the use of the electronic monitoring device, including but not limited to:
- 857.3 (i) prohibiting audio recording;
- 857.4 (ii) prohibiting video recording;
- 857.5 (iii) prohibiting broadcasting of audio or video;
- 857.6 (iv) turning off the electronic monitoring device or blocking the visual recording  
857.7 component of the electronic monitoring device for the duration of an exam or procedure by  
857.8 a health care professional;
- 857.9 (v) turning off the electronic monitoring device or blocking the visual recording  
857.10 component of the electronic monitoring device while dressing or bathing is performed; and
- 857.11 (vi) turning off the electronic monitoring device for the duration of a visit with a spiritual  
857.12 adviser, ombudsman, attorney, financial planner, intimate partner, or other visitor;
- 857.13 (5) any other condition or restriction elected by the resident or roommate on the use of  
857.14 an electronic monitoring device;
- 857.15 (6) a statement of the circumstances under which a recording may be disseminated under  
857.16 subdivision 10;
- 857.17 (7) a signature box for documenting that the resident or roommate has withdrawn consent;  
857.18 and
- 857.19 (8) an acknowledgment that the resident, in accordance with subdivision 3, consents to  
857.20 the Office of Ombudsman for Long-Term Care and its representatives disclosing information  
857.21 about the form. Disclosure under this clause shall be limited to:
- 857.22 (i) the fact that the form was received from the resident or resident representative;
- 857.23 (ii) if signed by a resident representative, the name of the resident representative and  
857.24 the source of authority allowing the resident representative to sign the notification and  
857.25 consent form on the resident's behalf; and
- 857.26 (iii) the type of electronic monitoring device placed.
- 857.27 (b) Facilities must make the notification and consent form available to the residents and  
857.28 inform residents of their option to conduct electronic monitoring of their rooms or private  
857.29 living unit.
- 857.30 (c) Notification and consent forms received by the Office of Ombudsman for Long-Term  
857.31 Care are classified under section 256.9744.

858.1 Subd. 7. **Costs and installation.** (a) A resident or resident representative choosing to  
858.2 conduct electronic monitoring must do so at the resident's own expense, including paying  
858.3 purchase, installation, maintenance, and removal costs.

858.4 (b) If a resident chooses to place an electronic monitoring device that uses Internet  
858.5 technology for visual or audio monitoring, the resident may be responsible for contracting  
858.6 with an Internet service provider.

858.7 (c) The facility shall make a reasonable attempt to accommodate the resident's installation  
858.8 needs, including allowing access to the facility's public-use Internet or Wi-Fi systems when  
858.9 available for other public uses. A facility has the burden of proving that a requested  
858.10 accommodation is not reasonable.

858.11 (d) All electronic monitoring device installations and supporting services must be  
858.12 UL-listed.

858.13 Subd. 8. **Notice to visitors.** (a) A facility must post a sign at each facility entrance  
858.14 accessible to visitors that states: "Electronic monitoring devices, including security cameras  
858.15 and audio devices, may be present to record persons and activities."

858.16 (b) The facility is responsible for installing and maintaining the signage required in this  
858.17 subdivision.

858.18 Subd. 9. **Obstruction of electronic monitoring devices.** (a) A person must not knowingly  
858.19 hamper, obstruct, tamper with, or destroy an electronic monitoring device placed in a  
858.20 resident's room or private living unit without the permission of the resident or resident  
858.21 representative.

858.22 (b) It is not a violation of paragraph (a) if a person turns off the electronic monitoring  
858.23 device or blocks the visual recording component of the electronic monitoring device at the  
858.24 direction of the resident or resident representative, or if consent has been withdrawn.

858.25 Subd. 10. **Dissemination of recordings.** (a) No person may access any video or audio  
858.26 recording created through authorized electronic monitoring without the written consent of  
858.27 the resident or resident representative.

858.28 (b) Except as required under other law, a recording or copy of a recording made as  
858.29 provided in this section may only be disseminated for the purpose of addressing health,  
858.30 safety, or welfare concerns of one or more residents.

858.31 (c) A person disseminating a recording or copy of a recording made as provided in this  
858.32 section in violation of paragraph (b) may be civilly or criminally liable.

859.1 Subd. 11. **Admissibility of evidence.** Subject to applicable rules of evidence and  
859.2 procedure, any video or audio recording created through electronic monitoring under this  
859.3 section may be admitted into evidence in a civil, criminal, or administrative proceeding.

859.4 Subd. 12. **Liability.** (a) For the purposes of state law, the mere presence of an electronic  
859.5 monitoring device in a resident's room or private living unit is not a violation of the resident's  
859.6 right to privacy under section 144.651 or 144A.44.

859.7 (b) For the purposes of state law, a facility or home care provider is not civilly or  
859.8 criminally liable for the mere disclosure by a resident or a resident representative of a  
859.9 recording.

859.10 Subd. 13. **Immunity from liability.** The Office of Ombudsman for Long-Term Care  
859.11 and representatives of the office are immune from liability for conduct described in section  
859.12 256.9742, subdivision 2.

859.13 Subd. 14. **Resident protections.** (a) A facility must not:

859.14 (1) refuse to admit a potential resident or remove a resident because the facility disagrees  
859.15 with the decision of the potential resident, the resident, or a resident representative acting  
859.16 on behalf of the resident regarding electronic monitoring;

859.17 (2) retaliate or discriminate against any resident for consenting or refusing to consent  
859.18 to electronic monitoring, as provided in section 144.6512, 144G.07, or 144J.03; or

859.19 (3) prevent the placement or use of an electronic monitoring device by a resident who  
859.20 has provided the facility or the Office of Ombudsman for Long-Term Care with notice and  
859.21 consent as required under this section.

859.22 (b) Any contractual provision prohibiting, limiting, or otherwise modifying the rights  
859.23 and obligations in this section is contrary to public policy and is void and unenforceable.

859.24 Subd. 15. **Employee discipline.** (a) An employee of the facility or an employee of a  
859.25 contractor providing services at the facility who is the subject of proposed corrective or  
859.26 disciplinary action based upon evidence obtained by electronic monitoring must be given  
859.27 access to that evidence for purposes of defending against the proposed action.

859.28 (b) An employee who obtains a recording or a copy of the recording must treat the  
859.29 recording or copy confidentially and must not further disseminate it to any other person  
859.30 except as required under law. Any copy of the recording must be returned to the facility or  
859.31 resident who provided the copy when it is no longer needed for purposes of defending  
859.32 against a proposed action.

860.1 Subd. 16. **Penalties.** (a) The commissioner may issue a correction order as provided  
860.2 under section 144A.10, 144A.45, or 144A.474, upon a finding that the facility has failed to  
860.3 comply with:

860.4 (1) subdivision 5, paragraphs (c) to (f);

860.5 (2) subdivision 6, paragraph (b);

860.6 (3) subdivision 7, paragraph (c); and

860.7 (4) subdivisions 8 to 10 and 14.

860.8 (b) The commissioner may exercise the commissioner's authority under section 144D.05  
860.9 to compel a housing with services establishment to meet the requirements of this section.

860.10 **EFFECTIVE DATE.** This section is effective August 1, 2019, and applies to all contracts  
860.11 in effect, entered into, or renewed on or after that date.

860.12 **Sec. 9. [144J.06] NO DISCRIMINATION BASED ON SOURCE OF PAYMENT.**

860.13 All facilities must, regardless of the source of payment and for all persons seeking to  
860.14 reside or residing in the facility:

860.15 (1) provide equal access to quality care; and

860.16 (2) establish, maintain, and implement identical policies and practices regarding residency,  
860.17 transfer, and provision and termination of services.

860.18 **EFFECTIVE DATE.** This section is effective August 1, 2021.

860.19 **Sec. 10. [144J.07] CONSUMER ADVOCACY AND LEGAL SERVICES.**

860.20 Upon execution of an assisted living contract, every facility must provide the resident  
860.21 and the resident's legal and designated representatives with the names and contact  
860.22 information, including telephone numbers and e-mail addresses, of:

860.23 (1) nonprofit organizations that provide advocacy or legal services to residents including  
860.24 but not limited to the designated protection and advocacy organization in Minnesota that  
860.25 provides advice and representation to individuals with disabilities; and

860.26 (2) the Office of Ombudsman for Long-Term Care, including both the state and regional  
860.27 contact information.

860.28 **EFFECTIVE DATE.** This section is effective August 1, 2021.

861.1 Sec. 11. **[144J.08] INVOLUNTARY DISCHARGES AND SERVICE**

861.2 **TERMINATIONS.**

861.3 Subdivision 1. **Definitions.** (a) For the purposes of this section and sections 144J.09 and  
861.4 144J.10, the following terms have the meanings given them.

861.5 (b) "Facility" means:

861.6 (1) a housing with services establishment registered under section 144D.02 and operating  
861.7 under title protection provided under chapter 144G; or

861.8 (2) on or after August 1, 2021, an assisted living facility.

861.9 (c) "Refusal to readmit" means a refusal by an assisted living facility, upon a request  
861.10 from a resident or an agent of the resident, to allow the resident to return to the facility,  
861.11 whether or not a notice of termination of housing or services has been issued.

861.12 (d) "Termination of housing or services" or "termination" means an involuntary  
861.13 facility-initiated discharge, eviction, transfer, or service termination not initiated at the oral  
861.14 or written request of the resident or to which the resident objects.

861.15 Subd. 2. **Prerequisite to termination of housing or services.** Before issuing a notice  
861.16 of termination, a facility must explain in person and in detail the reasons for the termination,  
861.17 and must convene a conference with the resident, the resident's legal representatives, the  
861.18 resident's designated representative, the resident's family, applicable state and social services  
861.19 agencies, and relevant health professionals to identify and offer reasonable accommodations  
861.20 and modifications, interventions, or alternatives to avoid the termination.

861.21 Subd. 3. **Permissible reasons to terminate housing or services.** (a) A facility is  
861.22 prohibited from terminating housing or services for grounds other than those specified in  
861.23 paragraphs (b) and (c). A facility initiating a termination under paragraph (b) or (c) must  
861.24 comply with subdivision 2.

861.25 (b) A facility may not initiate a termination unless the termination is necessary and the  
861.26 facility produces a written determination, supported by documentation, of the necessity of  
861.27 the termination. A termination is necessary only if:

861.28 (1) the resident has engaged in documented conduct that substantially interferes with  
861.29 the rights, health, or safety of other residents;

861.30 (2) the resident has committed any of the acts enumerated under section 504B.171 that  
861.31 substantially interfere with the rights, health, or safety of other residents; or

862.1 (3) the facility can demonstrate that the resident's needs exceed the scope of services for  
862.2 which the resident contracted or which are included in the resident's service plan.

862.3 (c) A facility may initiate a termination for nonpayment, provided the facility:

862.4 (1) makes reasonable efforts to accommodate temporary financial hardship;

862.5 (2) informs the resident of private subsidies and public benefits options that may be  
862.6 available, including but not limited to benefits available under sections 256B.0915 and  
862.7 256B.49; and

862.8 (3) if the resident applies for public benefits, timely responds to state or county agency  
862.9 questions regarding the application.

862.10 (d) A facility may not initiate a termination of housing or services to a resident receiving  
862.11 public benefits in the event of a temporary interruption in benefits. A temporary interruption  
862.12 of benefits does not constitute nonpayment.

862.13 Subd. 4. **Notice of termination required.** (a) A facility initiating a termination of housing  
862.14 or services must issue a written notice that complies with subdivision 5 at least 30 days  
862.15 prior to the effective date of the termination to the resident, to the resident's legal  
862.16 representative and designated representative, or if none, to a family member if known, and  
862.17 to the Ombudsman for Long-Term Care.

862.18 (b) A facility may relocate a resident with less than 30 days' notice only in the event of  
862.19 emergencies, as provided in subdivision 6.

862.20 (c) The notice requirements in paragraph (a) do not apply if the facility's license is  
862.21 restricted by the commissioner or the facility ceases operations. In the event of a license  
862.22 restriction or cessation of operations, the facility must follow the commissioner's directions  
862.23 for resident relocations contained in section 144J.10.

862.24 Subd. 5. **Content of notice.** The notice required under subdivision 4 must contain, at a  
862.25 minimum:

862.26 (1) the effective date of the termination;

862.27 (2) a detailed explanation of the basis for the termination, including, but not limited to,  
862.28 clinical or other supporting rationale;

862.29 (3) contact information for, and a statement that the resident has the right to appeal the  
862.30 termination to, the Office of Administrative Hearings;

862.31 (4) contact information for the Ombudsman for Long-Term Care;

863.1 (5) the name and contact information of a person employed by the facility with whom  
863.2 the resident may discuss the notice of termination of housing or services;

863.3 (6) if the termination is for services, a statement that the notice of termination of services  
863.4 does not constitute a termination of housing or an eviction from the resident's home, and  
863.5 that the resident has the right to remain in the facility if the resident can secure necessary  
863.6 services from another provider of the resident's choosing; and

863.7 (7) if the resident must relocate:

863.8 (i) a statement that the facility must actively participate in a coordinated transfer of the  
863.9 resident's care to a safe and appropriate service provider; and

863.10 (ii) the name of and contact information for the new location or provider, or a statement  
863.11 that the location or provider must be identified prior to the effective date of the termination.

863.12 Subd. 6. **Exception for emergencies.** (a) A facility may relocate a resident from a facility  
863.13 with less than 30 days' notice if relocation is required:

863.14 (1) due to a resident's urgent medical needs and is ordered by a licensed health care  
863.15 professional; or

863.16 (2) because of an imminent risk to the health or safety of another resident or a staff  
863.17 member of the facility.

863.18 (b) A facility relocating a resident under this subdivision must:

863.19 (1) remove the resident to an appropriate location. A private home where the occupant  
863.20 is unwilling or unable to care for the resident, a homeless shelter, a hotel, or a motel is not  
863.21 an appropriate location; and

863.22 (2) provide notice of the contact information for and location to which the resident has  
863.23 been relocated, contact information for any new service provider and for the Ombudsman  
863.24 for Long-Term Care, the reason for the relocation, a statement that, if the resident is refused  
863.25 readmission to the facility, the resident has the right to appeal any refusal to readmit to the  
863.26 Office of Administrative Hearings, and, if ascertainable, the approximate date or range of  
863.27 dates when the resident is expected to return to the facility or a statement that such date is  
863.28 not currently ascertainable, to:

863.29 (i) the resident, the resident's legal representative and designated representative, or if  
863.30 none, a family member if known immediately upon relocation of the resident; and

863.31 (ii) the Office of Ombudsman for Long-Term Care as soon as practicable if the resident  
863.32 has been relocated from the facility for more than 48 hours.

864.1 (c) The resident has the right to return to the facility if the conditions under paragraph  
864.2 (a) no longer exist.

864.3 (d) If the facility determines that the resident cannot return to the facility or the facility  
864.4 cannot provide the necessary services to the resident upon return, the facility must as soon  
864.5 as practicable but in no event later than 24 hours after the refusal or determination, comply  
864.6 with subdivision 4, and section 144J.10.

864.7 **EFFECTIVE DATE.** (a) This section is effective August 1, 2019, and expires July 31,  
864.8 2021, for housing with services establishments registered under section 144D.02 and  
864.9 operating under title protection provided by and subject to chapter 144G.

864.10 (b) This section is effective for assisted living facilities August 1, 2021.

864.11 Sec. 12. **[144J.09] APPEAL OF TERMINATION OF HOUSING OR SERVICES.**

864.12 Subdivision 1. **Right to appeal termination of housing or services.** A resident, the  
864.13 resident's legal representative or designated representative, or a family member, has the  
864.14 right to appeal a termination of housing or services or a facility's refusal to readmit the  
864.15 resident after an emergency relocation and to request a contested case hearing with the  
864.16 Office of Administrative Hearings.

864.17 Subd. 2. **Appeals process.** (a) An appeal and request for a contested case hearing must  
864.18 be filed in writing or electronically as authorized by the chief administrative law judge.

864.19 (b) The Office of Administrative Hearings must conduct an expedited hearing as soon  
864.20 as practicable, and in any event no later than 14 calendar days after the office receives the  
864.21 request and within three business days in the event of an appeal of a refusal to readmit. The  
864.22 hearing must be held at the facility where the resident lives, unless it is impractical or the  
864.23 parties agree to a different place. The hearing is not a formal evidentiary hearing. The hearing  
864.24 may also be attended by telephone as allowed by the administrative law judge, after  
864.25 considering how a telephonic hearing will affect the resident's ability to participate. The  
864.26 hearing shall be limited to the amount of time necessary for the participants to expeditiously  
864.27 present the facts about the proposed termination or refusal to readmit. The administrative  
864.28 law judge shall issue a recommendation to the commissioner as soon as practicable, and in  
864.29 any event no later than ten calendar days after the hearing or within two calendar days after  
864.30 the hearing in the case of a refusal to readmit.

864.31 (c) The facility bears the burden of proof to establish by a preponderance of the evidence  
864.32 that the termination of housing or services or the refusal to readmit is permissible under law  
864.33 and does not constitute retaliation under section 144G.07 or 144J.03.

865.1 (d) Appeals from final determinations issued by the Office of Administrative Hearings

866.2 **PLANNING.**

866.3 **Subdivision 1. Duties of the facility.** If a facility terminates housing or services, if a  
866.4 facility intends to cease operations, or if a facility's license is restricted by the commissioner  
866.5 requiring termination of housing or services to residents, the facility:

866.6 (1) in the event of a termination of housing, has an affirmative duty to ensure a  
866.7 coordinated and orderly transfer of the resident to a safe location that is appropriate for the  
866.8 resident. The facility must identify that location prior to any appeal hearing;

866.9 (2) in the event of a termination of services, has an affirmative duty to ensure a  
866.10 coordinated and orderly transfer of the resident to an appropriate service provider, if services  
866.11 are still needed and desired by the resident. The facility must identify the provider prior to  
866.12 any appeal hearing; and

866.13 (3) must consult and cooperate with the resident; the resident's legal representatives,  
866.14 designated representative, and family members; any interested professionals, including case  
866.15 managers; and applicable agencies to consider the resident's goals and make arrangements  
866.16 to relocate the resident.

866.17 **Subd. 2. Safe location.** A safe location is not a private home where the occupant is  
866.18 unwilling or unable to care for the resident, a homeless shelter, a hotel, or a motel. A facility  
866.19 may not terminate a resident's housing or services if the resident will, as a result of the  
866.20 termination, become homeless, as that term is defined in section 116L.361, subdivision 5,

866.22 not been identified.

866.23 **Subd. 3. Written relocation plan required.** The facility must prepare a written relocation  
866.24 plan for a resident being relocated. The plan must:

866.25 (1) contain all the necessary steps to be taken to reduce transfer trauma; and

866.26 (2) specify the measures needed until relocation that protect the resident and meet the  
866.27 resident's health and safety needs.

866.28 **Subd. 4. No relocation without receiving setting accepting.** A facility may not relocate  
866.29 the resident unless the place to which the resident will be relocated indicates acceptance of  
866.30 the resident.

866.31 **Subd. 5. No termination of services without another provider.** If a resident continues  
866.32 to need and desire the services provided by the facility, the facility may not terminate services  
866.33 unless another service provider has indicated that it will provide those services.

867.1 Subd. 6. **Information that must be conveyed.** If a resident is relocated to another facility  
867.2 or to a nursing home, or if care is transferred to another provider, the facility must timely  
867.3 convey to that facility, nursing home, or provider:

867.4 (1) the resident's full name, date of birth, and insurance information;

867.5 (2) the name, telephone number, and address of the resident's designated representatives  
867.6 and legal representatives, if any;

867.7 (3) the resident's current documented diagnoses that are relevant to the services being  
867.8 provided;

867.9 (4) the resident's known allergies that are relevant to the services being provided;

867.10 (5) the name and telephone number of the resident's physician, if known, and the current  
867.11 physician orders that are relevant to the services being provided;

867.12 (6) all medication administration records that are relevant to the services being provided;

867.13 (7) the most recent resident assessment, if relevant to the services being provided; and

867.14 (8) copies of health care directives, "do not resuscitate" orders, and any guardianship  
867.15 orders or powers of attorney.

867.16 Subd. 7. **Final accounting; return of money and property.** (a) Within 30 days of the  
867.17 effective date of the termination of housing or services, the facility must:

867.19 representative a final statement of account;

867.20 (2) provide any refunds due;

867.21 (3) return any money, property, or valuables held in trust or custody by the facility; and

867.22 (4) as required under section 504B.178, refund the resident's security deposit unless it  
867.23 is applied to the first month's charges.

867.25 2021, for housing with services establishments registered under section 144D.02 and  
867.26 operating under title protection provided by and subject to chapter 144G.

868.3 writing in an assisted living contract, any arbitration provision in the contract that precludes,  
868.4 limits, or delays the ability of a resident from taking a civil action.

868.5 (b) A forced arbitration requirement must not include a choice of law or choice of venue  
868.6 provision. Assisted living contracts must adhere to Minnesota law and any other applicable  
868.7 federal or local law. Any civil actions by any litigant must be taken in Minnesota judicial  
868.8 or administrative courts.

868.9 (c) A forced arbitration provision must not be unconscionable. All or the portion of a  
868.10 forced arbitration provision found by a court to be unconscionable shall have no effect on  
868.11 the remaining provisions, terms, or conditions of the contract.

868.12 **EFFECTIVE DATE.** This section is effective August 1, 2019, for contracts entered  
868.13 into on or after that date.

891.4 writing and must list and describe the reasons why the provisional licensee disagrees with  
891.5 the decision to deny the facility license or the decision to extend the provisional license  
891.6 with conditions.

895.1 (b) As used in this section, "control" means the possession, directly or indirectly, of the  
895.2 power to direct the management, operation, and policies of the licensee or facility, whether

895.12 renews a license, a controlling individual or managerial official is required to complete a  
895.13 background study under section 144.057. No person may be involved in the management,  
895.14 operation, or control of a facility if the person has been disqualified under chapter 245C.  
895.15 For the purposes of this section, managerial officials subject to the background check  
895.16 requirement are individuals who provide direct contact.

895.17 (b) The commissioner shall not issue a license if the controlling individual or managerial

895.20 (c) Employees, contractors, and volunteers of the facility are subject to the background  
895.21 study required by section 144.057 and may be disqualified under chapter 245C. Nothing in

895.23 criminal conviction information.

895.24 Subd. 2. **Reconsideration.** If an individual is disqualified under section 144.057 or  
895.25 chapter 245C, the individual may request reconsideration of the disqualification. If the

895.27 disqualification, the individual is eligible to be involved in the management, operation, or  
895.28 control of the facility. If an individual has a disqualification under section 245C.15,  
895.29 subdivision 1, and the disqualification is affirmed, the individual's disqualification is barred

896.2 on information or records obtained under this section regarding a confirmed conviction does  
896.3 not subject the assisted living facility to civil liability or liability for unemployment benefits.

901.5 (b) All assisted living facilities shall engage their residents and families or designated  
901.6 representatives in the operation of their community and document the methods and results  
901.7 of this engagement.

901.8 Subd. 6. **Resident grievances.** All facilities must post in a conspicuous place information  
901.9 about the facilities' grievance procedure, and the name, telephone number, and e-mail contact  
901.10 information for the individuals who are responsible for handling resident grievances. The

901.26 Subd. 8. **Protection-related rights.** (a) In addition to the rights required in the assisted  
901.27 living bill of rights under section 144J.02, the following rights must be provided to all  
901.28 residents. The facility must promote and protect these rights for each resident by making  
901.29 residents aware of these rights and ensuring staff are trained to support these rights:

902.6 (6) the right to engage in chosen activities;

902.7 (7) the right to engage in community life;

902.8 (8) the right to control personal resources; and

902.9 (9) the right to individual autonomy, initiative, and independence in making life choices  
902.10 including a daily schedule and with whom to interact.

902.11 (b) The resident's rights in paragraph (a), clauses (2), (3), and (5), may be restricted for  
902.12 an individual resident only if determined necessary for health and safety reasons identified  
902.13 by the facility through an initial assessment or reassessment under section 144I.15,  
902.14 subdivision 9, and documented in the written service plan under section 144I.15, subdivision  
902.15 10. Any restrictions of those rights for people served under sections 256B.0915 and 256B.49  
902.16 must be documented by the case manager in the resident's coordinated service and support  
902.17 plan (CSSP), as defined in sections 256B.0915, subdivision 6, and 256B.49, subdivision  
902.18 15.

902.19 Subd. 9. **Payment for services under disability waivers.** For new facilities, home and  
902.20 community-based services under section 256B.49 are not available when the new facility  
902.21 setting is adjoined to, or on the same property as, an institution as defined in Code of Federal  
902.22 Regulations, title 42, section 441.301(c).

902.23 Subd. 10. **No discrimination based on source of payment.** All facilities must, regardless  
902.24 of the source of payment and for all persons seeking to reside or residing in the facility:

902.25 (1) provide equal access to quality care; and

902.26 (2) establish, maintain, and implement identical policies and practices regarding residency,  
902.27 transfer, and provision and termination of services.

902.28 **EFFECTIVE DATE.** This section is effective August 1, 2021.

903.1 Sec. 12. [144I.11] FACILITY RESPONSIBILITIES; HOUSING AND  
903.2 SERVICE-RELATED MATTERS.

903.3 Subdivision 1. Responsibility for housing and services. The facility is directly  
903.4 responsible to the resident for all housing and service-related matters provided, irrespective  
903.5 of a management contract. Housing and service-related matters include but are not limited  
903.6 to the handling of complaints, the provision of notices, and the initiation of any adverse  
903.7 action against the resident involving housing or services provided by the facility.

903.8 Subd. 2. Uniform checklist disclosure of services. (a) On and after August 1, 2021, a  
903.9 facility must provide to prospective residents, the prospective resident's designated  
903.10 representative, and any other person or persons the resident chooses:

903.11 (1) a written checklist listing all services permitted under the facility's license, identifying  
903.12 all services the facility offers to provide under the assisted living facility contract, and  
903.13 identifying all services allowed under the license that the facility does not provide; and

903.14 (2) an oral explanation of the services offered under the contract.

903.15 (b) The requirements of paragraph (a) must be completed prior to the execution of the  
903.16 resident contract.

903.17 (c) The commissioner must, in consultation with all interested stakeholders, design the  
903.18 uniform checklist disclosure form for use as provided under paragraph (a).

903.19 Subd. 3. Reservation of rights. Nothing in this chapter:

903.20 (1) requires a resident to utilize any service provided by or through, or made available  
903.21 in, a facility;

903.22 (2) prevents a facility from requiring, as a condition of the contract, that the resident pay  
903.23 for a package of services even if the resident does not choose to use all or some of the  
903.24 services in the package. For residents who are eligible for home and community-based  
903.25 waiver services under sections 256B.0915 and 256B.49, payment for services will follow  
903.26 the policies of those programs;

903.27 (3) requires a facility to fundamentally alter the nature of the operations of the facility  
903.28 in order to accommodate a resident's request; or

903.29 (4) affects the duty of a facility to grant a resident's request for reasonable  
903.30 accommodations.

904.1 **Sec. 13. [144I.12] TRANSFER OF RESIDENTS WITHIN FACILITY.**

904.2 (a) A facility must provide for the safe, orderly, and appropriate transfer of residents  
904.3 within the facility.

904.4 (b) If an assisted living contract permits resident transfers within the facility, the facility  
904.5 must provide at least 30 days' advance notice of the transfer to the resident and the resident's  
904.6 designated representative.

904.7 (c) In situations where there is a curtailment, reduction, capital improvement, or change  
904.8 in operations within a facility, the facility must minimize the number of transfers needed  
904.9 to complete the project or change in operations, consider individual resident needs and  
904.10 preferences, and provide reasonable accommodation for individual resident requests regarding  
904.11 the room transfer. The facility must provide notice to the Office of Ombudsman for  
904.12 Long-Term Care and, when appropriate, the Office of Ombudsman for Mental Health and  
904.13 Developmental Disabilities in advance of any notice to residents, residents' designated  
904.14 representatives, and families when all of the following circumstances apply:

904.15 (1) the transfers of residents within the facility are being proposed due to curtailment,  
904.16 reduction, capital improvements, or change in operations;

904.17 (2) the transfers of residents within the facility are not temporary moves to accommodate  
904.18 physical plan upgrades or renovation; and

904.19 (3) the transfers involve multiple residents being moved simultaneously.

904.20 **EFFECTIVE DATE.** This section is effective August 1, 2021.

904.21 **Sec. 14. [144I.13] FACILITY RESPONSIBILITIES; BUSINESS OPERATION.**

904.22 Subdivision 1. **Display of license.** The original current license must be displayed at the  
904.23 main entrance of the facility. The facility must provide a copy of the license to any person  
904.24 who requests it.

904.25 Subd. 2. **Quality management.** The facility shall engage in quality management  
904.26 appropriate to the size of the facility and relevant to the type of services provided. The  
904.27 quality management activity means evaluating the quality of care by periodically reviewing  
904.28 resident services, complaints made, and other issues that have occurred and determining  
904.29 whether changes in services, staffing, or other procedures need to be made in order to ensure  
904.30 safe and competent services to residents. Documentation about quality management activity  
904.31 must be available for two years. Information about quality management must be available  
904.32 to the commissioner at the time of the survey, investigation, or renewal.

905.1 Subd. 3. **Facility restrictions.** (a) This subdivision does not apply to licensees that are  
905.2 Minnesota counties or other units of government.

905.3 (b) A facility or staff person cannot accept a power-of-attorney from residents for any  
905.4 purpose, and may not accept appointments as guardians or conservators of residents.

905.5 (c) A facility cannot serve as a resident's representative.

905.6 Subd. 4. **Handling resident's finances and property.** (a) A facility may assist residents  
905.7 with household budgeting, including paying bills and purchasing household goods, but may  
905.8 not otherwise manage a resident's property. A facility must provide a resident with receipts  
905.9 for all transactions and purchases paid with the resident's funds. When receipts are not  
905.10 available, the transaction or purchase must be documented. A facility must maintain records  
905.11 of all such transactions.

905.12 (b) A facility or staff person may not borrow a resident's funds or personal or real  
905.13 property, nor in any way convert a resident's property to the facility's or staff person's  
905.14 possession.

905.15 (c) Nothing in this section precludes a facility or staff from accepting gifts of minimal  
905.16 value or precludes the acceptance of donations or bequests made to a facility that are exempt  
905.17 from income tax under section 501(c) of the Internal Revenue Code of 1986.

905.18 Subd. 5. **Reporting maltreatment of vulnerable adults; abuse prevention plan.** (a)  
905.19 All facilities must comply with the requirements for the reporting of maltreatment of  
905.20 vulnerable adults in section 626.557. Each facility must establish and implement a written  
905.21 procedure to ensure that all cases of suspected maltreatment are reported.

905.22 (b) Each facility must develop and implement an individual abuse prevention plan for  
905.23 each vulnerable adult. The plan shall contain an individualized review or assessment of the  
905.24 person's susceptibility to abuse by another individual, including other vulnerable adults; the  
905.25 person's risk of abusing other vulnerable adults; and statements of the specific measures to  
905.26 be taken to minimize the risk of abuse to that person and other vulnerable adults. For purposes  
905.27 of the abuse prevention plan, abuse includes self-abuse.

905.28 Subd. 6. **Reporting suspected crime and maltreatment.** (a) A facility shall support  
905.29 protection and safety through access to the state's systems for reporting suspected criminal  
905.30 activity and suspected vulnerable adult maltreatment by:

905.31 (1) posting the 911 emergency number in common areas and near telephones provided  
905.32 by the assisted living facility;

906.1 (2) posting information and the reporting number for the Minnesota Adult Abuse  
906.2 Reporting Center under section 626.557 to report suspected maltreatment of a vulnerable  
906.3 adult; and

906.4 (3) providing reasonable accommodations with information and notices in plain language.

906.5 Subd. 7. **Employee records.** (a) The facility must maintain current records of each paid  
906.6 employee, regularly scheduled volunteers providing services, and each individual contractor  
906.7 providing services. The records must include the following information:

906.8 (1) evidence of current professional licensure, registration, or certification if licensure,  
906.9 registration, or certification is required by this statute or other rules;

906.10 (2) records of orientation, required annual training and infection control training, and  
906.11 competency evaluations;

906.12 (3) current job description, including qualifications, responsibilities, and identification  
906.13 of staff persons providing supervision;

906.14 (4) documentation of annual performance reviews that identify areas of improvement  
906.15 needed and training needs;

906.16 (5) for individuals providing facility services, verification that required health screenings  
906.17 under section 144I.034, subdivision 7, have taken place and the dates of those screenings;  
906.18 and

906.19 (6) documentation of the background study as required under section 144.057.

906.20 (b) Each employee record must be retained for at least three years after a paid employee,  
906.21 volunteer, or contractor ceases to be employed by, provide services at, or be under contract  
906.22 with the facility. If a facility ceases operation, employee records must be maintained for  
906.23 three years after facility operations cease.

906.24 Subd. 8. **Compliance officer.** Every assisted living facility shall have a compliance  
906.25 officer who is a licensed assisted living administrator. An individual licensed as a nursing  
906.26 home administrator, an assisted living administrator, or a health services executive shall  
906.27 automatically meet the qualifications of a compliance officer.

906.28 Sec. 15. **[144I.14] FACILITY RESPONSIBILITIES; STAFF.**

929.3 Sec. 22. **[144I.21] TRAINING IN DEMENTIA CARE REQUIRED.**

929.4 (a) Assisted living facilities and assisted living facilities with dementia care must meet  
929.5 the following training requirements:

929.6 (1) supervisors of direct-care staff must have at least eight hours of initial training on  
929.7 topics specified under paragraph (b) within 120 working hours of the employment start  
929.8 date, and must have at least two hours of training on topics related to dementia care for each  
929.9 12 months of employment thereafter;

929.10 (2) direct-care employees must have completed at least eight hours of initial training on  
929.11 topics specified under paragraph (b) within 160 working hours of the employment start  
929.12 date. Until this initial training is complete, an employee must not provide direct care unless  
929.13 there is another employee on site who has completed the initial eight hours of training on  
929.14 topics related to dementia care and who can act as a resource and assist if issues arise. A  
929.15 trainer of the requirements under paragraph (b) or a supervisor meeting the requirements  
929.16 in clause (1) must be available for consultation with the new employee until the training  
929.17 requirement is complete. Direct-care employees must have at least two hours of training on

929.23 employment thereafter; and

929.24 (4) new employees may satisfy the initial training requirements by producing written  
929.25 proof of previously completed required training within the past 18 months.

929.26 (b) Areas of required training include:

929.27 (1) an explanation of Alzheimer's disease and related disorders;

929.28 (2) assistance with activities of daily living;

929.29 (3) problem solving with challenging behaviors; and

929.30 (4) communication skills.

930.1 (c) The facility shall provide to consumers in written or electronic form a description of  
930.2 the training program, the categories of employees trained, the frequency of training, and  
930.3 the basic topics covered.

930.4 **Sec. 23. [144I.22] CONTROLLING INDIVIDUAL RESTRICTIONS.**

930.5 Subdivision 1. **Restrictions.** The controlling individual of a facility may not include  
930.6 any person who was a controlling individual of any other nursing home, assisted living  
930.7 facility, or assisted living facility with dementia care during any period of time in the previous  
930.8 two-year period:

930.9 (1) during which time of control the nursing home, assisted living facility, or assisted  
930.10 living facility with dementia care incurred the following number of uncorrected or repeated  
930.11 violations:

930.12 (i) two or more uncorrected violations or one or more repeated violations that created  
930.13 an imminent risk to direct resident care or safety; or

930.14 (ii) four or more uncorrected violations or two or more repeated violations of any nature,  
930.15 including Level 2, Level 3, and Level 4 violations as defined in section 144I.31; or

930.16 (2) who, during that period, was convicted of a felony or gross misdemeanor that relates  
930.17 to the operation of the nursing home, assisted living facility, or assisted living facility with  
930.18 dementia care, or directly affects resident safety or care.

930.19 Subd. 2. **Exception.** Subdivision 1 does not apply to any controlling individual of the  
930.20 facility who had no legal authority to affect or change decisions related to the operation of  
930.21 the nursing home, assisted living facility, or assisted living facility with dementia care that  
930.22 incurred the uncorrected violations.

930.23 Subd. 3. **Stay of adverse action required by controlling individual restrictions.** (a)  
930.24 In lieu of revoking, suspending, or refusing to renew the license of a facility where a  
930.25 controlling individual was disqualified by subdivision 1, clause (1), the commissioner may  
930.26 issue an order staying the revocation, suspension, or nonrenewal of the facility's license.

930.27 The order may but need not be contingent upon the facility's compliance with restrictions  
930.28 and conditions imposed on the license to ensure the proper operation of the facility and to  
930.29 protect the health, safety, comfort, treatment, and well-being of the residents in the facility.

930.30 The decision to issue an order for a stay must be made within 90 days of the commissioner's  
930.31 determination that a controlling individual of the facility is disqualified by subdivision 1,  
930.32 clause (1), from operating a facility.

931.1 (b) In determining whether to issue a stay and to impose conditions and restrictions, the  
931.2 commissioner must consider the following factors:

931.3 (1) the ability of the controlling individual to operate other facilities in accordance with  
931.4 the licensure rules and laws;

931.5 (2) the conditions in the nursing home, assisted living facility, or assisted living facility  
931.6 with dementia care that received the number and type of uncorrected or repeated violations  
931.7 described in subdivision 1, clause (1); and

931.8 (3) the conditions and compliance history of each of the nursing homes, assisted living  
931.9 facilities, and assisted living facilities with dementia care owned or operated by the  
931.10 controlling individuals.

931.11 (c) The commissioner's decision to exercise the authority under this subdivision in lieu  
931.12 of revoking, suspending, or refusing to renew the license of the facility is not subject to  
931.13 administrative or judicial review.

931.14 (d) The order for the stay of revocation, suspension, or nonrenewal of the facility license  
931.15 must include any conditions and restrictions on the license that the commissioner deems  
931.16 necessary based on the factors listed in paragraph (b).

931.17 (e) Prior to issuing an order for stay of revocation, suspension, or nonrenewal, the  
931.18 commissioner shall inform the controlling individual in writing of any conditions and  
931.19 restrictions that will be imposed. The controlling individual shall, within ten working days,  
931.20 notify the commissioner in writing of a decision to accept or reject the conditions and  
931.21 restrictions. If the facility rejects any of the conditions and restrictions, the commissioner  
931.22 must either modify the conditions and restrictions or take action to suspend, revoke, or not  
931.23 renew the facility's license.

931.24 (f) Upon issuance of the order for a stay of revocation, suspension, or nonrenewal, the  
931.25 controlling individual shall be responsible for compliance with the conditions and restrictions.  
931.26 Any time after the conditions and restrictions have been in place for 180 days, the controlling  
931.27 individual may petition the commissioner for removal or modification of the conditions and  
931.28 restrictions. The commissioner must respond to the petition within 30 days of receipt of the  
931.29 written petition. If the commissioner denies the petition, the controlling individual may  
931.30 request a hearing under the provisions of chapter 14. Any hearing shall be limited to a  
931.31 determination of whether the conditions and restrictions shall be modified or removed. At  
931.32 the hearing, the controlling individual bears the burden of proof.

932.1 (g) The failure of the controlling individual to comply with the conditions and restrictions  
932.2 contained in the order for stay shall result in the immediate removal of the stay and the  
932.3 commissioner shall take action to suspend, revoke, or not renew the license.

932.4 (h) The conditions and restrictions are effective for two years after the date they are  
932.5 imposed.

932.6 (i) Nothing in this subdivision shall be construed to limit in any way the commissioner's  
932.7 ability to impose other sanctions against a facility licensee under the standards in state or  
932.8 federal law whether or not a stay of revocation, suspension, or nonrenewal is issued.

932.9 **Sec. 24. [144I.23] MANAGEMENT AGREEMENTS; GENERAL REQUIREMENTS.**

- 933.8 (b) The licensee must not give the manager responsibilities that are so extensive that the
- 933.9 licensee is relieved of daily responsibility for the daily operations and provision of services

- 933.11 a change of ownership has occurred.
- 933.12 (c) The licensee and manager must act in accordance with the terms of the management
- 933.13 agreement. If the commissioner determines they are not, then the department may impose
- 933.14 enforcement remedies.
- 933.15 (d) The licensee may enter into a management agreement only if the management
- 933.16 agreement creates a principal/agent relationship between the licensee and manager.
- 933.17 (e) The manager shall not subcontract the manager's responsibilities to a third party.
- 933.18 Subd. 3. **Terms of agreement.** A management agreement at a minimum must:

934.8 (10) state the manager will not present as, or give the appearance that the manager is  
934.9 the licensee; and

934.10 (11) state that a duly authorized manager may execute resident leases or agreements on  
934.11 behalf of the licensee, but all such resident leases or agreements must be between the licensee  
934.12 and the resident.

934.13 Subd. 4. **Commissioner review.** The commissioner may review a management agreement  
934.14 at any time. Following the review, the department may require:

934.25 (1) retains all fiduciary and custodial responsibility for funds that have been deposited  
934.26 with the facility by the resident;

938.26 (d) Alternative measures or conditions attached to a variance or waiver have the force  
938.27 and effect of this chapter and are subject to the issuance of correction orders and fines in  
938.28 accordance with sections 144I.30, subdivision 7, and 144I.31. The amount of fines for a  
938.29 violation of this section is that specified for the specific requirement for which the variance  
938.30 or waiver was requested.

939.1 (e) A request for the renewal of a variance or waiver must be submitted in writing at  
939.2 least 45 days before its expiration date. Renewal requests must contain the information  
939.3 specified in paragraph (b). A variance or waiver must be renewed by the department if the  
939.4 applicant continues to satisfy the criteria in paragraph (a) and demonstrates compliance  
939.5 with the alternative measures or conditions imposed at the time the original variance or  
939.6 waiver was granted.

939.7 (f) The department must deny, revoke, or refuse to renew a variance or waiver if it is

939.12 within 15 days of the receipt of the department's decision, a written request for a hearing.  
939.13 The request for hearing must set forth in detail the reasons why the applicant contends the  
939.14 decision of the department should be reversed or modified. At the hearing, the applicant  
939.15 has the burden of proving by a preponderance of the evidence that the applicant satisfied  
939.16 the criteria specified in paragraph (b), except in a proceeding challenging the revocation of  
939.17 a variance or waiver.

942.29 resident before entrance, when possible.

942.30 Subd. 4. **Filing.** The contract and related documents executed by each resident or the  
942.31 designated representative must be maintained by the facility in files from the date of execution

943.9 Sec. 27. **[144I.27] PLANNED CLOSURES.**

943.10 Subdivision 1. **Closure plan required.** In the event that a facility elects to voluntarily  
943.11 close the facility, the facility must notify the commissioner and the Office of Ombudsman  
943.12 for Long-Term Care in writing by submitting a proposed closure plan.

943.13 Subd. 2. **Content of closure plan.** The facility's proposed closure plan must include:

943.14 (1) the procedures and actions the facility will implement to notify residents of the  
943.15 closure, including a copy of the written notice to be given to residents, designated  
943.16 representatives, resident representatives, or family;

943.17 (2) the procedures and actions the facility will implement to ensure all residents receive  
943.18 appropriate termination planning in accordance with section 144J.10, subdivisions 1 to 6,  
943.19 and final accountings and returns under section 144J.10, subdivision 7;

943.20 (3) assessments of the needs and preferences of individual residents; and

943.21 (4) procedures and actions the facility will implement to maintain compliance with this  
943.22 chapter until all residents have relocated.

943.23 Subd. 3. **Commissioner's approval required prior to implementation.** (a) The plan  
943.24 shall be subject to the commissioner's approval and subdivision 6. The facility shall take  
943.25 no action to close the residence prior to the commissioner's approval of the plan. The  
943.26 commissioner shall approve or otherwise respond to the plan as soon as practicable.

943.27 (b) The commissioner of health may require the facility to work with a transitional team  
943.28 comprised of department staff, staff of the Office of Ombudsman for Long-Term Care, and  
943.29 other professionals the commissioner deems necessary to assist in the proper relocation of  
943.30 residents.

943.31 Subd. 4. **Termination planning and final accounting requirements.** Prior to  
943.32 termination, the facility must follow the termination planning requirements under section

944.1 144J.10, subdivisions 1 to 6, and final accounting and return requirements under section  
944.2 144J.10, subdivision 7, for residents. The facility must implement the plan approved by the  
944.3 commissioner and ensure that arrangements for relocation and continued care that meet  
944.4 each resident's social, emotional, and health needs are effectuated prior to closure.

944.5 Subd. 5. **Notice to residents.** After the commissioner has approved the relocation plan  
944.6 and at least 60 calendar days before closing, except as provided under subdivision 6, the  
944.7 facility must notify residents, designated representatives, and resident representatives or, if  
944.8 a resident has no designated representative or resident representative, a family member, if  
944.9 known, of the closure, the proposed date of closure, the contact information of the

944.12 requirements under section 144J.10, subdivision 7.

944.13 Subd. 6. **Emergency closures.** (a) In the event the facility must close because the  
944.14 commissioner deems the facility can no longer remain open, the facility must meet all  
944.15 requirements in subdivisions 1 to 5, except for any requirements the commissioner finds  
944.16 would endanger the health and safety of residents. In the event the commissioner determines  
944.17 a closure must occur with less than 60 calendar days' notice, the facility shall provide notice  
944.18 to residents as soon as practicable or as directed by the commissioner.

944.19 (b) Upon request from the commissioner, a facility must provide the commissioner with  
944.20 any documentation related to the appropriateness of its relocation plan, or to any assertion  
944.21 that the facility lacks the funds to comply with subdivision 1 to 5, or that remaining open  
944.22 would otherwise endanger the health and safety of residents pursuant to paragraph (a).

944.23 Subd. 7. **Other rights.** Nothing in this section or section 144J.08 or 144J.10 affects the  
944.24 rights and remedies available under chapter 504B, except to the extent those rights or  
944.25 remedies are inconsistent with this section.

944.26 Subd. 8. **Fine.** The commissioner may impose a fine for failure to follow the requirements  
944.27 of this section or section 144J.08 or 144J.10.

944.30 (1) notify a resident and the resident's representative, if any, at least 14 calendar days

944.32 (2) obtain consent from the resident and the resident's representative, if any.

945.1 (b) A resident must be allowed to stay in the resident's room. If a resident consents to a  
945.2 move, any needed reasonable modifications must be made to the new room to accommodate  
945.3 the resident's disabilities.

945.4 Subd. 2. **Evaluation.** A facility shall evaluate the resident's individual needs before  
945.5 deciding whether the room the resident will be moved to fits the resident's psychological,  
945.6 cognitive, and health care needs, including the accessibility of the bathroom.

945.7 Subd. 3. **Restriction on relocation.** A person who has been a private-pay resident for  
945.8 at least one year and resides in a private room, and whose payments subsequently will be  
945.9 made under the medical assistance program under chapter 256B, may not be relocated to a  
945.10 shared room without the consent of the resident or the resident's representative, if any.

945.11 **EFFECTIVE DATE.** This section is effective August 1, 2021.

946.12 facility construction and must approve the plans before construction may be commenced.

946.13 (c) The commissioner shall provide on-site review of the construction to ensure that all  
946.14 physical environment standards are met before the facility license is complete.

946.15 Sec. 30. **[144I.30] SURVEYS AND INVESTIGATIONS.**

946.16 Subdivision 1. **Regulatory powers.** (a) The Department of Health is the exclusive state  
946.17 agency charged with the responsibility and duty of surveying and investigating all facilities  
946.18 required to be licensed under this chapter. The commissioner of health shall enforce all  
946.19 sections of this chapter and the rules adopted under this chapter.

946.20 (b) The commissioner, upon request of the facility, must be given access to relevant  
946.21 information, records, incident reports, and other documents in the possession of the facility  
946.22 if the commissioner considers them necessary for the discharge of responsibilities. For  
946.23 purposes of surveys and investigations and securing information to determine compliance  
946.24 with licensure laws and rules, the commissioner need not present a release, waiver, or  
946.25 consent to the individual. The identities of residents must be kept private as defined in  
946.26 section 13.02, subdivision 12.

946.27 Subd. 2. **Surveys.** The commissioner shall conduct surveys of each assisted living facility  
946.28 and assisted living facility with dementia care. The commissioner shall conduct a survey  
946.29 of each facility on a frequency of at least once each year. The commissioner may conduct  
946.30 surveys more frequently than once a year based on the license level, the provider's compliance  
946.31 history, the number of clients served, or other factors as determined by the department

947.1 deemed necessary to ensure the health, safety, and welfare of residents and compliance with  
947.2 the law.

947.3 Subd. 3. **Follow-up surveys.** The commissioner may conduct follow-up surveys to  
947.4 determine if the facility has corrected deficient issues and systems identified during a survey  
947.5 or complaint investigation. Follow-up surveys may be conducted via phone, e-mail, fax,  
947.6 mail, or onsite reviews. Follow-up surveys, other than complaint investigations, shall be  
947.7 concluded with an exit conference and written information provided on the process for  
947.8 requesting a reconsideration of the survey results.

947.9 Subd. 4. **Scheduling surveys.** Surveys and investigations shall be conducted without  
947.10 advance notice to the facilities. Surveyors may contact the facility on the day of a survey  
947.11 to arrange for someone to be available at the survey site. The contact does not constitute  
947.12 advance notice. The surveyor must provide presurvey notification to the Office of  
947.13 Ombudsman for Long-Term Care.

947.14 Subd. 5. **Information provided by facility.** The facility shall provide accurate and

947.20 within a reasonable period of time.

947.21 Subd. 7. **Correction orders.** (a) A correction order may be issued whenever the  
947.22 commissioner finds upon survey or during a complaint investigation that a facility, a  
947.23 managerial official, or an employee of the provider is not in compliance with this chapter.  
947.24 The correction order shall cite the specific statute and document areas of noncompliance  
947.25 and the time allowed for correction.

947.26 (b) The commissioner shall mail or e-mail copies of any correction order to the facility  
947.27 within 30 calendar days after the survey exit date. A copy of each correction order and  
947.28 copies of any documentation supplied to the commissioner shall be kept on file by the  
947.29 facility and public documents shall be made available for viewing by any person upon  
947.30 request. Copies may be kept electronically.

947.31 (c) By the correction order date, the facility must document in the facility's records any  
947.32 action taken to comply with the correction order. The commissioner may request a copy of  
947.33 this documentation and the facility's action to respond to the correction order in future  
947.34 surveys, upon a complaint investigation, and as otherwise needed.

948.1 Subd. 8. **Required follow-up surveys.** For facilities that have Level 3 or Level 4  
948.2 violations under section 144I.31, the department shall conduct a follow-up survey within  
948.3 90 calendar days of the survey. When conducting a follow-up survey, the surveyor shall  
948.4 focus on whether the previous violations have been corrected and may also address any  
948.5 new violations that are observed while evaluating the corrections that have been made.

948.6 Sec. 31. **[144I.31] VIOLATIONS AND FINES.**

948.7 Subdivision 1. **Fine amounts.** (a) Fines and enforcement actions under this subdivision  
948.8 may be assessed based on the level and scope of the violations described in subdivision 2  
948.9 as follows and imposed immediately with no opportunity to correct the violation prior to  
948.10 imposition:

948.11 (1) Level 1, no fines or enforcement;

948.12 (2) Level 2, a fine of \$500 per violation;

948.13 (3) Level 3, a fine of \$3,000 per violation per incident plus \$100 for each resident affected  
948.14 by the violation;

948.15 (4) Level 4, a fine of \$5,000 per incident plus \$200 for each resident; and

948.16 (5) for maltreatment violations as defined in the Minnesota Vulnerable Adults Act in

948.20 Subd. 2. **Level and scope of violation.** Correction orders for violations are categorized  
948.21 by both level and scope, and fines shall be assessed as follows:

948.22 (1) level of violation:

948.23 (i) Level 1 is a violation that has no potential to cause more than a minimal impact on  
948.24 the resident and does not affect health or safety;

948.25 (ii) Level 2 is a violation that did not harm a resident's health or safety but had the  
948.26 potential to have harmed a resident's health or safety, but was not likely to cause serious  
948.27 injury, impairment, or death;

948.28 (iii) Level 3 is a violation that harmed a resident's health or safety, not including serious  
948.29 injury, impairment, or death, or a violation that has the potential to lead to serious injury,  
948.30 impairment, or death; and

948.31 (iv) Level 4 is a violation that results in serious injury, impairment, or death; and

949.1 (2) scope of violation:

949.2 (i) isolated, when one or a limited number of residents are affected or one or a limited  
949.3 number of staff are involved or the situation has occurred only occasionally;

949.4 (ii) pattern, when more than a limited number of residents are affected, more than a  
949.5 limited number of staff are involved, or the situation has occurred repeatedly but is not  
949.6 found to be pervasive; and

949.7 (iii) widespread, when problems are pervasive or represent a systemic failure that has  
949.8 affected or has the potential to affect a large portion or all of the residents.

949.9 Subd. 3. **Notice of noncompliance.** If the commissioner finds that the applicant or a  
949.10 facility has not corrected violations by the date specified in the correction order or conditional  
949.11 license resulting from a survey or complaint investigation, the commissioner shall provide  
949.12 a notice of noncompliance with a correction order by e-mailing the notice of noncompliance  
949.13 to the facility. The noncompliance notice must list the violations not corrected.

949.14 Subd. 4. **Immediate fine; payment.** (a) For every violation, the commissioner may  
949.15 issue an immediate fine. The licensee must still correct the violation in the time specified.  
949.16 The issuance of an immediate fine may occur in addition to any enforcement mechanism  
949.17 authorized under section 144I.33. The immediate fine may be appealed as allowed under  
949.18 this section.

949.19 (b) The licensee must pay the fines assessed on or before the payment date specified. If  
949.20 the licensee fails to fully comply with the order, the commissioner may issue a second fine  
949.21 or suspend the license until the licensee complies by paying the fine. A timely appeal shall  
949.22 stay payment of the fine until the commissioner issues a final order.

949.23 (c) A licensee shall promptly notify the commissioner in writing when a violation  
949.24 specified in the order is corrected. If upon reinspection the commissioner determines that  
949.25 a violation has not been corrected as indicated by the order, the commissioner may issue  
949.26 an additional fine. The commissioner shall notify the licensee by mail to the last known  
949.27 address in the licensing record that a second fine has been assessed. The licensee may appeal  
949.28 the second fine as provided under this subdivision.

949.29 (d) A facility that has been assessed a fine under this section has a right to a  
949.30 reconsideration or hearing under this section and chapter 14.

949.31 Subd. 5. **Facility cannot avoid payment.** When a fine has been assessed, the licensee  
949.32 may not avoid payment by closing, selling, or otherwise transferring the license to a third  
949.33 party. In such an event, the licensee shall be liable for payment of the fine.

950.1 Subd. 6. **Additional penalties.** In addition to any fine imposed under this section, the  
950.2 commissioner may assess a penalty amount based on costs related to an investigation that  
950.3 results in a final order assessing a fine or other enforcement action authorized by this chapter.

950.4 Subd. 7. **Deposit of fines.** Fines collected under this section shall be deposited in the  
950.5 state government special revenue fund and credited to an account separate from the revenue  
950.6 collected under section 144A.472. Subject to an appropriation by the legislature, the revenue  
950.7 from the fines collected must be used by the commissioner for special projects to improve  
950.8 home care in Minnesota as recommended by the advisory council established in section  
950.9 144A.4799.

950.10 Sec. 32. **[144I.32] RECONSIDERATION OF CORRECTION ORDERS AND FINES.**

950.11 Subdivision 1. **Reconsideration process required.** The commissioner shall make  
950.12 available to facilities a correction order reconsideration process. This process may be used  
950.13 to challenge the correction order issued, including the level and scope described in section  
950.14 144I.31, and any fine assessed. When a licensee requests reconsideration of a correction  
950.15 order, the correction order is not stayed while it is under reconsideration. The department  
950.16 shall post information on its website that the licensee requested reconsideration of the  
950.17 correction order and that the review is pending.

950.18 Subd. 2. **Reconsideration process.** A facility may request from the commissioner, in  
950.19 writing, a correction order reconsideration regarding any correction order issued to the  
950.20 facility. The written request for reconsideration must be received by the commissioner  
950.21 within 15 calendar days of the correction order receipt date. The correction order  
950.22 reconsideration shall not be reviewed by any surveyor, investigator, or supervisor that  
950.23 participated in writing or reviewing the correction order being disputed. The correction  
950.24 order reconsiderations may be conducted in person, by telephone, by another electronic  
950.25 form, or in writing, as determined by the commissioner. The commissioner shall respond  
950.26 in writing to the request from a facility for a correction order reconsideration within 60 days  
950.27 of the date the facility requests a reconsideration. The commissioner's response shall identify  
950.28 the commissioner's decision regarding each citation challenged by the facility.

950.29 Subd. 3. **Findings.** The findings of a correction order reconsideration process shall be  
950.30 one or more of the following:

950.31 (1) supported in full: the correction order is supported in full, with no deletion of findings  
950.32 to the citation;

951.1 (2) supported in substance: the correction order is supported, but one or more findings  
951.2 are deleted or modified without any change in the citation;

951.3 (3) correction order cited an incorrect licensing requirement: the correction order is  
951.4 amended by changing the correction order to the appropriate statute and/or rule;

951.5 (4) correction order was issued under an incorrect citation: the correction order is amended  
951.6 to be issued under the more appropriate correction order citation;

951.7 (5) the correction order is rescinded;

951.8 (6) fine is amended: it is determined that the fine assigned to the correction order was  
951.9 applied incorrectly; or

951.10 (7) the level or scope of the citation is modified based on the reconsideration.

951.11 Subd. 4. **Updating the correction order website.** If the correction order findings are  
951.12 changed by the commissioner, the commissioner shall update the correction order website.

951.13 Subd. 5. **Provisional licensees.** This section does not apply to provisional licensees.

951.14 **Sec. 33. [144I.33] ENFORCEMENT.**

951.15 Subdivision 1. **Conditions.** (a) The commissioner may refuse to grant a provisional  
951.16 license, refuse to grant a license as a result of a change in ownership, renew a license,  
951.17 suspend or revoke a license, or impose a conditional license if the owner, controlling  
951.18 individual, or employee of an assisted living facility or assisted living facility with dementia  
951.19 care:

951.20 (1) is in violation of, or during the term of the license has violated, any of the requirements  
951.21 in this chapter or adopted rules;

951.22 (2) permits, aids, or abets the commission of any illegal act in the provision of assisted  
951.23 living services;

951.24 (3) performs any act detrimental to the health, safety, and welfare of a resident;

951.25 (4) obtains the license by fraud or misrepresentation;

951.26 (5) knowingly made or makes a false statement of a material fact in the application for  
951.27 a license or in any other record or report required by this chapter;

951.28 (6) denies representatives of the department access to any part of the facility's books,  
951.29 records, files, or employees;

952.1 (7) interferes with or impedes a representative of the department in contacting the facility's  
952.2 residents;

952.3 (8) interferes with or impedes a representative of the department in the enforcement of  
952.4 this chapter or has failed to fully cooperate with an inspection, survey, or investigation by  
952.5 the department;

952.6 (9) destroys or makes unavailable any records or other evidence relating to the assisted  
952.7 living facility's compliance with this chapter;

952.8 (10) refuses to initiate a background study under section 144.057 or 245A.04;

952.9 (11) fails to timely pay any fines assessed by the commissioner;

952.10 (12) violates any local, city, or township ordinance relating to housing or services;

952.11 (13) has repeated incidents of personnel performing services beyond their competency  
952.12 level; or

952.13 (14) has operated beyond the scope of the facility's license category.

952.14 (b) A violation by a contractor providing the services of the facility is a violation by  
952.15 facility.

952.16 Subd. 2. **Terms to suspension or conditional license.** (a) A suspension or conditional  
952.17 license designation may include terms that must be completed or met before a suspension  
952.18 or conditional license designation is lifted. A conditional license designation may include  
952.19 restrictions or conditions that are imposed on the facility. Terms for a suspension or  
952.20 conditional license may include one or more of the following and the scope of each will be  
952.21 determined by the commissioner:

952.22 (1) requiring a consultant to review, evaluate, and make recommended changes to the  
952.23 facility's practices and submit reports to the commissioner at the cost of the facility;

952.24 (2) requiring supervision of the facility or staff practices at the cost of the facility by an  
952.25 unrelated person who has sufficient knowledge and qualifications to oversee the practices  
952.26 and who will submit reports to the commissioner;

952.27 (3) requiring the facility or employees to obtain training at the cost of the facility;

952.28 (4) requiring the facility to submit reports to the commissioner;

952.29 (5) prohibiting the facility from admitting any new residents for a specified period of  
952.30 time; or

953.1 (6) any other action reasonably required to accomplish the purpose of this subdivision  
953.2 and subdivision 1.

953.3 (b) A facility subject to this subdivision may continue operating during the period of  
953.4 time residents are being transferred to another service provider.

953.5 Subd. 3. **Immediate temporary suspension.** (a) In addition to any other remedies  
953.6 provided by law, the commissioner may, without a prior contested case hearing, immediately  
953.7 temporarily suspend a license or prohibit delivery of housing or services by a facility for  
953.8 not more than 90 calendar days or issue a conditional license, if the commissioner determines  
953.9 that there are:

953.10 (1) Level 4 violations; or

953.11 (2) violations that pose an imminent risk of harm to the health or safety of residents.

953.12 (b) For purposes of this subdivision, "Level 4" has the meaning given in section 144I.31.

953.13 (c) A notice stating the reasons for the immediate temporary suspension or conditional  
953.14 license and informing the licensee of the right to an expedited hearing under subdivision  
953.15 11 must be delivered by personal service to the address shown on the application or the last  
953.16 known address of the licensee. The licensee may appeal an order immediately temporarily  
953.17 suspending a license or issuing a conditional license. The appeal must be made in writing  
953.18 by certified mail or personal service. If mailed, the appeal must be postmarked and sent to  
953.19 the commissioner within five calendar days after the licensee receives notice. If an appeal  
953.20 is made by personal service, it must be received by the commissioner within five calendar  
953.21 days after the licensee received the order.

953.22 (d) A licensee whose license is immediately temporarily suspended must comply with  
953.23 the requirements for notification and transfer of residents in subdivision 9. The requirements  
953.24 in subdivision 9 remain if an appeal is requested.

953.25 Subd. 4. **Mandatory revocation.** Notwithstanding the provisions of subdivision 7,  
953.26 paragraph (a), the commissioner must revoke a license if a controlling individual of the  
953.27 facility is convicted of a felony or gross misdemeanor that relates to operation of the facility  
953.28 or directly affects resident safety or care. The commissioner shall notify the facility and the  
953.29 Office of Ombudsman for Long-Term Care 30 calendar days in advance of the date of  
953.30 revocation.

953.31 Subd. 5. **Mandatory proceedings.** (a) The commissioner must initiate proceedings  
953.32 within 60 calendar days of notification to suspend or revoke a facility's license or must

954.1 refuse to renew a facility's license if within the preceding two years the facility has incurred  
954.2 the following number of uncorrected or repeated violations:

954.3 (1) two or more uncorrected violations or one or more repeated violations that created  
954.4 an imminent risk to direct resident care or safety; or

954.5 (2) four or more uncorrected violations or two or more repeated violations of any nature  
954.6 for which the fines are in the four highest daily fine categories prescribed in rule.

954.7 (b) Notwithstanding paragraph (a), the commissioner is not required to revoke, suspend,  
954.8 or refuse to renew a facility's license if the facility corrects the violation.

954.9 Subd. 6. **Notice to residents.** (a) Within five business days after proceedings are initiated  
954.10 by the commissioner to revoke or suspend a facility's license, or a decision by the  
954.11 commissioner not to renew a living facility's license, the controlling individual of the facility  
954.12 or a designee must provide to the commissioner and the ombudsman for long-term care the  
954.13 names of residents and the names and addresses of the residents' guardians, designated  
954.14 representatives, and family contacts.

954.15 (b) The controlling individual or designees of the facility must provide updated  
954.16 information each month until the proceeding is concluded. If the controlling individual or  
954.17 designee of the facility fails to provide the information within this time, the facility is subject  
954.18 to the issuance of:

954.19 (1) a correction order; and

954.20 (2) a penalty assessment by the commissioner in rule.

954.21 (c) Notwithstanding subdivisions 16 and 17, any correction order issued under this  
954.22 subdivision must require that the facility immediately comply with the request for information  
954.23 and that, as of the date of the issuance of the correction order, the facility shall forfeit to the  
954.24 state a \$500 fine the first day of noncompliance and an increase in the \$500 fine by \$100  
954.25 increments for each day the noncompliance continues.

954.26 (d) Information provided under this subdivision may be used by the commissioner or  
954.27 the ombudsman for long-term care only for the purpose of providing affected consumers  
954.28 information about the status of the proceedings.

954.29 (e) Within ten business days after the commissioner initiates proceedings to revoke,  
954.30 suspend, or not renew a facility license, the commissioner must send a written notice of the  
954.31 action and the process involved to each resident of the facility and the resident's designated  
954.32 representative or, if there is no designated representative and if known, a family member  
954.33 or interested person.

955.1 (f) The commissioner shall provide the ombudsman for long-term care with monthly  
955.2 information on the department's actions and the status of the proceedings.

955.3 Subd. 7. **Notice to facility.** (a) Prior to any suspension, revocation, or refusal to renew  
955.4 a license, the facility shall be entitled to notice and a hearing as provided by sections 14.57  
955.5 to 14.69. The hearing must commence within 60 calendar days after the proceedings are  
955.6 initiated. In addition to any other remedy provided by law, the commissioner may, without  
955.7 a prior contested case hearing, temporarily suspend a license or prohibit delivery of services  
955.8 by a provider for not more than 90 calendar days, or issue a conditional license if the  
955.9 commissioner determines that there are Level 3 violations that do not pose an imminent  
955.10 risk of harm to the health or safety of the facility residents, provided:

955.11 (1) advance notice is given to the facility;

955.12 (2) after notice, the facility fails to correct the problem;

955.13 (3) the commissioner has reason to believe that other administrative remedies are not  
955.14 likely to be effective; and

955.15 (4) there is an opportunity for a contested case hearing within 30 calendar days unless  
955.16 there is an extension granted by an administrative law judge.

955.17 (b) If the commissioner determines there are Level 4 violations or violations that pose  
955.18 an imminent risk of harm to the health or safety of the facility residents, the commissioner  
955.19 may immediately temporarily suspend a license, prohibit delivery of services by a facility,  
955.20 or issue a conditional license without meeting the requirements of paragraph (a), clauses  
955.21 (1) to (4).

955.22 For the purposes of this subdivision, "Level 3" and "Level 4" have the meanings given in  
955.23 section 144I.31.

955.24 Subd. 8. **Request for hearing.** A request for hearing must be in writing and must:

955.25 (1) be mailed or delivered to the commissioner or the commissioner's designee;

955.26 (2) contain a brief and plain statement describing every matter or issue contested; and

955.27 (3) contain a brief and plain statement of any new matter that the applicant or assisted  
955.28 living facility believes constitutes a defense or mitigating factor.

955.29 Subd. 9. **Plan required.** (a) The process of suspending, revoking, or refusing to renew  
955.30 a license must include a plan for transferring affected residents' cares to other providers by  
955.31 the facility that will be monitored by the commissioner. Within three calendar days of being  
955.32 notified of the final revocation, refusal to renew, or suspension, the licensee shall provide

956.1 the commissioner, the lead agencies as defined in section 256B.0911, county adult protection  
956.2 and case managers, and the ombudsman for long-term care with the following information:

956.3 (1) a list of all residents, including full names and all contact information on file;

956.4 (2) a list of each resident's representative or emergency contact person, including full  
956.5 names and all contact information on file;

956.6 (3) the location or current residence of each resident;

956.7 (4) the payor sources for each resident, including payor source identification numbers;

956.8 and

956.9 (5) for each resident, a copy of the resident's service plan and a list of the types of services  
956.10 being provided.

956.11 (b) The revocation, refusal to renew, or suspension notification requirement is satisfied  
956.12 by mailing the notice to the address in the license record. The licensee shall cooperate with  
956.13 the commissioner and the lead agencies, county adult protection and county managers, and  
956.14 the ombudsman for long-term care during the process of transferring care of residents to  
956.15 qualified providers. Within three calendar days of being notified of the final revocation,  
956.16 refusal to renew, or suspension action, the facility must notify and disclose to each of the  
956.17 residents, or the resident's representative or emergency contact persons, that the commissioner  
956.18 is taking action against the facility's license by providing a copy of the revocation or  
956.19 suspension notice issued by the commissioner. If the facility does not comply with the  
956.20 disclosure requirements in this section, the commissioner shall notify the residents, designated  
956.21 representatives, or emergency contact persons about the actions being taken. Lead agencies,  
956.22 county adult protection and county managers, and the Office of Ombudsman for Long-Term  
956.23 Care may also provide this information. The revocation, refusal to renew, or suspension  
956.24 notice is public data except for any private data contained therein.

956.25 (c) A facility subject to this subdivision may continue operating while residents are being  
956.26 transferred to other service providers.

956.27 Subd. 10. **Hearing.** Within 15 business days of receipt of the licensee's timely appeal  
956.28 of a sanction under this section, other than for a temporary suspension, the commissioner  
956.29 shall request assignment of an administrative law judge. The commissioner's request must  
956.30 include a proposed date, time, and place of hearing. A hearing must be conducted by an  
956.31 administrative law judge pursuant to Minnesota Rules, parts 1400.8505 to 1400.8612, within  
956.32 90 calendar days of the request for assignment, unless an extension is requested by either  
956.33 party and granted by the administrative law judge for good cause or for purposes of discussing

957.1 settlement. In no case shall one or more extensions be granted for a total of more than 90  
957.2 calendar days unless there is a criminal action pending against the licensee. If, while a  
957.3 licensee continues to operate pending an appeal of an order for revocation, suspension, or  
957.4 refusal to renew a license, the commissioner identifies one or more new violations of law  
957.5 that meet the requirements of Level 3 or Level 4 violations as defined in section 144I.31,  
957.6 the commissioner shall act immediately to temporarily suspend the license.

957.7 Subd. 11. **Expedited hearing.** (a) Within five business days of receipt of the licensee's  
957.8 timely appeal of a temporary suspension or issuance of a conditional license, the  
957.9 commissioner shall request assignment of an administrative law judge. The request must  
957.10 include a proposed date, time, and place of a hearing. A hearing must be conducted by an  
957.11 administrative law judge pursuant to Minnesota Rules, parts 1400.8505 to 1400.8612, within  
957.12 30 calendar days of the request for assignment, unless an extension is requested by either  
957.13 party and granted by the administrative law judge for good cause. The commissioner shall  
957.14 issue a notice of hearing by certified mail or personal service at least ten business days  
957.15 before the hearing. Certified mail to the last known address is sufficient. The scope of the  
957.16 hearing shall be limited solely to the issue of whether the temporary suspension or issuance  
957.17 of a conditional license should remain in effect and whether there is sufficient evidence to  
957.18 conclude that the licensee's actions or failure to comply with applicable laws are Level 3  
957.19 or Level 4 violations as defined in section 144I.31, or that there were violations that posed  
957.20 an imminent risk of harm to the resident's health and safety.

957.21 (b) The administrative law judge shall issue findings of fact, conclusions, and a  
957.22 recommendation within ten business days from the date of hearing. The parties shall have  
957.23 ten calendar days to submit exceptions to the administrative law judge's report. The record  
957.24 shall close at the end of the ten-day period for submission of exceptions. The commissioner's  
957.25 final order shall be issued within ten business days from the close of the record. When an  
957.26 appeal of a temporary immediate suspension or conditional license is withdrawn or dismissed,  
957.27 the commissioner shall issue a final order affirming the temporary immediate suspension  
957.28 or conditional license within ten calendar days of the commissioner's receipt of the  
957.29 withdrawal or dismissal. The licensee is prohibited from operation during the temporary  
957.30 suspension period.

957.31 (c) When the final order under paragraph (b) affirms an immediate suspension, and a  
957.32 final licensing sanction is issued under subdivisions 1 and 2 and the licensee appeals that  
957.33 sanction, the licensee is prohibited from operation pending a final commissioner's order  
957.34 after the contested case hearing conducted under chapter 14.

958.1 (d) A licensee whose license is temporarily suspended must comply with the requirements  
958.2 for notification and transfer of residents under subdivision 9. These requirements remain if  
958.3 an appeal is requested.

958.4 Subd. 12. **Time limits for appeals.** To appeal the assessment of civil penalties under  
958.5 section 144I.31, and an action against a license under this section, a licensee must request  
958.6 a hearing no later than 15 business days after the licensee receives notice of the action.

958.7 Subd. 13. **Owners and managerial officials; refusal to grant license.** (a) The owner  
958.8 and managerial officials of a facility whose Minnesota license has not been renewed or that  
958.9 has been revoked because of noncompliance with applicable laws or rules shall not be  
958.10 eligible to apply for nor will be granted an assisted living facility license or an assisted  
958.11 living facility with dementia care license, or be given status as an enrolled personal care  
958.12 assistance provider agency or personal care assistant by the Department of Human Services  
958.13 under section 256B.0659, for five years following the effective date of the nonrenewal or  
958.14 revocation. If the owner and/or managerial officials already have enrollment status, the  
958.15 enrollment will be terminated by the Department of Human Services.

958.16 (b) The commissioner shall not issue a license to a facility for five years following the  
958.17 effective date of license nonrenewal or revocation if the owner or managerial official,  
958.18 including any individual who was an owner or managerial official of another licensed  
958.19 provider, had a Minnesota license that was not renewed or was revoked as described in  
958.20 paragraph (a).

958.21 (c) Notwithstanding subdivision 1, the commissioner shall not renew, or shall suspend  
958.22 or revoke, the license of a facility that includes any individual as an owner or managerial  
958.23 official who was an owner or managerial official of a facility whose Minnesota license was  
958.24 not renewed or was revoked as described in paragraph (a) for five years following the  
958.25 effective date of the nonrenewal or revocation.

958.26 (d) The commissioner shall notify the facility 30 calendar days in advance of the date  
958.27 of nonrenewal, suspension, or revocation of the license. Within ten business days after the  
958.28 receipt of the notification, the facility may request, in writing, that the commissioner stay  
958.29 the nonrenewal, revocation, or suspension of the license. The facility shall specify the  
958.30 reasons for requesting the stay; the steps that will be taken to attain or maintain compliance  
958.31 with the licensure laws and regulations; any limits on the authority or responsibility of the  
958.32 owners or managerial officials whose actions resulted in the notice of nonrenewal, revocation,  
958.33 or suspension; and any other information to establish that the continuing affiliation with  
958.34 these individuals will not jeopardize resident health, safety, or well-being. The commissioner

959.1 shall determine whether the stay will be granted within 30 calendar days of receiving the  
959.2 facility's request. The commissioner may propose additional restrictions or limitations on  
959.3 the facility's license and require that granting the stay be contingent upon compliance with  
959.4 those provisions. The commissioner shall take into consideration the following factors when  
959.5 determining whether the stay should be granted:

959.6 (1) the threat that continued involvement of the owners and managerial officials with  
959.7 the facility poses to resident health, safety, and well-being;

959.8 (2) the compliance history of the facility; and

959.9 (3) the appropriateness of any limits suggested by the facility.

959.10 If the commissioner grants the stay, the order shall include any restrictions or limitation on  
959.11 the provider's license. The failure of the facility to comply with any restrictions or limitations  
959.12 shall result in the immediate removal of the stay and the commissioner shall take immediate  
959.13 action to suspend, revoke, or not renew the license.

959.14 Subd. 14. **Relicensing.** If a facility license is revoked, a new application for license may  
959.15 be considered by the commissioner when the conditions upon which the revocation was  
959.16 based have been corrected and satisfactory evidence of this fact has been furnished to the  
959.17 commissioner. A new license may be granted after an inspection has been made and the  
959.18 facility has complied with all provisions of this chapter and adopted rules.

959.19 Subd. 15. **Informal conference.** At any time, the applicant or facility and the  
959.20 commissioner may hold an informal conference to exchange information, clarify issues, or  
959.21 resolve issues.

959.22 Subd. 16. **Injunctive relief.** In addition to any other remedy provided by law, the  
959.23 commissioner may bring an action in district court to enjoin a person who is involved in  
959.24 the management, operation, or control of a facility or an employee of the facility from  
959.25 illegally engaging in activities regulated by sections under this chapter. The commissioner  
959.26 may bring an action under this subdivision in the district court in Ramsey County or in the  
959.27 district in which the facility is located. The court may grant a temporary restraining order  
959.28 in the proceeding if continued activity by the person who is involved in the management,  
959.29 operation, or control of a facility, or by an employee of the facility, would create an imminent  
959.30 risk of harm to a resident.

959.31 Subd. 17. **Subpoena.** In matters pending before the commissioner under this chapter,  
959.32 the commissioner may issue subpoenas and compel the attendance of witnesses and the  
959.33 production of all necessary papers, books, records, documents, and other evidentiary material.

960.1 If a person fails or refuses to comply with a subpoena or order of the commissioner to appear  
960.2 or testify regarding any matter about which the person may be lawfully questioned or to  
960.3 produce any papers, books, records, documents, or evidentiary materials in the matter to be  
960.4 heard, the commissioner may apply to the district court in any district, and the court shall  
960.5 order the person to comply with the commissioner's order or subpoena. The commissioner  
960.6 of health may administer oaths to witnesses or take their affirmation. Depositions may be  
960.7 taken in or outside the state in the manner provided by law for taking depositions in civil  
960.8 actions. A subpoena or other process or paper may be served on a named person anywhere  
960.9 in the state by an officer authorized to serve subpoenas in civil actions, with the same fees  
960.10 and mileage and in the same manner as prescribed by law for a process issued out of a  
960.11 district court. A person subpoenaed under this subdivision shall receive the same fees,  
960.12 mileage, and other costs that are paid in proceedings in district court.

960.13 Sec. 34. [144I.34] INNOVATION VARIANCE.

960.14 Subdivision 1. **Definition; granting variances.** (a) For purposes of this section,  
960.15 "innovation variance" means a specified alternative to a requirement of this chapter.

960.16 (b) An innovation variance may be granted to allow a facility to offer services of a type  
960.17 or in a manner that is innovative, will not impair the services provided, will not adversely  
960.18 affect the health, safety, or welfare of the residents, and is likely to improve the services  
960.19 provided. The innovative variance cannot change any of the resident's rights under the  
960.20 assisted living bill of rights under section 144J.02.

960.21 Subd. 2. **Conditions.** The commissioner may impose conditions on granting an innovation  
960.22 variance that the commissioner considers necessary.

960.23 Subd. 3. **Duration and renewal.** The commissioner may limit the duration of any  
960.24 innovation variance and may renew a limited innovation variance.

960.25 Subd. 4. **Applications; innovation variance.** An application for innovation variance  
960.26 from the requirements of this chapter may be made at any time, must be made in writing to  
960.27 the commissioner, and must specify the following:

960.28 (1) the statute or rule from which the innovation variance is requested;

960.29 (2) the time period for which the innovation variance is requested;

960.30 (3) the specific alternative action that the licensee proposes;

960.31 (4) the reasons for the request; and

961.1 (5) justification that an innovation variance will not impair the services provided, will  
961.2 not adversely affect the health, safety, or welfare of residents, and is likely to improve the  
961.3 services provided.

961.4 The commissioner may require additional information from the facility before acting on  
961.5 the request.

961.6 Subd. 5. **Grants and denials.** The commissioner shall grant or deny each request for  
961.7 an innovation variance in writing within 45 days of receipt of a complete request. Notice  
961.8 of a denial shall contain the reasons for the denial. The terms of a requested innovation  
961.9 variance may be modified upon agreement between the commissioner and the facility.

961.10 Subd. 6. **Violation of innovation variances.** A failure to comply with the terms of an  
961.11 innovation variance shall be deemed to be a violation of this chapter.

961.12 Subd. 7. **Revocation or denial of renewal.** The commissioner shall revoke or deny  
961.13 renewal of an innovation variance if:

961.14 (1) it is determined that the innovation variance is adversely affecting the health, safety,  
961.15 or welfare of the residents;

961.16 (2) the facility has failed to comply with the terms of the innovation variance;

961.17 (3) the facility notifies the commissioner in writing that it wishes to relinquish the  
961.18 innovation variance and be subject to the statute previously varied; or

961.19 (4) the revocation or denial is required by a change in law.

961.20 Sec. 35. **[144L.35] RESIDENT QUALITY OF CARE AND OUTCOMES**  
961.21 **IMPROVEMENT TASK FORCE.**

961.22 Subdivision 1. **Establishment.** The commissioner shall establish a resident quality of  
961.23 care and outcomes improvement task force to examine and make recommendations, on an  
961.24 ongoing basis, on how to apply proven safety and quality improvement practices and  
961.25 infrastructure to settings and providers that provide long-term services and supports.

961.26 Subd. 2. **Membership.** The task force shall include representation from:

961.30 health events;

961.31 (3) consumer organizations;

962.8 an assisted living setting and one public member who has or had a family member living  
962.9 in an assisted living setting. The membership shall be voluntary except that public members  
962.10 may be reimbursed under section 15.059, subdivision 3.

962.11 Subd. 3. **Recommendations.** The task force shall periodically provide recommendations  
962.12 to the commissioner and the legislature on changes needed to promote safety and quality  
962.13 improvement practices in long-term care settings and with long-term care providers. The  
962.14 task force shall meet no fewer than four times per year. The task force shall be established

967.10 delivery. Direct care dementia-trained staff and other staff must be trained on the topics  
967.11 identified during the expedited rulemaking process. These requirements are in addition to  
967.12 the licensing requirements for training.

967.13 (b) Failure to comply with paragraph (a) or subdivision 1 will result in a fine under  
967.14 section 144I.31.

981.19 a follow-up survey within 90 calendar days of the survey. When conducting a follow-up  
981.20 survey, the surveyor will focus on whether the previous violations have been corrected and  
981.21 may also address any new violations that are observed while evaluating the corrections that  
981.22 have been made. ~~If a new violation is identified on a follow-up survey, no fine will be~~  
981.23 ~~imposed unless it is not corrected on the next follow-up survey.~~

981.25 Subd. 11. **Fines.** (a) Fines and enforcement actions under this subdivision may be assessed  
981.26 based on the level and scope of the violations described in paragraph ~~(e)~~ (b) and imposed

982.7 (5) for maltreatment violations as defined in section 626.557 including abuse, neglect,  
982.8 financial exploitation, and drug diversion, that are determined against the provider, an  
982.9 immediate fine shall be imposed of \$5,000 per incident plus \$200 for each resident affected  
982.10 by the violation; and

982.11 (6) the fines in clauses (1) to (4) are increased and immediate fine imposition is authorized  
982.12 for both surveys and investigations conducted.

982.13 (b) Correction orders for violations are categorized by both level and scope and fines  
982.14 shall be assessed as follows:

982.15 (1) level of violation:

982.16 (i) Level 1 is a violation that has no potential to cause more than a minimal impact on  
982.17 the client and does not affect health or safety;

982.18 (ii) Level 2 is a violation that did not harm a client's health or safety but had the potential  
982.19 to have harmed a client's health or safety, but was not likely to cause serious injury,  
982.20 impairment, or death;

982.21 (iii) Level 3 is a violation that harmed a client's health or safety, not including serious  
982.22 injury, impairment, or death, or a violation that has the potential to lead to serious injury,  
982.23 impairment, or death; and

982.24 (iv) Level 4 is a violation that results in serious injury, impairment, or death;

982.25 (2) scope of violation:

982.26 (i) isolated, when one or a limited number of clients are affected or one or a limited  
982.27 number of staff are involved or the situation has occurred only occasionally;

982.28 (ii) pattern, when more than a limited number of clients are affected, more than a limited  
982.29 number of staff are involved, or the situation has occurred repeatedly but is not found to be  
982.30 pervasive; and

982.31 (iii) widespread, when problems are pervasive or represent a systemic failure that has  
982.32 affected or has the potential to affect a large portion or all of the clients.

983.1 (c) If the commissioner finds that the applicant or a home care provider ~~required to be~~  
983.2 ~~licensed under sections 144A.43 to 144A.482~~ has not corrected violations by the date  
983.3 specified in the correction order or conditional license resulting from a survey or complaint  
983.4 investigation, the commissioner ~~may impose a fine.~~ A shall provide a notice of  
983.5 noncompliance with a correction order ~~must be mailed~~ by e-mail to the applicant's or  
983.6 provider's last known e-mail address. The noncompliance notice must list the violations not  
983.7 corrected.

983.8 (d) For every violation identified by the commissioner, the commissioner shall issue an  
983.9 immediate fine pursuant to paragraph (a), clause (6). The license holder must still correct  
983.10 the violation in the time specified. The issuance of an immediate fine can occur in addition  
983.11 to any enforcement mechanism authorized under section 144A.475. The immediate fine  
983.12 may be appealed as allowed under this subdivision.

983.13 ~~(d)~~ (e) The license holder must pay the fines assessed on or before the payment date  
983.14 specified. If the license holder fails to fully comply with the order, the commissioner may  
983.15 issue a second fine or suspend the license until the license holder complies by paying the  
983.16 fine. A timely appeal shall stay payment of the fine until the commissioner issues a final  
983.17 order.

983.18 ~~(e)~~ (f) A license holder shall promptly notify the commissioner in writing when a violation  
983.19 specified in the order is corrected. If upon reinspection the commissioner determines that  
983.20 a violation has not been corrected as indicated by the order, the commissioner may issue a  
983.21 second fine. The commissioner shall notify the license holder by mail to the last known  
983.22 address in the licensing record that a second fine has been assessed. The license holder may  
983.23 appeal the second fine as provided under this subdivision.

983.24 ~~(f)~~ (g) A home care provider that has been assessed a fine under this subdivision has a  
983.25 right to a reconsideration or a hearing under this section and chapter 14.

983.26 ~~(g)~~ (h) When a fine has been assessed, the license holder may not avoid payment by  
983.27 closing, selling, or otherwise transferring the licensed program to a third party. In such an  
983.28 event, the license holder shall be liable for payment of the fine.

983.29 ~~(h)~~ (i) In addition to any fine imposed under this section, the commissioner may assess  
983.30 a penalty amount based on costs related to an investigation that results in a final order  
983.31 assessing a fine or other enforcement action authorized by this chapter.

983.32 ~~(i)~~ (j) Fines collected under this subdivision shall be deposited in ~~the state government~~  
983.33 a dedicated special revenue fund and credited to an account separate from the revenue  
983.34 ~~collected under section 144A.472. Subject to an appropriation by the legislature, the revenue~~

984.1 ~~from the fines collected must be used by the commissioner for special projects to improve~~  
984.2 ~~home care in Minnesota as recommended by~~ account. On an annual basis, the balance in  
984.3 the special revenue account shall be appropriated to the commissioner to implement the  
984.4 recommendations of the advisory council established in section 144A.4799. Fines collected  
984.5 in state fiscal years 2018 and 2019 shall be deposited in the dedicated special revenue  
984.6 account as described in this section.

984.7 Sec. 15. Minnesota Statutes 2018, section 144A.475, subdivision 3b, is amended to read:

984.8 Subd. 3b. **Expedited hearing.** (a) Within five business days of receipt of the license  
984.9 holder's timely appeal of a temporary suspension or issuance of a conditional license, the  
984.10 commissioner shall request assignment of an administrative law judge. The request must  
984.11 include a proposed date, time, and place of a hearing. A hearing must be conducted by an  
984.12 administrative law judge pursuant to Minnesota Rules, parts 1400.8505 to 1400.8612, within  
984.13 30 calendar days of the request for assignment, unless an extension is requested by either  
984.14 party and granted by the administrative law judge for good cause. The commissioner shall  
984.15 issue a notice of hearing by certified mail or personal service at least ten business days  
984.16 before the hearing. Certified mail to the last known address is sufficient. The scope of the  
984.17 hearing shall be limited solely to the issue of whether the temporary suspension or issuance  
984.18 of a conditional license should remain in effect and whether there is sufficient evidence to  
984.19 conclude that the licensee's actions or failure to comply with applicable laws are level 3 or  
984.20 4 violations as defined in section 144A.474, subdivision 11, paragraph (b), or that there  
984.21 were violations that posed an imminent risk of harm to the health and safety of persons in  
984.22 the provider's care.

984.23 (b) The administrative law judge shall issue findings of fact, conclusions, and a  
984.24 recommendation within ten business days from the date of hearing. The parties shall have  
984.25 ten calendar days to submit exceptions to the administrative law judge's report. The record  
984.26 shall close at the end of the ten-day period for submission of exceptions. The commissioner's  
984.27 final order shall be issued within ten business days from the close of the record. When an  
984.28 appeal of a temporary immediate suspension or conditional license is withdrawn or dismissed,  
984.29 the commissioner shall issue a final order affirming the temporary immediate suspension  
984.30 or conditional license within ten calendar days of the commissioner's receipt of the  
984.31 withdrawal or dismissal. The license holder is prohibited from operation during the temporary  
984.32 suspension period.

984.33 (c) When the final order under paragraph (b) affirms an immediate suspension, and a  
984.34 final licensing sanction is issued under subdivisions 1 and 2 and the licensee appeals that

985.1 sanction, the licensee is prohibited from operation pending a final commissioner's order  
985.2 after the contested case hearing conducted under chapter 14.

985.8 a license must include a plan for transferring affected ~~clients~~ clients' care to other providers  
985.9 by the home care provider, which will be monitored by the commissioner. Within three  
985.10 ~~business~~ calendar days of being notified of the ~~final~~ revocation, refusal to renew, or  
985.11 ~~suspension action,~~ the home care provider shall provide the commissioner, the lead agencies  
985.12 as defined in section 256B.0911, county adult protection and case managers, and the  
985.13 ombudsman for long-term care with the following information:

985.14 (1) a list of all clients, including full names and all contact information on file;

985.16 and all contact information on file;

985.17 (3) the location or current residence of each client;

985.18 (4) the payor sources for each client, including payor source identification numbers; and

985.19 (5) for each client, a copy of the client's service plan, and a list of the types of services  
985.20 being provided.

985.21 (b) The revocation, refusal to renew, or suspension notification requirement is satisfied  
985.22 by mailing the notice to the address in the license record. The home care provider shall  
985.23 cooperate with the commissioner and the lead agencies, county adult protection and county  
985.24 managers, and the ombudsman for long term care during the process of transferring care of  
985.25 clients to qualified providers. Within three ~~business~~ calendar days of being notified of the

985.27 and disclose to each of the home care provider's clients, or the client's representative or  
985.28 emergency contact persons, that the commissioner is taking action against the home care  
985.29 provider's license by providing a copy of the revocation, refusal to renew, or suspension  
985.30 notice issued by the commissioner. If the provider does not comply with the disclosure  
985.31 requirements in this section, the commissioner shall notify the clients, client representatives,  
985.32 or emergency contact persons about the action being taken. Lead agencies, county adult  
985.33 protection and county managers, and the Office of Ombudsman for Long-Term Care may

986.1 also provide this information. The revocation, refusal to renew, or suspension notice is  
986.2 public data except for any private data contained therein.

986.3 (c) A home care provider subject to this subdivision may continue operating during the  
986.4 period of time home care clients are being transferred to other providers.

986.5 Sec. 17. Minnesota Statutes 2018, section 144A.476, subdivision 1, is amended to read:

986.7 the commissioner issues a temporary license, issues a license as a result of an approved  
986.8 change in ownership, or renews a license, an owner or managerial official is required to  
986.9 complete a background study under section 144.057. No person may be involved in the  
986.10 management, operation, or control of a home care provider if the person has been disqualified  
986.11 under chapter 245C. If an individual is disqualified under section 144.057 or chapter 245C,  
986.12 the individual may request reconsideration of the disqualification. If the individual requests  
986.13 reconsideration and the commissioner sets aside or rescinds the disqualification, the individual  
986.14 is eligible to be involved in the management, operation, or control of the provider. If an  
986.15 individual has a disqualification under section 245C.15, subdivision 1, and the disqualification  
986.16 is affirmed, the individual's disqualification is barred from a set aside, and the individual  
986.17 must not be involved in the management, operation, or control of the provider.

986.18 (b) For purposes of this section, owners of a home care provider subject to the background  
986.19 check requirement are those individuals whose ownership interest provides sufficient  
986.20 authority or control to affect or change decisions related to the operation of the home care  
986.21 provider. An owner includes a sole proprietor, a general partner, or any other individual  
986.22 whose individual ownership interest can affect the management and direction of the policies  
986.23 of the home care provider.

986.24 (c) For the purposes of this section, managerial officials subject to the background check  
986.25 requirement are individuals who provide direct contact as defined in section 245C.02,  
986.26 subdivision 11, or individuals who have the responsibility for the ongoing management or  
986.27 direction of the policies, services, or employees of the home care provider. Data collected  
986.28 under this subdivision shall be classified as private data on individuals under section 13.02,  
986.29 subdivision 12.

986.30 (d) The department shall not issue any license if the applicant or owner or managerial  
986.31 official has been unsuccessful in having a background study disqualification set aside under  
986.32 section 144.057 and chapter 245C; if the owner or managerial official, as an owner or  
986.33 managerial official of another home care provider, was substantially responsible for the  
986.34 other home care provider's failure to substantially comply with sections 144A.43 to

987.1 144A.482; or if an owner that has ceased doing business, either individually or as an owner  
987.2 of a home care provider, was issued a correction order for failing to assist clients in violation  
987.3 of this chapter.

987.4 Sec. 18. Minnesota Statutes 2018, section 144A.4791, subdivision 10, is amended to read:

987.7 shall provide the client and the client's representative, if any, with a 30-day written notice  
987.8 of termination which includes the following information:

987.9 (1) the effective date of termination;

987.10 (2) the reason for termination;

987.11 (3) a list of known licensed home care providers in the client's immediate geographic  
987.12 area;

987.13 (4) a statement that the home care provider will participate in a coordinated transfer of  
987.14 care of the client to another home care provider, health care provider, or caregiver, as  
987.15 required by the home care bill of rights, section 144A.44, subdivision 1, clause (17);

987.16 (5) the name and contact information of a person employed by the home care provider  
987.17 with whom the client may discuss the notice of termination; and

987.18 (6) if applicable, a statement that the notice of termination of home care services does  
987.19 not constitute notice of termination of the housing with services contract with a housing  
987.20 with services establishment.

987.21 (b) When the home care provider voluntarily discontinues services to all clients, the  
987.22 home care provider must notify the commissioner, lead agencies, and ombudsman for  
987.23 long-term care about its clients and comply with the requirements in this subdivision.

987.24 Sec. 19. Minnesota Statutes 2018, section 144A.4799, is amended to read:

**62A.021 HEALTH CARE POLICY RATES.**

Subdivision 1. **Loss ratio standards.** (a) Notwithstanding section 62A.02, subdivision 3, relating to loss ratios, and except as otherwise authorized by section 62A.02, subdivision 3a, for individual policies or certificates, health care policies or certificates shall not be delivered or issued for delivery to an individual or to a small employer as defined in section 62L.02, unless the policies or certificates can be expected, as estimated for the entire period for which rates are computed to provide coverage, to return to Minnesota policyholders and certificate holders in the form of aggregate benefits not including anticipated refunds or credits, provided under the policies or certificates, (1) at least 75 percent of the aggregate amount of premiums earned in the case of policies issued in the small employer market, as defined in section 62L.02, subdivision 27, calculated on an aggregate basis; and (2) at least 65 percent of the aggregate amount of premiums earned in the case of each policy form or certificate form issued in the individual market; calculated on the basis of incurred claims experience or incurred health care expenses where coverage is provided by a health maintenance organization on a service rather than reimbursement basis and earned premiums for the period and according to accepted actuarial principles and practices. Assessments by the reinsurance association created in chapter 62L and all types of taxes, surcharges, or assessments created by Laws 1992, chapter 549, or created on or after April 23, 1992, are included in the calculation of incurred claims experience or incurred health care expenses. The applicable percentage for policies and certificates issued in the small employer market, as defined in section 62L.02, increases by one percentage point on July 1 of each year, beginning on July 1, 1994, until an 82 percent loss ratio is reached on July 1, 2000. The applicable percentage for policy forms and certificate forms issued in the individual market increases by one percentage point on July 1 of each year, beginning on July 1, 1994, until a 72 percent loss ratio is reached on July 1, 2000. A health carrier that enters a market after July 1, 1993, does not start at the beginning of the phase-in schedule and must instead comply with the loss ratio requirements applicable to other health carriers in that market for each time period. Premiums earned and claims incurred in markets other than the small employer and individual markets are not relevant for purposes of this section.

(b) All filings of rates and rating schedules shall demonstrate that actual expected claims in relation to premiums comply with the requirements of this section when combined with actual experience to date. Filings of rate revisions shall also demonstrate that the anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage can be expected to meet the appropriate loss ratio standards, and aggregate loss ratio from inception of the policy form or certificate form shall equal or exceed the appropriate loss ratio standards.

(c) A health carrier that issues health care policies and certificates to individuals or to small employers, as defined in section 62L.02, in this state shall file annually its rates, rating schedule, and supporting documentation including ratios of incurred losses to earned premiums by policy form or certificate form duration for approval by the commissioner according to the filing requirements and procedures prescribed by the commissioner. The supporting documentation shall also demonstrate in accordance with actuarial standards of practice using reasonable assumptions that the appropriate loss ratio standards can be expected to be met over the entire period for which rates are computed. The demonstration shall exclude active life reserves. If the data submitted does not confirm that the health carrier has satisfied the loss ratio requirements of this section, the commissioner shall notify the health carrier in writing of the deficiency. The health carrier shall have 30 days from the date of the commissioner's notice to file amended rates that comply with this section. If the health carrier fails to file amended rates within the prescribed time, the commissioner shall order that the health carrier's filed rates for the nonconforming policy form or certificate form be reduced to an amount that would have resulted in a loss ratio that complied with this section had it been in effect for the reporting period of the supplement. The health carrier's failure to file amended rates within the specified time or the issuance of the commissioner's order amending the rates does not preclude the health carrier from filing an amendment of its rates at a later time. The commissioner shall annually make the submitted data available to the public at a cost not to exceed the cost of copying. The data must be compiled in a form useful for consumers who wish to compare premium charges and loss ratios.

(d) Each sale of a policy or certificate that does not comply with the loss ratio requirements of this section is an unfair or deceptive act or practice in the business of insurance and is subject to the penalties in sections 72A.17 to 72A.32.

(e)(1) For purposes of this section, health care policies issued as a result of solicitations of individuals through the mail or mass media advertising, including both print and broadcast advertising, shall be treated as individual policies.

APPENDIX  
Repealed Minnesota Statutes: H2414-1

(2) For purposes of this section, (i) "health care policy" or "health care certificate" is a health plan as defined in section 62A.011; and (ii) "health carrier" has the meaning given in section 62A.011 and includes all health carriers delivering or issuing for delivery health care policies or certificates in this state or offering these policies or certificates to residents of this state.

(f) The loss ratio phase-in as described in paragraph (a) does not apply to individual policies and small employer policies issued by a health plan company that is assessed less than three percent of the total annual amount assessed by the Minnesota Comprehensive Health Association. These policies must meet a 68 percent loss ratio for individual policies, a 71 percent loss ratio for small employer policies with fewer than ten employees, and a 75 percent loss ratio for all other small employer policies.

(g) Notwithstanding paragraphs (a) and (f), the loss ratio shall be 60 percent for a health plan as defined in section 62A.011, offered by an insurance company licensed under chapter 60A that is assessed less than ten percent of the total annual amount assessed by the Minnesota Comprehensive Health Association. For purposes of the percentage calculation of the association's assessments, an insurance company's assessments include those of its affiliates.

(h) The commissioners of commerce and health shall each annually issue a public report listing, by health plan company, the actual loss ratios experienced in the individual and small employer markets in this state by the health plan companies that the commissioners respectively regulate. The commissioners shall coordinate release of these reports so as to release them as a joint report or as separate reports issued the same day. The report or reports shall be released no later than June 1 for loss ratios experienced for the preceding calendar year. Health plan companies shall provide to the commissioners any information requested by the commissioners for purposes of this paragraph.

**Subd. 3. Loss ratio disclosure.** (a) Each health care policy form or health care certificate form for which subdivision 1 requires compliance with a loss ratio requirement shall prominently display the disclosure provided in paragraph (b) on its declarations sheet if it has one and, if not, on its front page. The disclosure must also be prominently displayed in any marketing materials used in connection with it.

(b) The disclosure must be in the following format:

Notice: This disclosure is required by Minnesota law. This policy or certificate is expected to return on average (fill in anticipated loss ratio approved by the commissioner) percent of your premium dollar for health care. The lowest percentage permitted by state law for this policy or certificate is (fill in applicable minimum loss ratio).

(c) This subdivision applies to policies and certificates issued on or after January 1, 1998.

### **119B.125 PROVIDER REQUIREMENTS.**

**Subd. 8. Overpayment claim for failure to comply with access to records requirement.** (a) In establishing an overpayment claim under subdivision 6 for failure to provide access to attendance records, the county or commissioner is limited to the six years prior to the date the county or the commissioner requested the attendance records.

(b) When the commissioner or county establishes an overpayment claim against a current or former provider, the commissioner or county must provide notice of the claim to the provider. A notice of overpayment claim must specify the reason for the overpayment, the authority for making the overpayment claim, the time period in which the overpayment occurred, the amount of the overpayment, and the provider's right to appeal.

(c) The commissioner or county may seek to recover overpayments paid to a current or former provider. When a provider has been convicted of fraud under section 256.98, theft under section 609.52, or a federal crime relating to theft of state funds or fraudulent billing for a program administered by the commissioner or a county, recovery may be sought regardless of the amount of overpayment.

### **119B.16 FAIR HEARING PROCESS.**

**Subd. 2. Informal conference.** The county agency shall offer an informal conference to applicants and recipients adversely affected by an agency action to attempt to resolve the dispute. The county agency shall offer an informal conference to providers to whom the county agency has assigned responsibility for an overpayment in an attempt to resolve the dispute. The county agency or the provider may ask the family in whose case the overpayment arose to participate in the informal conference, but the family may refuse to do so. The county agency shall advise adversely affected

applicants, recipients, and providers that a request for a conference with the agency is optional and does not delay or replace the right to a fair hearing.

**144.414 PROHIBITIONS.**

Subd. 5. **Electronic cigarettes.** (a) The use of electronic cigarettes, including the inhaling or exhaling of vapor from any electronic delivery device, as defined in section 609.685, subdivision 1, is prohibited in the following locations:

(1) any building owned or operated by the state, home rule charter or statutory city, county, township, school district, or other political subdivision;

(2) any facility owned by Minnesota State Colleges and Universities and the University of Minnesota;

(3) any facility licensed by the commissioner of human services; or

(4) any facility licensed by the commissioner of health, but only if the facility is also subject to federal licensing requirements.

(b) Nothing in this subdivision shall prohibit political subdivisions or businesses from adopting more stringent prohibitions on the use of electronic cigarettes or electronic delivery devices.

**144A.071 MORATORIUM ON CERTIFICATION OF NURSING HOME BEDS.**

Subd. 4d. **Consolidation of nursing facilities.** (a) The commissioner of health, in consultation with the commissioner of human services, may approve a request for consolidation of nursing facilities which includes the closure of one or more facilities and the upgrading of the physical plant of the remaining nursing facility or facilities, the costs of which exceed the threshold project limit under subdivision 2, clause (a). The commissioners shall consider the criteria in this section, section 144A.073, and section 256R.40, in approving or rejecting a consolidation proposal. In the event the commissioners approve the request, the commissioner of human services shall calculate an external fixed costs rate adjustment according to clauses (1) to (3):

(1) the closure of beds shall not be eligible for a planned closure rate adjustment under section 256R.40, subdivision 5;

(2) the construction project permitted in this clause shall not be eligible for a threshold project rate adjustment under section 256B.434, subdivision 4f, or a moratorium exception adjustment under section 144A.073; and

(3) the payment rate for external fixed costs for a remaining facility or facilities shall be increased by an amount equal to 65 percent of the projected net cost savings to the state calculated in paragraph (b), divided by the state's medical assistance percentage of medical assistance dollars, and then divided by estimated medical assistance resident days, as determined in paragraph (c), of the remaining nursing facility or facilities in the request in this paragraph. The rate adjustment is effective on the first day of the month of January or July, whichever date occurs first following both the completion of the construction upgrades in the consolidation plan and the complete closure of the facility or facilities designated for closure in the consolidation plan. If more than one facility is receiving upgrades in the consolidation plan, each facility's date of construction completion must be evaluated separately.

(b) For purposes of calculating the net cost savings to the state, the commissioner shall consider clauses (1) to (7):

(1) the annual savings from estimated medical assistance payments from the net number of beds closed taking into consideration only beds that are in active service on the date of the request and that have been in active service for at least three years;

(2) the estimated annual cost of increased case load of individuals receiving services under the elderly waiver;

(3) the estimated annual cost of elderly waiver recipients receiving support under housing support under chapter 256I;

(4) the estimated annual cost of increased case load of individuals receiving services under the alternative care program;

(5) the annual loss of license surcharge payments on closed beds;

APPENDIX  
Repealed Minnesota Statutes: H2414-1

(6) the savings from not paying planned closure rate adjustments that the facilities would otherwise be eligible for under section 256R.40; and

(7) the savings from not paying external fixed costs payment rate adjustments from submission of renovation costs that would otherwise be eligible as threshold projects under section 256B.434, subdivision 4f.

(c) For purposes of the calculation in paragraph (a), clause (3), the estimated medical assistance resident days of the remaining facility or facilities shall be computed assuming 95 percent occupancy multiplied by the historical percentage of medical assistance resident days of the remaining facility or facilities, as reported on the facility's or facilities' most recent nursing facility statistical and cost report filed before the plan of closure is submitted, multiplied by 365.

(d) For purposes of net cost of savings to the state in paragraph (b), the average occupancy percentages will be those reported on the facility's or facilities' most recent nursing facility statistical and cost report filed before the plan of closure is submitted, and the average payment rates shall be calculated based on the approved payment rates in effect at the time the consolidation request is submitted.

(e) To qualify for the external fixed costs payment rate adjustment under this subdivision, the closing facilities shall:

- (1) submit an application for closure according to section 256R.40, subdivision 2; and
- (2) follow the resident relocation provisions of section 144A.161.

(f) The county or counties in which a facility or facilities are closed under this subdivision shall not be eligible for designation as a hardship area under subdivision 3 for five years from the date of the approval of the proposed consolidation. The applicant shall notify the county of this limitation and the county shall acknowledge this in a letter of support.

**144A.441 ASSISTED LIVING BILL OF RIGHTS ADDENDUM.**

Assisted living clients, as defined in section 144G.01, subdivision 3, shall be provided with the home care bill of rights required by section 144A.44, except that the home care bill of rights provided to these clients must include the following provision in place of the provision in section 144A.44, subdivision 1, clause (17):

"(17) the right to reasonable, advance notice of changes in services or charges, including at least 30 days' advance notice of the termination of a service by a provider, except in cases where:

(i) the recipient of services engages in conduct that alters the conditions of employment as specified in the employment contract between the home care provider and the individual providing home care services, or creates an abusive or unsafe work environment for the individual providing home care services;

(ii) an emergency for the informal caregiver or a significant change in the recipient's condition has resulted in service needs that exceed the current service provider agreement and that cannot be safely met by the home care provider; or

(iii) the provider has not received payment for services, for which at least ten days' advance notice of the termination of a service shall be provided."

**144A.442 ASSISTED LIVING CLIENTS; SERVICE TERMINATION.**

If an arranged home care provider, as defined in section 144D.01, subdivision 2a, who is not also Medicare certified terminates a service agreement or service plan with an assisted living client, as defined in section 144G.01, subdivision 3, the home care provider shall provide the assisted living client and the legal or designated representatives of the client, if any, with a written notice of termination which includes the following information:

(1) the effective date of termination;

(2) the reason for termination;

(3) without extending the termination notice period, an affirmative offer to meet with the assisted living client or client representatives within no more than five business days of the date of the termination notice to discuss the termination;

(4) contact information for a reasonable number of other home care providers in the geographic area of the assisted living client, as required by section 144A.4791, subdivision 10;

APPENDIX  
Repealed Minnesota Statutes: H2414-1

(5) a statement that the provider will participate in a coordinated transfer of the care of the client to another provider or caregiver, as required by section 144A.44, subdivision 1, clause (18);

(6) the name and contact information of a representative of the home care provider with whom the client may discuss the notice of termination;

(7) a copy of the home care bill of rights; and

(8) a statement that the notice of termination of home care services by the home care provider does not constitute notice of termination of the housing with services contract with a housing with services establishment.

**144A.45 REGULATION OF HOME CARE SERVICES.**

Subd. 6. **Home care providers; tuberculosis prevention and control.** (a) A home care provider must establish and maintain a comprehensive tuberculosis infection control program according to the most current tuberculosis infection control guidelines issued by the United States Centers for Disease Control and Prevention (CDC), Division of Tuberculosis Elimination, as published in CDC's Morbidity and Mortality Weekly Report (MMWR). This program must include a tuberculosis infection control plan that covers all paid and unpaid employees, contractors, students, and volunteers. The Department of Health shall provide technical assistance regarding implementation of the guidelines.

(b) Written compliance with this subdivision must be maintained by the home care provider.

**144A.472 HOME CARE PROVIDER LICENSE; APPLICATION AND RENEWAL.**

Subd. 4. **Multiple units.** Multiple units or branches of a licensee must be separately licensed if the commissioner determines that the units cannot adequately share supervision and administration of services from the main office.

An establishment that meets all the requirements of this chapter except that fewer than 80 percent of the adult residents are age 55 or older, or a supportive housing establishment developed and funded in whole or in part with funds provided specifically as part of the plan to end long-term homelessness required under Laws 2003, chapter 128, article 15, section 9, may, at its option, register as a housing with services establishment.

(2) the name and mailing address of at least one natural person who is authorized to accept service of process on behalf of the entity described in clause (1);

The commissioner shall, upon receipt of information which may indicate the failure of the housing with services establishment, a resident, a resident's representative, or a service provider to comply with a legal requirement to which one or more of them may be subject, make appropriate referrals to other governmental agencies and entities having jurisdiction over the subject matter.

APPENDIX  
Repealed Minnesota Statutes: H2414-1

The commissioner may also make referrals to any public or private agency the commissioner considers available for appropriate assistance to those involved.

The commissioner shall have standing to bring an action for injunctive relief in the district court in the district in which an establishment is located to compel the housing with services establishment to meet the requirements of this chapter or other requirements of the state or of any county or local governmental unit to which the establishment is otherwise subject. Proceedings for securing an injunction may be brought by the commissioner through the attorney general or through the appropriate county attorney. The sanctions in this section do not restrict the availability of other sanctions.

**144D.06 OTHER LAWS.**

In addition to registration under this chapter, a housing with services establishment must comply with chapter 504B and the provisions of section 325F.72, and shall obtain and maintain all other licenses, permits, registrations, or other governmental approvals required of it. A trainer of the requirements under paragraph (b), or a supervisor meeting the requirements in clause (1), must be available for consultation with the new employee until the training requirement is complete. Direct-care employees must have at least two hours of training on topics related to dementia for each 12 months of employment thereafter;

(3) staff who do not provide direct care, including maintenance, housekeeping, and food service staff, must have at least four hours of initial training on topics specified under paragraph (b) within 160 working hours of the employment start date, and must have at least two hours of training on topics related to dementia care for each 12 months of employment thereafter; and

(1) supervisors of direct-care staff must have at least four hours of initial training on topics specified under paragraph (b) within 120 working hours of the employment start date, and must

have at least two hours of training on topics related to dementia care for each 12 months of employment thereafter;

(2) direct-care employees must have completed at least four hours of initial training on topics specified under paragraph (b) within 160 working hours of the employment start date. Until this initial training is complete, an employee must not provide direct care unless there is another employee on site who has completed the initial four hours of training on topics related to dementia care and who can act as a resource and assist if issues arise. A trainer of the requirements under paragraph (b) or supervisor meeting the requirements under paragraph (a), clause (1), must be available for consultation with the new employee until the training requirement is complete. Direct-care employees must have at least two hours of training on topics related to dementia for each 12 months of employment thereafter;

#### **144D.066 ENFORCEMENT OF DEMENTIA CARE TRAINING REQUIREMENTS.**

Subdivision 1. **Enforcement.** (a) The commissioner shall enforce the dementia care training standards for staff working in housing with services settings and for housing managers according to clauses (1) to (3):

(1) for dementia care training requirements in section 144D.065, the commissioner shall review training records as part of the home care provider survey process for direct care staff and supervisors of direct care staff, in accordance with section 144A.474. The commissioner may also request and review training records at any time during the year;

(2) for dementia care training standards in section 144D.065, the commissioner shall review training records for maintenance, housekeeping, and food service staff and other staff not providing direct care working in housing with services settings as part of the housing with services registration application and renewal application process in accordance with section 144D.03. The commissioner may also request and review training records at any time during the year; and

(3) for housing managers, the commissioner shall review the statement verifying compliance with the required training described in section 144D.10, paragraph (d), through the housing with services registration application and renewal application process in accordance with section 144D.03. The commissioner may also request and review training records at any time during the year.

(b) The commissioner shall specify the required forms and what constitutes sufficient training records for the items listed in paragraph (a), clauses (1) to (3).

Subd. 2. **Fines for noncompliance.** (a) Beginning January 1, 2017, the commissioner may impose a \$200 fine for every staff person required to obtain dementia care training who does not have training records to show compliance. For violations of subdivision 1, paragraph (a), clauses (2) and (3), the fine will be imposed on the housing with services registrant and may be appealed under the contested case procedure in section 144A.475, subdivisions 3a, 4, and 7. Prior to imposing the fine, the commissioner must allow two weeks for staff to complete the required training. Fines collected under this section shall be deposited in the state treasury and credited to the state government special revenue fund.

(b) The housing with services registrant and home care provider must allow for the required training as part of employee and staff duties. Imposition of a fine by the commissioner does not negate the need for the required training. Continued noncompliance with the requirements of sections 144D.065 and 144D.10 may result in revocation or nonrenewal of the housing with services registration or home care license. The commissioner shall make public the list of all housing with services establishments that have complied with the training requirements.

Subd. 3. **Technical assistance.** From January 1, 2016, to December 31, 2016, the commissioner shall provide technical assistance instead of imposing fines for noncompliance with the training requirements. During the year of technical assistance, the commissioner shall review the training

records to determine if the records meet the requirements and inform the home care provider. The commissioner shall also provide information about available training resources.

Continuing education earned to maintain a professional license, such as nursing home administrator license, nursing license, social worker license, and real estate license, can be used to complete this requirement.

(b) For managers of establishments identified in section 325F.72, this continuing education must include at least eight hours of documented training on the topics identified in section 144D.065, paragraph (b), within 160 working hours of hire, and two hours of training on these topics for each 12 months of employment thereafter.

(c) For managers of establishments not covered by section 325F.72, but who provide assisted living services under chapter 144G, this continuing education must include at least four hours of documented training on the topics identified in section 144D.065, paragraph (b), within 160 working hours of hire, and two hours of training on these topics for each 12 months of employment thereafter.

(d) A statement verifying compliance with the continuing education requirement must be included in the housing with services establishment's annual registration to the commissioner of health. The establishment must maintain records for at least three years demonstrating that the person primarily responsible for oversight and management of the establishment has attended educational programs as required by this section.

emergency and disaster training are allowed to work only when trained staff are also working on site.

(c) Each registered housing with services location must conduct and document a fire drill or other emergency drill at least every six months. To the extent possible, drills must be coordinated with local fire departments or other community emergency resources.

A person or entity entitled to use the phrase "assisted living" shall use the phrase only in the context of its participation in assisted living that meets the requirements of this chapter. A housing with services establishment offering or providing assisted living that is not made available to residents in all of its housing units shall identify the number or location of the units in which assisted living is available, and may not use the term "assisted living" in the name of the establishment registered with the commissioner under chapter 144D, or in the name the establishment uses to identify itself to residents or the public.

Subd. 2. **Authority of commissioner.** (a) The commissioner, upon receipt of information that may indicate the failure of a housing with services establishment, the arranged home care provider, an assisted living client, or an assisted living client's representative to comply with a legal requirement to which one or more of the entities may be subject, shall make appropriate referrals to other governmental agencies and entities having jurisdiction over the subject matter. The commissioner may also make referrals to any public or private agency the commissioner considers available for appropriate assistance to those involved.

This immunity does not apply if the act or omission involves reckless, wanton, or intentional misconduct, or malpractice unrelated to the quality of the cancer drug or supply.

#### **151.60 PHARMACY AUDIT INTEGRITY PROGRAM.**

The pharmacy audit integrity program is established to provide standards for an audit of pharmacy records carried out by a pharmacy benefits manager or any entity that represents pharmacy benefits managers.

#### **151.61 DEFINITIONS.**

Subdivision 1. **Scope.** For the purposes of sections 151.60 to 151.70, the following terms have the meanings given.

Subd. 2. **Entity.** "Entity" means a pharmacy benefits manager or any person or organization that represents these companies, groups, or organizations.

Subd. 3. **Pharmacy benefits manager or PBM.** "Pharmacy benefits manager" or "PBM" means a person, business, or other entity that performs pharmacy benefits management. The term includes a person or entity acting for a PBM in a contractual or employment relationship in the performance of pharmacy benefits management.

Subd. 4. **Plan sponsor.** "Plan sponsor" means the employer in the case of an employee benefit plan established or maintained by a single employer, a group purchaser as defined in section 62J.03, subdivision 6, or the employee organization in the case of a plan established or maintained by an

employee organization, an association, joint board trustees, a committee, or other similar group that establishes or maintains the plan.

**151.62 PHARMACY BENEFIT MANAGER CONTRACT.**

An amendment to pharmacy audit terms in a contract between a PBM and a pharmacy must be disclosed to the pharmacy at least 60 days prior to the effective date of the proposed change.

**151.63 PROCEDURE AND PROCESS FOR CONDUCTING AND REPORTING AN AUDIT.**

Subdivision 1. **Audit procedures.** Unless otherwise prohibited by federal requirements or regulations, any entity conducting a pharmacy audit must follow the following procedures.

(1) A pharmacy must be given notice 14 days before an initial on-site audit is conducted.

(2) An audit that involves clinical or professional judgment must be conducted by or in consultation with a licensed pharmacist.

(3) Each pharmacy shall be audited under the same standards and parameters as other similarly situated pharmacies.

Subd. 2. **Audit process.** Unless otherwise prohibited by federal requirements or regulations, for any entity conducting a pharmacy audit the following audit items apply.

(1) The period covered by the audit may not exceed 24 months from the date that the claim was submitted to or adjudicated by the entity, unless a longer period is required under state or federal law.

(2) If an entity uses random sampling as a method for selecting a set of claims for examination, the sample size must be appropriate for a statistically reliable sample. Notwithstanding section 151.69, the auditing entity shall provide the pharmacy a masked list that provides a prescription number or date range that the auditing entity is seeking to audit.

(3) An on-site audit may not take place during the first five business days of the month unless consented to by the pharmacy.

(4) Auditors may not enter the pharmacy area unless escorted where patient-specific information is available and to the extent possible must be out of sight and hearing range of the pharmacy customers.

(5) Any recoupment will not be deducted against future remittances until after the appeals process and both parties have received the results of the final audit.

(6) A PBM may not require information to be written on a prescription unless the information is required to be written on the prescription by state or federal law. Recoupment may be assessed for items not written on the prescription if:

(i) additional information is required in the provider manual; or

(ii) the information is required by the Food and Drug Administration (FDA); or

(iii) the information is required by the drug manufacturer's product safety program; and

(iv) the information in clause (i), (ii), or (iii) is not readily available for the auditor at the time of the audit.

(7) The auditing company or agent may not receive payment based on a percentage of the amount recovered. This section does not prevent the entity conducting the audit from charging or assessing the responsible party, directly or indirectly, based on amounts recouped if both of the following conditions are met:

(i) the plan sponsor and the entity conducting the audit have a contract that explicitly states the percentage charge or assessment to the plan sponsor; and

(ii) a commission to an agent or employee of the entity conducting the audit is not based, directly or indirectly, on amounts recouped.

**151.64 REQUIREMENTS FOR RECOUPMENT OR CHARGEBACK.**

For recoupment or chargeback, the following criteria apply.

(1) Audit parameters must consider consumer-oriented parameters based on manufacturer listings.

APPENDIX  
Repealed Minnesota Statutes: H2414-1

(2) A pharmacy's usual and customary price for compounded medications is considered the reimbursable cost unless the pricing methodology is outlined in the provider contract.

(3) A finding of overpayment or underpayment must be based on the actual overpayment or underpayment and not a projection based on the number of patients served having a similar diagnosis or on the number of similar orders or refills for similar drugs.

(4) The entity conducting the audit shall not use extrapolation in calculating the recoupment or penalties for audits unless required by state or federal law or regulations.

(5) Calculations of overpayments must not include dispensing fees unless a prescription was not actually dispensed, the prescriber denied authorization, the prescription dispensed was a medication error by the pharmacy, or the identified overpayment is solely based on an extra dispensing fee.

(6) An entity may not consider any clerical or record-keeping error, such as a typographical error, scrivener's error, or computer error regarding a required document or record as fraud, however such errors may be subject to recoupment.

(7) In the case of errors that have no actual financial harm to the patient or plan, the PBM must not assess any chargebacks. Errors that are a result of the pharmacy failing to comply with a formal corrective action plan may be subject to recovery.

(8) Interest may not accrue during the audit period for either party, beginning with the notice of the audit and ending with the final audit report.

**151.65 DOCUMENTATION.**

(a) To validate the pharmacy record and delivery, the pharmacy may use authentic and verifiable statements or records including medication administration records of a nursing home, assisted living facility, hospital, physician, or other authorized practitioner or additional audit documentation parameters located in the provider manual.

(b) Any legal prescription that meets the requirements in this chapter may be used to validate claims in connection with prescriptions, refills, or changes in prescriptions, including medication administration records, faxes, e-prescriptions, or documented telephone calls from the prescriber or the prescriber's agents.

**151.66 APPEALS PROCESS.**

The entity conducting the audit must establish a written appeals process which must include appeals of preliminary reports and final reports.

**151.67 AUDIT INFORMATION AND REPORTS.**

(a) A preliminary audit report must be delivered to the pharmacy within 60 days after the conclusion of the audit.

(b) A pharmacy must be allowed at least 45 days following receipt of the preliminary audit to provide documentation to address any discrepancy found in the audit.

(c) A final audit report must be delivered to the pharmacy within 120 days after receipt of the preliminary audit report or final appeal, whichever is later.

- (1) the names and signatures of the service recipient or recipient's authorized representative, the PCA and any other agency staff present with the PCA during the service verification, and the staff person conducting the service verification; and
- (2) the start and end time, day, month, and year of the service verification, and the corresponding PCA time sheet.

Subd. 4. **Variance.** The Office of Inspector General at the Department of Human Services may grant a variance to the service verification requirements in this section if an agency uses an electronic monitoring system or other methods that verify a PCA is present at the location where services are provided and is providing services according to the prescribed schedule. A decision to grant or deny a variance request is final and not subject to appeal under chapter 14.

**256B.0943 CHILDREN'S THERAPEUTIC SERVICES AND SUPPORTS.**

Subd. 10. **Service authorization.** Children's therapeutic services and supports are subject to authorization criteria and standards published by the commissioner according to section 256B.0625, subdivision 25.

**256B.0944 CHILDREN'S MENTAL HEALTH CRISIS RESPONSE SERVICES.**

Subd. 10. **Client record.** The provider must maintain a file for each client that complies with the requirements under section 256B.0943, subdivision 11, and contains the following information:

- (1) individual crisis treatment plans signed by the recipient, mental health professional, and mental health practitioner who developed the crisis treatment plan, or if the recipient refused to sign the plan, the date and reason stated by the recipient for not signing the plan;
- (2) signed release of information forms;
- (3) recipient health information and current medications;
- (4) emergency contacts for the recipient;
- (5) case records that document the date of service, place of service delivery, signature of the person providing the service, and the nature, extent, and units of service. Direct or telephone contact with the recipient's family or others should be documented;
- (6) required clinical supervision by mental health professionals;
- (7) summary of the recipient's case reviews by staff; and
- (8) any written information by the recipient that the recipient wants in the file.

**256B.0946 INTENSIVE TREATMENT IN FOSTER CARE.**

Subd. 5. **Service authorization.** The commissioner will administer authorizations for services under this section in compliance with section 256B.0625, subdivision 25.

**256B.0947 INTENSIVE REHABILITATIVE MENTAL HEALTH SERVICES.**

Subd. 9. **Service authorization.** The commissioner shall publish prior authorization criteria and standards to be used for intensive nonresidential rehabilitative mental health services, as provided in section 256B.0625, subdivision 25.

**256B.431 RATE DETERMINATION.**

Subd. 3a. **Property-related costs after July 1, 1985.** (a) For rate years beginning on or after July 1, 1985, the commissioner, by permanent rule, shall reimburse nursing facility providers that are vendors in the medical assistance program for the rental use of real estate and depreciable equipment. "Real estate" means land improvements, buildings, and attached fixtures used directly for resident care. "Depreciable equipment" means the standard movable resident care equipment and support service equipment generally used in long-term care facilities.

(b) In developing the method for determining payment rates for the rental use of nursing facilities, the commissioner shall consider factors designed to:

- (1) simplify the administrative procedures for determining payment rates for property-related costs;
- (2) minimize discretionary or appealable decisions;
- (3) eliminate any incentives to sell nursing facilities;
- (4) recognize legitimate costs of preserving and replacing property;
- (5) recognize the existing costs of outstanding indebtedness allowable under the statutes and rules in effect on May 1, 1983;
- (6) address the current value of, if used directly for patient care, land improvements, buildings, attached fixtures, and equipment;
- (7) establish an investment per bed limitation;
- (8) reward efficient management of capital assets;
- (9) provide equitable treatment of facilities;

APPENDIX  
Repealed Minnesota Statutes: H2414-1

(10) consider a variable rate; and

(11) phase-in implementation of the rental reimbursement method.

(c) For rate years beginning on or after July 1, 1987, a nursing facility which has reduced licensed bed capacity after January 1, 1986, shall be allowed to:

(1) aggregate the applicable investment per bed limits based on the number of beds licensed prior to the reduction; and

(2) establish capacity days for each rate year following the licensure reduction based on the number of beds licensed on the previous April 1 if the commissioner is notified of the change by April 4. The notification must include a copy of the delicensure request that has been submitted to the commissioner of health.

(d) For rate years beginning on or after July 1, 1989, the interest expense that results from a refinancing of a nursing facility's demand call loan, when the loan that must be refinanced was incurred before May 22, 1983, is an allowable interest expense if:

(1) the demand call loan or any part of it was in the form of a loan that was callable at the demand of the lender;

(2) the demand call loan or any part of it was called by the lender through no fault of the nursing facility;

(3) the demand call loan or any part of it was made by a government agency operating under a statutory or regulatory loan program;

(4) the refinanced debt does not exceed the sum of the allowable remaining balance of the demand call loan at the time of payment on the demand call loan and refinancing costs;

(5) the term of the refinanced debt does not exceed the remaining term of the demand call loan, had the debt not been subject to an on-call payment demand; and

(6) the refinanced debt is not a debt between related organizations as defined in Minnesota Rules, part 9549.0020, subpart 38.

Subd. 3f. **Property costs after July 1, 1988.** (a) For the rate year beginning July 1, 1988, the replacement-cost-new per bed limit must be \$32,571 per licensed bed in multiple bedrooms and \$48,857 per licensed bed in a single bedroom. For the rate year beginning July 1, 1989, the replacement-cost-new per bed limit for a single bedroom must be \$49,907 adjusted according to Minnesota Rules, part 9549.0060, subpart 4, item A, subitem (1). Beginning January 1, 1990, the replacement-cost-new per bed limits must be adjusted annually as specified in Minnesota Rules, part 9549.0060, subpart 4, item A, subitem (1). Beginning January 1, 1991, the replacement-cost-new per bed limits will be adjusted annually as specified in Minnesota Rules, part 9549.0060, subpart 4, item A, subitem (1), except that the index utilized will be the Bureau of Economic Analysis: Price Indexes for Private Fixed Investments in Structures; Special Care.

(b) For the rate year beginning July 1, 1988, the commissioner shall increase the rental factor as established in Minnesota Rules, part 9549.0060, subpart 8, item A, by 6.2 percent rounded to the nearest 100th percent for the purpose of reimbursing nursing facilities for soft costs and entrepreneurial profits not included in the cost valuation services used by the state's contracted appraisers. For rate years beginning on or after July 1, 1989, the rental factor is the amount determined under this paragraph for the rate year beginning July 1, 1988.

(c) For rate years beginning on or after July 1, 1988, in order to determine property-related payment rates under Minnesota Rules, part 9549.0060, for all nursing facilities except those whose average length of stay in a skilled level of care within a nursing facility is 180 days or less, the commissioner shall use 95 percent of capacity days. For a nursing facility whose average length of stay in a skilled level of care within a nursing facility is 180 days or less, the commissioner shall use the greater of resident days or 80 percent of capacity days but in no event shall the divisor exceed 95 percent of capacity days.

(d) For rate years beginning on July 1, 1988, and July 1, 1989, the commissioner shall add ten cents per resident per day to each nursing facility's property-related payment rate. The ten-cent property-related payment rate increase is not cumulative from rate year to rate year. For the rate year beginning July 1, 1990, the commissioner shall increase each nursing facility's equipment allowance as established in Minnesota Rules, part 9549.0060, subpart 10, by ten cents per resident per day. For rate years beginning on or after July 1, 1991, the adjusted equipment allowance must

APPENDIX  
Repealed Minnesota Statutes: H2414-1

be adjusted annually for inflation as in Minnesota Rules, part 9549.0060, subpart 10, item E. For the rate period beginning October 1, 1992, the equipment allowance for each nursing facility shall be increased by 28 percent. For rate years beginning after June 30, 1993, the allowance must be adjusted annually for inflation.

(e) For rate years beginning on or after July 1, 1990, Minnesota Rules, part 9549.0060, subpart 5, item E, shall not apply to outstanding related organization debt incurred prior to May 23, 1983, provided that the debt was an allowable debt under Minnesota Rules, parts 9510.0010 to 9510.0480, the debt is subject to repayment through annual principal payments, and the nursing facility demonstrates to the commissioner's satisfaction that the interest rate on the debt was less than market interest rates for similar arm's-length transactions at the time the debt was incurred. If the debt was incurred due to a sale between family members, the nursing facility must also demonstrate that the seller no longer participates in the management or operation of the nursing facility. Debts meeting the conditions of this paragraph are subject to all other provisions of Minnesota Rules, parts 9549.0010 to 9549.0080.

(f) For rate years beginning on or after July 1, 1990, a nursing facility with operating lease costs incurred for the nursing facility's buildings shall receive its building capital allowance computed in accordance with Minnesota Rules, part 9549.0060, subpart 8. If an operating lease provides that the lessee's rent is adjusted to recognize improvements made by the lessor and related debt, the costs for capital improvements and related debt shall be allowed in the computation of the lessee's building capital allowance, provided that reimbursement for these costs under an operating lease shall not exceed the rate otherwise paid.

**Subd. 3g. Property costs after July 1, 1990, for certain facilities.** (a) For rate years beginning on or after July 1, 1990, nursing facilities that, on or after January 1, 1976, but prior to January 1, 1987, were newly licensed after new construction, or increased their licensed beds by a minimum of 35 percent through new construction, and whose building capital allowance is less than their allowable annual principal and interest on allowable debt prior to the application of the replacement-cost-new per bed limit and whose remaining weighted average debt amortization schedule as of January 1, 1988, exceeded 15 years, must receive a property-related payment rate equal to the greater of their rental per diem or their annual allowable principal and allowable interest without application of the replacement-cost-new per bed limit, divided by their capacity days as determined under Minnesota Rules, part 9549.0060, subpart 11, as modified by subdivision 3f, paragraph (c), for the preceding reporting year, plus their equipment allowance. A nursing facility that is eligible for a property-related payment rate under this subdivision and whose property-related payment rate in a subsequent rate year is its rental per diem must continue to have its property-related payment rates established for all future rate years based on the rental reimbursement method in Minnesota Rules, part 9549.0060.

The commissioner may require the nursing facility to apply for refinancing as a condition of receiving special rate treatment under this subdivision.

(b) If a nursing facility is eligible for a property-related payment rate under this subdivision, and the nursing facility's debt is refinanced after October 1, 1988, the provisions in paragraphs (1) to (7) also apply to the property-related payment rate for rate years beginning on or after July 1, 1990.

(1) A nursing facility's refinancing must not include debts with balloon payments.

(2) If the issuance costs, including issuance costs on the debt refinanced, are financed as part of the refinancing, the historical cost of capital assets limit in Minnesota Rules, part 9549.0060, subpart 5, item A, subitem (6), includes issuance costs that do not exceed seven percent of the debt refinanced, plus the related issuance costs. For purposes of this paragraph, issuance costs means the fees charged by the underwriter, issuer, attorneys, bond raters, appraisers, and trustees, and includes the cost of printing, title insurance, registration tax, and a feasibility study for the refinancing of a nursing facility's debt. Issuance costs do not include bond premiums or discounts when bonds are sold at other than their par value, points, or a bond reserve fund. To the extent otherwise allowed under this paragraph, the straight-line amortization of the refinancing issuance costs is not an allowable cost.

(3) The annual principal and interest expense payments and any required annual municipal fees on the nursing facility's refinancing replace those of the refinanced debt and, together with annual principal and interest payments on other allowable debts, are allowable costs subject to the limitation on historical cost of capital assets plus issuance costs as limited in paragraph (2), if any.

APPENDIX  
Repealed Minnesota Statutes: H2414-1

(4) If the nursing facility's refinancing includes zero coupon bonds, the commissioner shall establish a monthly debt service payment schedule based on an annuity that will produce an amount equal to the zero coupon bonds at maturity. The term and interest rate is the term and interest rate of the zero coupon bonds. Any refinancing to repay the zero coupon bonds is not an allowable cost.

(5) The annual amount of annuity payments is added to the nursing facility's allowable annual principal and interest payment computed in paragraph (3).

(6) The property-related payment rate is equal to the amount in paragraph (5), divided by the nursing facility's capacity days as determined under Minnesota Rules, part 9549.0060, subpart 11, as modified by subdivision 3f, paragraph (c), for the preceding reporting year plus an equipment allowance.

(7) Except as provided in this subdivision, the provisions of Minnesota Rules, part 9549.0060 apply.

**Subd. 3i. Property costs for the rate year beginning July 1, 1990.** Notwithstanding Minnesota Rules, part 9549.0060, subpart 13, item H, the commissioner shall determine property-related payment rates for nursing facilities for the rate year beginning July 1, 1990, as follows:

(a) The property-related payment rate for a nursing facility that qualifies under subdivision 3g is the greater of the rate determined under that subdivision or the rate determined under paragraph (c), (d), or (e), whichever is applicable.

(b) Nursing facilities shall be grouped according to the type of property-related payment rate the commissioner determined for the rate year beginning July 1, 1989. A nursing facility whose property-related payment rate was determined under Minnesota Rules, part 9549.0060, subpart 13, item A (full rental reimbursement), shall be considered group A. A nursing facility whose property-related payment rate was determined under Minnesota Rules, part 9549.0060, subpart 13, item B (phase-down to full rental reimbursement), shall be considered group B. A nursing facility whose property-related payment rate was determined under Minnesota Rules, part 9549.0060, subpart 13, item C or D (phase-up to full rental reimbursement), shall be considered group C.

(c) For the rate year beginning July 1, 1990, a group A nursing facility shall receive its property-related payment rate determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section.

(d) For the rate year beginning July 1, 1990, a Group B nursing facility shall receive the greater of 87 percent of the property-related payment rate in effect on July 1, 1989; or the rental per diem rate determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section in effect on July 1, 1990; or the sum of 100 percent of the nursing facility's allowable principal and interest expense, plus its equipment allowance multiplied by the resident days for the reporting year ending September 30, 1989, divided by the nursing facility's capacity days as determined under Minnesota Rules, part 9549.0060, subpart 11, as modified by subdivision 3f, paragraph (c); except that the nursing facility's property-related payment rate must not exceed its property-related payment rate in effect on July 1, 1989.

(e) For the rate year beginning July 1, 1990, a group C nursing facility shall receive its property-related payment rate determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section, except the rate must not exceed the lesser of its property-related payment rate determined for the rate year beginning July 1, 1989, multiplied by 116 percent or its rental per diem rate determined effective July 1, 1990.

(f) The property-related payment rate for a nursing facility that qualifies for a rate adjustment under Minnesota Rules, part 9549.0060, subpart 13, item G (special reappraisals), shall have the property-related payment rate determined in paragraphs (a) to (e) adjusted according to the provisions in that rule.

(g) Except as provided in subdivision 4, paragraph (f), and subdivision 11, a nursing facility that has a change in ownership or a reorganization of provider entity is subject to the provisions of Minnesota Rules, part 9549.0060, subpart 13, item F.

**Subd. 10. Property rate adjustments and construction projects.** A nursing facility completing a construction project that is eligible for a rate adjustment under section 256B.434, subdivision 4f, and that was not approved through the moratorium exception process in section 144A.073 must request from the commissioner a property-related payment rate adjustment. The effective date of the rate adjustment is the first of the month of January or July, whichever occurs first following both the construction project's completion date and submission of the provider's rate adjustment

APPENDIX  
Repealed Minnesota Statutes: H2414-1

request. The commissioner shall provide a rate notice reflecting the allowable costs within 60 days after receiving all the necessary information to compute the rate adjustment. No sooner than the effective date of the rate adjustment for the construction project, a nursing facility may adjust its rates by the amount anticipated to be allowed. Any amounts collected from private pay residents in excess of the allowable rate must be repaid to private pay residents with interest at the rate used by the commissioner of revenue for the late payment of taxes and in effect on the date the rate increase is effective. Construction projects with completion dates within one year of the completion date associated with the property rate adjustment request and phased projects with project completion dates within three years of the last phase of the phased project must be aggregated for purposes of the minimum thresholds in subdivisions 16 and 17, and the maximum threshold in section 144A.071, subdivision 2. "Construction project" and "project construction costs" have the meanings given them in section 144A.071, subdivision 1a.

Subd. 13. **Hold-harmless property-related rates.** (a) Terms used in subdivisions 13 to 21 shall be as defined in Minnesota Rules, parts 9549.0010 to 9549.0080, and this section.

(b) Except as provided in this subdivision, for rate periods beginning on October 1, 1992, and for rate years beginning after June 30, 1993, the property-related rate for a nursing facility shall be the greater of \$4 or the property-related payment rate in effect on September 30, 1992. In addition, the incremental increase in the nursing facility's rental rate will be determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section.

(c) Notwithstanding Minnesota Rules, part 9549.0060, subpart 13, item F, a nursing facility that has a sale permitted under subdivision 14 after June 30, 1992, shall receive the property-related payment rate in effect at the time of the sale or reorganization. For rate periods beginning after October 1, 1992, and for rate years beginning after June 30, 1993, a nursing facility shall receive, in addition to its property-related payment rate in effect at the time of the sale, the incremental increase allowed under subdivision 14.

(d) For rate years beginning after June 30, 1993, the property-related rate for a nursing facility licensed after July 1, 1989, after relocating its beds from a separate nursing home to a building formerly used as a hospital and sold during the cost reporting year ending September 30, 1991, shall be its property-related rate prior to the sale in addition to the incremental increases provided under this section effective on October 1, 1992, of 29 cents per day, and any incremental increases after October 1, 1992, calculated by using its rental rate under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section, recognizing the current appraised value of the facility at the new location, and including as allowable debt otherwise allowable debt incurred to remodel the facility in the new location prior to the relocation of beds.

Subd. 15. **Capital repair and replacement cost reporting and rate calculation.** For rate years beginning after June 30, 1993, a nursing facility's capital repair and replacement payment rate shall be established annually as provided in paragraphs (a) to (e).

(a) Notwithstanding Minnesota Rules, part 9549.0060, subpart 12, the costs of any of the following items not included in the equity incentive computations under subdivision 16 or reported as a capital asset addition under subdivision 18, paragraph (b), including cash payment for equity investment and principal and interest expense for debt financing, must be reported in the capital repair and replacement cost category:

- (1) wall coverings;
- (2) paint;
- (3) floor coverings;
- (4) window coverings;
- (5) roof repair; and
- (6) window repair or replacement.

(b) Notwithstanding Minnesota Rules, part 9549.0060, subpart 12, the repair or replacement of a capital asset not included in the equity incentive computations under subdivision 16 or reported as a capital asset addition under subdivision 18, paragraph (b), must be reported under this subdivision when the cost of the item exceeds \$500, or in the plant operations and maintenance cost category when the cost of the item is equal to or less than \$500.

(c) To compute the capital repair and replacement payment rate, the allowable annual repair and replacement costs for the reporting year must be divided by actual resident days for the reporting

APPENDIX  
Repealed Minnesota Statutes: H2414-1

year. The annual allowable capital repair and replacement costs shall not exceed \$150 per licensed bed. The excess of the allowed capital repair and replacement costs over the capital repair and replacement limit shall be a cost carryover to succeeding cost reporting periods, except that sale of a facility, under subdivision 14, shall terminate the carryover of all costs except those incurred in the most recent cost reporting year. The termination of the carryover shall have effect on the capital repair and replacement rate on the same date as provided in subdivision 14, paragraph (f), for the sale. For rate years beginning after June 30, 1994, the capital repair and replacement limit shall be subject to the index provided in subdivision 3f, paragraph (a). For purposes of this subdivision, the number of licensed beds shall be the number used to calculate the nursing facility's capacity days. The capital repair and replacement rate must be added to the nursing facility's total payment rate.

(d) Capital repair and replacement costs under this subdivision shall not be counted as either care-related or other operating costs, nor subject to care-related or other operating limits.

(e) If costs otherwise allowable under this subdivision are incurred as the result of a project approved under the moratorium exception process in section 144A.073, or in connection with an addition to or replacement of buildings, attached fixtures, or land improvements for which the total historical cost of these assets exceeds the lesser of \$150,000 or ten percent of the nursing facility's appraised value, these costs must be claimed under subdivision 16 or 17, as appropriate.

**Subd. 16. Major additions and replacements; equity incentive.** For rate years beginning after June 30, 1993, if a nursing facility acquires capital assets in connection with a project approved under the moratorium exception process in section 144A.073 or in connection with an addition to or replacement of buildings, attached fixtures, or land improvements for which the total historical cost of those capital asset additions exceeds the lesser of \$150,000 or ten percent of the most recent appraised value, the nursing facility shall be eligible for an equity incentive payment rate as in paragraphs (a) to (d). This computation is separate from the determination of the nursing facility's rental rate. An equity incentive payment rate as computed under this subdivision is limited to one in a 12-month period.

(a) An eligible nursing facility shall receive an equity incentive payment rate equal to the allowable historical cost of the capital asset acquired, minus the allowable debt directly identified to that capital asset, multiplied by the equity incentive factor as described in paragraphs (b) and (c), and divided by the nursing facility's occupancy factor under subdivision 3f, paragraph (c). This amount shall be added to the nursing facility's total payment rate and shall be effective the same day as the incremental increase in paragraph (d) or subdivision 17. The allowable historical cost of the capital assets and the allowable debt shall be determined as provided in Minnesota Rules, parts 9549.0010 to 9549.0080, and this section.

(b) The equity incentive factor shall be determined under clauses (1) to (4):

(1) divide the initial allowable debt in paragraph (a) by the initial historical cost of the capital asset additions referred to in paragraph (a), then cube the quotient,

(2) subtract the amount calculated in clause (1) from the number one,

(3) determine the difference between the rental factor and the lesser of two percentage points above the posted yield for standard conventional fixed rate mortgages of the Federal Home Loan Mortgage Corporation as published in the Wall Street Journal and in effect on the first day of the month the debt or cost is incurred, or 16 percent,

(4) multiply the amount calculated in clause (2) by the amount calculated in clause (3).

(c) The equity incentive payment rate shall be limited to the term of the allowable debt in paragraph (a), not greater than 20 years nor less than ten years. If no debt is incurred in acquiring the capital asset, the equity incentive payment rate shall be paid for ten years. The sale of a nursing facility under subdivision 14 shall terminate application of the equity incentive payment rate effective on the date provided in subdivision 14, paragraph (f), for the sale.

(d) A nursing facility with an addition to or a renovation of its buildings, attached fixtures, or land improvements meeting the criteria in this subdivision and not receiving the property-related payment rate adjustment in subdivision 17, shall receive the incremental increase in the nursing facility's rental rate as determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section. The incremental increase shall be added to the nursing facility's property-related payment rate. The effective date of this incremental increase shall be the first day of the month of January or July, whichever occurs first following the date on which the addition or replacement is completed.

APPENDIX  
Repealed Minnesota Statutes: H2414-1

Subd. 17. **Special provisions for moratorium exceptions.** Notwithstanding Minnesota Rules, part 9549.0060, subpart 3, for rate periods beginning on October 1, 1992, and for rate years beginning after June 30, 1993, a nursing facility that (1) has completed a construction project approved under section 144A.071, subdivision 4a, clause (m); (2) has completed a construction project approved under section 144A.071, subdivision 4a, and effective after June 30, 1995; (3) has completed a construction project approved under section 144A.071, subdivision 4c; or (4) has completed a renovation, replacement, or upgrading project approved under the moratorium exception process in section 144A.073 shall be reimbursed for costs directly identified to that project as provided in subdivision 16 and subdivisions 17 to 17f.

Subd. 17a. **Allowable interest expense.** (a) Notwithstanding Minnesota Rules, part 9549.0060, subparts 5, item A, subitems (1) and (3), and 7, item D, allowable interest expense on debt shall include:

(1) interest expense on debt related to the cost of purchasing or replacing depreciable equipment, excluding vehicles, not to exceed ten percent of the total historical cost of the project; and

(2) interest expense on debt related to financing or refinancing costs, including costs related to points, loan origination fees, financing charges, legal fees, and title searches; and issuance costs including bond discounts, bond counsel, underwriter's counsel, corporate counsel, printing, and financial forecasts. Allowable debt related to items in this clause shall not exceed seven percent of the total historical cost of the project. To the extent these costs are financed, the straight-line amortization of the costs in this clause is not an allowable cost; and

(3) interest on debt incurred for the establishment of a debt reserve fund, net of the interest earned on the debt reserve fund.

(b) Debt incurred for costs under paragraph (a) is not subject to Minnesota Rules, part 9549.0060, subpart 5, item A, subitem (5) or (6).

Subd. 17c. **Replacement-costs-new per bed limit.** Notwithstanding subdivision 3f, paragraph (a), for rate periods beginning on October 1, 1992, and for rate years beginning after June 30, 1993, the replacement-costs-new per bed limit to be used in Minnesota Rules, part 9549.0060, subpart 4, item B, for a nursing facility that has completed a renovation, replacement, or upgrading project that has been approved under the moratorium exception process in section 144A.073, or that has completed an addition to or replacement of buildings, attached fixtures, or land improvements for which the total historical cost exceeds the lesser of \$150,000 or ten percent of the most recent appraised value, must be \$47,500 per licensed bed in multiple-bed rooms and \$71,250 per licensed bed in a single-bed room. These amounts must be adjusted annually as specified in subdivision 3f, paragraph (a), beginning January 1, 1993.

Subd. 17d. **Determination of rental per diem for total replacement projects.** (a) For purposes of this subdivision, a total replacement means the complete replacement of the nursing facility's physical plant through the construction of a new physical plant, the transfer of the nursing facility's license from one physical plant location to another, or a new building addition to relocate beds from three- and four-bed wards. For total replacement projects completed on or after July 1, 1992, the commissioner shall compute the incremental change in the nursing facility's rental per diem, for rate years beginning on or after July 1, 1995, by replacing its appraised value, including the historical capital asset costs, and the capital debt and interest costs with the new nursing facility's allowable capital asset costs and the related allowable capital debt and interest costs. If the new nursing facility has decreased its licensed capacity, the aggregate investment per bed limit in subdivision 3a, paragraph (c), shall apply.

(b) If the new nursing facility has retained a portion of the original physical plant for nursing facility usage, then a portion of the appraised value prior to the replacement must be retained and included in the calculation of the incremental change in the nursing facility's rental per diem. For purposes of this subdivision, the original nursing facility means the nursing facility prior to the total replacement project. The portion of the appraised value to be retained shall be calculated according to clauses (1) to (3):

(1) The numerator of the allocation ratio shall be the square footage of the area in the original physical plant which is being retained for nursing facility usage.

(2) The denominator of the allocation ratio shall be the total square footage of the original nursing facility physical plant.

APPENDIX  
Repealed Minnesota Statutes: H2414-1

(3) Each component of the nursing facility's allowable appraised value prior to the total replacement project shall be multiplied by the allocation ratio developed by dividing clause (1) by clause (2).

(c) In the case of either type of total replacement as authorized under section 144A.071 or 144A.073, the provisions of subdivisions 17 to 17f shall also apply.

(d) For purposes of the moratorium exception authorized under section 144A.071, subdivision 4a, paragraph (s), if the total replacement involves the renovation and use of an existing health care facility physical plant, the new allowable capital asset costs and related debt and interest costs shall include first the allowable capital asset costs and related debt and interest costs of the renovation, to which shall be added the allowable capital asset costs of the existing physical plant prior to the renovation, and if reported by the facility, the related allowable capital debt and interest costs.

Subd. 17e. **Replacement-costs-new per bed limit effective October 1, 2007.** Notwithstanding Minnesota Rules, part 9549.0060, subpart 11, item C, subitem (2), for a total replacement, as defined in subdivision 17d, authorized under section 144A.071 or 144A.073 after July 1, 1999, any building project that is a relocation, renovation, upgrading, or conversion completed on or after July 1, 2001, or any building project eligible for reimbursement under section 256B.434, subdivision 4f, the replacement-costs-new per bed limit shall be \$74,280 per licensed bed in multiple-bed rooms, \$92,850 per licensed bed in semiprivate rooms with a fixed partition separating the resident beds, and \$111,420 per licensed bed in single rooms. Minnesota Rules, part 9549.0060, subpart 11, item C, subitem (2), does not apply. These amounts must be adjusted annually as specified in subdivision 3f, paragraph (a), beginning January 1, 2000. These amounts must be increased annually as specified in subdivision 3f, paragraph (a), beginning October 1, 2012.

Subd. 18. **Updating appraisals, additions, and replacements.** (a) Notwithstanding Minnesota Rules, part 9549.0060, subparts 1 to 3, the appraised value, routine updating of the appraised value, and special reappraisals are subject to this subdivision.

For all rate years after June 30, 1993, the commissioner shall no longer conduct any appraisals under Minnesota Rules, part 9549.0060, for the purpose of determining property-related payment rates.

(b) Notwithstanding Minnesota Rules, part 9549.0060, subpart 2, for rate years beginning after June 30, 1993, the commissioner shall routinely update the appraised value of each nursing facility by adding the cost of capital asset acquisitions to its allowable appraised value.

The commissioner shall also annually index each nursing facility's allowable appraised value by the inflation index referenced in subdivision 3f, paragraph (a), for the purpose of computing the nursing facility's annual rental rate. In annually adjusting the nursing facility's appraised value, the commissioner must not include the historical cost of capital assets acquired during the reporting year in the nursing facility's appraised value.

In addition, the nursing facility's appraised value must be reduced by the historical cost of capital asset disposals or applicable credits such as public grants and insurance proceeds. Capital asset additions and disposals must be reported on the nursing facility's annual cost report in the reporting year of acquisition or disposal. The incremental increase in the nursing facility's rental rate resulting from this annual adjustment as determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section shall be added to the nursing facility's property-related payment rate for the rate year following the reporting year.

Subd. 21. **Indexing thresholds.** Beginning January 1, 1993, and each January 1 thereafter, the commissioner shall annually update the dollar thresholds in subdivisions 15, paragraph (e), 16, and 17, and in section 144A.071, subdivisions 2 and 4a, clauses (b) and (e), by the inflation index referenced in subdivision 3f, paragraph (a).

Subd. 22. **Changes to nursing facility reimbursement.** In the determination of incremental increases in the nursing facility's rental rate as required in subdivisions 14 to 21, except for a refinancing permitted under subdivision 19, the commissioner must adjust the nursing facility's property-related payment rate for both incremental increases and decreases in recomputations of its rental rate.

Subd. 30. **Bed layaway and delicensure.** (a) For rate years beginning on or after July 1, 2000, a nursing facility reimbursed under this section which has placed beds on layaway shall, for purposes of application of the downsizing incentive in subdivision 3a, paragraph (c), and calculation of the rental per diem, have those beds given the same effect as if the beds had been delicensed so long as the beds remain on layaway. At the time of a layaway, a facility may change its single bed election

for use in calculating capacity days under Minnesota Rules, part 9549.0060, subpart 11. The property payment rate increase shall be effective the first day of the month of January or July, whichever occurs first following the date on which the layaway of the beds becomes effective under section 144A.071, subdivision 4b.

(b) For rate years beginning on or after July 1, 2000, notwithstanding any provision to the contrary under section 256B.434 or chapter 256R, a nursing facility reimbursed under that section or chapter that has placed beds on layaway shall, for so long as the beds remain on layaway, be allowed to:

(1) aggregate the applicable investment per bed limits based on the number of beds licensed immediately prior to entering the alternative payment system;

(2) retain or change the facility's single bed election for use in calculating capacity days under Minnesota Rules, part 9549.0060, subpart 11; and

(3) establish capacity days based on the number of beds immediately prior to the layaway and the number of beds after the layaway.

The commissioner shall increase the facility's property payment rate by the incremental increase in the rental per diem resulting from the recalculation of the facility's rental per diem applying only the changes resulting from the layaway of beds and clauses (1), (2), and (3). If a facility reimbursed under section 256B.434 or chapter 256R completes a moratorium exception project after its base year, the base year property rate shall be the moratorium project property rate. The base year rate shall be inflated by the factors in section 256B.434, subdivision 4, paragraph (c). The property payment rate increase shall be effective the first day of the month of January or July, whichever occurs first following the date on which the layaway of the beds becomes effective.

(c) If a nursing facility removes a bed from layaway status in accordance with section 144A.071, subdivision 4b, the commissioner shall establish capacity days based on the number of licensed and certified beds in the facility not on layaway and shall reduce the nursing facility's property payment rate in accordance with paragraph (b).

(d) For the rate years beginning on or after July 1, 2000, notwithstanding any provision to the contrary under section 256B.434 or chapter 256R, a nursing facility reimbursed under that section or chapter that has delicensed beds after July 1, 2000, by giving notice of the delicensure to the commissioner of health according to the notice requirements in section 144A.071, subdivision 4b, shall be allowed to:

(1) aggregate the applicable investment per bed limits based on the number of beds licensed immediately prior to entering the alternative payment system;

(2) retain or change the facility's single bed election for use in calculating capacity days under Minnesota Rules, part 9549.0060, subpart 11; and

(3) establish capacity days based on the number of beds immediately prior to the delicensure and the number of beds after the delicensure.

The commissioner shall increase the facility's property payment rate by the incremental increase in the rental per diem resulting from the recalculation of the facility's rental per diem applying only the changes resulting from the delicensure of beds and clauses (1), (2), and (3). If a facility reimbursed under section 256B.434 completes a moratorium exception project after its base year, the base year property rate shall be the moratorium project property rate. The base year rate shall be inflated by the factors in section 256B.434, subdivision 4, paragraph (c). The property payment rate increase shall be effective the first day of the month of January or July, whichever occurs first following the date on which the delicensure of the beds becomes effective.

(e) For nursing facilities reimbursed under this section, section 256B.434, or chapter 256R, any beds placed on layaway shall not be included in calculating facility occupancy as it pertains to leave days defined in Minnesota Rules, part 9505.0415.

(f) For nursing facilities reimbursed under this section, section 256B.434, or chapter 256R, the rental rate calculated after placing beds on layaway may not be less than the rental rate prior to placing beds on layaway.

(g) A nursing facility receiving a rate adjustment as a result of this section shall comply with section 256R.06, subdivision 5.

(h) A facility that does not utilize the space made available as a result of bed layaway or delicensure under this subdivision to reduce the number of beds per room or provide more common space for nursing facility uses or perform other activities related to the operation of the nursing facility shall have its property rate increase calculated under this subdivision reduced by the ratio of the square footage made available that is not used for these purposes to the total square footage made available as a result of bed layaway or delicensure.

Subd. 45. **Rate adjustments for some moratorium exception projects.** Notwithstanding any other law to the contrary, money available for moratorium exception projects under section 144A.073, subdivisions 2 and 11, shall be used to fund the incremental rate increases resulting from this section for any nursing facility with a moratorium exception project approved under section 144A.073, and completed after August 30, 2010, where the replacement-costs-new limits under subdivision 17e were higher at any time after project approval than at the time of project completion. The commissioner shall calculate the property rate increase for these facilities using the highest set of limits; however, any rate increase under this section shall not be effective until on or after the effective date of this section, contingent upon federal approval. No property rate decrease shall result from this section.

#### **256B.434 ALTERNATIVE PAYMENT DEMONSTRATION PROJECT.**

Subd. 4. **Alternate rates for nursing facilities.** Effective for the rate years beginning on and after January 1, 2019, a nursing facility's property payment rate for the second and subsequent years of a facility's contract under this section are the previous rate year's property payment rate plus an inflation adjustment. The index for the inflation adjustment must be based on the change in the Consumer Price Index-All Items (United States City average) (CPI-U) forecasted by the Reports and Forecasts Division of the Department of Human Services, as forecasted in the fourth quarter of the calendar year preceding the rate year. The inflation adjustment must be based on the 12-month period from the midpoint of the previous rate year to the midpoint of the rate year for which the rate is being determined.

Subd. 4f. **Construction project rate adjustments effective October 1, 2006.** (a) Effective October 1, 2006, facilities reimbursed under this section may receive a property rate adjustment for construction projects exceeding the threshold in section 256B.431, subdivision 16, and below the threshold in section 144A.071, subdivision 2, clause (a). For these projects, capital assets purchased shall be counted as construction project costs for a rate adjustment request made by a facility if they are: (1) purchased within 24 months of the completion of the construction project; (2) purchased after the completion date of any prior construction project; and (3) are not purchased prior to July 14, 2005. Except as otherwise provided in this subdivision, the definitions, rate calculation methods, and principles in sections 144A.071 and 256B.431 and Minnesota Rules, parts 9549.0010 to 9549.0080, shall be used to calculate rate adjustments for allowable construction projects under this subdivision and section 144A.073. Facilities completing construction projects between October 1, 2005, and October 1, 2006, are eligible to have a property rate adjustment effective October 1, 2006. Facilities completing projects after October 1, 2006, are eligible for a property rate adjustment effective on the first day of the month following the completion date. Facilities completing projects after January 1, 2018, are eligible for a property rate adjustment effective on the first day of the month of January or July, whichever occurs immediately following the completion date.

(b) Notwithstanding subdivision 18, as of July 14, 2005, facilities with rates set under section 256B.431 and Minnesota Rules, parts 9549.0010 to 9549.0080, that commenced a construction project on or after October 1, 2004, and do not have a contract under subdivision 3 by September 30, 2006, are eligible to request a rate adjustment under section 256B.431, subdivision 10, through September 30, 2006. If the request results in the commissioner determining a rate adjustment is allowable, the rate adjustment is effective on the first of the month following project completion. These facilities shall be allowed to accumulate construction project costs for the period October 1, 2004, to September 30, 2006.

(c) Facilities shall be allowed construction project rate adjustments no sooner than 12 months after completing a previous construction project. Facilities must request the rate adjustment according to section 256B.431, subdivision 10.

(d) Capacity days shall be computed according to Minnesota Rules, part 9549.0060, subpart 11. For rate calculations under this section, the number of licensed beds in the nursing facility shall be the number existing after the construction project is completed and the number of days in the nursing facility's reporting period shall be 365.

APPENDIX  
Repealed Minnesota Statutes: H2414-1

(e) The value of assets to be recognized for a total replacement project as defined in section 256B.431, subdivision 17d, shall be computed as described in clause (1). The value of assets to be recognized for all other projects shall be computed as described in clause (2).

(1) Replacement-cost-new limits under section 256B.431, subdivision 17e, and the number of beds allowed under subdivision 3a, paragraph (c), shall be used to compute the maximum amount of assets allowable in a facility's property rate calculation. If a facility's current request for a rate adjustment results from the completion of a construction project that was previously approved under section 144A.073, the assets to be used in the rate calculation cannot exceed the lesser of the amount determined under sections 144A.071, subdivision 2, and 144A.073, subdivision 3b, or the actual allowable costs of the construction project. A current request that is not the result of a project under section 144A.073 cannot exceed the limit under section 144A.071, subdivision 2, paragraph (a). Applicable credits must be deducted from the cost of the construction project.

(2)(i) Replacement-cost-new limits under section 256B.431, subdivision 17e, and the number of beds allowed under section 256B.431, subdivision 3a, paragraph (c), shall be used to compute the maximum amount of assets allowable in a facility's property rate calculation.

(ii) The value of a facility's assets to be compared to the amount in item (i) begins with the total appraised value from the last rate notice a facility received when its rates were set under section 256B.431 and Minnesota Rules, parts 9549.0010 to 9549.0080. This value shall be indexed by the factor in section 256B.431, subdivision 3f, paragraph (a), for each rate year the facility received an inflation factor on its property-related rate when its rates were set under this section. The value of assets listed as previous capital additions, capital additions, and special projects on the facility's base year rate notice and the value of assets related to a construction project for which the facility received a rate adjustment when its rates were determined under this section shall be added to the indexed appraised value.

(iii) The maximum amount of assets to be recognized in computing a facility's rate adjustment after a project is completed is the lesser of the aggregate replacement-cost-new limit computed in (i) minus the assets recognized in (ii) or the actual allowable costs of the construction project.

(iv) If a facility's current request for a rate adjustment results from the completion of a construction project that was previously approved under section 144A.073, the assets to be added to the rate calculation cannot exceed the lesser of the amount determined under sections 144A.071, subdivision 2, and 144A.073, subdivision 3b, or the actual allowable costs of the construction project. A current request that is not the result of a project under section 144A.073 cannot exceed the limit stated in section 144A.071, subdivision 2, paragraph (a). Assets disposed of as a result of a construction project and applicable credits must be deducted from the cost of the construction project.

(f) For construction projects approved under section 144A.073, allowable debt may never exceed the lesser of the cost of the assets purchased, the threshold limit in section 144A.071, subdivision 2, or the replacement-cost-new limit less previously existing capital debt.

(g) For construction projects that were not approved under section 144A.073, allowable debt is limited to the lesser of the threshold in section 144A.071, subdivision 2, for such construction projects or the applicable limit in paragraph (e), clause (1) or (2), less previously existing capital debt. Amounts of debt taken out that exceed the costs of a construction project shall not be allowed regardless of the use of the funds.

For all construction projects being recognized, interest expense and average debt shall be computed based on the first 12 months following project completion. "Previously existing capital debt" means capital debt recognized on the last rate determined under section 256B.431 and Minnesota Rules, parts 9549.0010 to 9549.0080, and the amount of debt recognized for a construction project for which the facility received a rate adjustment when its rates were determined under this section.

For a total replacement project as defined in section 256B.431, subdivision 17d, the value of previously existing capital debt shall be zero.

(h) In addition to the interest expense allowed from the application of paragraph (f), the amounts allowed under section 256B.431, subdivision 17a, paragraph (a), clauses (2) and (3), will be added to interest expense.

(i) The equity portion of the construction project shall be computed as the allowable assets in paragraph (e), less the average debt in paragraph (f). The equity portion must be multiplied by 5.66

APPENDIX  
Repealed Minnesota Statutes: H2414-1

percent and the allowable interest expense in paragraph (f) must be added. This sum must be divided by 95 percent of capacity days to compute the construction project rate adjustment.

(j) For projects that are not a total replacement of a nursing facility, the amount in paragraph (i) is adjusted for nonreimbursable areas and then added to the current property payment rate of the facility.

(k) For projects that are a total replacement of a nursing facility, the amount in paragraph (i) becomes the new property payment rate after being adjusted for nonreimbursable areas. Any amounts existing in a facility's rate before the effective date of the construction project for equity incentives under section 256B.431, subdivision 16; capital repairs and replacements under section 256B.431, subdivision 15; or refinancing incentives under section 256B.431, subdivision 19, shall be removed from the facility's rates.

(l) No additional equipment allowance is allowed under Minnesota Rules, part 9549.0060, subpart 10, as the result of construction projects under this section. Allowable equipment shall be included in the construction project costs.

(m) Capital assets purchased after the completion date of a construction project shall be counted as construction project costs for any future rate adjustment request made by a facility under section 144A.071, subdivision 2, clause (a), if they are purchased within 24 months of the completion of the future construction project.

(n) In subsequent rate years, the property payment rate for a facility that results from the application of this subdivision shall be the amount inflated in subdivision 4.

(o) Construction projects are eligible for an equity incentive under section 256B.431, subdivision 16. When computing the equity incentive for a construction project under this subdivision, only the allowable costs and allowable debt related to the construction project shall be used. The equity incentive shall not be a part of the property payment rate and not inflated under subdivision 4. Effective October 1, 2006, all equity incentives for nursing facilities reimbursed under this section shall be allowed for a duration determined under section 256B.431, subdivision 16, paragraph (c).

**Subd. 4i. Construction project rate adjustments for certain nursing facilities.** (a) This subdivision applies to nursing facilities with at least 120 active beds as of January 1, 2015, that have projects approved in 2015 under the nursing facility moratorium exception process in section 144A.073. When each facility's moratorium exception construction project is completed, the facility must receive the rate adjustment allowed under subdivision 4f. In addition to that rate adjustment, facilities with at least 120 active beds, but not more than 149 active beds, as of January 1, 2015, must have their construction project rate adjustment increased by an additional \$4; and facilities with at least 150 active beds, but not more than 160 active beds, as of January 1, 2015, must have their construction project rate adjustment increased by an additional \$12.50.

(b) Notwithstanding any other law to the contrary, money available under section 144A.073, subdivision 11, after the completion of the moratorium exception approval process in 2015 under section 144A.073, subdivision 3, shall be used to reduce the fiscal impact to the medical assistance budget for the increases allowed in this subdivision.

**Subd. 4j. Construction project rate increase for certain nursing facilities.** (a) This subdivision applies to nursing facilities:

(1) located in Ramsey County;

(2) with at least 130 active beds as of September 30, 2017;

(3) with a portion of beds dually certified for Medicare and Medicaid and a portion of beds certified for Medicaid only; and

(4) with debt service payments that are not being covered by the existing property payment rate on September 30, 2017.

(b) The commissioner shall increase the property rate of each facility meeting the qualifications of this subdivision by \$7.55.

(c) Notwithstanding any other law to the contrary, money available under section 144A.073, subdivision 15, after the completion of the 2018 moratorium exception approval process under section 144A.073, subdivision 3, shall be used to pay the medical assistance cost for the property rate increase in this subdivision.

Subd. 6. **Contract payment rates; appeals.** If an appeal is pending concerning the cost-based payment rates that are the basis for the calculation of the payment rate under the alternative payment demonstration project, the commissioner and the nursing facility may agree on an interim contract rate to be used until the appeal is resolved. When the appeal is resolved, the contract rate must be adjusted retroactively in accordance with the appeal decision.

Subd. 10. **Exemptions.** A facility that is under contract with the commissioner under this section is not subject to the moratorium on licensure or certification of new nursing home beds in section 144A.071, unless the project results in a net increase in bed capacity or involves relocation of beds from one site to another. Contract payment rates must not be adjusted to reflect any additional costs that a nursing facility incurs as a result of a construction project undertaken under this subdivision. In addition, as a condition of entering into a contract under this section, a nursing facility must agree that any future medical assistance payments for nursing facility services will not reflect any additional costs attributable to the sale of a nursing facility under this section and to construction undertaken under this subdivision that otherwise would not be authorized under the moratorium in section 144A.073. Nothing in this section prevents a nursing facility participating in the alternative payment demonstration project under this section from seeking approval of an exception to the moratorium through the process established in section 144A.073, and if approved the facility's rates shall be adjusted to reflect the cost of the project. Nothing in this section prevents a nursing facility participating in the alternative payment demonstration project from seeking legislative approval of an exception to the moratorium under section 144A.071, and, if enacted, the facility's rates shall be adjusted to reflect the cost of the project.

#### **256B.4913 PAYMENT METHODOLOGY DEVELOPMENT.**

Subd. 4a. **Rate stabilization adjustment.** (a) For purposes of this subdivision, "implementation period" means the period beginning January 1, 2014, and ending on the last day of the month in which the rate management system is populated with the data necessary to calculate rates for substantially all individuals receiving home and community-based waiver services under sections 256B.092 and 256B.49. "Banding period" means the time period beginning on January 1, 2014, and ending upon the expiration of the 12-month period defined in paragraph (c), clause (5).

(b) For purposes of this subdivision, the historical rate for all service recipients means the individual reimbursement rate for a recipient in effect on December 1, 2013, except that:

(1) for a day service recipient who was not authorized to receive these waiver services prior to January 1, 2014; added a new service or services on or after January 1, 2014; or changed providers on or after January 1, 2014, the historical rate must be the weighted average authorized rate for the provider number in the county of service, effective December 1, 2013; or

(2) for a unit-based service with programming or a unit-based service without programming recipient who was not authorized to receive these waiver services prior to January 1, 2014; added a new service or services on or after January 1, 2014; or changed providers on or after January 1, 2014, the historical rate must be the weighted average authorized rate for each provider number in the county of service, effective December 1, 2013; or

(3) for residential service recipients who change providers on or after January 1, 2014, the historical rate must be set by each lead agency within their county aggregate budget using their respective methodology for residential services effective December 1, 2013, for determining the provider rate for a similarly situated recipient being served by that provider.

(c) The commissioner shall adjust individual reimbursement rates determined under this section so that the unit rate is no higher or lower than:

(1) 0.5 percent from the historical rate for the implementation period;

(2) 0.5 percent from the rate in effect in clause (1), for the 12-month period immediately following the time period of clause (1);

(3) 0.5 percent from the rate in effect in clause (2), for the 12-month period immediately following the time period of clause (2);

(4) 1.0 percent from the rate in effect in clause (3), for the 12-month period immediately following the time period of clause (3);

(5) 1.0 percent from the rate in effect in clause (4), for the 12-month period immediately following the time period of clause (4);

APPENDIX  
Repealed Minnesota Statutes: H2414-1

(6) no adjustment to the rate in effect in clause (5) for the 12-month period immediately following the time period of clause (5). During this banding rate period, the commissioner shall not enforce any rate decrease or increase that would otherwise result from the end of the banding period. The commissioner shall, upon enactment, seek federal approval for the addition of this banding period; and

(7) one percent from the rate in effect in clause (6) for the 12-month period immediately following the time period of clause (6).

(d) The commissioner shall review all changes to rates that were in effect on December 1, 2013, to verify that the rates in effect produce the equivalent level of spending and service unit utilization on an annual basis as those in effect on October 31, 2013.

(e) By December 31, 2014, the commissioner shall complete the review in paragraph (d), adjust rates to provide equivalent annual spending, and make appropriate adjustments.

(f) During the banding period, the Medicaid Management Information System (MMIS) service agreement rate must be adjusted to account for change in an individual's need. The commissioner shall adjust the Medicaid Management Information System (MMIS) service agreement rate by:

(1) calculating a service rate under section 256B.4914, subdivision 6, 7, 8, or 9, for the individual with variables reflecting the level of service in effect on December 1, 2013;

(2) calculating a service rate under section 256B.4914, subdivision 6, 7, 8, or 9, for the individual with variables reflecting the updated level of service at the time of application; and

(3) adding to or subtracting from the Medicaid Management Information System (MMIS) service agreement rate, the difference between the values in clauses (1) and (2).

(g) This subdivision must not apply to rates for recipients served by providers new to a given county after January 1, 2014. Providers of personal supports services who also acted as fiscal support entities must be treated as new providers as of January 1, 2014.

**Subd. 6. Implementation.** (a) The commissioner shall implement changes on January 1, 2014, to payment rates for individuals receiving home and community-based waived services after the enactment of legislation that establishes specific payment methodology frameworks, processes for rate calculations, and specific values to populate the disability waiver rates system.

(b) On January 1, 2014, all new service authorizations must use the disability waiver rates system. Beginning January 1, 2014, all renewing individual service plans must use the disability waiver rates system as reassessment and reauthorization occurs. By December 31, 2014, data for all recipients must be entered into the disability waiver rates system.

**Subd. 7. New services.** A service added to section 256B.4914 after January 1, 2014, is not subject to rate stabilization adjustment in this section.

**256L.11 PROVIDER PAYMENT.**

**Subd. 2a. Payment rates; services for families and children under the MinnesotaCare health care reform waiver.** Subdivision 2 shall not apply to services provided to families with children who are eligible according to section 256L.04, subdivision 1, paragraph (a).

**Subd. 6a. Dental providers.** Effective for dental services provided to MinnesotaCare enrollees on or after January 1, 2018, the commissioner shall increase payment rates to dental providers by 54 percent. Payments made to prepaid health plans under section 256L.12 shall reflect the payment increase described in this subdivision. The prepaid health plans under contract with the commissioner shall provide payments to dental providers that are at least equal to a rate that includes the payment rate specified in this subdivision, and if applicable to the provider, the rates described under subdivision 7.

**256R.36 HOLD HARMLESS.**

No nursing facility's operating payment rate, plus its employer health insurance costs portion of the external fixed costs payment rate, will be less than its prior system operating cost payment rate.

**256R.40 NURSING FACILITY VOLUNTARY CLOSURE; ALTERNATIVES.**

**Subdivision 1. Definitions.** (a) The definitions in this subdivision apply to this section.

APPENDIX  
Repealed Minnesota Statutes: H2414-1

(b) "Closure" means the cessation of operations of a nursing facility and delicensure and decertification of all beds within the facility.

(c) "Closure plan" means a plan to close a nursing facility and reallocate a portion of the resulting savings to provide planned closure rate adjustments at other facilities.

(d) "Commencement of closure" means the date on which residents and designated representatives are notified of a planned closure as provided in section 144A.161, subdivision 5a, as part of an approved closure plan.

(e) "Completion of closure" means the date on which the final resident of the nursing facility designated for closure in an approved closure plan is discharged from the facility or the date that beds from a partial closure are delicensed and decertified.

(f) "Partial closure" means the delicensure and decertification of a portion of the beds within the facility.

(g) "Planned closure rate adjustment" means an increase in a nursing facility's operating rates resulting from a planned closure or a planned partial closure of another facility.

Subd. 2. **Applications for planned closure rate.** (a) To be considered for approval of a planned closure, an application must include:

(1) a description of the proposed closure plan, which must include identification of the facility or facilities to receive a planned closure rate adjustment;

(2) the proposed timetable for any proposed closure, including the proposed dates for announcement to residents, commencement of closure, and completion of closure;

(3) if available, the proposed relocation plan for current residents of any facility designated for closure. If a relocation plan is not available, the application must include a statement agreeing to develop a relocation plan designed to comply with section 144A.161;

(4) a description of the relationship between the nursing facility that is proposed for closure and the nursing facility or facilities proposed to receive the planned closure rate adjustment. If these facilities are not under common ownership, copies of any contracts, purchase agreements, or other documents establishing a relationship or proposed relationship must be provided; and

(5) documentation, in a format approved by the commissioner, that all the nursing facilities receiving a planned closure rate adjustment under the plan have accepted joint and several liability for recovery of overpayments under section 256B.0641, subdivision 2, for the facilities designated for closure under the plan.

(b) The application must also address the criteria listed in subdivision 3.

Subd. 3. **Criteria for review of application.** In reviewing and approving closure proposals, the commissioner shall consider, but not be limited to, the following criteria:

(1) improved quality of care and quality of life for consumers;

(2) closure of a nursing facility that has a poor physical plant;

(3) the existence of excess nursing facility beds, measured in terms of beds per thousand persons aged 85 or older. The excess must be measured in reference to:

(i) the county in which the facility is located. A facility in a county that is in the lowest quartile of counties with reference to beds per thousand persons aged 85 or older is not in an area of excess capacity;

(ii) the county and all contiguous counties;

(iii) the region in which the facility is located; or

(iv) the facility's service area. The facility shall indicate in its application the service area it believes is appropriate for this measurement;

(4) low-occupancy rates, provided that the unoccupied beds are not the result of a personnel shortage. In analyzing occupancy rates, the commissioner shall examine waiting lists in the applicant facility and at facilities in the surrounding area, as determined under clause (3);

(5) evidence of coordination between the community planning process and the facility application. If the planning group does not support a level of nursing facility closures that the commissioner

APPENDIX  
Repealed Minnesota Statutes: H2414-1

considers to be reasonable, the commissioner may approve a planned closure proposal without its support;

(6) proposed usage of funds available from a planned closure rate adjustment for care-related purposes;

(7) innovative use planned for the closed facility's physical plant;

(8) evidence that the proposal serves the interests of the state; and

(9) evidence of other factors that affect the viability of the facility, including excessive nursing pool costs.

**Subd. 4. Review and approval of applications.** (a) The commissioner, in consultation with the commissioner of health, shall approve or deny an application within 30 days after receiving it. The commissioner may appoint an advisory review panel composed of representatives of counties, consumers, and providers to review proposals and provide comments and recommendations to the committee. The commissioners of human services and health shall provide staff and technical assistance to the committee for the review and analysis of proposals.

(b) Approval of a planned closure expires 18 months after approval by the commissioner unless commencement of closure has begun.

(c) The commissioner may change any provision of the application to which the applicant, the regional planning group, and the commissioner agree.

**Subd. 5. Planned closure rate adjustment.** (a) The commissioner shall calculate the amount of the planned closure rate adjustment available under subdivision 6 according to clauses (1) to (4):

(1) the amount available is the net reduction of nursing facility beds multiplied by \$2,080;

(2) the total number of beds in the nursing facility or facilities receiving the planned closure rate adjustment must be identified;

(3) capacity days are determined by multiplying the number determined under clause (2) by 365; and

(4) the planned closure rate adjustment is the amount available in clause (1), divided by capacity days determined under clause (3).

(b) A planned closure rate adjustment under this section is effective on the first day of the month of January or July, whichever occurs immediately following completion of closure of the facility designated for closure in the application and becomes part of the nursing facility's external fixed payment rate.

(c) Upon the request of a closing facility, the commissioner must allow the facility a closure rate adjustment as provided under section 144A.161, subdivision 10.

(d) A facility that has received a planned closure rate adjustment may reassign it to another facility that is under the same ownership at any time within three years of its effective date. The amount of the adjustment is computed according to paragraph (a).

(e) If the per bed dollar amount specified in paragraph (a), clause (1), is increased, the commissioner shall recalculate planned closure rate adjustments for facilities that delicense beds under this section on or after July 1, 2001, to reflect the increase in the per bed dollar amount. The recalculated planned closure rate adjustment is effective from the date the per bed dollar amount is increased.

**Subd. 6. Assignment of closure rate to another facility.** A facility or facilities reimbursed under this chapter with a closure plan approved by the commissioner under subdivision 4 may assign a planned closure rate adjustment to another facility or facilities that are not closing or in the case of a partial closure, to the facility undertaking the partial closure. A facility may also elect to have a planned closure rate adjustment shared equally by the five nursing facilities with the lowest total operating payment rates in the state development region designated under section 462.385, in which the facility that is closing is located. The planned closure rate adjustment must be calculated under subdivision 5. Facilities that delicense beds without a closure plan, or whose closure plan is not approved by the commissioner, are not eligible to assign a planned closure rate adjustment under subdivision 5, unless they: (1) are delicensing five or fewer beds, or less than six percent of their total licensed bed capacity, whichever is greater; (2) are located in a county in the top three quartiles of beds per 1,000 persons aged 65 or older; and (3) have not delicensed beds in

APPENDIX  
Repealed Minnesota Statutes: H2414-1

the prior three months. Facilities meeting these criteria are eligible to assign the amount calculated under subdivision 5 to themselves. If a facility is delicensing the greater of six or more beds, or six percent or more of its total licensed bed capacity, and does not have an approved closure plan or is not eligible for the adjustment under subdivision 5, the commissioner shall calculate the amount the facility would have been eligible to assign under subdivision 5, and shall use this amount to provide equal rate adjustments to the five nursing facilities with the lowest total operating payment rates in the state development region designated under section 462.385, in which the facility that delicensed beds is located.

Subd. 7. **Other rate adjustments.** Facilities receiving planned closure rate adjustments remain eligible for any applicable rate adjustments provided under this chapter.

**256R.41 SINGLE-BED ROOM INCENTIVE.**

(a) Beginning July 1, 2005, the operating payment rate for nursing facilities reimbursed under this chapter shall be increased by 20 percent multiplied by the ratio of the number of new single-bed rooms created divided by the number of active beds on July 1, 2005, for each bed closure that results in the creation of a single-bed room after July 1, 2005. The commissioner may implement rate adjustments for up to 3,000 new single-bed rooms each year. For eligible bed closures for which the commissioner receives a notice from a facility that a bed has been delicensed and a new single-bed room has been established, the rate adjustment in this paragraph shall be effective on either the first day of the month of January or July, whichever occurs first following the date of the bed delicensure.

(b) A nursing facility is prohibited from discharging residents for purposes of establishing single-bed rooms. A nursing facility must submit documentation to the commissioner in a form prescribed by the commissioner, certifying the occupancy status of beds closed to create single-bed rooms. In the event that the commissioner determines that a facility has discharged a resident for purposes of establishing a single-bed room, the commissioner shall not provide a rate adjustment under paragraph (a).

If the federal government does not approve the waiver amendment, the commissioner shall continue to pay the lease for the building out of the state-operated services budget until the commissioner of administration subleases the space or until the lease expires, and shall establish the psychiatric intensive therapeutic foster home at a different site. The commissioner shall make diligent efforts to sublease the space;

Any revenue generated in excess of this amount shall be deposited into the special revenue fund under Minnesota Statutes, section 246.18, subdivision 8.

(b) The commissioner shall not move beds from the Anoka-Metro Regional Treatment Center to the psychiatric nursing facility at St. Peter without specific legislative approval.

(4) when the child's current mental health condition does not meet criteria of the child's current diagnosis.

D. For an adult, a new standard diagnostic assessment or extended diagnostic assessment must be completed:

(1) when the adult does not meet the criteria for a brief diagnostic assessment or an adult diagnostic assessment update;

(2) at least every three years following the initial diagnostic assessment for an adult who receives mental health services;

(3) when the adult's mental health condition has changed markedly since the adult's most recent diagnostic assessment; or

(4) when the adult's current mental health condition does not meet criteria of the current diagnosis.

E. An adult diagnostic assessment update must be completed at least annually unless a new standard or extended diagnostic assessment is performed. An adult diagnostic assessment update must include an update of the most recent standard or extended diagnostic

assessment and any recent adult diagnostic assessment updates that have occurred since the last standard or extended diagnostic assessment.

Subp. 3. **Authorization for mental health services.** Mental health services under this part are subject to authorization criteria and standards published by the commissioner according to Minnesota Statutes, section 256B.0625, subdivision 25.

Subp. 4. **Clinical supervision.**

A. Clinical supervision must be based on each supervisee's written supervision plan and must:

- (1) promote professional knowledge, skills, and values development;
- (2) model ethical standards of practice;
- (3) promote cultural competency by:

(a) developing the supervisee's knowledge of cultural norms of behavior for individual clients and generally for the clients served by the supervisee regarding the client's cultural influences, age, class, gender, sexual orientation, literacy, and mental or physical disability;

(b) addressing how the supervisor's and supervisee's own cultures and privileges affect service delivery;

(c) developing the supervisee's ability to assess their own cultural competence and to identify when consultation or referral of the client to another provider is needed; and

(d) emphasizing the supervisee's commitment to maintaining cultural competence as an ongoing process;

(4) recognize that the client's family has knowledge about the client and will continue to play a role in the client's life and encourage participation among the client, client's family, and providers as treatment is planned and implemented; and

(5) monitor, evaluate, and document the supervisee's performance of assessment, treatment planning, and service delivery.

B. Clinical supervision must be conducted by a qualified supervisor using individual or group supervision. Individual or group face-to-face supervision may be conducted via electronic communications that utilize interactive telecommunications equipment that includes at a minimum audio and video equipment for two-way, real-time, interactive communication between the supervisor and supervisee, and meet the equipment and connection standards of part 9505.0370, subpart 19.

(1) Individual supervision means one or more designated clinical supervisors and one supervisee.

(2) Group supervision means one clinical supervisor and two to six supervisees in face-to-face supervision.

(1) the name and qualifications of the supervisee and the name of the agency in which the supervisee is being supervised;

(2) the name, licensure, and qualifications of the supervisor;

(3) the number of hours of individual and group supervision to be completed by the supervisee including whether supervision will be in person or by some other method approved by the commissioner;

APPENDIX  
Repealed Minnesota Rules: H2414-1

(4) the policy and method that the supervisee must use to contact the clinical supervisor during service provision to a supervisee;

and

(6) authorized scope of practices, including:

(a) description of the supervisee's service responsibilities;

(b) description of client population; and

D. Clinical supervision must be recorded in the supervisee's supervision record. The documentation must include:

(1) date and duration of supervision;

(2) identification of supervision type as individual or group supervision;

(3) name of the clinical supervisor;

(4) subsequent actions that the supervisee must take; and

(5) date and signature of the clinical supervisor.

E. Clinical supervision pertinent to client treatment changes must be recorded by a case notation in the client record after supervision occurs.

Subp. 6. **Release of information.** Providers who receive a request for client information and providers who request client information must:

A. comply with data practices and medical records standards in Minnesota Statutes, chapter 13, and Code of Federal Regulations, title 45, part 164; and

Subp. 7. **Individual treatment plan.** Except as provided in subpart 2, item A, subitem (1), a medical assistance payment is available only for services provided in accordance with the client's written individual treatment plan (ITP). The client must be involved in the development, review, and revision of the client's ITP. For all mental health services, except

APPENDIX  
Repealed Minnesota Rules: H2414-1

as provided in subpart 2, item A, subitem (1), and medication management, the ITP and subsequent revisions of the ITP must be signed by the client before treatment begins. The mental health professional or practitioner shall request the client, or other person authorized by statute to consent to mental health services for the client, to sign the client's ITP or revision of the ITP. In the case of a child, the child's parent, primary caregiver, or other person authorized by statute to consent to mental health services for the child shall be asked to sign the child's ITP and revisions of the ITP. If the client or authorized person refuses to sign the plan or a revision of the plan, the mental health professional or mental health practitioner shall note on the plan the refusal to sign the plan and the reason or reasons for the refusal. A client's individual treatment plan must be:

A. based on the client's current diagnostic assessment;

B. developed by identifying the client's service needs and considering relevant cultural influences to identify planned interventions that contain specific treatment goals and measurable objectives for the client; and

C. reviewed at least once every 90 days, and revised as necessary. Revisions to the initial individual treatment plan do not require a new diagnostic assessment unless the client's mental health status has changed markedly as provided in subpart 2.

Subp. 8. **Documentation.** To obtain medical assistance payment for an outpatient mental health service, a mental health professional or a mental health practitioner must promptly document:

A. in the client's mental health record:

(1) each occurrence of service to the client including the date, type of service, start and stop time, scope of the mental health service, name and title of the person who gave the service, and date of documentation; and

(2) all diagnostic assessments and other assessments, psychological test results, treatment plans, and treatment plan reviews;

B. the provider's contact with persons interested in the client such as representatives of the courts, corrections systems, or schools, or the client's other mental health providers, case manager, family, primary caregiver, legal representative, including the name and date of the contact or, if applicable, the reason the client's family, primary caregiver, or legal representative was not contacted; and

C. dates that treatment begins and ends and reason for the discontinuation of the mental health service.

Subp. 9. **Service coordination.** The provider must coordinate client services as authorized by the client as follows:

A. When a recipient receives mental health services from more than one mental health provider, each provider must coordinate mental health services they provide to the client with other mental health service providers to ensure services are provided in the most efficient manner to achieve maximum benefit for the client.

B. The mental health provider must coordinate mental health care with the client's physical health provider.

Subp. 10. **Telemedicine services.** Mental health services in part 9505.0372 covered as direct face-to-face services may be provided via two-way interactive video if it is medically appropriate to the client's condition and needs. The interactive video equipment and connection must comply with Medicare standards that are in effect at the time of service. The commissioner may specify parameters within which mental health services can be provided via telemedicine.

**9505.0372 COVERED SERVICES.**

Subpart 1. **Diagnostic assessment.** Medical assistance covers four types of diagnostic assessments when they are provided in accordance with the requirements in this subpart.

A. To be eligible for medical assistance payment, a diagnostic assessment must:

(1) identify a mental health diagnosis and recommended mental health services, which are the factual basis to develop the recipient's mental health services and treatment plan; or

(2) include a finding that the client does not meet the criteria for a mental health disorder.

B. A standard diagnostic assessment must include a face-to-face interview with the client and contain a written evaluation of a client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C. The standard diagnostic assessment must be done within the cultural context of the client and must include relevant information about:

(1) the client's current life situation, including the client's:

(a) age;

(b) current living situation, including household membership and housing status;

(c) basic needs status including economic status;

(d) education level and employment status;

(e) significant personal relationships, including the client's evaluation of relationship quality;

(f) strengths and resources, including the extent and quality of social networks;

(g) belief systems;

(h) contextual nonpersonal factors contributing to the client's presenting concerns;

(i) general physical health and relationship to client's culture; and

(j) current medications;

(2) the reason for the assessment, including the client's:

(a) perceptions of the client's condition;

(b) description of symptoms, including reason for referral;

(c) history of mental health treatment, including review of the client's records;

(d) important developmental incidents;

(e) maltreatment, trauma, or abuse issues;

(f) history of alcohol and drug usage and treatment;

(g) health history and family health history, including physical, chemical, and mental health history; and

(h) cultural influences and their impact on the client;

(3) the client's mental status examination;

APPENDIX  
Repealed Minnesota Rules: H2414-1

(4) the assessment of client's needs based on the client's baseline measurements, symptoms, behavior, skills, abilities, resources, vulnerabilities, and safety needs;

(5) the screenings used to determine the client's substance use, abuse, or dependency and other standardized screening instruments determined by the commissioner;

(6) assessment methods and use of standardized assessment tools by the provider as determined and periodically updated by the commissioner;

(7) the client's clinical summary, recommendations, and prioritization of needed mental health, ancillary or other services, client and family participation in assessment and service preferences, and referrals to services required by statute or rule; and

(8) the client data that is adequate to support the findings on all axes of the current edition of the Diagnostic and Statistical Manual of Mental Disorders, published by the American Psychiatric Association; and any differential diagnosis.

C. An extended diagnostic assessment must include a face-to-face interview with the client and contain a written evaluation of a client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C. The face-to-face interview is conducted over three or more assessment appointments because the client's complex needs necessitate significant additional assessment time. Complex needs are those caused by acuity of psychotic disorder; cognitive or neurocognitive impairment; need to consider past diagnoses and determine their current applicability; co-occurring substance abuse use disorder; or disruptive or changing environments, communication barriers, or cultural considerations as documented in the assessment. For child clients, the appointments may be conducted outside the diagnostician's office for face-to-face consultation and information gathering with family members, doctors, caregivers, teachers, and other providers, with or without the child present, and may involve directly observing the child in various settings that the child frequents such as home, school, or care settings. To complete the diagnostic assessment with adult clients, the appointments may be conducted outside of the diagnostician's office for face-to-face assessment with the adult client. The appointment may involve directly observing the adult client in various settings that the adult frequents, such as home, school, job, service settings, or community settings. The appointments may include face-to-face meetings with the adult client and the client's family members, doctors, caregivers, teachers, social support network members, recovery support resource representatives, and other providers for consultation and information gathering for the diagnostic assessment. The components of an extended diagnostic assessment include the following relevant information:

(1) for children under age 5:

(a) utilization of the DC:0-3R diagnostic system for young children;

(b) an early childhood mental status exam that assesses the client's developmental, social, and emotional functioning and style both within the family and with the examiner and includes:

- i. physical appearance including dysmorphic features;
- ii. reaction to new setting and people and adaptation during evaluation;
- iii. self-regulation, including sensory regulation, unusual behaviors, activity level, attention span, and frustration tolerance;
- iv. physical aspects, including motor function, muscle tone, coordination, tics, abnormal movements, and seizure activity;
- v. vocalization and speech production, including expressive and receptive language;

APPENDIX  
Repealed Minnesota Rules: H2414-1

- vi. thought, including fears, nightmares, dissociative states, and hallucinations;
  - vii. affect and mood, including modes of expression, range, responsiveness, duration, and intensity;
  - viii. play, including structure, content, symbolic functioning, and modulation of aggression;
  - ix. cognitive functioning; and
  - x. relatedness to parents, other caregivers, and examiner; and
- (c) other assessment tools as determined and periodically revised by the commissioner;
- (2) for children ages 5 to 18, completion of other assessment standards for children as determined and periodically revised by the commissioner; and
- (3) for adults, completion of other assessment standards for adults as determined and periodically revised by the commissioner.

D. A brief diagnostic assessment must include a face-to-face interview with the client and a written evaluation of the client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C. The professional or practitioner must gather initial background information using the components of a standard diagnostic assessment in item B, subitems (1), (2), unit (b), (3), and (5), and draw a provisional clinical hypothesis. The clinical hypothesis may be used to address the client's immediate needs or presenting problem. Treatment sessions conducted under authorization of a brief assessment may be used to gather additional information necessary to complete a standard diagnostic assessment or an extended diagnostic assessment.

E. Adult diagnostic assessment update includes a face-to-face interview with the client, and contains a written evaluation of the client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C, who reviews a standard or extended diagnostic assessment. The adult diagnostic assessment update must update the most recent assessment document in writing in the following areas:

- (1) review of the client's life situation, including an interview with the client about the client's current life situation, and a written update of those parts where significant new or changed information exists, and documentation where there has not been significant change;
- (2) review of the client's presenting problems, including an interview with the client about current presenting problems and a written update of those parts where there is significant new or changed information, and note parts where there has not been significant change;
- (3) screenings for substance use, abuse, or dependency and other screenings as determined by the commissioner;
- (4) the client's mental health status examination;
- (5) assessment of client's needs based on the client's baseline measurements, symptoms, behavior, skills, abilities, resources, vulnerabilities, and safety needs;
- (6) the client's clinical summary, recommendations, and prioritization of needed mental health, ancillary, or other services, client and family participation in assessment and service preferences, and referrals to services required by statute or rule; and
- (7) the client's diagnosis on all axes of the current edition of the Diagnostic and Statistical Manual and any differential diagnosis.

Subp. 2. **Neuropsychological assessment.** A neuropsychological assessment must include a face-to-face interview with the client, the interpretation of the test results, and preparation and completion of a report. A client is eligible for a neuropsychological assessment if at least one of the following criteria is met:

A. There is a known or strongly suspected brain disorder based on medical history or neurological evaluation such as a history of significant head trauma, brain tumor, stroke, seizure disorder, multiple sclerosis, neurodegenerative disorders, significant exposure to neurotoxins, central nervous system infections, metabolic or toxic encephalopathy, fetal alcohol syndrome, or congenital malformations of the brain; or

B. In the absence of a medically verified brain disorder based on medical history or neurological evaluation, there are cognitive or behavioral symptoms that suggest that the client has an organic condition that cannot be readily attributed to functional psychopathology, or suspected neuropsychological impairment in addition to functional psychopathology. Examples include:

- (1) poor memory or impaired problem solving;
- (2) change in mental status evidenced by lethargy, confusion, or disorientation;
- (3) deterioration in level of functioning;
- (4) marked behavioral or personality change;
- (5) in children or adolescents, significant delays in academic skill acquisition or poor attention relative to peers;
- (6) in children or adolescents, significant plateau in expected development of cognitive, social, emotional, or physical function, relative to peers; and
- (7) in children or adolescents, significant inability to develop expected knowledge, skills, or abilities as required to adapt to new or changing cognitive, social, emotional, or physical demands.

C. If neither criterion in item A nor B is fulfilled, neuropsychological evaluation is not indicated.

D. The neuropsychological assessment must be conducted by a neuropsychologist with competence in the area of neuropsychological assessment as stated to the Minnesota Board of Psychology who:

(1) was awarded a diploma by the American Board of Clinical Neuropsychology, the American Board of Professional Neuropsychology, or the American Board of Pediatric Neuropsychology;

(2) earned a doctoral degree in psychology from an accredited university training program:

(a) completed an internship, or its equivalent, in a clinically relevant area of professional psychology;

(b) completed the equivalent of two full-time years of experience and specialized training, at least one which is at the postdoctoral level, in the study and practices of clinical neuropsychology and related neurosciences supervised by a clinical neuropsychologist; and

(c) holds a current license to practice psychology independently in accordance with Minnesota Statutes, sections 148.88 to 148.98;

(3) is licensed or credentialed by another state's board of psychology examiners in the specialty of neuropsychology using requirements equivalent to requirements specified by one of the boards named in subitem (1); or

(4) was approved by the commissioner as an eligible provider of neuropsychological assessment prior to December 31, 2010.

**Subp. 3. Neuropsychological testing.**

A. Medical assistance covers neuropsychological testing when the client has either:

(1) a significant mental status change that is not a result of a metabolic disorder that has failed to respond to treatment;

(2) in children or adolescents, a significant plateau in expected development of cognitive, social, emotional, or physical function, relative to peers;

(3) in children or adolescents, significant inability to develop expected knowledge, skills, or abilities, as required to adapt to new or changing cognitive, social, physical, or emotional demands; or

(4) a significant behavioral change, memory loss, or suspected neuropsychological impairment in addition to functional psychopathology, or other organic brain injury or one of the following:

(a) traumatic brain injury;

(b) stroke;

(c) brain tumor;

(d) substance abuse or dependence;

(e) cerebral anoxic or hypoxic episode;

(f) central nervous system infection or other infectious disease;

(g) neoplasms or vascular injury of the central nervous system;

(h) neurodegenerative disorders;

(i) demyelinating disease;

(j) extrapyramidal disease;

(k) exposure to systemic or intrathecal agents or cranial radiation known to be associated with cerebral dysfunction;

(l) systemic medical conditions known to be associated with cerebral dysfunction, including renal disease, hepatic encephalopathy, cardiac anomaly, sickle cell disease, and related hematologic anomalies, and autoimmune disorders such as lupus, erythematosis, or celiac disease;

(m) congenital genetic or metabolic disorders known to be associated with cerebral dysfunction, such as phenylketonuria, craniofacial syndromes, or congenital hydrocephalus;

(n) severe or prolonged nutrition or malabsorption syndromes; or

(o) a condition presenting in a manner making it difficult for a clinician to distinguish between:

i. the neurocognitive effects of a neurogenic syndrome such as dementia or encephalopathy; and

ii. a major depressive disorder when adequate treatment for major depressive disorder has not resulted in improvement in neurocognitive function, or another disorder such as autism, selective mutism, anxiety disorder, or reactive attachment disorder.

B. Neuropsychological testing must be administered or clinically supervised by a neuropsychologist qualified as defined in subpart 2, item D.

C. Neuropsychological testing is not covered when performed:

- (1) primarily for educational purposes;
- (2) primarily for vocational counseling or training;
- (3) for personnel or employment testing;
- (4) as a routine battery of psychological tests given at inpatient admission or continued stay; or
- (5) for legal or forensic purposes.

Subp. 4. **Psychological testing.** Psychological testing must meet the following requirements:

A. The psychological testing must:

- (1) be administered or clinically supervised by a licensed psychologist with competence in the area of psychological testing as stated to the Minnesota Board of Psychology; and
- (2) be validated in a face-to-face interview between the client and a licensed psychologist or a mental health practitioner working as a clinical psychology trainee as required by part 9505.0371, subpart 5, item C, under the clinical supervision of a licensed psychologist according to part 9505.0371, subpart 5, item A, subitem (2).

B. The administration, scoring, and interpretation of the psychological tests must be done under the clinical supervision of a licensed psychologist when performed by a technician, psychometrist, or psychological assistant or as part of a computer-assisted psychological testing program.

C. The report resulting from the psychological testing must be:

- (1) signed by the psychologist conducting the face-to-face interview;
- (2) placed in the client's record; and
- (3) released to each person authorized by the client.

Subp. 5. **Explanations of findings.** To be eligible for medical assistance payment, the mental health professional providing the explanation of findings must obtain the authorization of the client or the client's representative to release the information as required in part 9505.0371, subpart 6. Explanation of findings is provided to the client, client's family, and caregivers, or to other providers to help them understand the results of the testing or diagnostic assessment, better understand the client's illness, and provide professional insight needed to carry out a plan of treatment. An explanation of findings is not paid separately when the results of psychological testing or a diagnostic assessment are explained to the client or the client's representative as part of the psychological testing or a diagnostic assessment.

Subp. 6. **Psychotherapy.** Medical assistance covers psychotherapy as conducted by a mental health professional or a mental health practitioner as defined in part 9505.0371, subpart 5, item C, as provided in this subpart.

A. Individual psychotherapy is psychotherapy designed for one client.

B. Family psychotherapy is designed for the client and one or more family members or the client's primary caregiver whose participation is necessary to accomplish the client's treatment goals. Family members or primary caregivers participating in a therapy session do not need to be eligible for medical assistance. For purposes of this subpart, the phrase "whose participation is necessary to accomplish the client's treatment goals" does not include shift or facility staff members at the client's residence. Medical assistance payment for family psychotherapy is limited to face-to-face sessions at which the client is present throughout the family psychotherapy session unless the mental health professional believes

the client's absence from the family psychotherapy session is necessary to carry out the client's individual treatment plan. If the client is excluded, the mental health professional must document the reason for and the length of time of the exclusion. The mental health professional must also document the reason or reasons why a member of the client's family is excluded.

C. Group psychotherapy is appropriate for individuals who because of the nature of their emotional, behavioral, or social dysfunctions can derive mutual benefit from treatment in a group setting. For a group of three to eight persons, one mental health professional or practitioner is required to conduct the group. For a group of nine to 12 persons, a team of at least two mental health professionals or two mental health practitioners or one mental health professional and one mental health practitioner is required to co-conduct the group. Medical assistance payment is limited to a group of no more than 12 persons.

D. A multiple-family group psychotherapy session is eligible for medical assistance payment if the psychotherapy session is designed for at least two but not more than five families. Multiple-family group psychotherapy is clearly directed toward meeting the identified treatment needs of each client as indicated in client's treatment plan. If the client is excluded, the mental health professional or practitioner must document the reason for and the length of the time of the exclusion. The mental health professional or practitioner must document the reasons why a member of the client's family is excluded.

Subp. 7. **Medication management.** The determination or evaluation of the effectiveness of a client's prescribed drug must be carried out by a physician or by an advanced practice registered nurse, as defined in Minnesota Statutes, sections 148.171 to 148.285, who is qualified in psychiatric nursing.

Subp. 8. **Adult day treatment.** Adult day treatment payment limitations include the following conditions.

A. Adult day treatment must consist of at least one hour of group psychotherapy, and must include group time focused on rehabilitative interventions, or other therapeutic services that are provided by a multidisciplinary staff. Adult day treatment is an intensive psychotherapeutic treatment. The services must stabilize the client's mental health status, and develop and improve the client's independent living and socialization skills. The goal of adult day treatment is to reduce or relieve the effects of mental illness so that an individual is able to benefit from a lower level of care and to enable the client to live and function more independently in the community. Day treatment services are not a part of inpatient or residential treatment services.

(2) The average historical cost per bed for depreciable equipment is computed by adding the historical cost of depreciable equipment for each nursing facility as determined in subpart 10, item A, and dividing the sum by the total number of licensed beds in those nursing facilities. The amount is then subtracted from the replacement cost new per bed limits determined in subitem (1).

(3) The differences computed in subitem (2) are the replacement cost new per bed limits for licensed beds in single bedrooms and multiple bedrooms effective for the rate year beginning on July 1, 1985.

(4) On January 1, 1986, and each succeeding January 1, the commissioner shall adjust the limit in subitem (3) by the percentage change in the composite cost of

APPENDIX  
Repealed Minnesota Rules: H2414-1

construction index published by the Bureau of Economic Analysis of the United States Department of Commerce in the Survey of Current Business Statistics for the two previous Octobers.

B. Each nursing facility's maximum allowable replacement cost new is determined annually according to subitems (1) to (3):

(1) The multiple bedroom replacement cost new per bed limit in item A must be multiplied by the number of licensed beds in multiple bedrooms.

(2) The single bedroom replacement cost new per bed limit in item A must be multiplied by the number of licensed beds in single bedrooms except as provided in subpart 11, item C, subitem (2).

(3) The nursing facility's maximum allowable replacement cost new is the sum of subitems (1) and (2).

C. The nursing facility's replacement cost new determined in subparts 1 to 3 must be reduced by the replacement cost new of portions of the nursing facility used for functions whose costs are disallowed under parts 9549.0010 to 9549.0080.

D. The adjusted replacement cost new is the lesser of item B or C.

E. The adjusted depreciation is determined by subtracting from the depreciation in subparts 1 to 3 the amount of depreciation, if any, related to the portion of the nursing facility's replacement cost new disallowed in item C or D.

F. The nursing facility's allowable appraised value is determined by subtracting the amount determined in item E from the amount in item D. If no adjustment to the replacement cost new is required in items C and D, then the nursing facility's allowable appraised value is the appraised value determined in subparts 1 to 3.

Subp. 5. **Allowable debt.** For purposes of determining the property-related payment rate, the commissioner shall allow or disallow debt according to items A to D.

A. Debt shall be limited as follows:

(1) Debt incurred for the purchase of land directly used for resident care and the purchase or construction of nursing facility buildings, attached fixtures, or land improvements or the capitalized replacement or capitalized repair of existing buildings, attached fixtures, or land improvements shall be allowed. Debt incurred for any other purpose shall not be allowed.

(2) Working capital debt shall not be allowed.

(3) An increase in the amount of a debt as a result of refinancing of capital assets which occurs after May 22, 1983, shall not be allowed except to the extent that the increase in debt is the result of refinancing costs such as points, loan origination fees, or title searches.

(4) An increase in the amount of total outstanding debt incurred after May 22, 1983, as a result of a change in ownership or reorganization of provider entities, shall not be allowed and the previous owner's allowable debt as of May 22, 1983, shall be allowed under item B.

(5) Any portion of the total allowable debt exceeding the appraised value as determined in subpart 4 shall not be allowed.

(6) Any portion of a debt of which the proceeds exceed the historical cost of the capital asset acquired shall not be allowed.

B. The nursing facility shall apportion debts incurred before October 1, 1984, among land and buildings, attached fixtures, land improvements, depreciable equipment and working capital by direct identification. If direct identification of any part of the debt is not possible, that portion of the debt which cannot be directly identified shall be

APPENDIX  
Repealed Minnesota Rules: H2414-1

apportioned to each component, except working capital debt, based on the ratio of the historical cost of the component to the total historical cost of all components. The portion of debt assigned to land and buildings, attached fixtures, and land improvements is allowable debt.

A hospital attached nursing facility that has debts that are not directly identifiable to the hospital or the nursing facility shall allocate the portion of allowable debt computed according to subpart 5, and allowable interest expense computed according to subpart 7 assigned to land and buildings, attached fixtures, and land improvements using the Medicare stepdown method described in subpart 1.

C. For debts incurred after September 30, 1984, the nursing facility shall directly identify the proceeds of the debt associated with specific land and buildings, attached fixtures, and land improvements, and keep records that separate such debt proceeds from all other debt. Only the debt identified with specific land and buildings, attached fixtures, and land improvement shall be allowed.

D. For reporting years ending on or after September 30, 1984, the total amount of allowable debt shall be the sum of all allowable debts at the beginning of the reporting year plus all allowable debts at the end of the reporting year divided by two. Nursing facilities which have a debt with a zero balance at the beginning or end of the reporting year must use a monthly average for the reporting year.

E. Debt incurred as a result of loans between related organizations must not be allowed.

Subp. 6. **Limitations on interest rates.** The commissioner shall limit interest rates according to items A to C.

A. Except as provided in item B, the effective interest rate of each allowable debt, including points, financing charges, and amortization bond premiums or discounts, entered into after September 30, 1984, is limited to the lesser of:

- (1) the effective interest rate on the debt; or
- (2) 16 percent.

B. Variable or adjustable rates for allowable debt are allowed subject to item A. For each allowable debt with a variable or adjustable rate, the effective interest rate must be computed by dividing the interest expense for the reporting year by the average allowable debt computed under subpart 5, item D.

C. For rate years beginning on July 1, 1985, and July 1, 1986, the effective interest rate for debts incurred before October 1, 1984, is allowed if the interest rate is not in excess of what the borrower would have had to pay in an arms length transaction in the market in which the debt was incurred. For rate years beginning after June 30, 1987, the effective interest rate for debts incurred before October 1, 1984, is allowed subject to item A.

Subp. 7. **Allowable interest expense.** The commissioner shall allow or disallow interest expense including points, finance charges, and amortization bond premiums or discounts under items A to G.

A. Interest expense is allowed only on the debt which is allowed under subpart 5 and within the interest rate limits in subpart 6.

B. A nonprofit nursing facility shall use its restricted funds to purchase or replace capital assets to the extent of the cost of those capital assets before it borrows funds for the purchase or replacement of those capital assets. For purposes of this item and part 9549.0035, subpart 2, a restricted fund is a fund for which use is restricted to the purchase or replacement of capital assets by the donor or by the nonprofit nursing facility's board.

C. Construction period interest expense must be capitalized as a part of the cost of the building. The period of construction extends to the earlier of either the first day a

APPENDIX  
Repealed Minnesota Rules: H2414-1

resident is admitted to the nursing facility, or the date the nursing facility is certified to receive medical assistance recipients.

D. Interest expense for allowable debts entered into after May 22, 1983, is allowed for the portion of the debt which together with all outstanding allowable debt does not exceed 100 percent of the most recent allowable appraised value as determined in subparts 1 to 4.

E. Increases in interest expense after May 22, 1983, which are the result of changes in ownership or reorganization of provider entities, are not allowable.

F. Except as provided in item G, increases in total interest expense which are the result of refinancing of debt after May 22, 1983, are not allowed. The total interest expense must be computed as the sum of the annual interest expense over the remaining term of the debt refinanced.

G. Increases in total interest expense which result from refinancing a balloon payment on allowable debt after May 22, 1983, shall be allowed according to subitems (1) to (3).

(1) The interest rate on the refinanced debt shall be limited under subpart 6, item A.

(2) The refinanced debt shall not exceed the balloon payment.

(3) The term of the refinanced debt must not exceed the term of the original debt computed as though the balloon payment did not exist.

Subp. 10. **Equipment allowance.** For rate years beginning after June 30, 1985, the equipment allowance must be computed according to items A to E.

A. The historical cost of depreciable equipment for nursing facilities which do not have costs for operating leases for depreciable equipment in excess of \$10,000 during the reporting year ending September 30, 1984, is determined under subitem (1) or (2).

(1) The total historical cost of depreciable equipment reported on the nursing facility's audited financial statement for the reporting year ending September 30, 1984, must be multiplied by 70 percent. The product is the historical cost of depreciable equipment.

(2) The nursing facility may submit an analysis which classifies the historical cost of each item of depreciable equipment reported on September 30, 1984. The analysis must include an itemized description of each piece of depreciable equipment and its historical cost. The sum of the historical cost of each piece of equipment is the total historical cost of depreciable equipment for that nursing facility.

For purposes of this item, a hospital attached nursing facility shall use the allocation method in subpart 1 to stepdown the historical cost of depreciable equipment.

B. The historical cost per bed of depreciable equipment for each nursing facility must be computed by dividing the total historical cost of depreciable equipment determined in item A by the nursing facility's total number of licensed beds on September 30, 1984.

C. All nursing facilities must be grouped in one of the following:

(1) nursing facilities with total licensed beds of less than 61 beds;

(2) nursing facilities with total licensed beds of more than 60 beds and less than 101 beds; or

(3) nursing facilities with more than 100 total licensed beds.

D. Within each group determined in item C, the historical cost per bed for each nursing facility determined in item B must be ranked and the median historical cost per bed established.

E. The median historical cost per bed for each group in item C as determined in item D must be increased by ten percent. For rate years beginning after June 30, 1986, this

APPENDIX  
Repealed Minnesota Rules: H2414-1

amount shall be adjusted annually by the percentage change indicated by the urban consumer price index for Minneapolis-Saint Paul, as published by the Bureau of Labor Statistics, new series index (1967=100) for the two previous Decembers. This index is incorporated by reference and available at the James J. Hill Reference Library, Saint Paul, Minnesota.

F. The equipment allowance for each group in item C shall be the amount computed in item E multiplied by 15 percent and divided by 350.

Subp. 11. **Capacity days.** The number of capacity days is determined under items A to C.

A. The number of capacity days is determined by multiplying the number of licensed beds in the nursing facility by the number of days in the nursing facility's reporting period.

B. Except as in item C, nursing facilities shall increase the number of capacity days by multiplying the number of licensed single bedrooms by 0.5 and by the number of days in the nursing facility's reporting period.

C. The commissioner shall waive the requirements of item B if a nursing facility agrees in writing to subitems (1) to (3).

(1) The nursing facility shall agree not to request a private room payment in part 9549.0070, subpart 3 for any of its medical assistance residents in licensed single bedrooms.

(2) The nursing facility shall agree not to use the single bedroom replacement cost new limit for any of its licensed single bedrooms in the computation of the allowable appraised value in subpart 4.

(3) The nursing facility shall agree not to charge any private paying resident in a single bedroom a payment rate that exceeds the amount calculated under units (a) to (c).

(a) The nursing facility's average total payment rate shall be determined by multiplying the total payment rate for each case mix resident class by the number of resident days for that class in the nursing facility's reporting year and dividing the sum of the resident class amounts by the total number of resident days in the nursing facility's reporting year.

(b) The nursing facility's maximum single bedroom adjustment must be determined by multiplying its average total payment rate calculated under unit (a) by ten percent.

(c) The nursing facility's single bedroom adjustment which must not exceed the amount computed in unit (b) must be added to each total payment rate established in Minnesota Statutes, sections 256B.431, 256B.434, and 256B.441, to determine the nursing facility's single bedroom payment rates.

Subp. 14. **Determination of interim and settle-up payment rates.** The commissioner shall determine interim and settle-up payment rates according to items A to J.

A. A newly constructed nursing facility, or one with a capacity increase of 50 percent or more, may submit a written application to the commissioner to receive an interim payment rate. The nursing facility shall submit cost reports and other supporting information as required in parts 9549.0010 to 9549.0080 for the reporting year in which the nursing facility plans to begin operation at least 60 days before the first day a resident is admitted to the newly constructed nursing facility bed. The nursing facility shall state the reasons for noncompliance with parts 9549.0010 to 9549.0080. The effective date of the interim payment rate is the earlier of either the first day a resident is admitted to the newly constructed nursing facility or the date the nursing facility bed is certified for medical assistance. The interim payment rate for a newly constructed nursing facility, or a nursing facility with a capacity increase of 50 percent or more, is determined under items B to D.

APPENDIX  
Repealed Minnesota Rules: H2414-1

B. The interim payment rate must not be in effect more than 17 months. When the interim payment rate begins between May 1 and September 30, the nursing facility shall file settle-up cost reports for the period from the beginning of the interim payment rate through September 30 of the following year. When the interim payment rate begins between October 1 and April 30, the nursing facility shall file settle-up cost reports for the period from the beginning of the interim payment rate to the first September 30 following the beginning of the interim payment rate.

C. The interim payment rate for a nursing facility which commenced construction prior to July 1, 1985, is determined by 12 MCAR S 2.05014 [Temporary] except that capital assets must be classified under parts 9549.0010 to 9549.0080.

D. The interim property-related payment rate for a nursing facility which commences construction after June 30, 1985, is determined as follows:

(1) At least 60 days before the first day a resident is admitted to the newly constructed nursing facility bed and upon receipt of written application from the nursing facility, the commissioner shall establish the nursing facility's appraised value according to subparts 1 and 4.

(2) The nursing facility shall project the allowable debt and the allowable interest expense according to subparts 5 and 7.

(3) The interim building capital allowance must be determined under subpart 8 or 9.

(4) The equipment allowance during the interim period must be the equipment allowance computed in accordance with subpart 10 which is in effect on the effective date of the interim property-related payment rate.

(5) The interim property-related payment rate must be the sum of subitems (3) and (4).

(6) Anticipated resident days may be used instead of 96 percent capacity days.

E. The settle-up property-related payment rate and the property-related payment rate for the nine months following the settle up for a nursing facility which commenced construction before July 1, 1985, is determined under 12 MCAR S 2.05014 [Temporary]. The property-related payment rate for the rate year beginning July 1 following the nine month period is determined under part 9549.0060.

F. The settle-up property-related payment rate for a nursing facility which commenced construction after June 30, 1985, shall be established as follows:

(1) The appraised value determined in item D, subitem (1), must be updated in accordance with subpart 2, item B prorated for each rate year, or portion of a rate year, included in the interim payment rate period.

(2) The nursing facility's allowable debt, allowable interest rate, and allowable interest expense for the interim rate period shall be computed in accordance with subparts 5, 6, and 7.

(3) The settle-up building capital allowance shall be determined in accordance with subpart 8 or 9.

(4) The equipment allowance shall be updated in accordance with subpart 10 prorated for each rate year, or portion of a rate year, included in the interim payment rate period.

(5) The settle-up property-related payment rate must be the sum of subitems (3) and (4).

(6) Resident days may be used instead of 96 percent capacity days.

APPENDIX  
Repealed Minnesota Rules: H2414-1

G. The property-related payment rate for the nine months following the settle up for a nursing facility which commenced construction after June 30, 1985, shall be established in accordance with item F except that 96 percent capacity days must be used.

H. The property-related payment rate for the rate year beginning July 1 following the nine month period in item G must be determined under this part.

I. A newly constructed nursing facility or one with a capacity increase of 50 percent or more must continue to receive the interim property-related payment rate until the settle-up property-related payment rate is determined under this subpart.

J. The interim real estate taxes and special assessments payment rate shall be established using the projected real estate taxes and special assessments cost divided by anticipated resident days. The settle-up real estate taxes and special assessments payment rate shall be established using the real estate taxes and special assessments divided by resident days. The real estate and special assessments payment rate for the nine months following the settle up shall be equal to the settle-up real estate taxes and special assessments payment rate.
